## ASX Announcement

Disciplined execution delivered strong outcomes with market share gains in core businesses, increased provisioning and a significant capital surplus.<sup>1</sup>

### Net profit after tax

**\$4,877m**

Statutory NPAT<sup>2</sup>

▼ 20.8% on 1H20

NPAT was supported by strong business outcomes but impacted by the low rate environment and COVID-19. Statutory NPAT includes gains on the sale of divestments, including the completion of BoComm Life.

**\$3,886m**

Cash NPAT

▼ 10.8% on 1H20

### Dividend

**\$1.50**

Per share, fully franked<sup>2</sup>

▲ 53% on 2H20 ▼ 25% on 1H20

The interim dividend was \$1.50 per share, fully franked. This represents a cash payout ratio of 67%, below the Board target payout range.

### Volume growth in core businesses<sup>3</sup>

Business lending

**+\$4.0bn**

>3x system

Home lending

**+\$13.0bn**

1.5x system

Household deposits

**+\$23.2bn**

1.1x system

### Net interest margin

**2.01%**

▼ 3 bpts on 2H20 ▼ 10 bpts on 1H20

Group net interest margin (NIM) declined mainly due to higher liquid balances and the impact of the low rate environment on deposits and capital earnings, partly offset by lower wholesale funding costs.

### Common Equity Tier 1 capital ratio

**12.6%**

APRA, Level 2<sup>2</sup>

▲ 100 bpts on 2H20 ▲ 90 bpts on 1H20

Strong organic capital generation and ongoing benefits of divestments supported higher capital levels, which remain well above APRA's 'unquestionably strong' benchmark of 10.5%. CET1 of 18.7% on an internationally comparable basis.

### Loan impairment expense and provisions

**\$882m**

▲ \$233m on 1H20

**1.81%**

Provision coverage ratio to credit risk weighted assets<sup>4</sup>

Total loan impairment provisions were further increased during the period with a total provision coverage ratio of 1.81%.<sup>4</sup> The loan loss rate for the half was 22 basis points<sup>5</sup> (bpts).

For footnotes see the page vii of this ASX Announcement.

# Results overview

## Executing our strategy Chief Executive Officer, Matt Comyn

The strength of our franchise, combined with the disciplined execution of our strategy, have delivered consistently good performance notwithstanding the current environment.

More than two years ago we outlined our strategy to become a simpler, better bank. Since then, we have made significant progress – divesting our wealth management businesses and improving non-financial risk management. We have also focused on operational excellence in our core banking businesses, achieving above market growth in home lending, deposits and business lending.

This position of strength means we are uniquely placed to respond to the rapidly changing operating context while continuing to support our customers, contribute meaningfully to our communities and deliver business performance.

We have refreshed our strategic priorities to build on our strong foundations and position us for the future. This is an evolutionary change to enable the Bank to focus on the new challenges and opportunities ahead.

We have set an ambitious agenda and are committed to building tomorrow's bank today for our customers.

## Key financials

For the half year ended 31 December 2020<sup>6</sup>.

- ▶ **Statutory NPAT<sup>7</sup>** including discontinued operations was \$4,877m, down 20.8%, mainly due to lower gains realised in the period on the sale of businesses.
- ▶ **Cash NPAT** from continuing operations was \$3,886m, down 10.8%. Excluding COVID-19 impacts and remediation costs, cash NPAT was broadly flat.
- ▶ **Operating income** was \$11,961m, down 0.5%, due to the impact of COVID-19 and lower net interest margin, partly offset by core volume growth.
- ▶ **Net interest margin** was 2.01%, down 10bps, due to higher liquid assets and the impact of lower rates.
- ▶ **Operating expenses** were \$5,566m, up 2.3% excluding remediation costs, driven by higher investment spend, the impact of COVID-19 and increased volume-related expenses.
- ▶ **Loan impairment expense** increased \$233m reflecting uncertainty in the economic outlook. The loan loss rate was 22 bpts of average gross loans and acceptances.
- ▶ **Deposit funding** of 75% from continued growth in deposit volumes.
- ▶ **Common Equity Tier 1 (CET1)** capital ratio of 12.6% (Level 2, APRA), up 100 bpts since June 2020.
- ▶ **Interim dividend** of \$1.50 per share fully franked.

## Outlook Chief Executive Officer, Matt Comyn

We remain committed to supporting our customers and helping the economy recover.

Australia is relatively well positioned having started from a position of fiscal and economic strength. We have a solid pipeline of infrastructure projects, the outlook for mining and agriculture exports is strong, and the community has benefitted from the Government's significant income support measures.

Although the outlook is positive, there are a number of health and economic risks that could dampen the pace of recovery. We are prepared for a range of scenarios and have taken a careful approach to provisioning.

We also continue to monitor our lending portfolios closely for any signs of stress. The low interest rate environment will continue to put pressure on our revenue which is why we remain focused on performance, operational execution and capital allocation.

The Bank's leading franchise and strong foundations mean it is well placed for the challenges ahead. The strength of our balance sheet and capital position enables us to support customers and help lead the country through recovery. We will also continue to work with government, regulators and our industry peers to support initiatives that stimulate economic activity and jobs.

# Operating performance

Our businesses continued to perform well, with strong operational execution delivering above market growth in home lending, deposits and business lending. This volume growth helped to offset the impact of lower net interest margins.

## Operating income

### Operating income

Cash basis

**\$11,961m**

2H20 \$11,738m

1H20 \$12,023m

### Net interest margin

**2.01%**

2H20 2.04%

1H20 2.11%

**Net interest income** was flat, with strong volume growth across core banking businesses helping to offset the impact on net interest margin of lower interest rates and heightened competition.

Home lending grew at 1.5x system<sup>8</sup> due to consistent operational excellence.

Household deposit balances grew at 1.1x system<sup>8</sup>, and Group transaction account balances were up 37% reflecting increased liquidity in the economy and higher demand for at-call deposits in the low rate environment.

**Net interest margin (NIM)** decreased 3 bpts on 2H20 and 10 bpts on 1H20, due to higher liquid assets and the impact of the low rate environment on deposit margins and earnings on capital, partly offset by lower wholesale funding costs.

Cash rate headwinds are expected to be 7 bpts to Group NIM in FY21.

**Other operating income** decreased by \$83m in the half. Key drivers were:

- Lower credit card, retail foreign exchange and deposit fee income primarily due to a decline in spend and transaction volumes as a result of COVID-19;
- Further impairment of aircraft, both owned and leased to airlines, in our Structured Asset Finance portfolio; and
- Lower Global Markets sales income driven by reduced client demand for hedging activities in the low rate environment.

These decreases were partly offset by:

- Higher CommSec equities income from increased trading volumes;
- Higher Global Markets trading income from precious metals inventory financing and gains in fixed income and rates portfolios; and
- Lower insurance claims related to weather events, mainly bushfires.

## Operating expenses

### Operating expenses

**\$5,566m**

2H20 \$5,689m

1H20 \$5,206m

**Operating expenses** increased 2.3% excluding remediation costs. Key drivers were:

- Higher investment spend, up 34%, with continued investment across the business driven primarily by increased investment in digital;
- Increased financial assistance and operations staffing to assist customers impacted by COVID-19 and support higher home loan and business loan volumes; and
- Higher staff and IT costs to continue to support the Bank's core businesses.

These increases were partly offset by business simplification initiatives including discretionary spend cost reductions.

Remediation cost provisions of \$241m were recognised during the half, including \$118m of additional provisions for historical Aligned Advice remediation issues, mainly related to program costs.

The **cost-to-income** ratio (cash basis) was 46.5%.

# Provisions and credit quality

## Loan impairment expense

### Loan impairment expense

**\$882m**

2H20 \$1,869m

1H20 \$649m

Loan impairment expense increased due to higher collective provisions.

Forward looking adjustments were made to reflect the uncertain economic outlook and emerging industry risks in particular for the Aviation and Entertainment, Leisure & Tourism sectors.

### Loan loss rate<sup>9</sup> (bpts)

## Portfolio credit quality

### Consumer arrears

Arrears on home loans and consumer finance remain low, and are being temporarily insulated by COVID-19 support measures. In line with APRA's regulatory approach, loans currently in deferral as part of COVID-19 support packages are not included in arrears.

As at 31 January, approximately 25,000 home loans remain in deferral (balances \$9bn) down from 145,000 loans (balances \$51bn) as at 30 June 2020.<sup>10</sup>

### Consumer arrears >90 days<sup>11</sup> (%)

### Troublesome and impaired assets

Troublesome and impaired assets increased to \$8,195m. This was mainly due to the impact of COVID-19 on corporate customers in Aviation, Entertainment, Leisure & Tourism and Commercial Property sectors.

SME loans on repayment deferrals as at 31 January were approximately 2,000 loans (balances \$0.3bn) down from 67,000 loans (balances \$15.7bn) as at 30 June 2020.<sup>10</sup>

### Repayment deferrals<sup>12</sup>

## Loan impairment provisions

Provisions were further increased in the half to \$6.8bn, driven by forward looking adjustments to collective provisions for emerging risks as a result of COVID-19. Collective provisions include forward looking adjustments that are estimates of the likely effects of emerging risks, including assumptions around likely deterioration in portfolio arrears rates and counterparty risk ratings.

Total provisions to credit risk weighted assets increased to 1.81%, 11 bpts higher on the prior half.

### Total impairment provisions (\$bn)

# Balance sheet strength

Capital strength is a highlight of the result, with key liquidity and funding metrics also remaining strong during 1H21. The Bank is well prepared for a range of possible macro-economic outcomes.

## Capital

### Common Equity Tier 1 capital ratio

**12.6%**

#### APRA (Level 2)

2H20 11.6%

1H20 11.7%

The Group has a strong capital position with a CET1 capital ratio of 12.6% (Level 2), well above APRA's 'unquestionably strong' benchmark of 10.5%.

The CET1 ratio increased by 100 bpts since June 2020, driven by:

- Organic capital generation from profits generated by the business;
- The benefits from proceeds received in relation to the sales of BoCommLife, CommInsure Life, and other previously announced divestments; and
- A 50% reduction in APRA's operational risk capital overlay arising from the Prudential Inquiry (+17 bpts);
- Partly offset by higher risk weighted assets largely as a result of growth in home and business lending.

The pro-forma capital uplift from the finalisation of remaining divestments (Colonial First State, CommInsure Life) is expected to be 32-42 bpts (CET 1, Level 2).

### Common Equity Tier 1 capital ratio

## Funding and liquidity

### Deposit funding ratio

**75%**

2H20 74%

1H20 71%

The **deposit funding** ratio was 75%, up from 71% in 1H20, as the Group continued to satisfy a significant portion of its funding requirements from customer deposits. This was due to the continuing growth in customers' transaction and savings account balances.

As at 31 December 2020, the Group had access to \$41bn of funding provided through the RBA's three-year Term Funding Facility (TFF) and \$19bn had been drawn.

The average tenor of the long term wholesale funding portfolio was 5.2 years (5.7 years excluding the TFF). Long term wholesale funding accounted for 69% of total wholesale funding, up 3% from 31 December 2019.

The average **liquidity coverage ratio** (LCR) for the quarter ended 31 December 2020 was 143%, an increase of 9% compared to the quarterly average ended 31 December 2019. The LCR remains well above the minimum regulatory requirement of 100%.

The **net stable funding ratio** (NSFR) as at 31 December 2020 was 123%, an increase of 9% from the prior comparative period, and well above the regulatory minimum of 100%. The increase in the ratio was due to the growth in customer deposits, the benefit from the TFF, and the Group's strong capital position.

# Delivering for shareholders

## Dividends

- A fully franked interim dividend of \$1.50 per share was determined for the six months to 31 December 2020. The dividend payout ratio was 67% of cash earnings.
- On 15 December 2020, APRA updated its capital management guidance to banks, easing restrictions on the payment of dividends. APRA continues to expect banks to moderate dividend payout ratios to ensure they are sustainable, taking into account the outlook for profitability, capital and the broader environment.
- The Bank's dividend policy seeks to: pay dividends at strong and sustainable levels; target a full year payout ratio of 70% to 80% of cash NPAT; and maximise the use of its franking account by paying fully franked dividends.
- The Dividend Reinvestment Plan (DRP) continues to be offered to shareholders. No discount will apply. The DRP is anticipated to be satisfied in full by an on-market purchase of shares.

# Footnotes

## Page i

1. Comparative information has been restated to conform to presentation in the current period. Unless otherwise stated: all figures relate to the half year ended 31 December 2020 and comparisons are to the prior comparative period, the half year ended 31 December 2019; financials are presented on a continuing operations basis.
2. Statutory NPAT, CET1 and dividend per share include discontinued operations. Discontinued operations includes Colonial First State (CFS), CommInsure Life, BoCommLife, Colonial First State Global Asset Management (CFSGAM) and PT Commonwealth Life. Includes non-controlling interests related to discontinued operations.
3. As reported in APRA Monthly ADI Statistics (MADIS). System multiple calculated on a non-annualised basis. CBA business lending multiple estimate is based on Business Banking growth rate (excluding Institutional Banking and Markets) over published APRA Total Business Lending data (excluding estimated institutional lending balances). CBA business lending growth is Business Banking excluding Institutional Banking and Markets.
4. Total provisions as a percentage of credit risk weighted assets.
5. Loan impairment expense ("cash basis") annualised as a percentage of average gross loans and acceptances (GLAAs).

## Highlights (continued)

### Non-Cash Items included in Statutory Profit

The Profit Announcement discloses the net profit after tax on both a statutory and cash basis. The statutory basis is prepared in accordance with the Corporations Act and the Australian Accounting Standards, which comply with International Financial Reporting Standards (IFRS). The cash basis is used by management to present a clear view of the Bank's operating results. It is not a measure based on cash accounting or cash flows. The items excluded from cash profit, such as hedging and IFRS volatility and losses or gains on acquisition, disposal, closure and demerger of businesses are calculated consistently with the prior year and prior half disclosures and do not discriminate between positive and negative adjustments. A list of items excluded from cash profit is provided in the table below.

	Half Year Ended				
	31 Dec 20	30 Jun 20	31 Dec 19	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
Non-Cash Items Included in Statutory Profit	\$M	\$M	\$M		
Gain on acquisition, disposal, closure and demerger of businesses	910	461	1,631	97	(44)
Hedging and IFRS volatility	(8)	57	36	large	large
<b>Total non-cash items (after tax)</b>	<b>902</b>	<b>518</b>	<b>1,667</b>	<b>74</b>	<b>(46)</b>

Non-cash items attributable to continuing and discontinued operations are set out below:

	Half Year Ended				
	31 Dec 20	30 Jun 20	31 Dec 19	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
Non-Cash Items Included in Statutory Profit	\$M	\$M	\$M		
(Loss)/gain on acquisition, disposal, closure and demerger of businesses <sup>1</sup>	(101)	10	60	large	large
Hedging and IFRS volatility	(8)	57	36	large	large
<b>Non-cash items (after tax) from continuing operations</b>	<b>(109)</b>	<b>67</b>	<b>96</b>	<b>large</b>	<b>large</b>
Gain on acquisition, disposal, closure and demerger of businesses <sup>2</sup>	1,011	451	1,571	large	(36)
<b>Non-cash items (after tax) from discontinued operations</b>	<b>1,011</b>	<b>451</b>	<b>1,571</b>	<b>large</b>	<b>(36)</b>
<b>Total non-cash items (after tax)</b>	<b>902</b>	<b>518</b>	<b>1,667</b>	<b>74</b>	<b>(46)</b>

<sup>1</sup> Includes gains and losses net of transaction and separation costs associated with disposal of AUSIEX, Aussie Home Loans, Count Financial and other businesses, and the dilution of the Group's interest in Bank of Hangzhou.

<sup>2</sup> Includes post-completion adjustments (such as purchase price adjustments, and finalisation of accounting adjustments for goodwill and foreign currency translation reserve recycling), and transaction and separation costs associated with the disposal of BoCommLife, CFS, CFSGAM, PT Commonwealth Life and other businesses, and the deconsolidation of CommInsure Life.

Funds under administration (FUA) - average (\$M) <sup>6</sup>	149,491	152,195	184,047	(2)	(19)
Assets under management (AUM) - average (\$M) <sup>7</sup>	18,179	17,608	235,547	3	(92)

<sup>1</sup> Comparative information has been restated to conform to presentation in the current period.

<sup>2</sup> Presented on a "cash basis" unless stated otherwise.

<sup>3</sup> The Bank uses PACC as a key measure of risk-adjusted profitability. It takes into account the profit achieved, the risk to capital that was taken to achieve it, and other adjustments.

<sup>4</sup> Average interest earning assets are net of average mortgage offset balances. Average interest bearing liabilities exclude average mortgage offset balances.

<sup>5</sup> Average FUA (continuing operations) has been calculated using the average for the period the Group owned Aegis up until 2 December 2019.

<sup>6</sup> Average FUA (including discontinued operations) has been calculated using the average for the period the Group operated CommInsure Life up until 1 November 2019 and the Group owned Aegis up until 2 December 2019.

<sup>7</sup> Average AUM has been calculated using the average for the period the Group owned CFSGAM up until 2 August 2019.

# Group Performance Analysis

## Financial Performance and Business Review

**Performance Overview** – comments are versus prior comparative period unless stated otherwise (continuing operations basis <sup>1</sup>).

The Bank's statutory net profit after tax (NPAT) from continuing operations for the half year ended 31 December 2020 decreased \$675 million or 15.2% on the prior comparative period to \$3,777 million. The Bank's statutory NPAT (including discontinued operations) for the half year ended 31 December 2020 decreased \$1,284 million or 20.8% on the prior comparative period to \$4,877 million.

Cash net profit after tax ("cash NPAT" or "cash profit") from continuing operations decreased \$470 million or 10.8% on the prior comparative period to \$3,886 million. The result was driven by a 0.5% decrease in operating income, a 6.9% increase in operating expenses and a 35.9% increase in loan impairment expense.

Operating income decreased 0.5% on the prior comparative period. Key movements included:

- Net interest income increased 0.2% primarily driven by a \$41 billion or 4.7% increase in average interest earning assets (AIEA), mainly due to growth in home loans, business loans and non-lending interest earning assets. This was offset by a 10 basis point or 4.7% reduction in Net Interest Margin (NIM), mainly due to higher liquid assets, and the impact of the low-rate environment on deposit margins and earnings on capital, partly offset by the benefit from lower wholesale funding costs;
- Other banking income decreased 4.9%, primarily driven by lower retail banking fee income from a decline in spend and transaction volumes due to the impact of COVID-19, and the impairment of aircraft, which are owned by the Group and leased to various airlines, partly offset by higher Global Markets trading income and higher CommSec equities income from increased trading volumes and active customer numbers;
- Funds management income decreased 18.4%, primarily driven by the wind down of the Aligned Advice businesses; and
- Insurance income increased \$59 million, primarily driven by lower claims experience mainly due to the absence of bushfire related claims in the current half.

Operating expenses increased 6.9%. Excluding remediation costs and other <sup>2</sup>, operating expenses increased 2.3%, due to higher investment spend, increased financial assistance and operations staffing, mainly in response to COVID-19 and higher home and business lending volumes, higher occupancy, wage inflation, and volume driven IT costs, partly offset by lower discretionary spend and business simplification initiatives.

Loan impairment expense (LIE) increased 35.9%, primarily driven by higher collective provisions mainly due to increased forward looking adjustments reflecting uncertainty in the economic outlook, as a result of COVID-19.

CET1 increased by 100 basis points from 30 June 2020 to 12.6%, well above APRA's 'unquestionably strong' benchmark of 10.5%. The increase was primarily driven by capital generated from earnings (+88bps), benefits from divestments (+42bps), and a 50% reduction in APRA's Operational Risk capital add-on (+17bps). This was partly offset by the 2020 final dividend payment (-32bps), and an increase in risk weighted assets (-13bps).

Earnings per share ("cash basis") was down 10.8% on the prior comparative period at 219.5 cents per share, primarily due to the decrease in cash profit.

Return on equity ("cash basis") decreased 180 basis points to 10.5% due to the impact of lower cash profit (approximately 130 basis points) and an increase in capital levels (approximately 50 basis points).

The Group declared an interim dividend of \$1.50 per share, which is equivalent to 66.95% of the Bank's cash profit.

Balance sheet strength and resilience is a key priority for the Bank. The Bank has managed key balance sheet risks in a sustainable and conservative manner, and has made strategic decisions to ensure strength in capital, funding and liquidity. In particular, the Bank has:

- Satisfied a significant proportion of its funding requirements from customer deposits, accounting for 75% of total funding at 31 December 2020 (up from 71% at 31 December 2019);
- Issued new long-term wholesale funding of \$2.1 billion, and accessed an additional \$17.6 billion of the RBA Term Funding Facility (TFF). As at 31 December 2020, \$19.1 billion of the TFF has been drawn. Including the TFF, the portfolio WAM <sup>3</sup> was 5.2 years (down from 5.4 years as at 31 December 2019);
- Maintained its strong funding position, with long-term wholesale funding accounting for 69% of total wholesale funding (up from 66% at 31 December 2019); and
- Appropriately managed the level of liquid assets and customer deposit growth to maintain our strong funding and liquidity positions, as illustrated by the Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) being well above the regulatory minimum.

1 The financial results of discontinued operations are excluded from the individual account lines of the Bank's performance and are reported as a single cash net profit after tax line item. Discontinued operations include Colonial First State (CFS), CommInsure Life, BoCommLife, Colonial First State Global Asset Management (CFSGAM) and PT Commonwealth Life.

2 For further details on remediation costs and other refer to page 11.

3 The portfolio WAM excluding the TFF was 5.7 years (up from 5.4 years as at 31 December 2019).

<sup>1</sup> Comparative information has been restated to conform to presentation in the current period.

<sup>2</sup> The half year ended 31 December 2020 includes \$118 million of additional provisions for historical Aligned Advice remediation issues and associated program costs, and \$123 million of Banking and other Wealth related customer remediation and other litigation provisions. The half year ended 30 June 2020 includes a \$300 million provision for historical Aligned Advice remediation issues and associated program costs, \$94 million of Wealth and Banking customer refunds and associated program costs, and a \$60 million increase in provisions for other remediation items, including to address New Zealand Compliance Audit findings related to holiday pay. The half year ended 31 December 2019 includes other expenses including approximately a \$220 million one-off impact of accelerated amortisation following a review of the amortisation method and the useful life of certain technology assets, as well as a one-off benefit from the release of a historical provision which was no longer required, and other rebates (these items net to nil).

<sup>3</sup> Refer to page 3 for further information.

<sup>4</sup> Non-controlling interests in discontinued operations includes a 20% outside equity interest in PT Commonwealth Life up until 4 June 2020.

1 Net of average mortgage offset balances. Gross average home loans balance, excluding mortgage offset accounts was \$549,776 million for the half year ended 31 December 2020 (\$539,132 million for the half year ended 30 June 2020, \$527,650 million for the half year ended 31 December 2019). While these balances are required to be grossed up under accounting standards, they are netted down for the calculation of customer interest payments and the Bank's net interest margin.

2 Average interest earning assets is presented on a continuing operations basis (excluding assets held for sale). For the half year ended 31 December 2020, \$287 million of non-lending interest earning assets have been reclassified to assets held for sale (\$550 million for the half year ended 30 June 2020 and \$391 million for the half year ended 31 December 2019).

### Half Year Ended December 2020 versus December 2019

Net interest income was \$9,371 million, an increase of \$21 million or flat on the prior comparative period. The result was driven by a \$41 billion or 5% increase in average interest earning assets to \$923 billion, partly offset by a 10 basis point or 5% decrease in net interest margin to 2.01%.

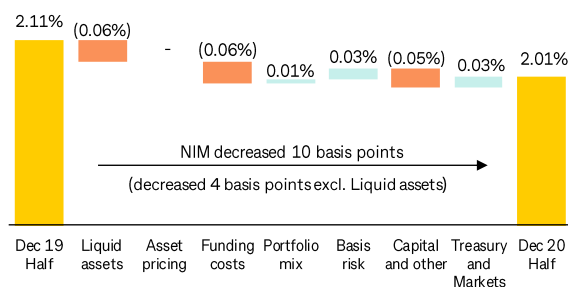

#### Average Interest Earning Assets

Average interest earning assets increased \$41 billion or 5% on the prior comparative period to \$923 billion.

- Home loan average balances increased \$15 billion or 3% on the prior comparative period to \$495 billion, driven by strong new business application volumes and continued focus on credit decisioning turnaround times;
- Consumer finance average balances decreased \$4 billion or 19% on the prior comparative period to \$17 billion, driven by lower consumer demand for unsecured lending, lower discretionary spend due to COVID-19, and increased customer repayments following fiscal and regulatory income support measures;
- Business and corporate loan average balances increased \$1 billion or flat on the prior comparative period to \$216 billion, driven by an increase in business lending, partly offset by a decline in institutional lending balances due to a continued focus on risk-adjusted returns in a highly liquid capital market; and
- Non-lending interest earning asset average balances increased \$30 billion or 18% on the prior comparative period to \$194 billion, driven by a \$19 billion increase in average liquid asset balances due to strong customer deposit growth, and an \$11 billion increase in average trading asset balances mainly in Global Markets due to increased government bond holdings and higher commodities financing balances.

For further details on the balance sheet movements refer to the 'Group Assets and Liabilities' on page 21.

### NIM movement since December 2019

### Net Interest Margin

The Bank's net interest margin decreased 10 basis points on the prior comparative period to 2.01%. The key drivers of the movement were:

**Liquid assets:** Decreased margin by 6 basis points driven by increased lower yielding non-lending interest earning assets, including liquid assets.

**Asset pricing:** Flat, reflecting higher home lending margins (up 3 basis points), offset by reduced business lending margins (down 2 basis points) from repricing actions to support businesses during COVID-19 and lower consumer finance margins (down 1 basis point). Increased home lending margins were driven by repricing (up 11 basis points), partly offset by the impact of customers switching from higher margin loans to lower margin loans (down 4 basis points) and increased competition (down 4 basis points).

**Funding costs:** Decreased margin by 6 basis points, reflecting lower earnings on transaction and savings deposits due to the decreases in the cash rate (down 11 basis points), partly offset by a higher benefit from the replicating portfolio (up 3 basis points) and the benefit from lower wholesale funding costs (up 2 basis points).

# Group Performance Analysis (continued)

## Net Interest Income (continued)

**Portfolio Mix:** Increased margin by 1 basis point due to a higher deposit funding ratio (31 December 2020: 75%; 31 December 2019: 71%) driven by strong growth in transaction and savings deposits (up 4 basis points), partly offset by the unfavourable impact from asset mix with a decline in higher margin consumer finance balances (down 3 basis points).

