 The date the fund started: 12 November 2015

### What are the risks of investing?

#### Risk indicator for the Smartshares Global Bond ETF<sup>1</sup>

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 June 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for the Smartshares Exchange Traded Funds for more information about the risks associated with investing in this fund.

### How has the fund performed?

Past year	
<b>Annual return</b> (after deductions for charges and tax)	4.79%
<b>Annual return</b> (after deductions for charges but before tax)	5.33%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	7.26%

The market index annual return is based on the annual return of the Barclays Global Aggregate Index (100% hedged to the New Zealand dollar). Additional information about the market index is available in the 'Other Material Information' document on the offer register at

[www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz).

### Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2019.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at 28%.

## What fees are investors charged?

Investors in the Smartshares Global Bond ETF are charged fund charges. In the year to 31 March 2019 these were:

	% per annum of fund's net asset value
--	---------------------------------------

<b>Total fund charges</b>	0.54%
---------------------------	-------

Which are made up of:

<b>Total management and administration charges</b>	0.54%
--	-------

Including:

Manager's basic fee	0.54%
Other management and administration charges	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for initial contributions to the fund). See the Product Disclosure Statement for the Smartshares Exchange Traded Funds for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Tara had \$10,000 in the fund and did not make any further contributions. At the end of the year, Tara received a return after fund charges were deducted of \$479 (that is 4.79% of her initial \$10,000). This gives Tara a total return after tax of \$479 for the year.

## Notes

- 1 Market index returns (as well as actual returns) have been used to complete the risk indicator, as the fund has not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the fund uses 1 year and 5 months of market index returns.
