The live presentation will start at 10.00am NZST.

Contact recommend that all attendees install the Microsoft Teams application to their device or Personal Computer (PC) beforehand as this offers seamless interaction with the webcast, with better sound and image quality:

- If you would like to use your phone or tablet, **you must have pre-installed the Microsoft Teams application** (available on all platforms).
- You may ask a question following the conclusion of the formal presentation by using the 'Q&A' function at the top-right hand side of the screen when prompted. Your written questions will be moderated, read out and addressed on the call as appropriate.
- In addition, Microsoft Teams offers the ability to 'Watch on web instead' should you choose not to download the application (i.e. by clicking cancel when prompted to download the application). The functionality is only available on Laptops or Desktops (i.e. not phones or tablets). Chrome offers superior functionality and is recommended if you are to 'Watch on web instead' as your preferred option.

An archived replay will be available on our website once the event has concluded.