**Basis Risk:** Basis Risk arises from the spread between the 3 month bank bill swap rate and the 3 month overnight index swap rate. The Bank's margin increased 3 basis points reflecting a decrease in the average spread notwithstanding a structural reduction in exposure to basis risk from strong growth in cash rate linked deposits and a mix shift towards fixed rate home loans.

**Capital and other:** Decreased margin by 5 basis points driven by lower earnings on capital due to the falling interest rate environment (down 4 basis points) and reduced contribution from New Zealand (down 1 basis point) reflecting the impact from decreases in the RBNZ cash rate.

**Treasury and Markets:** Increased margin by 3 basis points driven by higher bonds and commodities financing income in Global Markets.

### Half Year Ended December 2020 versus June 2020

Net interest income increased \$111 million or 1% on the prior half, driven by a \$10 billion or 1% increase in average interest earning assets and the benefit of two additional calendar days in the current half, partly offset by a 3 basis point or 1% decrease in net interest margin.

### Average Interest Earning Assets

Average interest earning assets increased \$10 billion or 1% on the prior half.

- Home loan average balances increased \$6 billion or 1% on the prior half, driven by strong new business application volumes and continued focus on credit decisioning turnaround times;
- Consumer finance average balances decreased \$2 billion or 13% on the prior half, driven by lower consumer demand for unsecured lending and increased customer repayments following fiscal and regulatory income support measures;
- Business and corporate loan average balances decreased \$4 billion or 2% on the prior half, driven by lower institutional lending due to a continued focus on risk-adjusted returns in a highly liquid capital market, partly offset by an increase in business lending; and
- Non-lending interest earning asset average balances increased \$10 billion or 5% on the prior half, driven by an \$8 billion increase in average trading asset balances mainly in Global Markets, due to increased government bond holdings and higher commodities financing balances, and a \$2 billion increase in average liquid asset balances from strong customer deposit growth.

For further details on the balance sheet movements refer to the 'Group Assets and Liabilities' on page 21.

### NIM movement since June 2020

### Net Interest Margin

The Bank's net interest margin decreased 3 basis points on the prior half. The key drivers of the movement were:

**Liquid assets:** Decreased margin by 2 basis points driven by increased lower yielding non-lending interest earning assets, including liquid assets.

**Asset pricing:** Decreased margin by 2 basis points driven by home lending (down 1 basis point) and consumer finance (down 1 basis point). Decreased home lending margins reflect the impact of customers switching from higher margin loans to lower margin loans (down 3 basis points) and increased competition (down 2 basis points), partly offset by repricing (up 4 basis points).

**Funding costs:** Decreased margin by 2 basis points, reflecting lower earnings on transaction and savings deposits due to the decreases in the cash rate (down 3 basis points) and reduced earnings on investment deposits due to lower swap rates (down 1 basis point), partly offset by a higher benefit from the replicating portfolio (up 1 basis point) and the benefit from lower wholesale funding costs (up 1 basis point).

**Portfolio Mix:** Flat, reflecting a higher deposit funding ratio (31 December 2020: 75%; 30 June 2020: 74%) driven by strong growth in transaction and savings deposits (up 2 basis points), offset by an unfavourable impact from asset mix, mainly due to a decline in higher margin consumer finance balances (down 2 basis points).

**Basis Risk:** Basis Risk arises from the spread between the 3 month bank bill swap rate and the 3 month overnight index swap rate. The Bank's margin increased 3 basis points reflecting a decrease in the average spread notwithstanding a structural reduction in exposure to basis risk due to strong growth in cash rate linked deposits and a mix shift towards fixed rate home loans.

**Capital and other:** Decreased margin by 1 basis point driven by lower earnings on capital due to the falling interest rate environment.

**Treasury and Markets:** Increased margin by 1 basis point driven by higher bonds and commodities financing income in Global Markets.

### NIM (Half Year Ended)

# Group Performance Analysis (continued)

## Other Banking Income (continuing operations basis)

	Half Year Ended				
	31 Dec 20	30 Jun 20	31 Dec 19	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
	\$M	\$M	\$M		
Commissions	1,299	1,236	1,321	5	(2)
Lending fees	525	503	483	4	9
Trading income	535	432	508	24	5
Other income	60	123	231	(51)	(74)
<b>Other banking income - "cash basis"</b>	<b>2,419</b>	<b>2,294</b>	<b>2,543</b>	<b>5</b>	<b>(5)</b>

### Half Year Ended December 2020 versus December 2019

Other banking income was \$2,419 million, a decrease of \$124 million or 5% on the prior comparative period.

**Commissions** decreased by \$22 million or 2% to \$1,299 million, mainly driven by lower credit card, retail foreign exchange and deposit income primarily due to a decline in spend and transaction volumes due to the impact of COVID-19. This was partly offset by higher equities income from increased trading volumes and an increase in active customer numbers.

**Lending fees** increased by \$42 million or 9% to \$525 million, mainly driven by higher institutional lending undrawn commitment fees reflecting lower utilisation from reduced client financing activities as a result of COVID-19.

**Trading income** increased by \$27 million or 5% to \$535 million, driven by higher Global Markets trading income from commodities financing and gains in the fixed income and rates portfolio, partly offset by lower Global Markets sales income driven by reduced client demand for hedging activities due to lower volatility in the low-rate environment.

**Other income** decreased by \$171 million or 74% to \$60 million, primarily driven by the impairment of aircraft, which are owned by the Group and leased to various airlines, and lower Treasury income due to upfront break costs on the buyback of term debt and lower gains on the sale of liquid assets. This was partly offset by a payment received from AIA reflecting progress in meeting partnership milestones related to the divestment of CommInsure Life.

### Half Year Ended December 2020 versus June 2020

Other banking income increased by \$125 million or 5% on the prior half.

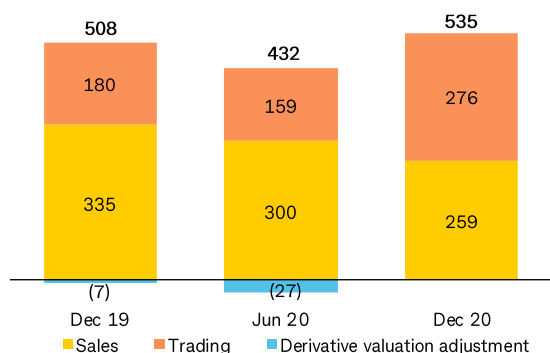

**Commissions** increased by \$63 million or 5%, mainly driven by higher merchants income due to the non-recurrence of COVID-19 fee waivers that were provided in the prior half and increased volumes, and higher equities income from increased trading volumes and an increase in active customer numbers. This was partly offset by lower deposit and retail foreign exchange income primarily due to a decline in international transaction volumes and volume-based fees due to the impact of COVID-19.

**Lending fees** increased by \$22 million or 4%, mainly driven by higher business lending fee income reflecting volume growth, and higher institutional lending undrawn commitment fees reflecting lower utilisation from reduced client financing activities as a result of COVID-19.

**Trading income** increased by \$103 million or 24%, driven by higher Global Markets trading income from commodities financing, and favourable derivative valuation adjustments. This was partly offset by lower Global Markets sales income driven by reduced client demand for hedging activities due to lower volatility in the low-rate environment.

**Other income** decreased by \$63 million or 51%, primarily driven by lower Treasury income due to upfront break costs on the buyback of term debt, lower AIA partnership payments driven by one additional milestone occurring in the prior half, and higher impairment of aircraft operating leases in the current half. This was partly offset by higher net profits from minority investments.

Trading Income (\$M)

## Funds Management Income (continuing operations basis)

	Half Year Ended <sup>1</sup>				
	31 Dec 20	30 Jun 20	31 Dec 19	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
	\$M	\$M	\$M		
Retail Banking Services <sup>2</sup>	15	16	51	(6)	(71)
New Zealand	68	65	71	5	(4)
Other	(3)	(6)	(24)	(50)	(88)
<b>Funds management income - "cash basis"</b>	<b>80</b>	<b>75</b>	<b>98</b>	<b>7</b>	<b>(18)</b>
Funds Under Administration (FUA) - average (\$M) <sup>3</sup>	-	-	15,332	-	large
Assets Under Management (AUM) - average (\$M) <sup>4</sup>	18,179	17,272	16,730	5	9

1 Comparative information has been restated to conform to presentation in the current period.

2 Retail Banking Services incorporates the results of Commonwealth Financial Planning and the Aligned Advice businesses.

3 Average FUA has been calculated using the average for the period the Group owned Aegis up until 2 December 2019. All average FUA balances relate to New Zealand.

4 All average AUM balances relate to New Zealand.

### Half Year Ended December 2020 versus December 2019

Funds management income was \$80 million, a decrease of \$18 million or 18% on the prior comparative period. The key drivers were:

- A decrease in Retail Banking Services of \$36 million or 71% to \$15 million, reflecting the wind-down of the Aligned Advice businesses; and
- A decrease in New Zealand of \$3 million or 4% to \$68 million, driven by lower income due to the sale of the Aegis business on 2 December 2019, partly offset by higher average AUM (up 9%) reflecting net inflows and favourable investment markets.

### Half Year Ended December 2020 versus June 2020

Funds management income increased \$5 million or 7% on the prior half. The key drivers were:

- An increase in New Zealand of \$3 million or 5%, driven by higher average AUM (up 5%) reflecting net inflows and favourable investment markets; partly offset by
- A decrease in Retail Banking Services of \$1 million or 6%, reflecting the wind-down of the Aligned Advice businesses.

## Insurance Income (continuing operations basis)

	Half Year Ended <sup>1</sup>				
	31 Dec 20	30 Jun 20	31 Dec 19	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
	\$M	\$M	\$M		
<b>Insurance income - "cash basis"</b>	<b>91</b>	<b>109</b>	<b>32</b>	<b>(17)</b>	<b>large</b>

1 Comparative information has been restated to conform to presentation in the current period.

### Half Year Ended December 2020 versus December 2019

Insurance income was \$91 million, an increase of \$59 million on the prior comparative period. This result was driven by lower claims experience net of reinsurance recoveries, mainly due to the absence of bushfire related claims in the current half.

### Half Year Ended December 2020 versus June 2020

Insurance income decreased \$18 million or 17% on the prior half. This result was driven by higher claims experience net of reinsurance recoveries, mainly due to the October 2020 Queensland hail storms.

# Group Performance Analysis (continued)

## Operating Expenses (continuing operations basis)

	Half Year Ended <sup>1</sup>				
	31 Dec 20 \$M	30 Jun 20 \$M	31 Dec 19 \$M	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
Staff expenses	2,986	2,831	2,898	5	3
Occupancy and equipment expenses	576	566	519	2	11
Information technology services expenses	962	992	940	(3)	2
Other expenses	801	846	849	(5)	(6)
<b>Operating expenses excluding remediation costs and other - "cash basis"</b>	<b>5,325</b>	5,235	5,206	2	2
Remediation costs and other <sup>2</sup>	241	454	–	(47)	n/a
<b>Operating expenses including remediation costs and other - "cash basis"</b>	<b>5,566</b>	5,689	5,206	(2)	7
Operating expenses to total operating income excluding remediation costs and other (%)	44.5	44.6	43.3	(10)bpts	120 bpts
Operating expenses to total operating income (%)	46.5	48.5	43.3	(200)bpts	320 bpts
Average number of full-time equivalent staff (FTE)	42,185	41,147	40,879	3	3
Spot number of full-time equivalent staff (FTE)	42,720	41,778	40,519	2	5

1 Comparative Information has been restated to conform to presentation in the current period.

2 For further details on remediation costs and other refer to page 11.

### Half Year Ended December 2020 versus December 2019

Operating expenses excluding remediation costs and other were \$5,325 million, an increase of \$119 million or 2% on the prior comparative period.

**Staff expenses** increased by \$88 million or 3% to \$2,986 million, mainly driven by wage inflation and increased full-time equivalent staff (FTE). The average number of FTE increased by 1,306 or 3% from 40,879 to 42,185, primarily due to additional project resources as we continue to invest in our digital capabilities, innovation and risk and compliance initiatives, increased financial assistance and operations staffing, mainly in response to COVID-19 and higher home and business lending volumes, and additional frontline business bankers, partly offset by business simplification initiatives.

**Occupancy and equipment expenses** increased by \$57 million or 11% to \$576 million, primarily driven by higher

depreciation following the completion of new corporate offices, annual rental reviews and increased cleaning and maintenance costs due to COVID-19.

**Information technology services expenses** increased by \$22 million or 2% to \$962 million. This was primarily driven by higher investment spend, and increased IT infrastructure costs including higher compute volumes and cloud usage, partly offset by lower amortisation.

**Other expenses** decreased by \$48 million or 6% to \$801 million, primarily driven by reduced credit card loyalty redemptions, lower discretionary spend and business simplification initiatives.

**Operating expenses to total operating income ratio excluding remediation costs and other** increased 120 basis points from 43.3% to 44.5%.

# Group Performance Analysis (continued)

## Operating Expenses (continued)

### Half Year Ended December 2020 versus June 2020

Operating expenses excluding remediation costs and other increased \$90 million or 2% on the prior half.

**Staff expenses** increased by \$155 million or 5%, mainly driven by wage inflation, increased FTE and higher long service leave and superannuation provisions due to a reduction in discount rates in the falling rate environment. The average number of FTE increased by 1,038 or 3% from 41,147 to 42,185, primarily due to additional project resources as we continue to invest in our digital capabilities, innovation and risk and compliance initiatives, increased operations staffing, mainly in response to higher home and business lending volumes, and additional frontline business bankers, partly offset by business simplification initiatives.

**Occupancy and equipment expenses** increased by \$10 million or 2%, primarily due to higher depreciation following the completion of new corporate offices and annual rental reviews.

**Information technology services expenses** decreased by \$30 million or 3%, primarily due to lower amortisation partly offset by higher investment spend and increased IT infrastructure costs including higher compute volumes and cloud usage.

**Other expenses** decreased by \$45 million or 5%, primarily driven by lower discretionary spend and the non-recurrence of one-off costs associated with the bushfire recovery grants incurred in the prior half.

**Operating expenses to total operating income ratio excluding remediation costs and other** decreased 10 basis points from 44.6% to 44.5%.

### Half Year Ended December 2020 versus December 2019

The Bank has continued to invest in becoming a simpler and better bank for our customers with \$856 million of investment spend incurred in the half year ended 31 December 2020, an increase of \$217 million or 34% on the prior comparative period. This is mainly driven by an increase of \$109 million in productivity and growth initiatives.

In the current period, productivity and growth initiatives accounted for 27% of investment spend, an increase from 20% in the prior comparative period. The Bank has increased focus on strengthening capabilities and extending our digital leadership through the ongoing modernisation of our digital platform to provide integrated and personalised experiences for our customers, and innovating for future growth through initiatives such as X15 ventures, capability enhancement of the New Payment Platform, and ongoing advancement of the digital interface for our home loan and everyday banking customers.

Risk and compliance projects accounted for 65% of investment spend, a decrease from 73% in the prior comparative period. Whilst risk and compliance initiatives continue to be a focus for the Bank, significant progress on our regulatory and compliance frameworks and obligations has allowed for an

increased proportion of funding to be allocated to delivering strategic priorities for the business.

Key areas of investment across each of the categories are outlined below.

### Risk and Compliance

#### Financial Crimes Compliance

The Bank has continued to strengthen Financial Crimes Compliance as part of a comprehensive program of investment, including:

- Anti-money laundering and counter-terrorism financing (AML/CTF) compliance, including upgrading and enhancing our AML/CTF technology, updating our process documentation, investing in further capability and improving the training of our personnel;
- Enhancing Customer Risk Assessment capability, and strengthening data controls and processes to improve data quality; and
- Enhancing the Bank's processes for monitoring, managing, reporting and controlling financial crime across all of its operations, including how the Bank engages with and informs AUSTRAC and other regulators, and improving the Group's operating model to provide increased capability in the management of financial crime risk.

# Group Performance Analysis (continued)

## Investment Spend (continued)

### Other Risk and Compliance

The Bank has continued to invest in the following:

- Implementing new processes and enhancing systems to address new regulations including the Comprehensive Credit Reporting Regime, Banking Code of Practice and Open Banking;
- Upgrading trading platforms to enable additional functionalities to achieve compliance with new market regulations and reduce operational risk;
- Continuing investment in protecting customers and the Bank against cyber security risks, and data and privacy breaches;
- Enhancing system integration and controls to improve quality and lineage of data;
- Improving the collections environment by building a resilient and simplified ecosystem; and
- Other work improving the resilience of the Bank's IT infrastructure and data centres.

### Productivity and Growth

The Bank has invested in the following:

- Ongoing development of CommBank applications and digital channels to improve the customer service experience and the resilience of the digital infrastructure;

- Commercial lending systems to upgrade the end-to-end process for loan origination and maintenance, to improve business customer experiences;
- Enhancing technology and services to assist merchant customers, including developing a self-service merchant portal and deploying the next generation smart payment device offering;
- Accelerating the use of cloud-based technology to reduce the cost of ownership of IT infrastructure;
- Simplifying and automating manual back-end processes and systems to improve customer experience and deliver cost savings; and
- Collaborating with our partners in initiatives including additional features for our core products and support for our customers.

### Branch Refurbishment and Other

The Bank has continued to invest in the following:

- Retail branch refurbishment as our branch design is constantly evolving to reflect changes in customer preferences; and
- Consolidation and development of corporate offices as existing leases expire.

## Capitalised Software

	Half Year Ended				
	31 Dec 20 \$M	30 Jun 20 \$M	31 Dec 19 \$M	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
Opening Balance	1,349	1,418	1,712	(5)	(21)
Additions	291	206	201	41	45
Amortisation and write-offs	(243)	(274)	(495)	(11)	(51)
Reclassification to assets held for sale	-	(1)	-	large	-
<b>Closing balance</b>	<b>1,397</b>	<b>1,349</b>	<b>1,418</b>	<b>4</b>	<b>(1)</b>

### Half Year Ended December 2020 versus December 2019

Capitalised software balance decreased \$21 million or 1% to \$1,397 million.

**Additions** increased by \$90 million or 45% to \$291 million, due to higher capitalised investment spend in relation to productivity and growth initiatives, including enhancements to the Bank's digital channels and sales management capabilities.

**Amortisation and write-offs** decreased by \$252 million or 51% to \$243 million, driven by the non-recurrence of the accelerated amortisation of certain capitalised software balances in the prior comparative period, and lower capitalised software balances.

### Half Year Ended December 2020 versus June 2020

Capitalised software balance increased \$48 million or 4% on the prior half.

**Additions** increased by \$85 million or 41%, due to higher capitalised investment spend in relation to productivity and growth initiatives, including enhancements to the Bank's digital channels and sales management capabilities.

**Amortisation and write-offs** decreased by \$31 million or 11% due to lower capitalised software balances.

# Group Performance Analysis (continued)

## Loan Impairment Expense (continuing operations basis)

	Half Year Ended <sup>1</sup>				
	31 Dec 20	30 Jun 20	31 Dec 19	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
	\$M	\$M	\$M		
Retail Banking Services	308	768	266	(60)	16
Business Banking	286	550	234	(48)	22
Institutional Banking and Markets	177	286	67	(38)	large
New Zealand	27	271	21	(90)	29
IFS and Corporate Centre	84	(6)	61	large	38
<b>Loan impairment expense - "cash basis"</b>	<b>882</b>	<b>1,869</b>	<b>649</b>	<b>(53)</b>	<b>36</b>

<sup>1</sup> Comparative information has been restated to conform to presentation in the current period.

### Half Year Ended December 2020 versus December 2019

Loan impairment expense was \$882 million, an increase of \$233 million or 36% on the prior comparative period. This was driven by:

- An increase in Institutional Banking and Markets of \$110 million to \$177 million, driven by higher collective provisions mainly due to increased forward looking adjustments reflecting uncertainty in the economic outlook, in particular within the Aviation sector due to COVID-19 travel restrictions, partly offset by lower individual provisions;
- An increase in Business Banking of \$52 million or 22% to \$286 million, driven by higher collective provisions mainly due to increased forward looking adjustments reflecting uncertainty in the economic outlook, in particular Accommodation, Cafes and Restaurants, and Commercial Property, due to the impact of COVID-19. The increase was also driven by portfolio growth, and higher individual provisions driven by a small number of large exposures;
- An increase in Retail Banking Services of \$42 million or 16% to \$308 million, driven by higher collective provisions mainly due to increased forward looking adjustments reflecting uncertainty in the economic outlook as a result of COVID-19, partly offset by lower consumer finance balances;
- An increase in IFS and Corporate Centre of \$23 million or 38% to \$84 million, mainly driven by a higher central management overlay; and
- An increase in New Zealand of \$6 million or 29% to \$27 million, driven by higher collective provisions in the business portfolio mainly due to increased forward looking adjustments reflecting uncertainty in the economic outlook, in particular Commercial Property, Accommodation, Cafes and Restaurants, due to the impact of COVID-19, partly offset by lower consumer impairment expenses in the current half.

Loan impairment expense as a percentage of average gross loans and acceptances (GLAAs) increased 5 basis points to 22 basis points.

### Half Year Ended December 2020 versus June 2020

Loan impairment expense decreased by \$987 million or 53% on the prior half. This was driven by:

- A decrease in Retail Banking Services of \$460 million or 60%, driven by higher collective provision charges recognised in the prior half, mainly due to the impact of COVID-19, lower consumer finance balances and reduced arrears;
- A decrease in Business Banking of \$264 million or 48%, driven by higher collective provision charges recognised in the prior half, mainly due to the impact of COVID-19;
- A decrease in New Zealand of \$244 million or 90%, driven by higher collective and individually assessed provision charges recognised in the prior half, mainly due to the impact of COVID-19; and
- A decrease in Institutional Banking and Markets of \$109 million or 38%, driven by higher collective and individually assessed provision charges recognised in the prior half, mainly due to the impact of COVID-19, partly offset by an increase in forward looking adjustments for the Aviation sector in the current half; partly offset by
- An increase in IFS and Corporate Centre of \$90 million, mainly driven by a central management overlay in the current half, and the non-recurrence of an impairment benefit in prior half from the release of a centrally held provision for drought affected agriculture and associated regional communities in NSW and Queensland.

Loan impairment expense annualised as a percentage of average gross loans and acceptances (GLAAs) decreased 26 basis points.

### Half Year Loan Impairment Expense ("cash basis") annualised as a percentage of average GLAAs (bpts)

# Group Performance Analysis (continued)

## Taxation Expense (continuing operations basis)

	Half Year Ended				
	31 Dec 20	30 Jun 20	31 Dec 19	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
	\$M	\$M	\$M		
Corporate tax expense (\$M)	1,627	1,240	1,812	31	(10)
Effective tax rate - "cash basis" (%)	29.5	29.7	29.4	(20)bpts	10 bpts

### Half Year Ended December 2020 versus December 2019

Corporate tax expense for the half year ended 31 December 2020 was \$1,627 million, a decrease of \$185 million or 10% on the prior comparative period, reflecting a 29.5% effective tax rate.

The rate is below the Australian company tax rate of 30% primarily as a result of the profit earned by offshore businesses in jurisdictions that have lower corporate tax rates.

### Half Year Ended December 2020 versus June 2020

Corporate tax expense increased \$387 million or 31% on the prior half.

The 20 basis point decrease in the effective tax rate from 29.7% to 29.5% was primarily due to an increase in profit earned by the offshore jurisdictions.

1 Home loans are presented gross of \$57,479 million of mortgage offset balances (30 June 2020: \$50,597 million; 31 December 2019: \$49,006 million). These balances are required to be grossed up under accounting standards, but are netted down for the calculation of customer interest payments.

2 Loans, bills discounted and other receivables exclude provisions for impairment which are included in other assets.

3 On 13 May 2020, CBA announced that it has entered into an agreement to sell a 55% interest in Colonial First State (CFS) to KKR. On 28 April 2020, CBA announced that it has entered into an agreement to sell AUSIEX to Nomura Research Institute. On 16 December 2020, CBA announced that it has entered into an agreement to merge Aussie Home Loans (AHL) with Lendi. As at 31 December 2020, \$323 million of non-lending interest earning assets (30 June 2020: \$290 million) and \$1,292 million of other assets (30 June 2020: \$1,074 million) have been reclassified to assets held for sale, and \$630 million of other non-interest bearing liabilities (30 June 2020: \$591 million) and \$25 million of other interest bearing liabilities (30 June 2020: \$3 million) have been reclassified to liabilities held for sale in relation to these businesses.

4 Transaction and savings deposits includes \$57,479 million of mortgage offset balances (30 June 2020: \$50,597 million; 31 December 2019: \$49,006 million).

### Half Year Ended December 2020 versus December 2019

Total assets were \$1,058 billion, an increase of \$78 billion or 8% on the prior comparative period, driven by an increase in home loans, non-lending interest earning assets, business and corporate loans, and other assets, partly offset by lower consumer finance balances.

Total liabilities were \$983 billion, an increase of \$74 billion or 8% on the prior comparative period, driven by an increase in transaction deposits (interest bearing and non-interest bearing), savings deposits, other interest bearing liabilities and other non-interest bearing liabilities, partly offset by a decrease in investment deposits and debt issues.

The Bank continued to fund a significant portion of lending growth from customer deposits. Customer deposits represented 75% of total funding (31 December 2019: 71%).

### Home loans

Home loan balances increased \$24 billion to \$559 billion, reflecting a 5% increase on the prior comparative period. The increase was driven by Retail Banking Services and New Zealand, while Business Banking home loan growth was flat. Domestic home loan growth of 5% was above system growth of 4%, reflecting strong new business application volumes and a continued focus on credit decisioning turn-around times.

Home loans in Australia amount to \$498 billion (31 December 2019: \$477 billion) of which 69% were owner occupied, 29% were investment home loans and 2% were lines of credit (31 December 2019: 67% were owner occupied, 31% were investment home loans and 2% were lines of credit).

# Group Performance Analysis (continued)

## Group Assets and Liabilities (continued)

### Consumer finance

Consumer finance balances decreased \$4 billion to \$17 billion, an 18% decrease on the prior comparative period, broadly in line with system. The decrease was driven by lower consumer demand for unsecured lending, lower spend due to COVID-19, and increased customer repayments following fiscal and regulatory income support measures.

