MARKET ANNOUNCEMENT

Orion Health Announces Partnership to Deliver the First Health Information Exchange in the Middle East

Auckland, 30 January 2019 – Orion Health (NZX:OHE/ASX:OHE) today announced a commercial agreement with Abu Dhabi Health Data Services to deliver a Health Information Exchange (HIE) platform known as "Malaffi", a first of its kind in the Middle East. This development supports the achievement of Orion Health's previously announced objective of long term, sustainable profitability.

Announced at Arab Health, the largest healthcare conference in the Middle East, "Malaffi" will provide a platform that will centrally store and enable the meaningful exchange of patient health information between healthcare professionals and will ultimately connect 2,000 public and private healthcare providers in Abu Dhabi.

The access to the centralised patient records will provide physicians with a tool to make well informed, fast decisions, enhance patient safety and ultimately improve the quality of care. The highly scalable platform, powered by Orion Health will also have the capability to harness patient and population data, creating insights into the emirate's public health and improving the overall efficiency of Abu Dhabi's health system.

"Orion Health is delighted to be selected as the partner of choice, to deliver UAE's first HIE platform," said Ian McCrae, CEO of Orion Health. "Storing and aggregating vast volumes of different clinical data, and surfacing it in data analytics, will bring Abu Dhabi a step closer to the practice of precision medicine, which is only possible when health providers have a complete picture of a person's health. "Malaffi" will use the most current technology and data analytics, that will improve the efficiency of Abu Dhabi's health systems and the overall delivery of care."

Abu Dhabi Health Data Services is a new project company established as part of the Public Private Partnership (PPP) between the Department of Health - Abu Dhabi and Injazat Data Systems, a subsidiary of the Abu Dhabi government-owned Mubadala Investment Company.
