

23 July 2020

Market Announcement

BGI has amended the Results Announcement on 25 June 2020 which accompanied the Preliminary Unaudited Results for 31 March 2020.

The Preliminary Unaudited Results document records the net tangible assets as 'Net tangible assets per share (cents per share) **0.15**' which is correct however the Results Announcement records NTA as an NZD amount and this document was completed showing \$0.15NZD and is now amended to the NZD amount of \$0.0015.

Our financial results remain unchanged and this discrepancy relates only to the variance of the description of the NTA figure from Cents Per Share in the Preliminary Results document and to actual dollar value reflected in the Results Announcement.