### Business and corporate loans

Business and corporate loans increased \$1 billion to \$215 billion, an increase of 1% on the prior comparative period. This was driven by 7% growth in Business Banking (above system growth) primarily across the Property Investment, Agriculture and Health industries, supporting Australian businesses with over 12,100 loans funded under the Government's SME Guarantee Scheme. New Zealand business lending increased 3% and New Zealand rural lending was flat (excluding the impact of FX). This was partly offset by a 6% decline in institutional lending balances due to a continued focus on risk adjusted returns in a highly liquid capital market, and a decrease in pooled facilities.

Domestic business lending (excluding institutional lending) increased 6%, above system growth.

### Non-lending interest earning assets

Non-lending interest earning assets increased \$42 billion to \$202 billion, a 27% increase on the prior comparative period. This was mainly driven by an increase in liquid asset balances due to strong customer deposit growth, increased Government bonds held, and an increase in sale and repurchase agreements.

### Other assets

Other assets, including derivative assets, property, plant and equipment and intangibles, increased \$13 billion to \$62 billion, a 27% increase on the prior comparative period. The increase was driven by higher precious metals inventory balances in Institutional Banking and Markets, and an increase in derivative assets driven by foreign currency and interest rate volatility.

### Total interest bearing deposits

Total interest bearing deposits increased \$52 billion to \$653 billion, a 9% increase on the prior comparative period. This was primarily driven by growth in transaction and savings deposits, partly offset by lower investment deposits. The growth in transaction and savings deposits was driven by increased liquidity in the economy and increased demand for at-call deposits in the low-rate environment. The reduction in investment deposits reflects customers switching to at-call deposits.

Domestic household deposits grew at 15%, above system growth of 13%.

### Debt issues

Debt issues decreased \$31 billion to \$123 billion, a 20% decrease on the prior comparative period, reflecting lower wholesale funding requirements due to growth in customer deposit funding.

Deposits satisfied the majority of the Bank's funding requirements, however strong access was maintained to both domestic and international wholesale debt markets.

Refer to pages 37-38 for further information on debt programs and issuance for the half year ended 31 December 2020.

### Other interest bearing liabilities

Other interest bearing liabilities, including loan capital, liabilities at fair value through income statement and amounts due to other financial institutions, increased \$13 billion to \$69 billion, a 22% increase on the prior comparative period. The increase was mainly driven by the drawdown of the RBA Term Funding Facility, with \$19.1 billion drawn down by 31 December 2020, and the issuance of additional Tier 2 USD capital instruments, partly offset by lower central bank deposits reflecting reduced demand for short-term funding.

### Non-interest bearing transaction deposits

Non-interest bearing transaction deposits increased \$30 billion to \$91 billion, a 50% increase on the prior comparative period. The increase was driven by increased liquidity in the economy, continued growth in existing customer balances and increased demand for at-call deposits in the low-rate environment.

### Other non-interest bearing liabilities

Other non-interest bearing liabilities, including derivative liabilities, increased \$10 billion to \$47 billion, a 26% increase on the prior comparative period. The increase was driven by higher derivative liabilities primarily due to foreign currency and interest rate volatility.

### Half Year Ended December 2020 versus June 2020

Total assets increased \$44 billion or 4% on the prior half, driven by increased home loans, non-lending interest earning assets, and other assets, partly offset by lower business and corporate loans, and consumer finance balances.

Total liabilities increased \$41 billion or 4% on the prior half, reflecting an increase in transaction deposits (interest bearing and non-interest bearing), savings deposits, other interest bearing liabilities, and other demand deposits, partly offset by a decrease in investment deposits, debt issues, and other non-interest bearing liabilities.

Customer deposits represented 75% of total funding (30 June 2020: 74%).

### Home loans

Home loan balances increased \$16 billion or 3% on the prior half, driven by an increase in Retail Banking Services and New Zealand balances, while Business Banking home loan growth was flat. Domestic home loan growth of 3% was above system growth of 2%, reflecting strong new business application volumes and a continued focus on credit decisioning turn-around times.

Home loans in Australia amount to \$498 billion (30 June 2020: \$485 billion) of which 69% were owner occupied, 29% were investment home loans and 2% were lines of credit (30 June 2020: 68% were owner occupied, 30% were investment home loans and 2% were lines of credit).

### Consumer finance

Consumer finance balances decreased \$1 billion or 4%, broadly in line with system. The decrease was driven by lower consumer demand for unsecured lending and increased customer repayments following fiscal and regulatory income support measures.

# Group Performance Analysis (continued)

## Group Assets and Liabilities (continued)

### Business and corporate loans

Business and corporate loans decreased \$1 billion or 1% on the prior half, reflecting a 7% decline in institutional lending balances due to continued focus on risk adjusted returns in a highly liquid capital market, and a decrease in pooled facilities, partly offset by 4% growth in Business Banking (above system growth) primarily across the Property Investment, Health and Transport industries, supporting Australian businesses with an additional 4,800 loans funded under the Government's SME Guarantee Scheme compared to the prior half. New Zealand business lending increased 3% and New Zealand rural lending increased 1% (excluding the impact of FX).

Domestic business lending (excluding institutional lending) increased 4%, above system growth.

### Non-lending interest earning assets

Non-lending interest earning assets increased \$23 billion or 13% on the prior half, mainly driven by higher liquid asset balances due to strong customer deposit growth, an increase in sale and repurchase agreements and higher commodities financing balances in Institutional Banking and Markets.

### Other assets

Other assets, including derivative assets, property, plant and equipment and intangibles, increased \$6 billion or 12% on the prior half, driven by higher derivative assets primarily due to foreign currency and interest rate volatility, and increased precious metals inventory balances in Institutional Banking and Markets.

### Total interest bearing deposits

Total interest bearing deposits increased \$27 billion or 4% on the prior half, primarily driven by growth in transaction, savings and other demand deposit balances, partly offset by lower investment deposits. The growth in transaction and savings deposits was driven by increased liquidity in the economy and increased demand for at-call deposits in the low-rate environment. The reduction in investment deposits reflects customers switching to at-call deposits.

Domestic household deposits grew at 8%, in line with system growth.

### Debt issues

Debt issues decreased \$20 billion or 14% on the prior half, reflecting lower wholesale funding requirements due to growth in customer deposit funding.

Refer to pages 37-38 for further information on debt programs and issuance for the half year ended 31 December 2020.

### Other interest bearing liabilities

Other interest bearing liabilities, including loan capital, liabilities at fair value through income statement and amounts due to other financial institutions, increased \$18 billion or 35% on the prior half primarily driven by the drawdown of the RBA Term Funding Facility, with an additional \$17.6 billion drawn down during the current half, and the issuance of additional Tier 2 USD capital instruments, partly offset by lower central bank deposits reflecting reduced demand for short-term funding.

### Non-interest bearing transaction deposits

Non-interest bearing transaction deposits increased \$17 billion or 22% on the prior half. The increase was driven by increased liquidity in the economy, continued growth in existing customer balances and increased demand for at-call deposits in the low-rate environment.

### Other non-interest bearing liabilities

Other non-interest bearing liabilities, including derivative liabilities, decreased \$1 billion or 3% on the prior half. The decrease was driven by a reduction in unsettled trades, partly offset by an increase in derivative liabilities due to foreign currency and interest rate volatility.

	\$M	\$M	\$M		
<b>Provisions for impairment losses</b>					
Collective provisions	5,943	5,396	4,067	10	46
Individually assessed provisions	872	967	959	(10)	(9)
<b>Total provisions for impairment losses</b>	<b>6,815</b>	<b>6,363</b>	<b>5,026</b>	<b>7</b>	<b>36</b>
Less: Provision for Off Balance Sheet exposures	(137)	(119)	(87)	15	57
<b>Total provisions for loan impairment</b>	<b>6,678</b>	<b>6,244</b>	<b>4,939</b>	<b>7</b>	<b>35</b>

### Half Year Ended December 2020 versus December 2019

Total provisions for impairment losses as at 31 December 2020 were \$6,815 million, an increase of \$1,789 million or 36% on the prior comparative period. The increase was driven by:

- Corporate collective provisions increased by \$969 million or 60% to \$2,572 million. This was driven by increased forward looking adjustments reflecting uncertainty in the economic outlook and emerging industry sector risks, in particular Aviation, Commercial Property, as well as other sectors reliant on discretionary spending, mainly due to COVID-19; and
- Consumer collective provisions increased by \$907 million or 37% to \$3,371 million. This was driven by increased forward looking adjustments reflecting uncertainty in the economic outlook and emerging risks as a result of COVID-19, which offset the benefit of lower consumer finance balances; partly offset by
- Consumer individually assessed provisions decreased by \$74 million or 26% to \$208 million, mainly driven by decreases in the 90+ days arrears balances in the Australian home loan portfolio as a result of repayment deferrals, government support initiatives and the impact of lower interest rates; and
- Corporate individually assessed provisions decreased by \$13 million or 2% to \$664 million. This was mainly driven by write-offs and write-backs across various industry sectors, partly offset by the impairment of a small number of large exposures.

### Half Year Ended December 2020 versus June 2020

Total provisions for impairment losses increased \$452 million or 7% on the prior half. The increase was driven by:

- Corporate collective provisions increased by \$365 million or 17%. This was mainly driven by increased forward looking adjustments reflecting emerging industry sector risks, in particular Aviation, Commercial Property, as well as other sectors reliant on discretionary spending, mainly due to COVID-19; and
- Consumer collective provisions increased by \$182 million or 6%. This was driven by increased forward looking adjustments, reflecting emerging risks as a result of COVID-19, which offset the benefit of improvements in the economic outlook, lower consumer finance balances and reduced arrears; partly offset by
- Corporate individually assessed provisions decreased by \$63 million or 9%, mainly driven by write-offs and write-backs across various industry sectors, partly offset by the impairment of a small number of large exposures; and
- Consumer individually assessed provisions decreased by \$32 million or 13%, mainly driven by decreases in the 90+ days arrears balances in the Australian home loan portfolio as a result of repayment deferrals, government support initiatives and the impact of lower interest rates.

<sup>3</sup> Loan to value ratio (LVR) defined as current balance as a percentage of the current valuation on Australian home loan portfolio.

<sup>4</sup> Any amount ahead of monthly minimum repayment (including offset facilities).

### Provision Ratios and Impaired Assets

Total provisions as a proportion of credit RWA increased by 11 basis points on the prior half to 1.81%. This was driven by higher collective provisions due to increased forward looking adjustments reflecting uncertainty in the economic outlook and emerging risks, mainly due to COVID-19.

Gross impaired assets were \$3,100 million, a decrease of \$448 million or 13% on the prior half. Gross impaired assets as a proportion of GLAAs were 0.39%, a decrease of 7 basis points on the prior half, reflecting reduced new impairments due to repayment deferrals, as well as write-offs, debt sales, and settlement of a small number of larger corporate exposures. Provision coverage for the impaired asset portfolio was 38.07%, an increase of 270 basis points on the prior half, mainly driven by higher provision coverage for impaired home loans.

### COVID-19 Support

From March 2020, the Bank has offered a number of support measures to retail and business customers impacted by the COVID-19 pandemic, including repayment deferrals of up to 6 months in duration. In July 2020, the Bank announced that customers may be able to extend their existing repayment deferrals by up to 4 months, on a case by case basis, depending on their individual circumstances. By December 2020, the majority of customers on repayment deferral arrangements have returned to normal repayments upon expiration of deferrals. Subject to standard eligibility criteria, customers have been offered a range of options such as switching to interest only payments for a period following the end of the repayment deferral. In limited cases, further support including interest rate reductions and hardship assistance, has been provided to customers who do not qualify for a further repayment deferral. Refer to pages 99-100 for further details on loan modifications relating to COVID-19.

The Bank has also participated in the Australian Government's Small and Medium Enterprises (SME) Guarantee Scheme. Under the Scheme, the Government guarantees 50% of new loans issued to SMEs.

## Loan Impairment Provisions and Credit Quality (continued)

### Retail Portfolio Asset Quality

Consumer loan impairment expense (LIE) as a percentage of average gross loans and acceptances was 14 basis points, a decrease of 24 basis points on the prior half, mainly reflecting higher collective provision charges in the prior half, primarily due to COVID-19.

Home loan 90+ days arrears were 0.57%, a decrease of 6 basis points on the prior half, driven by a combination of repayment deferrals, government support initiatives and the impact of lower interest rates. Credit cards 90+ days arrears were 0.66%, a decrease of 57 basis points on the prior half, driven by an improvement in customer origination quality and government support initiatives. Personal Loans 90+ days arrears were 1.48%, a decrease of 3 basis points on the prior half, driven by government support initiatives, partly offset by lower balances including the impact from reduced new lending. The home loan dynamic LVR was 51.45%, a decrease of 124 basis points on the prior half. The home lending book remains well secured and the majority of home lending customers remain in advance of scheduled repayments.

## Loan Impairment Provisions and Credit Quality (continued)

### Corporate Portfolio Asset Quality

Corporate troublesome exposures were \$5.1 billion, a decrease of \$0.1 billion or 2% on the prior half, mainly driven by the movement of several large exposures from the troublesome portfolio to the impaired portfolio, partly offset by a small number of downgrades in the troublesome portfolio across a range of sectors including the Entertainment, Leisure & Tourism, Commercial Property and Aviation industries.

Investment grade rated exposures decreased by 40 basis points on the prior half to 65.9% of overall portfolio risk graded counterparties, reflecting the impact of downgrades and changes in business mix over the half.

Corporate LIE as a percentage of gross loans and acceptances was 45 basis points, a decrease of 30 basis points on the prior half, reflecting higher collective provision charges in the prior half mainly due to COVID-19.

## Loan Impairment Provisions and Credit Quality (continued)

### Industry Exposure and Asset Quality

The distribution of the Bank's credit exposures by sector remained relatively consistent during the half. The largest movement was an increase in the Government, Administration & Defence sector of 100 basis points, from 11.8% to 12.8% of the Bank's total committed exposure, driven by an increase in Government bond holdings. This was partly offset by a reduction in the Finance & Insurance sector of 80 basis points, from 7.6% to 6.8% of the Bank's total committed exposures, as the Bank re-weighted its liquidity portfolio towards government bonds as part of ongoing liquidity management activities.

Movements in troublesome and impaired assets (TIA) were mixed across sectors, as total TIA decreased by \$515 million compared to the prior half to \$8,195 million.

TIA as a percentage of total committed exposures (TCE) was 0.70%, a decrease of 8 basis points from the prior half reflecting:

- Construction (down 166 basis points) driven by the upgrade of a number of large single name exposures;
- Retail Trade (down 150 basis points) driven by the upgrade of a number of large single name exposures;

- Manufacturing (down 127 basis points) driven by a write-off and sale of a number of large single name exposures;
- Transport & Storage (down 56 basis points) driven by a debt sale, partly offset by downgrades in the aviation and travel related industries; partly offset by
- Entertainment, Leisure & Tourism (up 295 basis points) driven by the downgrade of a number of large single name exposures;
- Business Services (up 129 basis points) driven by the downgrade of a large single name exposure;
- Electricity, Gas & Water (up 60 basis points) driven by the downgrade of a large single name exposure;
- Education (up 18 basis points) driven by the downgrade of a number of smaller exposures; and
- Commercial Property (up 15 basis points) driven by the downgrade of a number of large single name exposures.

## Capital

Summary Group Capital Adequacy Ratios	As at				
	31 Dec 20 %	30 Jun 20 %	31 Dec 19 %	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
Common Equity Tier 1	12.6	11.6	11.7	100 bpts	90 bpts
Tier 1	15.0	13.9	14.1	110 bpts	90 bpts
Tier 2	3.9	3.6	3.3	30 bpts	60 bpts
<b>Total Capital (APRA)</b>	<b>18.9</b>	<b>17.5</b>	<b>17.4</b>	<b>140 bpts</b>	<b>150 bpts</b>
<b>Common Equity Tier 1 (Internationally Comparable)<sup>1</sup></b>	<b>18.7</b>	<b>17.4</b>	<b>17.5</b>	<b>130 bpts</b>	<b>120 bpts</b>

<sup>1</sup> Aligns with the 13 July 2015 APRA study titled "International capital comparison study".

<sup>1</sup> Relates to additional receipt of funds as part of the divestment of CommInsure Life, the completion of the divestment of BoCommLife, and benefit from the revised calculation of non-cash gains and losses on disposal of previously announced divestments.

<sup>2</sup> The benefit from a 50% reduction in APRA's operational risk regulatory capital add-on from \$1 billion to \$500 million (reduction of \$6.25 billion RWA).

<sup>3</sup> The 2020 final dividend included the issuance of \$264 million of shares (CET1 impact of 6 basis points) in respect of the Dividend Reinvestment Plan.

## Capital Position

The Bank's CET1 ratio (APRA) was 12.6% as at 31 December 2020, an increase of 100 basis points from 30 June 2020 and an increase of 90 basis points from 31 December 2019. The CET1 ratio was above APRA's 'unquestionably strong' benchmark of 10.5% and consistently well in excess of regulatory minimum capital adequacy requirements at all times throughout the half year ended 31 December 2020.

After allowing for the impact of the 2020 final dividend, net of shares issued under the Dividend Reinvestment Plan (DRP) (-32 basis points), the CET1 ratio increased by 132 basis points in the half year ended 31 December 2020. This was driven by capital generated from earnings (+88 basis points), benefit from divestments (+42 basis points) and a 50% reduction in APRA's Operational Risk capital add-on (+17 basis points). This was partially offset by higher underlying RWA (-13 basis points) and other items (-2 basis points).

Further details on the movements in RWA are provided on page 32.

## Internationally Comparable Capital Position

The Bank's CET1 ratio as measured on an internationally comparable basis was 18.7% as at 31 December 2020, placing it amongst the top quartile of international peer banks.

## Capital Initiatives

The following significant capital initiatives were undertaken during the half year ended 31 December 2020:

### Common Equity Tier 1 Capital

- The DRP in respect of the 2020 final dividend was satisfied by the issuance of \$264 million of ordinary shares, representing a participation rate of 15.2%.

### Tier 2 Capital

- In August 2020, the Bank issued an AUD205 million subordinated note and an AUD200 million subordinated note that are both Basel III compliant Tier 2 capital;
- In September 2020, the Bank issued an AUD1,400 million subordinated note that is Basel III compliant Tier 2 capital; and
- In December 2020, the Bank issued an AUD270 million subordinated note that is Basel III compliant Tier 2 capital.

# Group Operations and Business Settings (continued)

## Capital (continued)

### Risk Weighted Assets (RWA)

#### Total Group Risk Weighted Assets

Total RWA decreased by \$1.3 billion on the prior half to \$453.6 billion driven by decreases in operational risk RWA and traded market risk RWA, partly offset by higher credit risk RWA and IRRBB RWA.

#### Credit Risk Weighted Assets

Credit risk RWA increased by \$2.7 billion on the prior half to \$376.9 billion, primarily driven by:

- Volume growth across commercial portfolios, residential mortgages, and bank and sovereign exposures, partly offset by a reduction in unsecured retail portfolios and in exposures subject to standardised treatment (increase of \$10.4 billion); partly offset by
- Credit quality improvement (decrease of \$3.9 billion), primarily across retail portfolios, driven by:
  - improved loan serviceability;
  - growth in mortgage offset balances; and
  - higher provision coverage on defaulted assets, reducing RWA.
- Foreign currency movements due to appreciation of the AUD against major currencies (decrease of \$2.5 billion); and
- Data and methodology, credit risk estimates and other changes (decrease of \$1.3 billion).

1 Credit quality includes portfolio mix.

#### Traded Market Risk Weighted Assets

Traded market risk RWA decreased by \$1.3 billion or 10% on the prior half. This was mainly due to the implementation of an enhanced model measurement approach for certain interest rate option exposures.

#### Interest Rate Risk Weighted Assets

IRRBB RWA increased by \$4.5 billion or 40% on the prior half. This was due to changes in interest rate risk management positions and increased size of the replicating portfolio due to growth in deposits.

#### Operational Risk Weighted Assets

Operational Risk RWA decreased by \$7.2 billion or 13% on the prior half. The decrease is mainly due to a 50% reduction in APRA's Operational Risk add-on from \$12.5 billion to \$6.25 billion.

The Group regularly reviews and updates its operational risk RWA to reflect material changes in its operational risk profile in accordance with the Operational Risk Management Framework and governance processes.

### Basel Regulatory Framework

#### Background

APRA has implemented a set of capital, liquidity and funding reforms based on the Basel Committee on Banking Supervision (BCBS) "Basel III" framework. The objectives of the reforms are to increase the quality, consistency and transparency of capital, to enhance the risk coverage framework, and to reduce systemic and pro-cyclical risk. The APRA prudential standards require a minimum CET1 ratio of 4.5% effective from 1 January 2013. An additional CET1 capital conservation buffer of 3.5%, inclusive of a Domestic Systemically Important Bank (D-SIB) requirement of 1% and a countercyclical capital buffer (CCyB)<sup>1</sup> of 0% (effective from 1 January 2016), brings the minimum CET1 ratio requirement to 8%.

#### Unquestionably Strong Capital Ratios

In July 2017, APRA released an information paper establishing the quantum of additional capital required for the Australian banking sector to have capital ratios that are unquestionably strong.

APRA's expectation is that the Australian major banks will operate for the majority of the year with a CET1 ratio of 10.5% or more. As at 31 December 2020, the Group's CET1 ratio was 12.6%, and was above the 10.5% benchmark for the entire 2020 calendar year.

Subsequently, APRA issued proposed revisions to the overall design of the capital framework. Further detail on the proposed APRA reforms is provided on page 33.

1 In December 2020, APRA announced that the CCyB for Australian exposures will remain at 0%. The Bank has limited exposures to those offshore jurisdictions in which a CCyB in excess of 0% has been imposed.

## Capital (continued)

### APRA's COVID-19 capital announcements

On 19 March 2020, APRA announced temporary changes to its expectations regarding bank capital ratios and advised that, provided banks are able to meet their minimum capital requirements, the capital buffers built up over recent years to meet the 10.5% unquestionably strong benchmark CET1 capital ratio can be utilised to facilitate ongoing lending to the economy during the period of disruption caused by COVID-19.

On 23 March 2020, APRA also announced its regulatory approach to COVID-19 customer support measures being offered by banks in the current environment. Additional guidance was provided in July 2020 and September 2020. This included capital relief in the form of ADIs being able to 'stop the clock' on arrears and relief for restructured loans.

The Group has introduced a number of support measures for customers impacted by COVID-19, which include loan repayment deferral arrangements and the origination of loans under the Government's Small and Medium Enterprises (SME) Guarantee Scheme.

On 15 December 2020, APRA announced that its guidance issued in July 2020 requiring banks to preserve capital through retaining at least half of their earnings during the period of disruption caused by COVID-19, will no longer apply from calendar year 2021. Nevertheless, in determining the appropriate level of dividends, APRA expects banks to moderate dividend payout ratios to ensure they are sustainable, taking into account the outlook for profitability, capital and the broader environment.

### Pillar 3 Disclosures

Details on the market disclosures required under Pillar 3, per prudential standard APS 330 "Public Disclosure", are provided on the Bank's website at:

[www.commbank.com.au/regulatorydisclosures](http://www.commbank.com.au/regulatorydisclosures)

### Regulatory Reforms

#### APRA

In February 2018, APRA commenced consultation on a number of proposed changes to the ADI capital framework, commonly known as "Basel III". Following an initial round of consultation and industry responses, in December 2020, APRA released a further consultation package titled "Discussion paper – A more flexible and resilient capital framework for ADIs". The objectives of the proposed changes are to increase the risk sensitivity within the capital framework, to enhance the ability to respond flexibly to future stress events, and to improve the comparability of the Australian framework with international standards. The package sets out APRA's key proposals based on feedback received in earlier consultations. APRA's proposals include:

- Higher regulatory capital buffers, with the CCyB set at 100 basis points for all ADIs and the capital conservation buffer increasing from 250 basis points to 400 basis points for Internal Ratings-based (IRB) ADIs such as CBA;
- Implementing more risk sensitive risk weights, particularly for residential mortgage lending, by targeting higher risk segments, such as interest only and investor mortgages;
- For non-retail credit portfolios, closer alignment of risk estimates relative to overseas peers and allowing internal models to be used for commercial property exposures. The expected decrease in RWAs due to this proposal will be tempered through higher scaling factors;

- RWA for New Zealand subsidiaries to be determined under RBNZ rules at the consolidated group level; and
- Implementing a 72.5% output floor to limit the capital benefit for IRB ADIs relative to standardised ADIs.

These proposals will result in changes to the calculation of RWA and will therefore, result in changes to the presentation of bank capital ratios. APRA expects that capital ratios will increase, as the amount of RWA will likely fall. APRA further reiterated that it is targeting a capital outcome in dollar terms that remains consistent with the "unquestionably strong" capital benchmark.

APRA intends to implement the Basel III changes on 1 January 2023.

In January 2019, the Basel Committee on Banking Supervision released "Minimum capital requirements for market risk" which finalised changes to the identification and measurement of market risk under both the standardised approach and the internal model approach. APRA is yet to commence consultation on APS 116 "Capital Adequacy: Market Risk" and implementation is not expected until 2024.

In October 2019, APRA released a consultation paper on APS 111 "Capital Adequacy: Measurement of Capital". The consultation paper outlines APRA's proposal to change its existing approach on equity exposures to banking and insurance subsidiaries of ADIs. APRA has proposed that each individual equity exposure will be risk-weighted at 250% up to 10% of the ADI's Level 1 CET1 capital, with any excess above that threshold to be deducted from Level 1 CET1 capital. In November 2020, APRA advised that the 10% threshold will apply to new or additional investments into banking and insurance subsidiaries until APS 111 is finalised and implemented.

On 9 July 2019, APRA confirmed that the Australian loss-absorbing capacity regime will be established under the existing capital framework. For Domestic Systemically Important Banks (D-SIB), including CBA, APRA will require an additional Total Capital requirement of 3% of RWA based on the existing capital framework, effective 1 January 2024. APRA is evaluating whether any consequential adjustment to the required amount of loss absorbing capacity is necessary, taking into account proposed changes to the capital framework announced in December 2020 as outlined above.

In August 2019, APRA released the final APS 222 "Associations with Related Entities". The revised standard is intended to strengthen the ability of ADIs to monitor, limit and control risk arising from transactions and other associations with related entities. These new requirements will be in place from 1 January 2022.

