### New issue announcement

---

- 3 Principal terms of the +securities (e.g. if options, exercise price and expiry date; if partly paid +securities, the amount outstanding and due dates for payment; if +convertible securities, the conversion price and dates for conversion)
- A term of 26 years (matures 15 June 2045), unless earlier converted or redeemed as summarised below;
  - Interest is payable quarterly at a floating rate equal to the 3 months bank bill swap rate (BBSW) plus a margin of 2.35% per annum;
  - IAG may redeem the Subordinated MTNs at face value between years 6 and 7 and at any time for certain tax and regulatory events (in each case subject to APRA's prior written approval);
  - The Subordinated MTNs are convertible into fully paid ordinary shares in IAG (**Ordinary Shares**) at the option of the holders on certain dates from year 9;
  - If APRA determines IAG to be non-viable, the Subordinated MTNs may, and in most cases must, convert into Ordinary Shares or, if conversion does not occur when required, the Subordinated MTNs will be written off;
  - The number of Ordinary Shares received on conversion will be based on a volume-weighted average price (VWAP) over a certain period, less a discount of 1%. The number of Ordinary Shares will be capped at a maximum number set by reference to the VWAP of Ordinary Shares at the issue date (50% of that VWAP for conversion at the holder's option and 20% of that VWAP for conversion on non-viability);
  - IAG has an option to defer payment of interest in certain circumstances; and
  - The Subordinated MTNs qualify as Tier 2 Capital under APRA's capital adequacy framework for general insurers.
