The unaudited ex-income NAV of Temit as at 18th September 2019 was £2,138 m, representing a NAV of 868.72 pence per share.

In accordance with the Association of Investment Companies recommendations, the cum-income NAV has been calculated based on the total value of underlying assets, including accumulated or accrued income, and using bid price information relating to the underlying assets. The ex-income NAV has been calculated based on the total value of underlying assets, excluding these income elements, and using bid price information relating to the underlying assets.

The NAV of Temit is calculated daily at US close of markets using the latest available closing bid prices in each market of investment. However, where appropriate, these prices are adjusted to a fair value basis having regard to a range of market triggers and proxies.