# Group Operations and Business Settings (continued)

## Capital (continued)

### Reserve Bank of New Zealand (RBNZ)

In December 2019, the RBNZ confirmed that the RWA of IRB banks, such as ASB Bank Limited, will increase to approximately 90% of that required under a standardised approach. In addition, for those banks deemed systemically important, including ASB, the Tier 1 capital requirement will increase to 16% of RWA, of which 13.5% must be in the form of CET1 capital. Tier 2 capital will remain in the framework, and can contribute up to 2% of the 18% minimum Total Capital ratio. Existing Additional Tier 1 and Tier 2 contingent instruments issued by New Zealand banks will no longer be eligible under RBNZ's new capital criteria and will be phased out.

The RBNZ announced that these reforms will commence from 1 July 2022 with a 6 year implementation period until 1 July 2028. Revisions to Additional Tier 1 and Tier 2 eligibility will commence on 1 July 2021.

On 2 April 2020, the RBNZ announced a freeze on the distribution of dividends by banks in New Zealand due to COVID-19. This restriction will remain in place until 31 March 2021, or later if required. Dividends from the Bank's New Zealand subsidiary, ASB, only affect the Group's Level 1 CET1 capital ratio. As at 31 December 2020, the Group's Level 1 CET1 capital ratio was 12.8%, well above APRA's unquestionably strong benchmark, and as such, the Group is well placed to absorb the suspension of dividends.

The RBNZ has provided concessions similar to those provided by APRA for loan deferrals granted in response to COVID-19.

## Leverage Ratio

	As at				
	31 Dec 20	30 Jun 20	31 Dec 19	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
Summary Group Leverage Ratio	\$M	\$M	\$M		
Tier 1 Capital (\$M)	67,920	63,414	63,218	7	7
Total Exposures (\$M) <sup>1</sup>	1,125,048	1,073,131	1,040,423	5	8
<b>Leverage Ratio (APRA) (%)</b>	<b>6.0</b>	<b>5.9</b>	<b>6.1</b>	<b>10 bpts</b>	<b>(10)bpts</b>
<b>Leverage Ratio (Internationally Comparable) (%) <sup>2</sup></b>	<b>6.8</b>	<b>6.7</b>	<b>7.0</b>	<b>10 bpts</b>	<b>(20)bpts</b>

<sup>1</sup> Total exposures is the sum of on Balance Sheet exposures, derivatives, Securities Financing Transactions (SFTs), and off Balance Sheet exposures, net of any Tier 1 regulatory deductions, as outlined in APS 110 "Capital Adequacy".

<sup>2</sup> The Tier 1 Capital included in the calculation of the internationally comparable leverage ratio aligns with the 13 July 2015 APRA study titled "International capital comparison study", and includes Basel III non-compliant Tier 1 instruments that are currently subject to transitional rules.

The Bank's Leverage Ratio, defined as Tier 1 Capital as a percentage of total exposures, was 6.0% at 31 December 2020 on an APRA basis and 6.8% on an internationally comparable basis. The ratio increased 10 basis points on an APRA basis from 30 June 2020 driven by higher Tier 1 Capital, partly offset by a 5% growth in exposures.

In November 2018, APRA released draft prudential and reporting standards, including changes to the definition of exposures related to derivatives and off Balance Sheet items and advocating a minimum leverage ratio requirement of 3.5% for IRB banks, applicable from 1 January 2023.

## Dividends

### Interim dividend for the Half Year Ended 31 December 2020

The interim dividend determined was \$1.50 per share, a decrease of 50 cents on the prior comparative period. The dividend payout ratio ("cash basis") for the half year ended to 31 December 2020 was 66.95% (54.57% on a "statutory basis").

The interim dividend will be fully franked and will be paid on 30 March 2021 to owners of ordinary shares at the close of business on 17 February 2021 (record date). Shares will be quoted ex-dividend on 16 February 2021.

### Dividend Reinvestment Plan (DRP)

The DRP will continue to be offered to shareholders, and no discount will be applied to shares allocated under the plan for the interim dividend. The DRP for the 2021 interim dividend is anticipated to be satisfied in full by an on-market purchase of shares.

### Dividend Policy

The Bank will seek to:

- Pay cash dividends at strong and sustainable levels;
- Target a full year payout ratio of 70% to 80%; and
- Maximise the use of its franking account by paying fully franked dividends.

On 15 December 2020, APRA announced that its guidance issued in July 2020 requiring banks to preserve capital through retaining at least half of their earnings during the period of disruption caused by COVID-19, will no longer apply from calendar year 2021. Nevertheless, in determining the appropriate level of dividends, APRA expects banks to moderate dividend payout ratios to ensure they are sustainable, taking into account the outlook for profitability, capital and the broader environment.

### Interim Dividend History (cents per share)

## Liquidity

	Quarterly Average Ended <sup>1</sup>				
	31 Dec 20	30 Jun 20	31 Dec 19	Dec 20 vs Jun 20 %	Dec 20 vs Dec 19 %
Level 2	\$M	\$M	\$M		
<b>Liquidity Coverage Ratio (LCR) Liquid Assets</b>					
High Quality Liquid Assets (HQLA) <sup>2</sup>	<b>120,730</b>	121,889	89,028	(1)	36
Committed Liquidity Facility (CLF) <sup>3</sup>	<b>62,425</b>	68,931	50,700	(9)	23
<b>Total LCR liquid assets</b>	<b>183,155</b>	190,820	139,728	(4)	31
<b>Net Cash Outflows (NCO)</b>					
Customer deposits	<b>97,779</b>	93,759	76,473	4	28
Wholesale funding	<b>10,834</b>	11,869	11,143	(9)	(3)
Other net cash outflows <sup>4</sup>	<b>19,720</b>	17,935	16,946	10	16
<b>Total NCO</b>	<b>128,333</b>	123,563	104,562	4	23
<b>Liquidity Coverage Ratio (%)</b>	<b>143</b>	155	134	large	large
<b>LCR surplus</b>	<b>54,822</b>	67,257	35,166	(18)	56

- 1 The averages presented are calculated as simple averages of daily observations over the quarter. Spot LCR for 31 December 2020 was 127% (30 June 2020: 145%; 31 December 2019: 125%).
- 2 Includes all repo-eligible securities with the Reserve Bank of New Zealand. The amount of open-repo of Internal Residential Mortgage-Backed Securities and Exchange Settlement Account (ESA) cash balance held by the Reserve Bank of Australia is shown net.
- 3 Committed Liquidity Facility (CLF) includes CLF of \$30.0 billion (30 June 2020: \$45.8 billion; 31 December 2019: \$50.7 billion) and the Group's average undrawn TFF allowance of \$21.8 billion as per APRA guidance.
- 4 Includes cash inflows.

### Liquidity Coverage Ratio (LCR)

The Group holds high quality, well diversified liquid assets to meet Balance Sheet liquidity needs, and regulatory requirements, including APRA's Liquidity Coverage Ratio (LCR). The LCR requires Australian Authorised Deposit-taking Institutions (ADIs) to hold sufficient liquid assets to meet 30 day Net Cash Outflows (NCOs) projected under a prescribed stress scenario. LCR liquid assets consist of High Quality Liquid Assets (HQLA) in the form of cash, deposits with central banks, government securities, and other repo-eligible securities with the Reserve Bank of Australia (RBA) under the Committed Liquidity Facility (CLF). Given the limited amount of government securities in Australia, the RBA provides participating ADIs access to contingent liquidity on a secured basis via the CLF. The amount of the CLF for each ADI is set annually by APRA.

The Group's CLF allocation decreased from \$45.8 billion to \$30.0 billion on 1 December 2020, driven by a reduced requirement for contingent liquidity due to an increase in HQLA held and available to be held by the ADIs.

On 19 March 2020, the RBA announced the establishment of a three-year Term Funding Facility (TFF), providing eligible ADIs fixed-rate funding at 0.25%. From 4 November 2020 onwards, new drawdowns of TFF are provided at a fixed-rate of 0.10%. As at 31 December 2020, the Group had a total TFF allocation of \$41.0 billion, with its initial TFF allowance of \$19.1 billion fully drawn, and its Supplementary Allowance of \$13.0 billion and Additional Allowance of \$8.9 billion undrawn. As at 1 February 2021, the Group's total available TFF allocation was \$40.9 billion.

The Group's December 2020 quarterly average LCR was 143%, a decrease of 12% compared to the quarterly average ended 30 June 2020, and an increase of 9% from the quarterly average ended 31 December 2019. The LCR remains well above the regulatory minimum of 100%.

Compared to the quarterly average ended 30 June 2020, LCR liquid assets decreased by \$7.7 billion or 4% due to the reduction in the CLF from 1 December 2020. The Group's 30 day modelled NCOs increased \$4.8 billion or 4% mainly driven by strong growth in at-call customer deposits.

<b>Total funding</b>	<b>909,499</b>	870,729	847,805	4	7

1 Comparative information has been restated to conform to presentation in the current period.

2 Shareholders' equity is excluded from this view of funding sources.

3 Short-term wholesale funding includes debt with an original maturity or call date of less than or equal to 12 months, and consists of certificates of deposit and bank acceptances, debt issued under the Euro Medium Term Note (EMTN) program and the domestic, Euro and US commercial paper programs of Commonwealth Bank of Australia and ASB. Short-term wholesale funding also includes deposits from banks and central banks as well as net repurchase agreements.

4 Long-term wholesale funding includes debt with an original maturity or call date of greater than 12 months and the Group's drawn TFF allowance.

5 Short-term collateral deposits includes net collateral received and the amount of internal Residential Mortgage Backed Securities (RMBS) pledged with the Reserve Bank to facilitate intra-day cash flows in the Exchange Settlement Account (ESA).

### Customer Deposits

Customer deposits accounted for 75% of total funding at 31 December 2020, an increase of 1% from 74% at 30 June 2020 and an increase of 4% from 71% at 31 December 2019. The Group satisfied a significant proportion of its funding requirements from retail, business, and institutional customer deposits.

### Short-Term Wholesale Funding

Short-term wholesale funding accounted for 31% of total wholesale funding at 31 December 2020, flat on 30 June 2020, and a decrease of 3% from 34% at 31 December 2019 as the Group continues to maintain a conservative funding mix.

## Funding (continued)

### Long-Term Wholesale Funding

Long-term wholesale funding (including IFRS MTM and derivative FX revaluations) accounted for 69% of total wholesale funding at 31 December 2020, flat on 30 June 2020 and an increase of 3% from 31 December 2019.

During the half year to 31 December 2020, the Group raised \$2.1 billion of long-term wholesale funding (Tier 2 Capital), all denominated in AUD. In addition, the Group drew down \$17.6 billion of its TFF allowance, taking the total long-term funding issuance for the 6 months to 31 December 2020 to \$19.7 billion.

The Weighted Average Maturity (WAM) of outstanding long-term wholesale debt with a residual maturity greater than 12 months at 31 December 2020 was 5.2 years (5.7 years excluding the TFF).

### Weighted Average Maturity of Long-Term Wholesale Debt (years) <sup>1</sup>

### Long-Term Wholesale Funding Profile (\$B)

<sup>1</sup> Represents the weighted average maturity of outstanding long-term wholesale debt with a residual maturity greater than 12 months at 31 December 2020 including the TFF drawdown. WAM as at 31 December 2020 excluding TFF drawdowns is 5.7 years.

<sup>2</sup> Includes Senior Bonds and Structured MTN.

<sup>3</sup> Additional Tier 1 and Tier 2 Capital.

<b>Total Available Stable Funding</b>	<b>718,284</b>	<b>678,918</b>	<b>654,205</b>	<b>6</b>	<b>10</b>
<b>Net Stable Funding Ratio (NSFR) (%)</b>	<b>123</b>	<b>120</b>	<b>114</b>	<b>300 bpts</b>	<b>large</b>

### Net Stable Funding Ratio (NSFR)

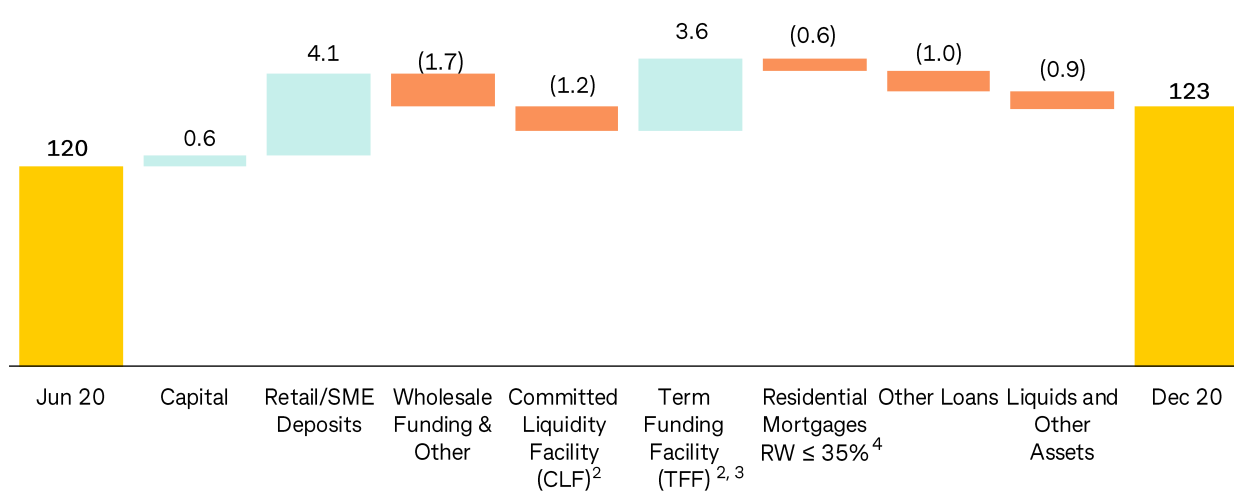

On 1 January 2018, APRA introduced a Net Stable Funding Ratio (NSFR) requirement designed to encourage stable funding of core assets. APRA prescribed factors are used to determine the stable funding requirement of assets and the stability of funding sources.

The Group's NSFR was 123% at 31 December 2020, an increase of 3% from 120% at 30 June 2020 and an increase of 9% from 114% at 31 December 2019, and well above the regulatory minimum of 100%.

The 3% increase in Required Stable Funding (RSF) over the half primarily reflects an increase in the Group's lending balances including both residential mortgages and business lending.

The 6% increase in Available Stable Funding (ASF) over the half reflects strong growth in Retail and SME deposits, an increase in Capital due to Tier 2 issuances, and the drawing down of the TFF.

### NSFR Movement (%)

1 This represents residential mortgages with a risk weighting of less than or equal to 35% under APRA standard APS 112 "Capital Adequacy: Standardised Approach to Credit Risk".

2 For the purpose of calculating NSFR, the residential mortgages that have been pledged as collateral for the TFF and CLF receive a lower RSF factor. The decrease in the Group's CLF allocation from \$45.8 billion to \$30.0 billion from 1 December 2020 has resulted in a higher RSF factor for those mortgages no longer eligible as collateral. The increase in the Group's TFF allowance in the current half has resulted in a lower RSF factor for mortgages that have been pledged as collateral for the TFF and therefore lowered the RSF and benefited NSFR. The impact from the two changes have broadly offset each other in the current half.

3 In addition to the lower RSF factor from the increased TFF allowance, the increased drawn TFF balances during the half have resulted in a higher ASF (benefit from increase in 3 year funding) and therefore a benefit to NSFR.

4 Primarily reflecting the impact on NSFR from volume growth in mortgages.

## Retail Banking Services

### Overview

Retail Banking Services provides simple, convenient and affordable banking and insurance products and services to personal and private bank customers, helping them manage their everyday banking needs, buy a home, protect their assets, or invest for the future. We support our customers through an extensive network of close to 940 branches, more than 2,700 ATMs, Australian-based customer call centres, leading online services and apps, as well as mobile banking specialists, private bankers and support teams. Retail Banking Services also includes the financial results of retail banking activities conducted under the Bankwest brand.

In order to better serve our customers, and align distribution channels and core product offerings, from July 2020 Commonwealth Private was transferred out of the Business Banking division and consolidated into the Retail Banking Services division.

From March 2020, the Aligned Advice related businesses (including Financial Wisdom Limited, Count Financial Limited and Commonwealth Financial Planning Limited-Pathways) were transferred out of the Wealth Management division and consolidated into the Retail Banking Services division. On 7 August 2019, CBA confirmed it would commence the assisted closure of Financial Wisdom Limited (Financial Wisdom) and allow Commonwealth Financial Planning Limited-Pathways (CFP-Pathways) advisers to transition to a self-licensing arrangement or move to another licensee. The Group ceased providing licensee services through CFP-Pathways in March 2020 and through Financial Wisdom in June 2020. On 1 October 2019, CBA completed the sale of Count Financial Limited (Count Financial) to CountPlus Limited resulting in Count Financial results being recognised for the period up to 1 October 2019. As Count Financial does not in itself constitute a major line of the Group's business, the financial results of Count Financial are treated as continuing operations and are included in the account lines of Retail Banking Services' performance.

On 16 December 2020, the Group announced that it had entered into an agreement to merge Aussie Home Loans with Lendi Pty Ltd (Lendi), an online home loan platform. Upon completion, the Group will retain a 45% shareholding in the combined business, with existing Lendi shareholders holding the remaining 55% shareholding. The sale is subject to Australian regulatory approvals, and is expected to complete by mid calendar year 2021. As Aussie Home Loans did not constitute a major line of the Group's business, the financial results of Aussie Home Loans are treated as continuing operations and included in the account lines of Retail Banking Services' performance.

## Financial Performance and Business Review <sup>1</sup>

### Half Year Ended December 2020 versus December 2019

Retail Banking Services cash net profit after tax for the half year ended 31 December 2020 was \$2,161 million, a decrease of \$94 million or 4% on the prior comparative period. The result was driven by a 1% decrease in total operating income, a 1% increase in operating expenses and a 16% increase in loan impairment expense.

#### Net Interest Income

Net interest income was \$4,925 million, an increase of \$65 million or 1% on the prior comparative period. This was driven by 3% growth in average interest earning assets, partly offset by a 2% decrease in net interest margin.

Net interest margin decreased by 5 basis points on the prior comparative period, reflecting:

- Lower deposit margins due to reduced earnings on transaction and savings deposits reflecting decreases in the cash rate, and lower earnings on investment deposits from lower swap rates (down 10 basis points);
- Lower earnings on equity due to the falling interest rate environment (down 6 basis points);
- Unfavourable portfolio mix (down 3 basis points) due to a reduction in higher margin consumer finance balances, more than offsetting the mix benefit from customers switching to at-call deposits from investment deposits; and
- Lower consumer finance margin due to a reduction in the proportion of credit card balances earning interest (down 1 basis point); partly offset by
- Higher home lending margins (up 7 basis points) reflecting repricing (up 22 basis points), partly offset by unfavourable home loan portfolio mix (down 7 basis points) with a shift to lower margin loans (interest only to principal and interest, variable to fixed, and investor to owner occupied), and increased competition (down 8 basis points); and

- Lower wholesale funding costs primarily due to a decrease in the spread between the three month bank bill swap rate and the three month overnight index swap rate (basis risk) notwithstanding the reduced exposure to basis risk due to strong growth in cash rate linked deposits and a mix shift towards fixed rate home loans (up 8 basis points).

#### Other Banking Income

Other banking income was \$633 million, a decrease of \$101 million or 14% on the prior comparative period, reflecting:

- Lower credit card income from reduced transaction volumes and loyalty redemptions, mainly driven by the impact of COVID-19;
- Lower foreign exchange income from international travel restrictions due to COVID-19; and
- Lower deposit income due to reduced international spend volumes and lower volume based transaction fees; partly offset by
- Payments received from AIA reflecting progress in meeting partnership milestones following the divestment of CommInsure Life.

#### Funds Management Income

Funds management income was \$15 million, a decrease of \$36 million or 71% on the prior comparative period. This was driven by the wind-down of the Aligned Advice businesses.

#### Operating Expenses

Operating expenses were \$2,186 million, an increase of \$29 million or 1% on the prior comparative period. This was primarily driven by increased financial assistance and home loan processing volumes, higher investment spend, increased customer remediation, and inflation, partly offset by lower credit card loyalty redemptions as a result of COVID-19 and productivity initiatives including workforce and branch optimisation.

<sup>1</sup> In order to provide an underlying view of the performance, the commentary below has been presented excluding the impact of the Mortgage Broking and General Insurance businesses for which commentary has been provided separately.

# Divisional Performance (continued)

## Retail Banking Services (continued)

### Financial Performance and Business Review (continued)

The number of full-time equivalent staff (FTE) decreased by 69 FTE on the prior comparative period, from 13,987 to 13,918 FTE, driven by frontline and head office optimisation, partly offset by increased call centre, financial assistance and risk resourcing.

Investment spend increased on the prior comparative period, driven by risk and compliance initiatives including Program of Action, Privacy and Open Banking.

The total operating expense to total operating income ratio was 39.2%, an increase of 100 basis points on the prior comparative period, mainly due to lower total operating income.

#### Loan Impairment Expense

Loan impairment expense was \$308 million, an increase of \$42 million or 16% on the prior comparative period. The result was driven by higher collective provisions mainly due to increased forward looking adjustments reflecting uncertainty in the economic outlook and emerging risks as a result of COVID-19, partly offset by lower consumer finance balances.

Loan impairment expense as a percentage of average gross loans and acceptances increased 2 basis points on the prior comparative period to 0.15%.

Home loan 90+ day arrears decreased by 6 basis points from 0.65% to 0.59%, driven by a combination of repayment deferrals, government support initiatives and decreases in the cash rate.

Consumer finance 90+ day arrears decreased by 9 basis points from 1.05% to 0.96% driven by an improvement in customer origination quality and government support initiatives.

#### Balance Sheet

Key spot balance sheet movements included:

- Home loan growth of \$20.8 billion or 5%, above system growth of 4%. Proprietary mix for CBA branded home loans decreased from 58% to 56% due to strong broker flows, with higher new business application volumes and continued focus on credit decisioning turn-around times;
- Consumer finance decrease of \$2.6 billion or 18%, broadly in line with system. The decrease in balances was driven by lower consumer demand for unsecured lending, lower spend due to COVID-19, and increased customer repayments following fiscal and regulatory income support measures; and
- Total deposits growth of \$26.6 billion or 10% (interest and non-interest bearing), above system growth. Growth was driven by transaction deposits (up 30% including non-interest bearing balances) primarily in existing customer balances and mortgage offset accounts. Savings deposits increased by 16%, partly offset by a decline in investment deposits (down 14%), reflecting increased liquidity in the economy and higher demand for at-call deposits in the low-rate environment.

#### Risk Weighted Assets

Risk weighted assets were \$165.0 billion, a decrease of \$2.1 billion or 1% on the prior comparative period.

- Credit risk weighted assets decreased \$1.3 billion or 1% driven by a reduction in consumer finance volumes and improved credit quality, partly offset by home loan volume growth; and
- Operational risk weighted assets decreased \$5.2 billion or 18%, mainly driven by the 50% reduction in APRA's operational risk regulatory capital add-on; partly offset by
- IRRBB risk weighted assets increased \$4.4 billion, mainly due to the increased size of the replicating portfolio from growth in cash rate linked deposits and changes in interest rate risk management positions.

Retail Banking Services generated \$2,146 million of organic capital<sup>1</sup> for the Group in the current half. This contributed 48 basis points to the Group's CET1 ratio.

#### General Insurance and Mortgage Broking

Cash net profit after tax was \$35 million, an increase of \$34 million on the prior comparative period. This result was driven by lower claims experience net of reinsurance recoveries in the General Insurance business, mainly due to the absence of bushfire related claims in the current half.

#### Half Year Ended December 2020 versus June 2020

Cash net profit after tax increased \$321 million or 17% on the prior half. The result was driven by flat operating income, flat operating expenses and a 60% decrease in loan impairment expense.

#### Net Interest Income

Net interest income increased by \$88 million or 2% on the prior half. This was driven by the benefit of two additional calendar days in the current half, a 1% increase in average interest earning assets, partly offset by a 1% decrease in net interest margin.

Net interest margin decreased 2 basis points on the prior half, reflecting:

- Lower deposit margins due to reduced earnings on transaction and savings deposits reflecting decreases in the cash rate (down 2 basis points);
- Lower earnings on equity due to the falling interest rate environment (down 4 basis points);
- Lower home lending margins (down 1 basis point) due to unfavourable home loan portfolio mix (down 6 basis points) with a shift to lower margin loans (interest only to principal and interest, and variable to fixed) and increased competition (down 4 basis points), partly offset by repricing (up 9 basis points);
- Lower consumer finance margins due to a reduction in the proportion of credit card balances earning interest (down 1 basis point); and

<sup>1</sup> Organic capital generation represents cash net profit after tax less the capital equivalent of the change in regulatory risk weighted assets used to generate those profits. Amounts quoted exclude the payment of dividends and the allocation of Operational RWA from the Enforceable Undertaking with APRA.

# Divisional Performance (continued)

## Retail Banking Services (continued)

### Financial Performance and Business Review (continued)

- Unfavourable portfolio mix (down 1 basis point) driven by a reduction in higher margin consumer finance balances, more than offsetting the mix benefit from customers switching to at-call deposits from investment deposits; partly offset by
- Lower wholesale funding costs primarily due to a decrease in the spread between the three month bank bill swap rate and the three month overnight index swap rate (basis risk) notwithstanding the reduced exposure to basis risk due to strong growth in cash rate linked deposits and a mix shift towards fixed rate home loans (up 7 basis points).

### Other Banking Income

Other banking income decreased \$76 million or 11% on the prior half, reflecting:

- Lower foreign exchange income from international travel restrictions due to COVID-19;
- Lower deposit income due to reduced volume based transaction fees; and
- Lower AIA partnership payments driven by one additional milestone occurring in the prior half; partly offset by
- Higher credit card interchange income from increased domestic spend due to seasonality and recovery of customer spend in the current half.

### Funds Management Income

Funds Management income was down \$1 million or 6% on the prior half. This was driven by the wind-down of the Aligned Advice businesses.

### Operating Expenses

Operating expenses increased \$8 million or flat on the prior half. This was driven by increased financial assistance and home loan processing volumes, higher investment spend, and inflation, partly offset by productivity initiatives including workforce and branch optimisation, and lower credit card loyalty redemptions.

The number of FTE decreased by 266 or 2% on the prior half, from 14,184 to 13,918 FTE, driven by frontline optimisation, partly offset by increased financial assistance and risk resourcing.

The operating expenses to total operating income ratio was 39.2%, flat to the prior half.

### Loan Impairment Expense

Loan impairment expense decreased \$460 million or 60% on the prior half. The result was driven by higher collective provision charges recognised in the prior half, mainly due to the impact of COVID-19, lower consumer finance balances and reduced arrears.

Loan impairment expense as a percentage of average gross loans and acceptances decreased by 22 basis points on the prior half to 0.15%.

Home loan 90+ day arrears decreased by 4 basis points from 0.63% to 0.59%, driven by a combination of repayment deferrals, government support initiatives and decreases in the cash rate.

Consumer finance 90+ day arrears decreased by 38 basis points from 1.34% to 0.96% driven by an improvement in customer origination quality and government support initiatives.

### Balance Sheet

Key spot balance sheet movements included:

- Home loan growth of \$12.8 billion or 3%, above system growth of 2%. Proprietary mix for CBA branded home loans decreased from 58% to 56% due to strong broker flows, with higher new business application volumes, and continued focus on credit decisioning turn-around times;
- Consumer finance decrease of \$0.5 billion or 4%, broadly in line with system. The decrease in balances was driven by lower consumer demand for unsecured lending, and increased customer repayments following fiscal and regulatory income support measures; and
- Total deposit growth of \$15.0 billion or 5% (interest and non-interest bearing), in line with system growth. Growth was driven by transaction deposits (up 16% including non-interest bearing balances) primarily in existing customer balances and mortgage offset accounts. Savings deposits increased by 8%, partly offset by a decline in investment deposits (down 9%) reflecting increased liquidity in the economy and higher demand for at-call deposits in the low-rate environment.

### Risk Weighted Assets

Risk weighted assets decreased \$2.2 billion or 1% on the prior half.

- Operational risk weighted assets decreased \$4.3 billion or 15%, mainly driven by the 50% reduction in APRA's operational risk regulatory capital add-on; partly offset by
- Credit risk weighted assets increased by \$0.8 billion or 1% primarily driven by home loan volume growth, partly offset by improved credit quality and a reduction in consumer finance volumes; and
- IRRBB risk weighted assets increased \$1.3 billion or 20%, mainly due to the increased size of the replicating portfolio from growth in cash rate linked deposits and changes in interest rate risk management positions.

### General Insurance and Mortgage Broking

Cash net profit after tax decreased \$11 million on the prior half. This result was driven by higher claims experience net of reinsurance recoveries in the General Insurance business mainly due to the October 2020 Queensland hail storms.

# Divisional Performance (continued)

## Business Banking

### Overview

Business Banking (formerly Business and Private Banking) serves the banking needs of business, corporate and agribusiness customers across the full range of financial services solutions. We also provide Australia's leading equities trading and margin lending services through our CommSec business. Business Banking includes the financial results of business banking activities conducted under the Bankwest brand.

From July 2020, Commonwealth Private was transferred out of the Business Banking division and consolidated into the Retail Banking Services division.

On 28 April 2020, the Group announced the sale of its subsidiary, Australian Investment Exchange Limited (AUSIEX), to Nomura Research Institute (NRI). The sale is subject to regulatory and other conditions, and is expected to complete in the first half of calendar year 2021. As AUSIEX does not constitute a major line of the Group's business, the financial results of AUSIEX are treated as continuing operations and included in the account lines of Business Banking performance.

<sup>1</sup> Comparative information has been restated to conform to presentation in the current period.

<sup>2</sup> Home loans are presented gross of \$11,257 million of mortgage offset balances (30 June 2020: \$9,260 million; 31 December 2019: \$9,362 million). These balances are required to be grossed up under accounting standards, but are netted down for the calculation of customer interest payments.

<sup>3</sup> Business loans include \$244 million of Cash Management Pooling Facilities (CMPF) (30 June 2020: \$243 million; 31 December 2019: \$359 million). Transaction Deposits include \$1,258 million of CMPF liabilities (30 June 2020: \$1,220 million; 31 December 2019: \$763 million). These balances are required to be grossed up under accounting standards, but are netted down for the calculation of customer interest payments and risk weighted assets.

<sup>4</sup> On 28 April 2020, CBA announced that it has entered into an agreement to sell AUSIEX to Nomura Research Institute. The assets related to the AUSIEX business have been reclassified as assets held for sale, of which, \$71 million are included within Other assets (30 June 2020: \$226m; 31 December 2019: Nil) and \$64 million are included within Non-lending interest earning assets (30 June 2020: \$23m; 31 December 2019: Nil).

<sup>5</sup> Transaction and Savings deposits include \$11,257 million of mortgage offset balances (30 June 2020: \$9,260 million; 31 December 2019: \$9,362 million).

<sup>6</sup> Includes \$93 million of liabilities related to the AUSIEX business that are classified as liabilities held for sale (30 June 2020: \$188 million; 31 December 2019: Nil).

<sup>7</sup> Average interest earning assets are presented net of mortgage offset balances, which reduce customer interest payments. Average interest earning assets are also used in the calculation of divisional net interest margin.

<sup>8</sup> Commercial troublesome and impaired assets only. Includes commercial and leasing products.

# Divisional Performance (continued)

## Business Banking (continued)

### Financial Performance and Business Review

#### Half Year Ended December 2020 versus December 2019

Business Banking cash net profit after tax for the half year ended 31 December 2020 was \$1,335 million, a decrease of \$60 million or 4% on the prior comparative period. The result was driven by flat total banking income, a 2% increase in operating expenses and a 22% increase in loan impairment expense.

#### Net Interest Income

Net interest income was \$2,603 million, a decrease of \$109 million or 4% on the prior comparative period. This was driven by a 4% decline in net interest margin and flat average interest earning assets.

Net interest margin decreased 14 basis points on the prior comparative period, reflecting:

- Lower deposit margins due to reduced earnings on transaction and savings deposits reflecting decreases in the cash rate (down 22 basis points);
- Lower business lending margins reflecting a 125 basis points reduction in loans linked to the cash rate to support our customers in response to COVID-19 (down 8 basis points);
- Lower earnings on equity due to the falling interest rate environment (down 6 basis points); and
- Lower consumer finance margins due to a reduction in the proportion of credit card balances earning interest (down 1 basis point); partly offset by
- Favourable portfolio mix (up 21 basis points) driven by strong growth in transaction and savings deposits, partly offset by a decline in higher margin consumer finance balances; and
- Higher home lending margins reflecting repricing, partly offset by increased competition (up 2 basis points).

#### Other Banking Income

Other banking income was \$831 million, an increase of \$101 million or 14% on the prior comparative period, reflecting:

- Higher equities income from increased trading volumes and an increase in active customer numbers; partly offset by
- Lower credit card and foreign exchange income mainly driven by a decline in transaction volumes due to COVID-19.

#### Operating Expenses

Operating expenses were \$1,242 million, an increase of \$29 million or 2% on the prior comparative period. This was primarily driven by continued investment in business banking product offerings and distribution capabilities, partly offset by productivity initiatives.

The number of full-time equivalent staff (FTE) increased by 401 or 9% on the prior comparative period, from 4,239 to 4,640 FTE, primarily driven by investment in frontline business bankers, CommSec call centre resources and remediation staff, partly offset by productivity initiatives.

Investment spend was primarily focused on further enhancing the customer experience with investment in digitisation and automation, improving the end-to-end processes for key products, and simplifying the product offering for business

customers, as well as investment in regulatory, risk and compliance initiatives.

The operating expense to total banking income ratio was 36.2%, an increase of 100 basis points on the prior comparative period, mainly driven by higher operating expenses.

#### Loan Impairment Expense

Loan impairment expense was \$286 million, an increase of \$52 million or 22% on the prior comparative period. This was driven by higher collective provisions due to increased forward looking adjustments reflecting uncertainty in the economic outlook and emerging industry sector risks, mainly due to the impact of COVID-19 (in particular Accommodation, Cafes and Restaurants, and Commercial Property). The increase was also driven by portfolio growth, and higher individual provisions driven by a small number of large exposures.

Loan impairment expense as a percentage of average gross loans and acceptances increased 5 basis points on the prior comparative period to 0.31%.

Troublesome and impaired assets (TIA) increased 6% on the prior comparative period, mainly due to lending volume growth. TIA as a percentage of total committed exposure (TCE) decreased 15 basis points to 3.63%, due to the improved asset quality of the portfolio driven by a combination of high quality volume growth from selective tightening of origination criteria in certain industries, and active management of troublesome and impaired assets primarily across the Agriculture, Business Services and Manufacturing industries.

#### Balance Sheet

Key spot balance sheet movements included:

- Business loan growth of \$6.1 billion or 7%, above system, reflecting growth primarily across the Property Investment, Agriculture and Health industries, while continuing to support Australian businesses with over 12,100 loans funded under the Government's SME Guarantee Scheme;
- Home loan decrease of \$0.1 billion or flat on the prior comparative period, below system growth of 4%, driven by lower investor home lending, partly offset by growth in owner occupied; and
- Total deposits growth (interest and non-interest bearing) of \$36.6 billion or 25%, above system growth of 19%. Growth was driven by higher transaction (up 41%) and savings (up 32%) balances, partly offset by a decrease in investment deposits (down 9%), reflecting increased liquidity in the economy and higher demand for at-call deposits in the low-rate environment.

#### Risk Weighted Assets

Risk weighted assets were \$138.0 billion, an increase of \$6.6 billion or 5% on the prior comparative period.

- Credit risk weighted assets increased \$5.5 billion or 5% driven by lending volume growth, partly offset by credit quality; and
- IRRBB risk weighted assets increased \$3.0 billion, mainly due to the increased size of the replicating portfolio from growth in cash rate linked deposits and changes in interest rate risk management positions; partly offset by

# Divisional Performance (continued)

## Business Banking (continued)

### Financial Performance and Business Review (continued)

- Operational risk weighted assets decreased \$1.9 billion or 12%, mainly driven by the 50% reduction in APRA's operational risk regulatory capital add-on.

Business Banking generated \$896 million of organic capital<sup>1</sup> for the Group in the current half. This contributed 20 basis points to the Group's CET1 ratio.

#### Half Year Ended December 2020 versus June 2020

Cash net profit after tax increased \$256 million or 24% on the prior half. The result was driven by a 3% increase in total banking income, flat operating expenses and a 48% decrease in loan impairment expense.

#### Net Interest Income

Net interest income increased \$24 million or 1% on the prior half. This was driven by the benefit of two additional calendar days in the current half, partly offset by a 1% decline in net interest margin. Average interest earning assets were flat compared to the prior half.

Net interest margin decreased 2 basis points, reflecting:

- Lower deposit margins due to reduced earnings on transaction and savings balances reflecting decreases in the cash rate (down 7 basis points);
- Lower home lending margins due to increased competition and shift towards lower margin loans, partly offset by repricing (down 2 basis points);
- Lower earnings on equity due to the falling interest rate environment (down 2 basis points);
- Lower consumer finance margins due to a reduction in the proportion of credit card balances earning interest (down 1 basis point); and
- Lower business lending margins reflecting a 125 basis points reduction in loans linked to the cash rate to support our customers in response to COVID-19 (down 2 basis points); partly offset by
- Favourable portfolio mix (up 12 basis points) driven by strong growth in transaction and savings deposits, partly offset by a decline in higher margin consumer finance balances.

#### Other Banking Income

Other banking income increased \$72 million or 9% on the prior half, driven by:

- Higher merchants income mainly due to the non-recurrence of COVID-19 fee waivers in the prior half and improved volumes;
- Higher equities income from increased trading volumes and an increase in active customer numbers; and
- Higher business lending fee income reflecting volume growth.

#### Operating Expenses

Operating expenses decreased \$3 million or flat on the prior half. This was primarily driven by continued investment in business banking product offerings and distribution capabilities, offset by productivity initiatives and lower IT expenses.

The number of FTE increased by 230 or 5% on the prior half, from 4,410 to 4,640 FTE, primarily driven by investment in frontline business bankers and remediation staff, partly offset by productivity initiatives.

The operating expense to total banking income ratio was 36.2%, a decrease of 110 basis points on the prior half due to higher banking income.

#### Loan Impairment Expense

Loan impairment expense decreased \$264 million or 48% on the prior half. This was driven by higher collective provision charges recognised in the prior half, mainly due to the impact of COVID-19.

Loan impairment expense as a percentage of average gross loans and acceptances decreased 31 basis points on the prior half to 0.31%.

Troublesome and impaired assets decreased 1% on the prior half. TIA as a percentage of total committed exposure decreased 26 basis points to 3.63%, driven by business lending volume growth. Asset quality of the portfolio improved due to a combination of high quality volume growth from selective tightening of origination criteria in certain industries, and active management of troublesome and impaired assets primarily across the Agriculture, Business Services and Manufacturing industries.

#### Balance Sheet

Key spot balance sheet movements included:

- Business loan growth of \$3.9 billion or 4%, above system, reflecting growth primarily across the Property Investment, Health and Transport industries, while continuing to support Australian businesses with 4,800 additional loans funded under the Government's SME Guarantee Scheme compared to the prior half;
- Home loan decrease of \$0.2 billion or flat, below system growth of 2%, driven by lower investor home lending, partly offset by growth in owner occupied; and
- Total deposits growth (interest and non-interest bearing) of \$22.4 billion or 14%, above system growth of 6%. Growth was driven by higher transaction (up 20%), savings (up 12%) and investment deposits (up 6%), reflecting increased liquidity in the economy and higher demand for at-call deposits in the low-rate environment.

#### Risk Weighted Assets

Risk weighted assets increased \$1.7 billion or 1% on the prior half.

- Credit risk weighted assets increased \$2.2 billion or 2% driven by lending volume growth, partly offset by improved credit quality and methodology changes; and
- IRRBB risk weighted assets increased \$1.0 billion or 22%, mainly due to the increased size of the replicating portfolio from growth in cash rate linked deposits and changes in interest rate risk management positions; partly offset by
- Operational risk weighted assets decreased \$1.5 billion or 10%, mainly driven by the 50% reduction in APRA's operational risk regulatory capital add-on.

<sup>1</sup> Organic capital generation represents cash net profit after tax less the capital equivalent of the change in regulatory risk weighted assets used to generate those profits. Amounts quoted exclude the payment of dividends and the allocation of Operational RWA from the Enforceable Undertaking with APRA.

# Divisional Performance (continued)

## Institutional Banking and Markets (continued)

### Financial Performance and Business Review

#### Half Year Ended December 2020 versus December 2019

Institutional Banking and Markets cash net profit after tax for the half year ended 31 December 2020 was \$423 million, a decrease of \$42 million or 9% on the prior comparative period. The result was driven by a 3% increase in total banking income, a 2% decrease in operating expenses and a \$110 million increase in loan impairment expense.

#### Net Interest Income

Net interest income was \$691 million, an increase of \$15 million or 2% on the prior comparative period. The result was driven by a 6% increase in average interest earning assets, partly offset by a 3% decrease in net interest margin.

Net interest margin decreased 3 basis points, reflecting:

- Lower earnings on equity due to the falling interest rate environment (down 6 basis points);
- Unfavourable portfolio mix impact from growth in lower margin non-lending interest earning assets (down 4 basis points);
- Reduced deposit revenue reflecting decreases in the cash rate (down 4 basis points); partly offset by
- Higher Global Markets net interest income due to wider bond spreads (offset in other banking income) from a fall in short-end AUD interest rates and an increase in commodities margins (up 11 basis points).

#### Other Banking Income

Other banking income was \$546 million, an increase of \$24 million or 5% on the prior comparative period, reflecting:

- Higher Commodities income from precious metal inventory financing and higher Global Markets trading income driven by gains in the Fixed Income and Rates portfolios; and
- Higher Institutional lending commitment and line fees due to lower utilisation from reduced client financing activities as a result of COVID-19; partly offset by
- The impairment of aircraft which are owned by the Group and leased to various airlines in the Structured Asset Finance portfolio; and
- Lower Global Markets sales performance driven by reduced client demand for hedging activities mainly due to lower volatility in the low-rate environment.

#### Operating Expenses

Operating expenses were \$485 million, a decrease of \$9 million or 2% on the prior comparative period. This was driven by productivity initiatives and lower business travel expenses due to COVID-19, partly offset by higher investment spend.

The number of full-time equivalent staff (FTE) increased by 21 or 2% on the prior comparative period, from 1,153 to 1,174 FTE. The increase was driven by higher risk and compliance staff, partly offset by productivity initiatives.

Investment spend focused on further strengthening the operational risk and compliance framework, upgrading system infrastructure and responding to new regulatory requirements.

The operating expenses to total banking income ratio was 39.2%, a decrease of 200 basis points on the prior

comparative period, mainly driven by higher total banking income.

#### Loan Impairment Expense

Loan impairment expense was \$177 million, an increase of \$110 million on the prior comparative period. This was driven by higher collective provisions mainly due to increased forward looking adjustments reflecting uncertainty in the economic outlook and emerging industry sector risks, in particular Aviation, mainly due to COVID-19, partly offset by lower individual provisions.

Loan impairment expense as a percentage of average gross loans and acceptances increased 24 basis points on the prior comparative period to 0.38%.

Asset quality of the portfolio has deteriorated, with the percentage of the book rated as investment grade decreasing by 160 basis points to 86.7% mainly driven by downgrades of exposures, in particular within the Aviation and Entertainment, Leisure and Tourism industries.

#### Balance Sheet

Key spot balance sheet movements included:

- Lending balance decrease of \$5.7 billion or 6%, primarily driven by lower institutional lending due to a continued focus on risk adjusted returns in a highly liquid capital market, and a decrease in pooled facilities;
- Non-lending interest earning assets growth of \$6.9 billion or 15%, driven by higher government securities from increased bond issuances, higher sale and repurchase agreements and higher commodities financing balances in the Global Markets business;
- Other assets and non-interest bearing liabilities growth of \$12.9 billion or 61% and \$8.2 billion or 47% respectively, mainly driven by higher precious metals inventory balances in Other assets and the revaluation of derivative assets and derivative liabilities due to foreign currency and interest rate volatility. Derivative assets and derivative liabilities are required to be grossed up under accounting standards;
- Total interest bearing deposits growth of \$17.6 billion or 14% (\$27.9 billion from at-call deposits), reflecting increased liquidity in the economy and customer preference for at-call deposits in the low-rate environment; and
- Due to other financial institutions decrease of \$7.9 billion or 54%, due to lower central bank deposits reflecting reduced demand for short-term funding.

#### Risk Weighted Assets

Risk weighted assets were \$88.3 billion, an increase of \$3.8 billion or 5% on the prior comparative period.

- Traded market risk weighted assets increased \$5.8 billion; and
- IRRBB risk weighted assets increased \$1.7 billion, mainly due to changes in interest rate risk management positions; partly offset by
- Operational risk weighted assets decreased by \$2.0 billion or 24%, mainly driven by the 50% reduction in APRA's operational risk regulatory capital add-on; and

# Divisional Performance (continued)

## Institutional Banking and Markets (continued)

### Financial Performance and Business Review (continued)

- Credit risk weighted assets decreased \$1.7 billion or 2%, primarily driven by FX.

Institutional Banking and Markets generated \$841 million of organic capital<sup>1</sup> for the Group in the current half. This contributed 19 basis points to the Group's CET1 ratio.

#### Half Year Ended December 2020 versus June 2020

Cash net profit after tax increased \$255 million on the prior half. The result was driven by a 15% increase in total banking income, an 8% decrease in operating expenses, and a 38% decrease in loan impairment expense.

#### Net Interest Income

Net interest income decreased \$16 million or 2% on the prior half. The result was driven by a 4% decrease in net interest margin, partly offset by the impact of two additional calendar days in the current half. Average interest earning assets were flat on the prior half.

Net interest margin decreased 4 basis points, reflecting:

- Unfavourable portfolio mix impact from growth in lower margin non-lending interest earning assets (down 4 basis points);
- Lower earnings on equity due to the falling interest rate environment (down 2 basis points); and
- Reduced deposits revenue mainly driven by decreases in the cash rate (down 2 basis points); partly offset by
- Higher Structured Asset Finance revenue driven by the non-recurrence of a reduction in the estimated residual value of shipping vessels under finance leases in the prior half (up 2 basis points); and
- Higher Global Markets net interest income due to wider bond spreads (offset in other banking income) from a fall in short-end AUD interest rates (up 2 basis points).

#### Other Banking Income

Other banking income increased of \$175 million or 47% on the prior half, reflecting:

- Higher Commodities income from precious metal inventory financing and higher Global Markets trading income driven by gains in the Fixed Income and Rates portfolios; and
- Higher Structured Asset Finance revenue due to lower impairment of aircraft operating leases in the current half;
- Favourable derivative valuation adjustments; and
- Higher Institutional lending commitment and line fees due to lower utilisation from reduced financing activities as a result of COVID-19; partly offset by
- Lower Global Markets sales performance driven by reduced client demand for hedging activities due to lower volatility in the low-rate environment.

#### Operating Expenses

Operating expenses decreased \$42 million or 8% on the prior half. This was primarily driven by favourable FX, lower IT expenses, productivity initiatives, and lower investment spend.

The number of FTE increased by 5 on the prior half, from 1,169 to 1,174 FTE.

The operating expenses to total banking income ratio was 39.2%, a decrease from 48.9% in the prior half, driven by higher total banking income and lower operating expenses.

#### Loan Impairment Expense

Loan impairment expense decreased \$109 million or 38% on the prior half. This was driven by higher collective and individually assessed provision charges recognised in the prior half, mainly due to the impact of COVID-19, partly offset by an increase in forward looking adjustments for the Aviation sector in the current half.

Loan impairment expense as a percentage of average gross loans and acceptances decreased 20 basis points on the prior half to 0.38%.

Asset quality of the portfolio has improved, with the percentage of the book rated as investment grade increasing by 20 basis points to 86.7% mainly due to increased exposures in the Finance & Insurance sector, partly offset by downgrades in the Aviation and Entertainment, Leisure and Tourism industries mainly due to COVID-19.

#### Balance Sheet

Key spot balance sheet movements included:

- Lending balance decrease of \$6.7 billion or 7%, primarily driven by lower institutional lending due to a continued focus on risk adjusted returns in a highly liquid capital market, and a decrease in pooled facilities;
- Non-lending interest earning assets growth of \$4.6 billion or 10%, driven by higher sale and repurchase agreements and higher commodities financing balances in the Global Markets business;
- Other assets and Non-interest bearing liabilities growth of \$5.2 billion or 18% and \$0.4 billion or 2% respectively, mainly driven by higher precious metals inventory balances in Other assets, and the revaluation of derivative liabilities due to foreign currency and interest rate volatility;
- Total interest bearing deposits decrease of \$1.1 billion or 1%, reflecting reduction in savings and term deposits, partly offset by an increase in transaction deposits; and
- Due to other financial institutions decrease of \$2.8 billion or 30%, from lower central bank deposits reflecting reduced demand for short-term funding.

#### Risk Weighted Assets

Risk weighted assets decreased \$5.1 billion or 5% on the prior half.

- Credit risk weighted assets decreased \$2.1 billion or 3%;
- Operational risk weighted assets decreased by \$1.9 billion or 23%, mainly driven by the 50% reduction in APRA's operational risk regulatory capital add-on; and
- Traded market risk weighted assets decreased by \$1.5 billion or 14%; partly offset by
- IRRBB risk weighted assets increased \$0.4 billion or 24%, mainly due to changes in interest rate risk management positions.

<sup>1</sup> Organic capital generation represents cash net profit after tax less the capital equivalent of the change in regulatory risk weighted assets used to generate those profits. Amounts quoted exclude the payment of dividends and the allocation of Operational RWA from the Enforceable Undertaking with APRA.

# Divisional Performance (continued)

## New Zealand

### Overview

New Zealand primarily includes the banking and funds management businesses operating under the ASB brand. ASB provides a range of banking, wealth and insurance products and services to its personal, business, rural and corporate customers in New Zealand.

ASB serves the financial needs of its customers across multiple channels including an extensive network of branches, ATMs, contact centres, digital platforms and relationship managers.

On 2 December 2019, ASB completed the sale of its fund administration businesses Aegis Limited and Investment Custodial Services Limited (collectively known as "Aegis"). As Aegis does not itself constitute a major line of the Group's business, the financial results of Aegis are treated as continuing operations and included in the account lines of New Zealand's performance.

## Financial Performance and Business Review

### Half Year Ended December 2020 versus December 2019

New Zealand cash net profit after tax <sup>1</sup> for the half year ended 31 December 2020 was NZD587 million, a decrease of NZD6 million or 1% on the prior comparative period. The result was driven by a 1% increase in total operating income, a 3% increase in operating expenses and a 36% increase in loan impairment expense.

New Zealand generated AUD402 million of organic capital <sup>2</sup> for the Group in the current half. This contributed 9 basis points to the Group's CET1 ratio.

### Half Year Ended December 2020 versus June 2020

New Zealand cash net profit after tax <sup>1</sup> for the half year ended 31 December 2020 increased NZD269 million or 85% on the prior half. The result was driven by a 6% increase in total operating income, a 9% decrease in operating expenses and an 89% decrease in loan impairment expense.

1 The New Zealand result incorporates ASB and allocated CBA capital charges and costs. The CBA Branch results relating to the Institutional Banking and Markets business in New Zealand are not included.

2 Organic capital generation represents cash net profit after tax less the capital equivalent of the change in regulatory risk weighted assets (in accordance with APRA requirements) used to generate those profits. Amounts quoted exclude the payment of dividends.

# Divisional Performance (continued)

## New Zealand (continued)

### Financial Performance and Business Review

#### Half Year Ended December 2020 versus December 2019

ASB cash net profit after tax for the half year ended 31 December 2020 was NZD614 million, a decrease of NZD6 million or 1% on the prior comparative period. The result was driven by a 1% increase in total operating income, a 3% increase in operating expenses and a 36% increase in loan impairment expense.

#### Net Interest Income

Net interest income was NZD1,107 million, an increase of NZD39 million or 4% on the prior comparative period. The increase was driven by 6% growth in average interest earning assets, partly offset by a 3% decrease in net interest margin.

Net interest margin decreased 6 basis points, reflecting:

- Lower deposit margins due to reduced earnings on transaction and savings deposits reflecting decreases in the cash rate (down 19 basis points); and
- Lower earnings on equity due to the falling interest rate environment (down 5 basis points); partly offset by
- Lower wholesale funding costs due to reduced wholesale funding spreads (up 9 basis points);
- Favourable portfolio mix (up 7 basis points) driven by strong growth in transaction and savings deposits (up 11 basis points), partly offset by unfavourable lending mix driven by proportionally more lower margin home loan balances relative to higher margin consumer finance and business lending balances (down 4 basis points); and
- Higher business and rural lending margins (up 2 basis points).

#### Other Banking Income

Other banking income was NZD224 million, a decrease of NZD23 million or 9% on the prior comparative period, reflecting:

- Lower Markets income due to lower trading gains and lower sales income from reduced client demand;
- Lower card volumes primarily driven by a decline in international spend due to COVID-19; and
- Lower insurance commission income; partly offset by
- Higher equities fee income driven by increased trading volumes due to increased market volatility.

#### Funds Management Income

Funds management income was NZD73 million, a decrease of NZD3 million or 4% on the prior comparative period, driven by:

- Lower income due to the completion of the sale of Aegis on 2 December 2019; partly offset by
- Higher average Assets Under Management (AUM) (up 10%), reflecting net inflows and favourable investment markets.

#### Operating Expenses

Operating expenses were NZD521 million, an increase of NZD13 million or 3% on the prior comparative period. The increase was driven by higher IT costs from investment related spend and software licencing, and increased staff costs primarily driven by higher average full-time equivalent staff (FTE), partly offset by lower credit card loyalty redemptions and lower travel and entertainment due to COVID-19.

The number of FTE increased by 307 or 6% on the prior comparative period from 5,074 to 5,381 FTE, primarily driven by an increase in project related FTE and risk and compliance staff.

Investment spend continues to focus on strengthening the operational risk and compliance framework, customer centric initiatives and enhancing technology platforms.

The operating expense to total operating income ratio for ASB was 37.1%, an increase of 60 basis points on the prior comparative period mainly driven by growth in operating expenses.

#### Loan Impairment Expense

Loan impairment expense was NZD30 million, an increase of NZD8 million or 36% on the prior comparative period. This was driven by higher collective provisions in the business portfolio mainly due to increased forward looking adjustments reflecting uncertainty in the economic outlook and emerging industry sector risks, in particular Commercial Property, Accommodation, and Cafes and Restaurants, mainly due to the impact of COVID-19, partly offset by lower consumer collective provision charges in the current half.

Home loan 90+ days arrears increased 4 basis points, from 0.14% to 0.18%, and consumer finance 90+ days arrears increased 15 basis points, from 0.59% to 0.74%, reflecting the impact of COVID-19.

#### Balance Sheet

Key spot balance sheet movements included:

- Home loan growth of NZD5.6 billion or 9%, above system growth of 8%<sup>1</sup>, with continued customer preference for fixed rate loans;
- Business loan growth of NZD0.5 billion or 3%, above system decline of 4%<sup>1,2</sup>;
- Rural loan growth was flat, above system decline of 1%<sup>1,2</sup>; and
- Total deposit growth of NZD7.3 billion or 11% (interest and non-interest bearing), above system growth of 10%<sup>1</sup>, with a customer preference for transaction and savings deposits.

#### Risk Weighted Assets<sup>3</sup>

Risk weighted assets were NZD58.4 billion, an increase of NZD1.6 billion or 3% on the prior comparative period.

- Credit risk weighted assets increased NZD0.2 billion or flat, driven by an increase in lending volumes, partly offset by an improvement in credit risk estimates and methodology changes;
- Operational risk weighted assets increased NZD0.8 billion or 18%; and
- Market risk weighted assets increased NZD0.6 billion or 21%.

ASB generated AUD436 million of organic capital<sup>4</sup> for the Group in the current half. This contributed 10 basis points to the Group's CET1 ratio.

- System growth rates have been annualised based on the growth rate for the eleven months to November 2020, due to a delay in the publishing of RBNZ December 2020 data.
- System growth rates have been normalised to exclude the impact of ANZ's sale of UDC Finance Limited in September 2020.
- Risk weighted assets reflect the New Zealand dollar amount calculated in accordance with RBNZ requirements.
- Organic capital generation represents cash net profit after tax less the capital equivalent of the change in regulatory risk weighted assets (in accordance with APRA requirements) used to generate those profits. Amounts quoted exclude the payment of dividends.

# Divisional Performance (continued)

## New Zealand (continued)

### Financial Performance and Business Review (continued)

#### Half Year Ended December 2020 versus June 2020

Cash net profit after tax increased NZD261 million or 74% on the prior half. The result was driven by a 5% increase in total operating income, a 9% decrease in operating expenses and an 89% decrease in loan impairment expense.

#### Net Interest Income

Net interest income increased NZD45 million or 4% on the prior half. This result was driven by 3% growth in average interest earning assets and the benefit of two additional calendar days in the current half.

Net interest margin was flat, reflecting:

- Favourable portfolio mix (up 7 basis points) driven by strong growth in transaction and savings deposits (up 8 basis points), partly offset by unfavourable lending mix driven by proportionally more lower margin home loan balances relative to higher margin consumer finance and business lending balances (down 1 basis point);
- Lower wholesale funding costs due to reduced wholesale funding spreads (up 7 basis points); and
- Higher business and rural lending margins (up 2 basis points); offset by
- Lower deposit margins due to reduced earnings on transaction and savings deposits reflecting decreases in the cash rate (down 14 basis points); and
- Lower earnings on equity due to the falling interest rate environment (down 2 basis points).

#### Other Banking Income

Other banking income increased NZD11 million or 5% on the prior half, reflecting higher card and merchant volumes primarily due to a seasonal increase in spend from the December holiday season.

#### Funds Management Income

Funds management income increased NZD6 million or 9% on the prior half, driven by higher average AUM (up 7%), reflecting net inflows and favourable investment markets.

#### Operating Expenses

Operating expenses decreased NZD49 million or 9% on the prior half. The decrease was driven by lower staff expenses primarily due to the non-recurrence of a prior half provision relating to historical holiday pay and a decrease in investment spend.

The number of FTE increased by 259 or 5% on the prior half from 5,122 to 5,381 FTE, primarily driven by growth in project related staff.

The operating expenses to total operating income ratio was 37.1%, a decrease from 42.5% in the prior half, driven by higher operating income and lower operating expenses.

#### Loan Impairment Expense

Loan impairment expense decreased NZD254 million or 89% on the prior half. This was driven by higher collective and individually assessed provision charges recognised in the prior half, mainly due to the impact of COVID-19.

Home loan 90+ days arrears decreased 16 basis points, from 0.34% to 0.18%, and consumer finance 90+ days arrears decreased 39 basis points, from 1.13% to 0.74%, reflecting positive customer behaviour, and the resumption of collection and write-off activity post the COVID-19 lockdown.

#### Balance Sheet

Key spot balance sheet movements included:

- Home loan growth of NZD4.1 billion or 7%, above system growth of 5%<sup>1</sup>, with continued customer preference for fixed rate loans;
- Business loan growth of NZD0.5 billion or 3%, above system decline of 4%<sup>1,2</sup>;
- Rural loan growth of NZD0.1 billion or 1%, above system decline of 1%<sup>1,2</sup>; and
- Total deposit growth of NZD2.1 billion or 3% (interest and non-interest bearing), below system growth of 4%<sup>1</sup>, with a customer preference for transaction and savings deposits.

#### Risk Weighted Assets<sup>3</sup>

Risk weighted assets increased NZD1.8 billion or 3% on the prior half.

- Credit risk weighted assets increased NZD0.7 billion or 1% primarily driven by an increase in residential lending volumes, partly offset by a reduction in sovereign risk weighted assets due to a change in credit risk estimates applied to highly rated sovereign counterparties;
- Operational risk weighted assets increased NZD0.9 billion or 20%; and
- Market risk weighted assets increased NZD0.2 billion or 6%.

1 System growth rates for the half year ended December 2020 are based on the run-rated growth rate for the five months to November 2020, due to a delay in the publishing of RBNZ December 2020 data.

2 System growth rates have been normalised to exclude the impact of ANZ's sale of UDC Finance Limited in September 2020.

3 Risk weighted assets reflect the New Zealand dollar amount calculated in accordance with RBNZ requirements.

# Divisional Performance (continued)

## International Financial Services

### Overview

The continuing operations of International Financial Services (IFS) include the Indonesian retail and business banking operations (PT Bank Commonwealth), and minority investments in China (Bank of Hangzhou and Qilu Bank) and Vietnam (Vietnam International Bank).

On 4 June 2020 CBA completed the sale of its 80% interest in its Indonesian life insurance business PT Commonwealth Life (PTCL) to FWD Group.

On 10 December 2020 CBA completed the sale of its 37.5% equity interest in BoCommLife Insurance Company Limited (BoCommLife) to MS&AD Insurance Group Holdings (MS&AD) <sup>1</sup>.

The IFS results have been prepared on a continuing operations basis excluding the financial results of BoCommLife and PTCL (discontinued operations). The financial results of the discontinued operations are excluded from the account lines of the IFS performance and reported as a single cash net profit after tax line item.

<sup>1</sup> MS&AD Insurance Group Holdings is the ultimate parent company of Mitsui Sumitomo Insurance Co. Ltd.

<sup>2</sup> Comparative information has been restated to conform to presentation in the current period.

<sup>3</sup> IFS does not include the Business Banking and Institutional Banking and Markets businesses in Asia.

<sup>4</sup> Discontinued operations include BoCommLife and PTCL. Cash net profit after tax from discontinued operations decreased by \$15 million against the prior comparative period and \$4 million against the prior half due to the completion of the sale of PTCL on 4 June 2020.

<sup>5</sup> Risk weighted assets include discontinued operations.

# Divisional Performance (continued)

## International Financial Services (continued)

### Financial Performance and Business Review

#### Half Year Ended December 2020 versus December 2019

International Financial Services (IFS) cash net profit after tax for the half year ended 31 December 2020 was \$126 million, an increase of \$14 million or 13% on the prior comparative period. Excluding the contribution from discontinued operations, cash net profit after tax was \$127 million, an increase of \$29 million or 30% on the prior comparative period. The result was driven by a 3% increase in total banking income, a 19% decrease in operating expenses and a 57% decrease in loan impairment expense.

In order to provide an underlying view of the performance, the commentary below has been presented excluding the impact from discontinued operations (BoCommLife and PTCL).

#### Net Interest Income

Net interest income was \$62 million, a decrease of \$13 million or 17% on the prior comparative period. Excluding the impact of FX, net interest income decreased by \$9 million or 12% driven by lower earnings on equity due to the falling interest rate environment and a 13% decrease in average lending balances in PT Bank Commonwealth (PTBC) primarily due to the impact of COVID-19, partly offset by lower funding costs.

#### Other Banking Income

Other banking income was \$155 million, an increase of \$20 million or 15% on the prior comparative period, driven by higher net profits from minority investments.

#### Operating Expenses

Operating expenses were \$62 million, a decrease of \$15 million or 19% on the prior comparative period. Excluding the impact of FX, operating expenses decreased by \$9 million or 12% mainly as a result of productivity and simplification initiatives.

The number of full-time equivalent staff (FTE) decreased by 76 or 6% on the prior comparative period, from 1,340 to 1,264 FTE, driven by productivity and simplification initiatives.

#### Loan Impairment Expense

Loan impairment expense was \$9 million, a decrease of \$12 million or 57% on the prior comparative period. This was driven by lower collective provisions in PTBC due to improved collections and recoveries.

Loan impairment expense as a percentage of average gross loans and acceptances decreased by 128 basis points on the prior comparative period to 1.49%.

#### Balance Sheet

Spot lending balances decreased by 27% (19% excluding FX) due to lower customer demand and continued focus on credit quality in PTBC.

#### Risk Weighted Assets<sup>1</sup>

Risk weighted assets were \$2.9 billion, an increase of \$0.3 billion or 10% on the prior comparative period.

- IRRBB risk weighted assets increased \$0.6 billion; partly offset by
- Credit risk weighted assets decreased \$0.2 billion or 13%; and
- Operational risk weighted assets decreased \$0.1 billion or 13%.

IFS generated \$133 million of organic capital<sup>2</sup> for the Group in the current half. This contributed 3 basis points to the Group's CET1 ratio.

#### Half Year Ended December 2020 versus June 2020

Cash net profit after tax increased \$94 million on the prior half. Excluding the contribution from discontinued operations, cash net profit after tax increased \$98 million on the prior half. The result was driven by a 42% increase in total banking income, a 13% decrease in operating expenses and a 76% decrease in loan impairment expense.

In order to provide an underlying view of the performance, the commentary below has been presented excluding the impact from discontinued operations (BoCommLife and PTCL).

#### Net Interest Income

Net interest income decreased \$9 million or 13% on the prior half. Excluding the impact of FX, net interest income decreased by \$5 million or 7%, driven by lower earnings on equity due to the falling interest rate environment and a 9% decrease in average lending balances in PTBC primarily due to COVID-19, partly offset by lower funding costs.

#### Other Banking Income

Other banking income increased \$73 million or 89% on the prior half, driven by higher net profits from minority investments.

#### Operating Expenses

Operating expenses decreased \$9 million or 13% on the prior half. Excluding the impact of FX, operating expenses decreased by \$3 million or 4% as a result of productivity and simplification initiatives in PTBC.

The number of FTE increased by 17 or 1% on the prior half, from 1,247 to 1,264 FTE mainly due to growth in technology and operations staff in PTBC, partly offset by productivity initiatives.

<sup>1</sup> Risk Weighted Assets include discontinued operations.

<sup>2</sup> Organic capital generation represents cash net profit after tax less the capital equivalent of the change in regulatory risk weighted assets used to generate those profits. Amounts quoted exclude the payment of dividends and the allocation of Operational RWA from the Enforceable Undertaking with APRA.

# Divisional Performance (continued)

## International Financial Services (continued)

### Financial Performance Business Review (continued)

#### Loan Impairment Expense

Loan impairment expense decreased \$29 million or 76% on the prior half. This was driven by higher collective and individually assessed provisions recognised in the prior half, mainly due to the impact of COVID-19.

Loan impairment expense as a percentage of average gross loans and acceptances decreased by 372 basis points on the prior half.

#### Balance Sheet

Spot lending balances decreased by 19% (10% excluding FX) due to lower customer demand and continued focus on credit quality in PTBC.

#### Risk Weighted Assets <sup>1</sup>

Risk weighted assets were \$2.9 billion, a decrease of \$0.1 billion or 2% on the prior half.

<sup>1</sup> Risk Weighted Assets include discontinued operations.

# Divisional Performance (continued)

## Corporate Centre

### Overview

Corporate Centre includes the results of unallocated Bank support functions such as Treasury, Investor Relations, Group Strategy, Legal and Corporate Affairs. It also includes Bank-wide elimination entries arising on consolidation, centrally raised provisions and other unallocated revenue and expenses.

Treasury is primarily focused on the management of the Bank's interest rate risk, funding and liquidity requirements, and management of the Bank's capital.

The Treasury function includes:

- **Portfolio Management:** manages the interest rate risk of the Bank's non-traded Balance Sheet using transfer pricing to consolidate risk into Treasury, and hedging the residual mismatch between assets and liabilities using swaps, futures and options;
- **Group Funding and Liquidity:** manages the Bank's long-term and short-term wholesale funding requirements, and the Bank's prudent liquidity requirements; and
- **Capital and Regulatory Strategy:** manages the Bank's capital requirements.

<sup>1</sup> Comparative information has been restated to conform to presentation in the current period.

## Financial Performance and Business Review

### Half Year Ended December 2020 versus December 2019

Corporate Centre cash net loss after tax for the half year ended 31 December 2020 was \$731 million, an increase of \$341 million or 87% on the prior comparative period. Excluding the contribution from discontinued operations, cash net loss after tax was \$737 million, an increase of \$350 million or 90% on the prior comparative period. The result was primarily driven by a 90% decrease in total operating income, a 50% increase in operating expenses and an 88% increase in loan impairment expense.

### Net Interest Income

Net interest income was \$93 million, an increase of \$29 million or 45% on the prior comparative period. This was primarily driven by higher earnings from the liquids portfolio mainly due to growth in liquid balances.

### Other Banking Income

Other banking income decreased \$167 million on the prior comparative period. This was mainly driven by the upfront costs related to the Group's term debt buyback program (of approximately \$60 million) and lower gains from the sale of liquid assets.

# Divisional Performance (continued)

## Corporate Centre (continued)

### Financial Performance and Business Review (continued)

#### Operating Expenses

Operating expenses were \$934 million, an increase of \$313 million or 50% on the prior comparative period. This was primarily driven by higher remediation provisions, higher investment spend, increased long service leave and superannuation provisions due to a lower discount rate in the falling interest rate environment, and increased occupancy costs from the completion of new corporate offices and COVID-19 related cleaning and maintenance costs.

#### Loan Impairment Expense

Loan impairment expense was \$75 million, an increase of \$35 million on the prior comparative period. This was mainly driven by higher central management overlays.

#### Risk Weighted Assets

Risk weighted assets were \$7.3 billion, a decrease of \$3.7 billion or 33% on the prior comparative period.

- Credit risk weighted assets decreased \$0.8 billion or 9%;
- Operational risk weighted assets decreased \$0.6 billion or 27%;
- IRRBB risk weighted assets decreased \$2.1 billion, mainly due to changes in interest rate risk management positions; and
- Traded market risk weighted assets decreased \$0.2 billion or 41%.

Corporate Centre consumed \$2,563 million of organic capital<sup>1</sup> for the Group in the current half, largely due to the payment of dividends. This impacted the Group's CET1 ratio by 58 basis points.

#### Half Year Ended December 2020 versus June 2020

Cash net loss after tax for the half year ended 31 December 2020 increased \$223 million or 44% on the prior half. Excluding the contribution from discontinued operations, cash net loss increased \$227 million or 45% on the prior half. The result was primarily driven by a 92% decrease in total operating income, a 2% decrease in operating expenses and a \$119 million increase in loan impairment expense.

#### Net Interest Income

Net interest income decreased \$3 million or 3% on the prior half. This was mainly driven by lower earnings on equity due to the falling interest rate environment, partly offset by higher earnings from the management of interest rate risk in the banking book.

#### Other Banking Income

Other banking income decreased \$143 million on the prior half. This was primarily driven by the upfront costs related to the Group's term debt buyback program (of approximately \$60 million), lower hedging gains and a non-recurrence of one-off provision release in the prior half.

#### Operating Expenses

Operating expenses decreased \$19 million or 2% on the prior half. This was mainly driven by lower remediation provisions, partly offset by higher investment spend, increased long service leave and superannuation provisions due to a lower discount rate in the falling interest rate environment, increased occupancy costs from the completion of new corporate offices and COVID-19 related maintenance costs.

#### Loan Impairment Expense

Loan impairment expense increased \$119 million on the prior half. This was due to a central management overlay taken in the current half and the non-recurrence of the impairment benefit in the prior half from the release of a centrally held provision for drought affected agriculture and associated regional communities in NSW and Queensland.

#### Risk Weighted Assets

Risk weighted assets increased \$3.1 billion or 73% on the prior half.

- Credit risk weighted assets increased \$0.1 billion or 1%;
- Operational risk weighted assets increased \$0.1 billion or 3%;
- IRRBB risk weighted assets increased \$2.9 billion or 52%, mainly due to changes in interest rate risk management positions.

<sup>1</sup> Organic capital generation represents cash net profit after tax less the capital equivalent of the change in regulatory risk weighted assets used to generate those profits. Amounts quoted include discontinued operations and exclude the allocation of Operational RWA from the Enforceable Undertaking with APRA.

## Divisional Performance (continued)

### Wealth Management (Discontinued Operations)

#### Overview

Wealth Management provides superannuation, investment and retirement products which help to improve the financial wellbeing of our customers.

On 2 August 2019, CBA completed the sale of its global asset management business, Colonial First State Global Asset Management (CFSGAM) to Mitsubishi UFJ Trust and Banking Corporation (MUTB), as a result CBA recognised the financial results of CFSGAM for the period up until 2 August 2019. CFSGAM is classified as discontinued operations.

On 1 November 2019, CBA announced that the joint co-operation agreement with AIA Australia Limited (AIA) in relation to CBA's Australian life insurance business (CommInsure Life) has been implemented, as a result CBA recognised the financial results of CommInsure Life <sup>1</sup> for the period up until 1 November 2019. CommInsure Life is classified as discontinued operations.

From March 2020, the Aligned Advice related businesses (including Financial Wisdom, Count Financial and CFP-Pathways) were transferred out of the Wealth Management division and consolidated into the Retail Banking Services division.

On 13 May 2020, CBA announced it has entered into an agreement to sell a 55% interest in Colonial First State (CFS) to KKR, as a result, CFS is classified as discontinued operations. Following the announcement, all of Wealth Management is now classified as discontinued operations.

# Divisional Performance (continued)

## Wealth Management (Discontinued Operations) (continued)

### Financial Performance and Business Review (Discontinued Operations)

#### *Half Year Ended December 2020 versus December 2019*

Wealth Management cash net profit after tax for the half year ended 31 December 2020 was \$84 million, a decrease of \$43 million or 34% on the prior comparative period. This reflects a \$37 million decrease in cash net profit after tax from CFS and other, and the impact from the deconsolidation of CFSGAM (2 August 2019) and the Life Business (1 November 2019) in the prior comparative period.

CFS and other cash net profit after tax for the half year ended 31 December 2020 was \$84 million, a decrease of \$37 million or 31% on the prior comparative period. The result was driven by a 13% decrease in funds management income, with flat operating expenses. Funds management income decreased mainly due to lower average FUA reflecting net outflows, and the impact of platform pricing changes in response to the regulatory and market environment.

#### **Risk Weighted Assets**

Risk weighted assets were \$0.2 billion, an increase of \$0.1 billion on the prior comparative period.

- IRRBB risk weighted assets increased by \$0.1 billion.

Wealth Management generated \$80 million of organic capital <sup>1</sup> for the Group in the current half. This contributed 2 basis points to the Group's CET1 ratio.

#### *Half Year Ended December 2020 versus June 2020*

Wealth Management cash net profit after tax increased \$74 million on the prior half. This reflects a \$74 million increase in cash net profit after tax from CFS and other, driven by a 37% reduction in operating expenses due to higher legal, remediation and compliance provisions in the prior half, partly offset by a 9% reduction in funds management income due to further platform pricing changes in response to the regulatory and market environment, and the impact of net outflows, partly offset by improved market performance.

There was no impact from the deconsolidation of CFSGAM or the Life Insurance Business in the current or prior half.

#### **Risk Weighted Assets**

Risk weighted assets were \$0.2 billion, flat on the prior half.

<sup>1</sup> Organic capital generation represents cash net profit after tax less the capital equivalent of the change in regulatory risk weighted assets used to generate those profits. Amounts quoted exclude the payment of dividends and the allocation of Operational RWA from the Enforceable Undertaking with APRA.

# Directors' Report

The Directors of the Commonwealth Bank of Australia present their report, together with the financial statements of the Commonwealth Bank of Australia and its controlled entities (collectively referred to as 'the Group') for the half year ended 31 December 2020.

## Directors

The names of the Directors holding office at any time during or since the end of the half year were:

Catherine Livingstone AO	Chairman
Matt Comyn	Managing Director and Chief Executive Officer
Shirish Apte	Director
Genevieve Bell AO	Director
Simon Moutter	Director (appointed effective 1 September 2020)
Paul O'Malley	Director
Mary Padbury	Director
Wendy Stops	Director (retired effective 13 October 2020)
Anne Templeman-Jones	Director
Robert Whitfield AM	Director

## Review and Results of Operations

The Group's statutory net profit after tax for the half year ended 31 December 2020 was \$4,877 million, a decrease of \$1,284 million or 21% on the prior comparative period. The decrease was driven by lower net operating income, higher operating expenses and loan impairment expense, and lower net profit from discontinued operations.

On 2 August 2019, the Group completed the sale of Colonial First State Global Asset Management (CFSGAM) to Mitsubishi UFJ Trust and Banking Corporation (MUTB).

On 1 October 2019, the Group completed the sale of its 100% interest in Count Financial Limited (Count Financial) to CountPlus Limited (CountPlus).

On 1 November 2019, the Group announced the implementation of a joint cooperation agreement (JCA) which resulted in the full economic interests associated with CommInsure Life being transferred to AIA, and AIA obtaining direct management and control of the business (excluding the Group's 37.5% equity interest in BoCommLife). As a result, CommInsure Life (excluding BoCommLife) was deconsolidated and derecognised on 1 November 2019. The aggregate proceeds are being received in instalments. On 30 September 2020, the Group announced that ultimate completion of the divestment is expected to occur via a statutory asset transfer in the first half of the calendar year 2021.

On 28 April 2020, the Group announced the sale of its subsidiary, Australian Investment Exchange Limited (AUSIEX), to Nomura Research Institute (NRI). The sale is subject to regulatory and other conditions, and is expected to complete in the first half of calendar year 2021.

On 13 May 2020, the Group entered into an agreement to sell a 55% interest in Colonial First State (CFS) to KKR. The sale is subject to regulatory approvals, and is expected to complete in the first half of calendar year 2021.

On 4 June 2020, the Group completed the sale of its 80% interest in its Indonesian life insurance business, PT Commonwealth Life (PTCL), to FWD Group (FWD). As part of the sale, CBA's Indonesian banking subsidiary, PT Bank Commonwealth (PTBC), has entered into a 15 year life insurance distribution partnership with FWD.

The Group ceased providing licensee services through Commonwealth Financial Planning Limited-Pathways (CFP Pathways) in March 2020 and through Financial Wisdom Limited (Financial Wisdom) in June 2020.

On 10 December 2020, the Group completed the sale of its 37.5% equity interest in BoCommLife Insurance Company Limited (BoCommLife) to MS&AD Insurance Group Holdings,

Inc., the ultimate parent company of Mitsui Sumitomo Insurance Co.

On 16 December 2020, the Group announced that it had entered into an agreement to merge Aussie Home Loans with Lendi Pty Ltd (Lendi). Upon completion, the Group will retain a 45% shareholding in the combined business, with existing Lendi shareholders holding the remaining 55% shareholding. The transaction is expected to complete by mid calendar year 2021.

CFS and the Group's interest in BoCommLife have been classified as discontinued operations in the Group's financial statements for the half year ended 31 December 2020. The assets and liabilities of CFS, AUSIEX and Aussie Home Loans are classified as held for sale as at 31 December 2020.

There have been no other significant changes in the nature of the principal activities of the Group during the half year.

The performance of the Group's business segments for the half year ended 31 December 2020 was as follows:

- The statutory net profit after tax from Retail Banking Services was \$2,189 million, a decrease of \$116 million or 5% on the prior comparative period. The decrease was driven by lower total operating income, an increase in operating expenses and loan impairment expense, the non-recurrence of the net gain on disposal of Count Financial, and transaction and separation costs associated with the disposal of Aussie Home Loans.
- The statutory net profit after tax from Business Banking was \$1,321 million, a decrease of \$75 million or 5% on the prior comparative period. The decrease was driven by higher operating expenses and loan impairment expense, and transaction costs associated with the disposal of AUSIEX.
- The statutory net profit after tax from Institutional Banking and Markets was \$423 million, a decrease of \$42 million or 9% on the prior comparative period. The decrease was driven by an increase in loan impairment expense, partly offset by higher total banking income and lower total operating expenses.
- The statutory net profit after tax from New Zealand was \$490 million, a decrease of \$15 million or 3% on the prior comparative period. The decrease was primarily driven by higher total operating expenses and loan impairment expense, an increase in hedging and IFRS volatility losses, and the non-recurrence of the gain on disposal of Aegis, partly offset by higher total operating income.

# Directors' Report

- The statutory net profit after tax including discontinued operations from International Financial Services was \$499 million, an increase of \$383 million on the prior comparative period. The increase was primarily driven by the net gain on disposal of BoCommLife, higher total banking income, lower operating expenses and loan impairment expense.
- The statutory net profit after tax from Wealth Management was \$726 million, a decrease of \$972 million or 57% on the prior comparative period. The decrease was primarily driven by lower funds management income, transaction costs in relation to the disposal of CFS, and non-recurrence of the impact of the disposal of CFSGAM and the deconsolidation of CommInsure Life in the prior comparative period.

Additional analysis of operations for the half year ended 31 December 2020 is set out in the Highlights and Group and Divisional Performance Analysis sections.

The Board has received written statements from the Chief Executive Officer and Chief Financial Officer that the accompanying Financial Statements have been prepared in accordance with Australian Accounting Standards, Corporations Regulations 2001 and Corporations Act.

## Material Business risks

The Group recognises that risk is inherent in business and that effective risk management is a key component of sound corporate governance and is essential in delivering our business objectives.

The Group seeks to adopt a comprehensive approach to risk management through its Risk Management Framework. This framework covers the Group's systems, policies, processes and people who monitor, mitigate and report risk.

The Group's material risk types and its approach to managing them during the period are described in the 2020 Annual Report on pages 57-61 and in Note 9 of the Financial report on pages 201-234. A description of the material trends in our current external operating context, and the way that the Bank has responded to support better customer and risk outcomes, is provided in Managing our changing risk landscape on pages 55-56 of the 2020 Annual Report.

In addition, commentary on the Group's ongoing litigations, investigations and reviews for half year ended 31 December 2020 is included in Note 7.2 of the Financial Statements for the half year ended 31 December 2020.

## Rounding and Presentation of Amounts

Unless otherwise indicated, the Group has rounded off amounts in this Directors' Report and the accompanying financial statements to the nearest million dollars in accordance with ASIC Corporations Instrument 2016/191.

## Auditor's Independence Declaration

We have obtained the following independence declaration from the Group's auditors, PricewaterhouseCoopers:

### Auditor's Independence Declaration

As lead auditor for the review of Commonwealth Bank of Australia for the half-year ended 31 December 2020, I declare that to the best of my knowledge and belief, there have been:

- no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the review; and
- no contraventions of any applicable code of professional conduct in relation to the review.

This declaration is in respect of Commonwealth Bank of Australia and the entities it controlled during the period.

4 Includes DRP satisfied by on-market purchase and transfer of shares.

The above Consolidated Statement of Cash Flows should be read in conjunction with the accompanying notes.

# Notes to the Financial Statements

## 1. Overview

### 1.1 General Information, Basis of Accounting, Adoption of Amended Accounting Standards and Future Accounting Developments

#### General Information

Commonwealth Bank of Australia (the Bank) is Australia's leading provider of integrated financial services, including retail, business and institutional banking, funds management, superannuation, insurance, investment and share-broking products and services. The Bank has branches across Australia and New Zealand as well as Europe, North America and Asia.

The financial statements of the Bank and its subsidiaries (the Group) for the half year ended 31 December 2020, were approved and authorised for issue by the Board of Directors on 10 February 2021. The Directors have the power to amend and reissue the financial statements.

The financial report includes the consolidated financial statements of the Group, accompanying notes, Directors' Declaration and the Independent Auditor's Review Report.

The Bank is a for-profit entity incorporated and domiciled in Australia. It is a company limited by shares that are publicly traded on the Australian Securities Exchange. The registered office is Ground Floor, Tower 1, 201 Sussex Street, Sydney, NSW 2000, Australia.

On 2 August 2019, the Group completed the sale of Colonial First State Global Asset Management (CFSGAM) to Mitsubishi UFJ Trust and Banking Corporation (MUTB).

On 1 October 2019, the Group completed the sale of its 100% interest in Count Financial Limited (Count Financial) to CountPlus Limited (CountPlus).

On 1 November 2019, the Group announced the implementation of a joint cooperation agreement (JCA) which resulted in the full economic interests associated with CommInsure Life being transferred to AIA, and AIA obtaining direct management and control of the business (excluding the Group's 37.5% equity interest in BoCommLife Insurance Company Limited (BoCommLife)). As a result, CommInsure Life (excluding BoCommLife) was deconsolidated and derecognised on 1 November 2019. The aggregate proceeds are being received in instalments. On 30 September 2020, the Group announced that ultimate completion of the divestment is expected to occur via a statutory asset transfer in the first half of the calendar year 2021.

On 28 April 2020, the Group announced the sale of its subsidiary, Australian Investment Exchange Limited (AUSIEX), to Nomura Research Institute (NRI). The sale is subject to regulatory and other conditions, and is expected to complete in the first half of calendar year 2021.

On 13 May 2020, the Group entered into an agreement to sell a 55% interest in Colonial First State (CFS) to KKR. The sale is subject to regulatory approvals, and is expected to complete in the first half of calendar year 2021.

On 4 June 2020, the Group completed the sale of its 80% interest in its Indonesian life insurance business, PT Commonwealth Life (PTCL), to FWD Group (FWD). As part of the sale, CBA's Indonesian banking subsidiary, PT Bank

Commonwealth (PTBC), has entered into a 15 year life insurance distribution partnership with FWD.

The Group ceased providing licensee services through Commonwealth Financial Planning Limited-Pathways (CFP-Pathways) in March 2020 and through Financial Wisdom Limited (Financial Wisdom) in June 2020.

On 10 December 2020, the Group completed the sale of its 37.5% equity interest in BoCommLife to MS&AD Insurance Group Holdings, Inc., the ultimate parent company of Mitsui Sumitomo Insurance Co.

On 16 December 2020, the Group announced that it had entered into an agreement to merge Aussie Home Loans with Lendi Pty Ltd (Lendi). Upon completion, the Group will retain a 45% shareholding in the combined business, with existing Lendi shareholders holding the remaining 55% shareholding. The transaction is expected to complete by mid calendar year 2021.

CFS and the Group's interest in BoCommLife have been classified as discontinued operations in the Group's financial statements for the half year ended 31 December 2020. The assets and liabilities of CFS, AUSIEX and Aussie Home Loans are classified as held for sale as at 31 December 2020.

There have been no other significant changes in the nature of the principal activities of the Group during the half year.

#### Basis of Accounting

The general purpose financial report for the half year ended 31 December 2020 has been prepared in accordance with the requirements of the Corporations Act 2001 (Cth) and AASB 134 *'Interim Financial Reporting'* which ensures compliance with IAS 34 *Interim Financial Reporting*. The Group is a for-profit entity for the purpose of preparing this report.

This half year financial report does not include all notes of the type normally included within an Annual Financial Report and therefore cannot be expected to provide as full an understanding of the financial position and financial performance of the Group as that given by the Annual Financial Report.

As a result, this half year financial report should be read in conjunction with the 30 June 2020 Annual Financial Report of the Group and any public announcements made in the period by the Group in accordance with the continuous disclosure requirements of the Corporations Act 2001 (Cth) and the ASX Listing Rules.

The amounts contained in this half year financial report are presented in Australian dollars and rounded to the nearest million dollars unless otherwise stated, under the option available under ASIC Corporations Instrument 2016/191. For the purpose of this half year financial report, the half year has been treated as a discrete reporting period.

Except as discussed below, the accounting policies adopted in the preparation of the half year financial report are consistent with those adopted by the Group and disclosed in the Annual Financial Report for the year ended 30 June 2020.

# Notes to the Financial Statements (continued)

## 1.1 General Information, Basis of Accounting, Adoption of Amended Accounting Standards and Future Accounting Developments (continued)

Where necessary, comparative information has been restated to conform to presentation in the current period. All changes have been footnoted throughout the financial statements. Discontinued operations are excluded from the results of the continuing operations and are presented as a single line item “net profit after tax from discontinued operations” in the Consolidated Income Statement. Assets and liabilities of discontinued operations have been presented separately as held for sale on the consolidated Balance Sheet.

### Impacts of coronavirus (COVID-19)

The Group has carefully considered the impact of COVID-19 in preparing its financial statements for the half year ended 31 December 2020, including the application of critical estimates and judgements. The key impacts on the financial statements are as follows:

- Provisions for impairment (Refer to Note 3.2)
- Assessment of impairment of non-financial assets.

The Group assessed Property, plant and equipment, right-of-use assets, and assets held as lessor for indicators of impairment. Due to the prolonged impact of COVID-19 on the global aviation sector and the protraction of international travel restrictions, a further impairment of several aircraft of \$124 million was recognised, which is presented within Other banking income. In determining the value in use of the aircraft, the Group incorporates the cash inflows over the lease term, as well as the expected selling price on expiry of the lease. Continued market disruption across the aviation industry, lower demand for used aircraft, and a decline in asset prices, resulted in a reduction in the assets' expected recoverable values below their carrying values. There remains significant uncertainty regarding the severity of the impact of COVID-19 on the aviation sector, and the duration of restrictions on domestic and international travel.

### Adoption of Amended Accounting Standards and Future Accounting Developments

#### Amendments to accounting standards

AASB 3 *Business Combinations* has been amended to assist entities in determining whether a transaction in which activities and assets are acquired should be accounted for as a business combination, or as an asset acquisition. The amendments were adopted with effect from 1 July 2020, but did not have an impact on the Group.

#### Future Accounting Developments

AASB 17 *Insurance Contracts* will replace AASB 4 *Insurance Contracts*, AASB 1023 *General Insurance Contracts* and AASB 1038 *Life Insurance Contracts*, with effect from 1 July 2023. On 30 July 2020, a number of amendments to AASB 17 were issued under AASB 2020-05 *Amendments to Australian Accounting Standards – Insurance Contracts*, including an additional scope exclusion for credit cards and similar contracts that provide insurance coverage, as well as an optional scope exclusion for loan contracts that transfer significant insurance risk. The impact of AASB 17 is dependent on the Group's composition at the time of adoption. The Group is still assessing the impact of AASB 17.

AASB 101 *Presentation of Financial Statements* has been amended to clarify that a liability is classified as non-current if an entity has the right at the end of the reporting period to defer settlement of the liability for at least 12 months after the reporting period, and such right has substance. The amendments also clarify that settlement of a liability refers to a transfer to the counterparty that results in the extinguishment of the liability. The amendments will apply to the Group with effect from 1 July 2022, but will not have an impact.

Other amendments that are not yet effective are not expected to result in significant changes to the Group's accounting policies.

#### Interest Rate Benchmark Reform

### Accounting amendments and the impact on financial reporting

The Group has exposure to various London Interbank Offer Rates (LIBORs), namely, USD LIBOR, GBP LIBOR, JPY LIBOR and CHF LIBOR, through Derivatives, Loans, Investment securities, as well as Loan capital, Deposits and other public borrowings, and Debt issues. LIBOR rates are expected to be discontinued from 1 January 2022. Prior to that date, market participants are expected to transition large parts, but not necessarily all, of their exposures to newly adopted alternative risk-free reference rates (RFRs). In addition, the use of LIBOR in new contracts is expected to be phased out before the actual discontinuance of the rate. While the Bank Bill Swap Rate (BBSW) and EURIBOR are not expected to be discontinued, the transition away from LIBORs to alternative RFRs is expected to impact the use of BBSW and EURIBOR in financial instruments such as cross-currency swaps and multi-currency lending facilities.

The transition from the various LIBORs is expected to have an impact on various elements of financial instrument accounting, including hedge accounting, loan modifications, as well as fair value methodologies and disclosures.

In October 2019, the AASB issued AASB 2019–3 *Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform*. These amendments provide relief from the potential accounting effects of uncertainty in the period leading up to the reform and were early adopted by the Group during the financial year ended 30 June 2020. The amendments did not have a significant impact on the Group.

AASB 2020-8 *Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform – Phase 2* was issued by the AASB on 22 September 2020. The amendments apply only to those changes to financial instruments and hedging relationships that are a direct consequence of IBOR reform and where cash flows are amended on an economically equivalent basis. The key amendments include the following:

- A practical expedient for changes in contractual cash flows required by the reform - an entity will not have to derecognise or adjust the carrying amount of financial instruments for changes, but will instead update the effective interest rate to reflect the change to the alternative RFR;

# Notes to the Financial Statements (continued)

## 1.1 General Information, Basis of Accounting, Adoption of Amended Accounting Standards and Future Accounting Developments (continued)

- Hedge accounting - an entity will not have to discontinue its hedge accounting solely because it makes changes required by the reform, if the hedge meets all the other hedge accounting criteria; and
- Additional disclosures - an entity will be required to disclose information about new risks arising from the reform and how it manages the transition to alternative benchmark rates.

While the amendments apply with mandatory effect from 1 July 2021, early adoption is permitted. The Group is considering whether it will early adopt the amendments for its Annual Financial Report for the year ended 30 June 2021, when the market, clients, and the Group are expected to transition exposures from LIBOR to RFRs.

### **IBOR reform program**

In October 2018, the Group formed the Interest Rate Benchmark Reform Program (the Program). The Program includes a formal governance structure to ensure clear accountability for all decisions, and incorporates the requisite risk, treasury, finance, legal, business, and support functions. The Program will ensure that customer outcomes are appropriate and will seek to minimise any disruption to business, and mitigate operational and conduct risks. The Group expects that transition will require the implementation of changes to systems, processes, and valuation models, as well as the management of tax and accounting outcomes. The Group will continue to monitor the impact on its capital position but expects the impact to be limited.

## 2. Our Performance

### Overview

The Group earns its returns from providing a broad range of banking and wealth management products and services to retail and wholesale customers in Australia, New Zealand and other jurisdictions.

Lending and deposit taking are the Group's primary business activities with net interest income being the main contributor to the Group's results. Net interest income is derived from the difference between interest earned on lending and investment assets and interest incurred on customer deposits and wholesale debt raised to fund these assets.

The Group further generates income from lending fees and commissions, general insurance products and trading activities. It also incurs costs associated with running the business such as staff, occupancy and technology related expenses.

The Performance section provides details of the main contributors to the Group's returns and analysis of its financial performance by business segments and geographical regions.

# Notes to the Financial Statements (continued)

## 2.1 Net Interest Income (continued)

### Accounting Policies

Interest income and interest expense on financial assets and liabilities measured at amortised cost, and debt financial assets measured at fair value through OCI, are recognised using the effective interest rate method. Interest income is calculated on financial assets classified within Stage 1 and Stage 2 by applying the effective interest rate to the gross carrying amount of the assets. Interest income on financial assets in Stage 3 is recognised by applying the effective interest rate to the gross carrying amount net of provisions for impairment. Interest income on finance leases is recognised progressively over the life of the lease, consistent with the outstanding investment and unearned income balance.

Interest income and expense on financial assets and liabilities that are classified at fair value through the Income Statement are accounted for on a contractual rate basis and include amortisation of premiums/discounts.

Fees, transaction costs and issue costs integral to the financial assets and liabilities are capitalised and included in the interest recognised over the expected life of the instrument. This includes fees for providing a loan or a lease arrangement.

Interest expense also includes payments made under a liquidity facility arrangement with the Reserve Bank of Australia, the Major Bank Levy (Bank Levy) expense and other financing charges.

<sup>1</sup> Includes gains/(losses) on non-trading derivatives that are held for risk management purposes.

<sup>2</sup> The half year ended 31 December 2020 includes depreciation of \$40 million in relation to assets held for lease as lessor by the Group (30 June 2020: \$43 million; 31 December 2019: \$40 million).

<sup>3</sup> The half year ended 31 December 2020 includes a further \$124 million impairment loss recognised by the Group in relation to certain aircraft owned by the Group and leased to various airlines (30 June 2020: \$92 million). The impairment loss was driven by the impact of COVID-19 on the aviation sector.

# Notes to the Financial Statements (continued)

## 2.2 Other Operating Income (continued)

### Accounting Policies

---

Lending fees and commission income are accounted for as follows:

- facility fees earned for managing and administering credit and other facilities for customers are generally charged to the customer on a monthly or annual basis and are recognised as revenue over the service period. Annual fees are deferred on Balance Sheet in Bills payable and Other liabilities and recognised on a straight-line basis over the year. Transaction based fees are charged and recognised at the time of the transaction;
- commitment fees and fees in relation to guarantee arrangements are deferred and recognised over the life of the contractual arrangements;
- fee income is earned for providing advisory or arrangement services, placement and underwriting services. These fees are recognised and charged when the related service is completed which is typically at the time of the transaction; and
- trail commissions are recognised at the start of a contract when the performance obligation has been met, typically when a customer is introduced to a new project. The Group recognises the net present value of expected future trail commission income. For investment referral services, the Group is unable to forecast the trail commission revenue in line with the highly probable test in AASB 15 *Revenue from Contracts with Customers*. Therefore, trail commission revenue on investment referral balances is recognised when received or paid.

Establishment fees on financing facilities are deferred and amortised to interest income over the expected life of the loan and are not recognised when the commitment is issued.

Trading income represents both realised and unrealised gains and losses from changes in the fair value of trading assets, liabilities and derivatives, which are recognised in the period in which they arise.

Net gain/(loss) on non-trading financial instruments includes realised gains and losses from non-trading financial assets and liabilities as well as realised and unrealised gains and losses on non-trading derivatives that are held for risk management purposes.

Net gain/(loss) on the disposal of property, plant and equipment is the difference between proceeds received and its carrying value.

Net hedging ineffectiveness is measured on fair value, cash flow and net investment hedges.

Dividends received on non-trading equity investments are recognised on the ex-dividend date or when the right to receive the payment is established.

Funds management operating income includes fees earned where the Group acts as the Responsible Entity, Trustee or Manager for a number of wholesale, superannuation, and investment funds or trusts. Fund management services are a single performance obligation and fees are recognised over the service period. Management fees are calculated and deducted from the funds on a monthly basis. Performance fees are deemed to be a variable component of the fund management service and only recognised when it is highly probable that a significant reversal of the fees will not occur.

General insurance premiums received and receivable are recognised as revenue when they are earned, based on actuarial assessment of the likely pattern in which risk will emerge. The portion not yet earned based on the pattern assessment is recognised as an unearned premium liability. Claims are recognised as an expense when the liability is established.

The Group equity accounts for its share of the profits or losses of associate or joint venture investments, net of impairment recognised. Dividends received are recognised as a reduction of the investment's carrying amount.

Other income includes rental income on operating leases which are recognised on a straight-line basis over the lease term. This is offset by depreciation and impairment expense on the associated operating lease assets held by the Group.

Other income also includes the impact of foreign currency revaluations for foreign currency monetary assets and liabilities. These assets and liabilities are retranslated at the spot rate at balance sheet date. Exchange differences arising upon settling or translating monetary items at different rates to those at which they were initially recognised or previously reported, are recognised in the Income Statement.

### Critical accounting judgements and estimates

The amount of trail commission revenue is dependent on assumptions about the behavioural life of the underlying transaction generating the commission. Trail commission income is only recognised to the extent it is highly probable it will not reverse in future periods.

<sup>1</sup> The half year ended 31 December 2020 includes \$82 million of amortisation of prepaid software licenses (30 June 2020: \$83 million; 31 December 2019: \$87 million). The half year ended 31 December 2019 also includes approximately a \$220 million one-off impact of accelerated amortisation following a review of the amortisation method and useful life of certain technology assets.

<sup>2</sup> The half year ended 31 December 2020 includes \$118 million of additional provisions for historical Aligned Advice remediation issues and associated program costs, and \$123 million of Banking and other Wealth related customer remediation and other litigation provisions. The half year ended 30 June 2020 includes a \$300 million provision for historical Aligned Advice remediation issues and associated program costs, \$94 million of Wealth and Banking customer refunds and associated program costs, and a \$60 million increase in provisions for other remediation items.

# Notes to the Financial Statements (continued)

## 2.3 Operating Expenses (continued)

### Accounting Policies

---

Salaries and related on-costs include annual leave, long service leave, employee incentives and relevant taxes. Staff expenses are recognised over the period the employee renders the service. Long service leave is discounted to present value using assumptions relating to staff departures, leave utilisation and future salary.

Share-based compensation includes plans which may be both cash settled and equity settled. Cash settled share-based remuneration is recognised as a liability and re-measured to fair value until settled. The changes in fair value are recognised as staff expenses. Equity settled remuneration is fair valued at the grant date and amortised to staff expenses over the vesting period, with a corresponding increase in the employee compensation reserve.

Superannuation expense includes expenses relating to defined contribution and defined benefit superannuation plans. Defined contribution expense is recognised in the period the service is provided, whilst the defined benefit expense, which measures current and past service costs is determined by an actuarial calculation.

Occupancy and equipment expenses include depreciation which is calculated using the straight-line method over the asset's estimated useful life. Right-of-use assets are depreciated over the shorter of the lease term or the useful life of the underlying asset, with the depreciation presented within Depreciation of property, plant and equipment.

IT services expenses are recognised as incurred unless they qualify for capitalisation as computer software due to the expenditure generating probable future economic benefits. If capitalised, the computer software is subsequently amortised over its estimated useful life. The Group assesses at each Balance Sheet date useful lives and residual values and whether there is any objective evidence of impairment. If an asset's carrying value is greater than its recoverable amount, the carrying amount is written down immediately to its recoverable amount.

Other expenses are recognised as the relevant service is rendered. Operating expenses related to provisions are recognised for present obligations arising from past events where a payment to settle the obligation is probable and can be reliably estimated.

### Critical accounting judgements and estimates

Actuarial valuations of the Group's defined benefit superannuation plans' obligations are dependent on a series of assumptions set out in Note 10.2 in the 2020 Annual Report including inflation rates, discount rates and salary growth rates. Changes in these assumptions impact the fair value of the plans' obligations, assets, superannuation expense and actuarial gains and losses recognised in Other comprehensive income.

Measurement of the Group's share-based compensation is dependent on assumptions, including grant date fair values. Information on these is set out in Note 10.1 in the 2020 Annual Report.

Refer to note 6.2 in the 2020 Annual Report for more information on the judgements and estimates associated with goodwill.

---

## 2.4 Financial Reporting by Segments

The principal activities of the Group are carried out in the business segments below. These segments are based on the distribution channels through which customer relationships are managed. Business segments are managed on the basis of net profit after tax ("cash basis").

During the half year ended 31 December 2020, the Group made a number of structural changes to its operating segments. This includes the transfer of Commonwealth Private out of the Business Banking division and consolidation into the Retail Banking Services division in order to better serve our customers, and align distribution channels and core product offerings. There were also other re-segmentations, allocations and reclassifications, including refinements to the allocation of support units and other costs. These changes have not impacted the Group's net profit, but have resulted in changes to the presentation of the Income Statement and the Balance Sheet of the affected segments. These changes have been applied retrospectively.

<b>Total non-current assets</b>	<b>15,276</b>	<b>100.0</b>	<b>15,988</b>	<b>100.0</b>

1 Information is presented on a continuing operations basis. For details on the Group's discontinued operations refer to Note 7.3.

2 Other locations include: United Kingdom, the Netherlands, United States, Japan, Singapore, Malta, Hong Kong, Indonesia, China, Vietnam and India.

3 Non-current assets include Property, plant and equipment, Investments in associates and joint ventures, and Intangible assets.

The geographical segment represents the location in which the transaction was recognised.

### Accounting Policy

Operating segments are reported based on the Group's organisational and management structures. Senior management review the Group's internal reporting based on these segments, in order to assess performance and allocate resources.

All transactions between segments are conducted on an arm's length basis, with inter-segment revenue and costs being eliminated in Corporate Centre.

Other	13	11	27
<b>Total income tax expense</b>	<b>1,610</b>	1,258	1,762
<b>Effective tax rate (%)</b>	<b>29.9</b>	29.5	28.4

### Accounting Policy

Income tax on the profit or loss for the period comprises current and deferred tax.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the Balance Sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is calculated using the Balance Sheet method where temporary differences are identified by comparing the carrying amounts of assets and liabilities for financial reporting purposes to their tax bases.

The amount of deferred tax recognised is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities (i.e. through use or through sale), using tax rates which are expected to apply when the deferred tax asset is realised or the deferred tax liability is settled.

A deferred tax asset is only recognised to the extent that it is probable that future taxable profits will be available for it to be used against. The Group recognised and disclosed separate deferred tax assets and deferred tax liabilities arising from arrangements where the Group is a lessee. Deferred tax assets and liabilities are offset where they relate to income tax levied by the same taxation authority on either the same taxable entity or different taxable entities within the same taxable group.

The Bank and its wholly owned Australian subsidiaries elected to be treated as a single entity “the tax consolidated group” under the tax consolidation regime from 1 July 2002. CommInsure Life will remain a member of the tax consolidated Group until final completion via statutory asset transfer and deregistration. The members of the tax consolidated group have entered into tax funding and tax sharing agreements, which set out the funding obligations of members.

Any current tax liabilities / assets and deferred tax assets from unused tax losses from subsidiaries in the tax consolidated group are recognised by the Bank legal entity and funded in line with the tax funding arrangement.

The measurement and disclosure of deferred tax assets and liabilities have been performed on a modified stand-alone basis under UIG 1052 *Tax Consolidation Accounting*.

### Critical accounting judgements and estimates

Provisions for taxation require significant judgement with respect to outcomes that are uncertain. For such uncertainties, the Group has estimated the tax provisions based on the expected outcomes. A deferred tax asset is only recognised to the extent that it is probable that future taxable profits will be available for it to be used against.

# Notes to the Financial Statements (continued)

## 3. Our Lending Activities

### Overview

Lending is the Group's primary business activity, generating most of its net interest income and lending fees. The Group satisfies customers' needs for borrowed funds by providing a broad range of lending products in Australia, New Zealand and other jurisdictions. As a result of its lending activities the Group assumes the credit risk arising from the potential that borrowers will fail to meet their obligations in accordance with agreed lending terms.

This section provides details of the Group's lending portfolio by type of product and geographical regions, analysis of the credit quality of the Group's lending portfolio and the related impairment provisions.

1 Home loans balance includes residential mortgages that have been assigned to securitisation vehicles and covered bond trusts. Further detail on these residential mortgages is disclosed in Note 4.4 of the 2020 Annual Financial Report.

2 These balances are presented gross of mortgage offset balances as required under accounting standards.

# Notes to the Financial Statements (continued)

## 3.1 Loans, Bills Discounted and Other Receivables (continued)

### Accounting Policies

Loans, bills discounted and other receivables include overdrafts, home loans, credit card and other personal lending, term loans, and discounted bills. These financial assets are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows. The contractual cash flows on these financial assets comprise the payment of principal and interest only. These instruments are accordingly measured at amortised cost.

Loans, bills discounted and other receivables are recognised on settlement date, when funding is advanced to the borrowers. They are initially recognised at their fair value plus directly attributable transaction costs such as broker fees. Subsequent to initial recognition, they are measured at amortised cost using the effective interest rate method and are presented net of provisions for impairment. For the accounting policy for provisions for impairment, refer to Note 3.2. For information on the Group's management of credit risk, refer to Note 9.2 of the 2020 Annual Financial Report.

Finance leases, where the Group acts as lessor, are also included in Loans, bills discounted and other receivables. Finance leases are those where substantially all the risks and rewards of the lease asset have been transferred to the lessee. Lease receivables are recognised at an amount equal to the net investment in the lease. Finance lease income reflects a constant periodic return on this net investment and is recognised within interest income in the Income Statement.

### Critical accounting judgements and estimates

When applying the effective interest method the Group has estimated the behavioural term of each loan portfolio by reference to historical prepayment rates and the contractual maturity.

## 3.2 Provisions for Impairment and Asset Quality

The following table provides information about movements in the Group's provision for impairment losses.

	Half Year Ended

### Movement in provisions for impairment and credit exposures by ECL stage

The following table provides movements in the Group's impairment provisions and credit exposures by expected credit loss (ECL) stage for the half years ended 31 December 2020, 30 June 2020 and 31 December 2019.

Movements in credit exposures and provisions for impairment in the following tables represent the sum of monthly movements over the half-year periods and are attributable to the following items:

- **Transfers to/(from):** movements due to transfers of credit exposures between Stage 1, Stage 2 and Stage 3. Excludes the impact of re-measurements of provisions for impairment between 12 months and lifetime ECL.
- **Net re-measurement on transfers between stages:** movements in provisions for impairment due to re-measurement between 12 months and lifetime ECL as a result of transfers of credit exposures between stages.
- **Net financial assets originated:** net movements in credit exposures and provisions for impairment due to new financial assets originated as well as changes in existing credit exposures due to maturities, repayments or credit limit changes.
- **Movements in existing IAP (including IAP write-backs):** net movements in existing Individually Assessed Provisions (IAP) excluding write-offs.
- **Movement due to risk parameter and other changes:** movements in provisions for impairment due to changes in credit risk parameters, forward looking economic scenarios or other assumptions as well as other changes in underlying credit quality that do not lead to transfers between Stage 1, Stage 2 and Stage 3.
- **Write-offs:** derecognition of credit exposures and provisions for impairment upon write-offs.
- **Recoveries:** increases in provisions for impairment due to recoveries of loans previously written off.
- **Foreign exchange and other movements:** other movements in credit exposures and provisions for impairment including the impact of changes in foreign exchange rates.

<b>Closing balance as at 31 December 2020</b>	<b>781,552</b>	<b>1,682</b>	<b>178,510</b>	<b>3,491</b>	<b>6,730</b>	<b>1,642</b>	<b>966,792</b>	<b>6,815</b>

1 Comparative information has been restated to conform to presentation in the current period.

2 Movements in credit exposures exclude Cash and liquid assets and Receivables from financial institutions. Movements in provisions for impairment losses include provisions in relation to Cash and liquid assets and Receivables from financial institutions. As at 31 December 2020, collective provisions in Stage 1 include \$14 million in relation to these financial assets (30 June 2020: \$12 million; 31 December 2019: \$10 million).

3 The assessment of SICR includes the impact of forward looking multiple economic scenarios in addition to adjustments for emerging risks at an industry, geographic location or particular portfolio segment level, which are calculated by stressing an exposure's internal credit rating grade at the reporting date. This accounts for approximately 57% of Stage 2 exposures as at 31 December 2020 (30 June 2020: 65%; 31 December 2019: 64%).

4 As at 31 December 2020, Stage 3 includes \$4,765 million of collectively assessed (30 June 2020: \$4,598 million; 31 December 2019: \$4,460 million) and \$1,965 million of individually assessed credit exposures (30 June 2020: \$2,337 million; 31 December 2019: \$2,118 million). Stage 3 provisions for impairment include \$770 million of collective provisions (30 June 2020: \$481 million; 31 December 2019: \$488 million) and \$872 million of individually assessed provisions (30 June 2020: \$967 million; 31 December 2019: \$959 million).

# Notes to the Financial Statements (continued)

## 3.2 Provisions for Impairment and Asset Quality (continued)

### Accounting Policy

By providing loans to customers, the Group bears the risk that the future circumstances of customers might change, including their ability to repay their loans in part or in full. While the Group's credit and responsible lending policies aim to minimise this risk, there will always be instances where the Group will not receive the full amount owed and hence a provision for impairment is required. A description of the key components of the Group's AASB 9 impairment methodology is provided below.

#### Expected credit loss (ECL) model

The ECL model applies to all financial assets measured at amortised cost, debt securities measured at fair value through other comprehensive income, finance lease receivables, loan commitments and financial guarantee contracts not measured at fair value through profit or loss (FVTPL). The model applies a three-stage approach to recognition of expected credit losses. Financial assets migrate through these stages based on changes in credit risk since origination:

- **Stage 1 – 12 months ECL – Performing Loans**  
On origination, financial assets recognise an impairment provision equivalent to 12 months ECL. 12 months ECL is the credit losses expected to arise from defaults occurring over the next 12 months.
- **Stage 2 – Lifetime ECL – Performing loans that have experienced a significant increase in credit risk (SICR)**  
Financial assets that have experienced a SICR since origination are transferred to Stage 2 and recognise an impairment provision equivalent to lifetime ECL. Lifetime ECL is the credit losses expected to arise from defaults occurring over the remaining life of financial assets. If credit quality improves in a subsequent period such that the increase in credit risk since origination is no longer considered significant the exposure is reclassified to Stage 1 and the impairment provision reverts to 12 months ECL.
- **Stage 3 – Lifetime ECL – Non-performing loans**  
Financial assets in default recognise a provision equivalent to lifetime ECL. This includes assets that are considered impaired as well as assets that are considered to be in default but are not impaired because, for example, no loss is expected based on the security position.

Credit losses for financial assets in Stage 1 and Stage 2 are assessed for impairment collectively, whilst those in Stage 3 are subjected to either collective or individual assessment of expected credit losses.

#### Significant increase in credit risk (SICR)

SICR is assessed by comparing the risk of default occurring over the expected life of the financial asset at reporting date to the corresponding risk of default at origination. The Group considers all available qualitative and quantitative information that is relevant to assessing SICR.

For non-retail portfolios, such as the corporate risk rated portfolio and the asset finance portfolio, the risk of default is defined using the existing Risk Rated Probability of Default (PD) Masterscale. The PD Masterscale is used in internal credit risk management and includes 23 risk grades that are assigned at a customer level using rating tools reflecting customer specific financial and non-financial information and management's experienced credit judgement. Internal credit risk ratings are updated regularly on the basis of the most recent financial and non-financial information.

The Group uses a Retail Masterscale in the ECL measurement on personal loans, credit cards, home loans and SME retail portfolios. The Retail Masterscale has 15 risk grades that are assigned to retail accounts based on their credit quality scores determined through a credit quality scorecard. Risk grades for retail exposures are updated monthly as credit quality scorecards are recalculated based on new behavioural information.

For significant portfolios, the primary indicator of SICR is a significant deterioration in an exposure's internal credit rating grade between origination and reporting date. Application of the primary SICR indicator uses a sliding threshold such that an exposure with a higher credit quality at origination would need to experience a more significant downgrade compared to a lower credit quality exposure before SICR is triggered. The level of downgrade required to trigger SICR for each origination grade have been defined for each significant portfolio.

The assessment of SICR includes the impact of forward looking multiple economic scenarios in addition to adjustments for emerging risks at an industry, geographic location or particular portfolio segment level, which are calculated by stressing an exposure's internal credit rating grade at the reporting date. This accounts for approximately 57% of Stage 2 exposures as at 31 December 2020 (30 June 2020: 65%, 31 December 2019: 64%).

The Group also uses secondary SICR indicators as backstops in combination with the primary SICR indicator, including:

- arrears status, including the AASB 9 rebuttable presumption of 30 days past due;
- a retail exposure entering a financial hardship status;
- a non-retail exposure's referral to Group Credit Structuring.

# Notes to the Financial Statements (continued)

## 3.2 Provisions for Impairment and Asset Quality (continued)

For a number of small portfolios, which are not considered significant individually or in combination, the Group applies simplified provisioning approaches that differ from the description above. 30 days past due is used as a primary indicator of SICR on exposures in these portfolios.

The offer or uptake of an initial COVID-19 related repayment deferral does not itself constitute a SICR event unless the exposure is considered to have experienced a SICR based on other available information. During the period the Group completed its reassessment of the internal credit risk ratings for non-retail exposures in segments most impacted by COVID-19, including those on repayment deferrals, to determine if changes in customers' circumstances were sufficient to constitute SICR. Subsequent to an initial deferral some customers have been provided with a further deferral extension or other contract modification such as a term extension, or switch from principal and interest repayments to interest only repayments. Where an extension of a deferral is granted or a modification is given outside of commercial terms those exposures are considered to have experienced a SICR event. Modifications that are routinely offered in the normal course of business, such as interest only switches, do not therefore constitute a SICR event.

### Definition of default, impaired and write-offs

The definition of default used in measuring ECL is aligned to the definition used for internal credit risk management purposes across all portfolios. Default occurs when there are indicators that a debtor is unlikely to meet contractual credit obligations to the Group in full, or the exposure is 90 days past due.

Facilities are classified as impaired where there is doubt as to whether the full amounts due, including interest and other contractual payments, will be received in a timely manner. Loans are written off when there is no reasonable expectation of recovery.

The offer or uptake of a COVID-19 related repayment deferral does not constitute a default or credit impairment unless the exposure is considered to be in default or impaired based on the criteria outlined above.

### ECL measurement

ECL is a probability weighted expected credit loss estimated by evaluating a range of possible outcomes and taking into account the time value of money, past events, current conditions and forecasts of future economic conditions.

The Group uses the following AASB 9 collective provisioning models in calculating ECL for significant portfolios:

- **Retail lending:** Personal Loans model, Credit Cards model, Home Loans model;
- **Non-retail lending:** Corporate Risk rated model, Asset Finance model, Retail SME model.

For each significant portfolio ECL is calculated as a product of the following credit risk factors at a facility level:

- **Probability of default (PD):** The likelihood that a debtor will be unable to pay its obligations in full without having to take actions such as realising on security or that the debtor will become 90 days overdue on obligation or contractual commitment;
- **Exposure at default (EAD):** Expected Balance Sheet exposure at default. The Group generally calculates EAD as the higher of the drawn balance and total credit limit, except for the credit cards portfolio, for which EAD calculation also takes into account the probability of unused limits being drawn down; and
- **Loss given default (LGD):** The amount that is not expected to be recovered following default.

Secured retail exposures and defaulted non-retail exposures are assessed for impairment through an Individually Assessed Provisions (IAP) process if expected losses are in excess of \$20,000. Impairment provisions on these exposures are calculated directly as the difference between the defaulted asset's carrying value and the present value of expected future cash flows including cash flows from realisation of collateral, where applicable.

### Lifetime of an exposure

For exposures in Stage 2 and Stage 3 impairment provisions are determined as a lifetime expected loss. The Group uses a range of approaches to estimate expected lives of financial instruments subject to ECL requirements:

- **Non-revolving products in corporate portfolios:** Expected life is determined as a maximum contractual period over which the Group is exposed to credit risk;
- **Non-revolving retail products:** For fixed term products such as personal loans and home loans, expected life is determined using behavioural term analysis and does not exceed the maximum contractual period; and
- **Revolving products in corporate and retail portfolios:** For revolving products that include both a loan and an undrawn commitment, such as credit cards and corporate lines of credit, the Group's contractual ability to cancel the undrawn limits and demand repayments does not limit the exposure to credit losses to the contractual notice period. For such products, ECL is measured over the behavioural life.

### Forward-looking information

Credit risk factors of PD and LGD used in ECL calculation are point-in-time estimates based on current conditions and adjusted to include the impact of multiple probability-weighted future forecast economic scenarios.

Forward looking PD and LGD factors are modelled for each significant portfolio based on macro-economic factors that are most closely correlated with credit losses in the relevant portfolios. Each of the four scenarios (refer below) includes a forecast of relevant macro-economic variables which differ by portfolio:

- **Retail portfolios:** Cash rate, unemployment rate, GDP per capita and House price index.
- **Non-retail lending:** Unemployment rate, business investment index, disposable income, ASX 200 and the AUD/USD exchange rate.

New Zealand equivalents of a subset of the above macro-economic variables are used for retail credit exposures originated in New Zealand.

# Notes to the Financial Statements (continued)

## 3.2 Provisions for Impairment and Asset Quality (continued)

The Group uses the following four alternative macro-economic scenarios to reflect an unbiased probability-weighted range of possible future outcomes in estimating ECL for significant portfolios:

- **Central scenario:** This scenario considers Central Bank and other forecasts as well as the Group's base case assumptions used in business planning and forecasting.
- **Downside scenario:** This scenario is set relative to the Central scenario based on macroeconomic conditions that represent plausible but less likely alternatives to the Central scenario.
- **Upside scenario:** This scenario is included to account for the potential impact of less likely, more favourable macro-economic conditions. Relative to the Central scenario, the Upside scenario features a more rapid recovery in economic output and return to normal labour market conditions over the short term with further improvement over the medium term. In addition to this, the scenario features a stronger exchange rate, stronger growth in house prices, business investment, disposable income and the share market as well as modest increases in interest rates over the medium term.
- **Severe downside scenario:** This scenario is included to account for a potentially severe impact of less likely, extremely adverse macro-economic conditions. Relative to the Central and Downside scenarios, this scenario features a sharper contraction with a slow recovery in economic output, heightened and prolonged weakness in the labour market, and more severe declines in house prices and the share market. In addition to this, the scenario features a more severe and prolonged contraction in business investment and a weaker exchange rate, while interest rates remain accommodative.

The table below provides a summary of macro-economic variables used in the Central and Downside scenarios as at 31 December 2020.

	Central Calendar year			Downside Calendar year		
	2021	2022	2023	2021	2022	2023
GDP <sup>1</sup>	100.8	104.8	108.0	93.2	95.8	98.2
Unemployment rate (%) <sup>2</sup>	6.5	6.0	5.5	10.4	9.3	8.0
Cash rate (%) <sup>2</sup>	0.10	0.10	0.10	0.10	0.10	0.10
House prices (annual % change)	8.0	4.0	4.5	(15.0)	(5.0)	1.0
Business investment (annual % change)	4.0	9.0	4.2	(10.0)	(1.2)	2.5
AUD/USD exchange rate <sup>2</sup>	0.78	0.77	0.77	0.65	0.65	0.65
Disposable income (annual % change)	2.4	1.8	2.0	(3.8)	(0.7)	1.0
ASX 200 (annual % change)	12.3	5.5	4.2	(15.0)	2.3	3.4
NZ unemployment rate (%) <sup>2</sup>	6.1	5.6	5.4	9.5	7.0	6.5
NZ cash rate (%) <sup>2</sup>	0.25	0.25	0.50	(0.25)	(0.25)	(0.25)
NZ house prices (annual % change)	8.9	6.1	6.4	(15.0)	(5.0)	1.4

<sup>1</sup> Indexed to December 2019.

<sup>2</sup> Spot rate at December each year, unless otherwise stated.

The requirement to probability-weight possible future outcomes captures the uncertainty inherent in the credit outlook, and changes in that uncertainty over time. Weights are assigned to each scenario based on management's best estimate of the proportion of potential future loss outcomes that each scenario represents. The same economic scenarios and probability weights apply across all portfolios. The Group's assessment of SICR also incorporates the impact of multiple probability-weighted future forecast economic scenarios on exposures' internal risk grades using the same four forecast macroeconomic scenarios as described above.

Notwithstanding improvements in the base case economic outlook over the half year ended 31 December 2020, the Group has revised the weightings used in the multiple economic scenarios to reflect management's assessment of sector-specific risks posed by continued uncertainty in relation to the potential impacts of COVID-19, fiscal measures and emerging geopolitical issues. In addition, the ECL attributable to forward looking adjustments has increased over the half year ended 31 December 2020.

In estimating impairment provisions on individually significant defaulted exposures, the Group generally applies prudent assumptions in estimating recovery cash flows. Incorporating multiple forecast economic scenarios in estimates is not expected to significantly affect the level of impairment provisions on these credit exposures.

### Incorporation of experienced credit judgement

Management exercises credit judgement in assessing if an exposure has experienced SICR and in determining the amount of impairment provisions at each reporting date. Where applicable, credit risk factors (PD and LGD) are adjusted upwards to incorporate reasonable and supportable forward looking information about known or expected risks for specific segments of portfolios that would otherwise not have been considered in the modelling process. Credit judgement is used to determine the degree of adjustment to be applied and considers information such as emerging risks at an industry, geographical and portfolio segment level.

# Notes to the Financial Statements (continued)

## 3.2 Provisions for Impairment and Asset Quality (continued)

### Sensitivity of provisions for impairment to changes in forward looking assumptions

As described above, the Group applies four alternative macro-economic scenarios (Central, Upside, Downside and Severe downside scenarios) to reflect an unbiased probability-weighted range of possible future outcomes in estimating ECL.

The table below provides approximate levels of provisions for impairment under the Central and Downside scenarios assuming 100% weighting was applied to each scenario and holding all other assumptions constant. As noted above, these scenarios and their associated weights have been selected based on the expected range of potential future loss outcomes.

	31 Dec 20 \$M	30 Jun 20 \$M
100% Central scenario	5,022	5,262
100% Downside scenario	8,978	9,014

### Sensitivity of provisions for impairment to SICR assessment criteria

If 1% of Stage 1 credit exposures as at 31 December 2020 was included in Stage 2, provisions for impairment would increase by approximately \$136 million (30 June 2020: \$108 million).

If 1% of Stage 2 credit exposures as at 31 December 2020 was included in Stage 1, provisions for impairment would decrease by approximately \$31 million (30 June 2020: \$29 million).

### Modifications relating to COVID-19

The Group has extended a number of support measures to customers impacted by COVID-19, including loan repayment deferrals, switches from principal and interest repayments to interest only repayments and other modifications including the extension of loan maturity dates. The Bank recognised approximately \$270 million of interest related to retail loans in deferral (June 2020: \$310 million) and approximately \$15 million of interest related to non-retail loans in deferral (June 2020: \$150 million). Deferral extensions were treated as non-substantial modifications and therefore accounted for as a continuation of the existing loan with no material modification gains or losses having been recognised. Other contract modifications are treated as substantial or non-substantial based on the terms on which they are granted.

During the half year ended 31 December 2020 loans with a gross carrying value of approximately \$10,303 million were granted COVID-19 related repayment deferrals or other contractual modifications when they were included in either Stage 2 or Stage 3 (30 June 2020: \$26,886 million). Loans with a gross carrying value of approximately \$23,281 million, that were subject to COVID-19 related modifications when in Stage 2 or Stage 3, remained in either Stage 2 or Stage 3 at 31 December 2020 (30 June 2020: \$25,179 million). The following table provides a summary of gross carrying values of credit exposures subject to COVID-19 related modifications.

# Notes to the Financial Statements (continued)

## 3.2 Provisions for Impairment and Asset Quality (continued)

	31 Dec 20 \$M	30 Jun 20 <sup>1</sup> \$M
<b>Retail secured</b>		
Stage 1	5,069	35,777
Stage 2	14,497	20,028
Stage 3	342	1,304
<b>Total retail secured</b>	<b>19,908</b>	<b>57,109</b>
<b>Retail unsecured</b>		
Stage 1	277	588
Stage 2	11	128
Stage 3	7	20
<b>Total retail unsecured</b>	<b>295</b>	<b>736</b>
<b>Non-retail</b>		
Stage 1	426	6,717
Stage 2	2,033	10,144
Stage 3	139	252
<b>Total non-retail</b>	<b>2,598</b>	<b>17,113</b>
<b>Total credit exposures</b>		
Stage 1	5,772	43,082
Stage 2	16,541	30,300
Stage 3	488	1,576
<b>Total</b>	<b>22,801</b>	<b>74,958</b>

<sup>1</sup> Comparative information has been restated to conform to presentation in the current period.

The majority of credit exposures subject to COVID-19 related modifications are secured. The Group takes into account market values of available collateral in calculating provisions for impairment. As at 31 December 2020, the provision for impairment held by the Group in relation to credit exposures subject to COVID-19 related modifications was \$323 million (30 June 2020: \$818 million).

# Notes to the Financial Statements (continued)

## 3.2 Provisions for Impairment and Asset Quality (continued)

### Asset Quality

The tables below provide information about the credit quality of the Group's assets.

	As at 31 December 2020				Total \$M
	Home Loans \$M	Other Personal <sup>1</sup> \$M	Asset Financing \$M	Other Commercial Industrial \$M	
<b>Loans which were neither past due nor impaired</b>					
Investment Grade	327,637	4,437	1,882	90,457	<b>424,413</b>
Pass Grade	215,689	11,323	8,423	106,920	<b>342,355</b>
Weak	4,846	967	500	4,562	<b>10,875</b>
<b>Total loans which were neither past due nor impaired</b>	<b>548,172</b>	<b>16,727</b>	<b>10,805</b>	<b>201,939</b>	<b>777,643</b>
<b>Loans which were past due but not impaired<sup>2</sup></b>					
Past due 1 - 29 days	4,640	342	119	1,005	<b>6,106</b>
Past due 30 - 59 days	1,673	106	33	235	<b>2,047</b>
Past due 60 - 89 days	879	70	19	92	<b>1,060</b>
Past due 90 - 179 days	1,223	9	2	132	<b>1,366</b>
Past due 180 days or more	1,281	9	1	465	<b>1,756</b>
<b>Total loans past due but not impaired</b>	<b>9,696</b>	<b>536</b>	<b>174</b>	<b>1,929</b>	<b>12,335</b>

1 Included in these balances are credit card facilities and other unsecured portfolio managed facilities up to 90 days past due. At 90 days past due all unsecured portfolio managed facilities are classified as impaired.

2 Includes assets in Stage 3 that have defaulted, but have not been classified as credit impaired as the loans are well secured and expected to be recovered.

	As at 30 June 2020				Total \$M
	Home Loans \$M	Other Personal <sup>1</sup> \$M	Asset Financing \$M	Other Commercial Industrial \$M	
<b>Loans which were neither past due nor impaired</b>

<sup>1</sup> The assessment of SICR includes the impact of forward looking multiple economic scenarios in addition to adjustments for emerging risks at an industry, geographic location or particular portfolio segment level, which are calculated by stressing an exposure's internal credit rating grade at the reporting date. This accounts for approximately 57% of Stage 2 exposures as at 31 December 2020.

## 4. Our Deposits and Funding Activities

### Overview

Stable and well diversified funding sources are critical to the Group's ability to fund its lending and investing activities and support its business growth.

Our main sources of funding include customer deposits and term funds raised in domestic and offshore wholesale markets via issuing debt securities and loan capital. The Group also relies on repurchase agreements as a source of short-term wholesale funding. Refer to Note 9.4 of the 2020 Annual Report for the Group's management of liquidity and funding risk.

### 4.1 Deposits and Other Public Borrowings

### Accounting Policy

Deposits from customers include certificates of deposit, term deposits, savings deposits, other demand deposits and debentures. Deposits are initially recognised at their fair value less directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortised cost. Interest incurred is recognised within Net interest income using the effective interest method.

Securities sold under repurchase agreements are retained on the Balance Sheet where substantially all the risks and rewards of ownership remain with the Group. A liability for the agreed repurchase amount is recognised within deposits and other public borrowings.

# Notes to the Financial Statements (continued)

## 5. Our Capital, Equity and Reserves

### Overview

The Group maintains a strong capital position in order to satisfy regulatory capital requirements, provide financial security to its depositors and creditors and adequate return to its shareholders. The Group's Shareholders' Equity includes issued ordinary shares, retained earnings and reserves.

This section provides analysis of the Group's shareholders' equity including changes during the period.

Final dividend - cash component	(1,471)	–	(3,474)
Final dividend - dividend reinvestment plan <sup>1, 2</sup>	(264)	–	(615)
<b>Closing Balance</b>	<b>34,294</b>	<b>31,211</b>	<b>31,066</b>

1 The DRP in respect of the final 2019/2020 dividend was satisfied by the issue of 3,856,903 shares at \$68.53. The total value of shares issued under the DRP rules net of issues costs was \$264 million.

2 The DRP in respect of the interim 2019/2020 and final 2018/2019 dividends were satisfied in full through the on-market purchase and transfer of 7,080,363 shares at \$73.37, and 7,810,285 shares at \$78.61, respectively.

3 Relates to the movements in treasury shares held within the employee share scheme plans. Comparative periods also include movements in treasury shares held within life insurance statutory funds prior to deconsolidation of CommInsure Life on 1 November 2019.

4 Following deconsolidation of CommInsure Life on 1 November 2019, the Group is no longer required to quarantine undistributable profits in General reserve. As a result General reserve was reclassified to Retained profits during the half year ended 31 December 2019.

5 Relates to a historical Group restructuring.

<sup>1</sup> Following deconsolidation of CommInsure Life on 1 November 2019, the Group is no longer required to quarantine undistributable profits in General reserve. As a result General reserve was reclassified to Retained profits during the half year ended 31 December 2019.

<sup>2</sup> Relates to a historical Group restructuring.

# Notes to the Financial Statements (continued)

## 5.1 Shareholders' Equity (continued)

### Accounting Policy

---

Shareholders' Equity includes Ordinary share capital, Retained profits and Reserves. Policies for each component are set out below:

**Ordinary share capital:**

Ordinary shares are recognised at the amount paid up per ordinary share, net of directly attributable issue costs. Where the Bank or other entities within the Group purchase shares in the Bank, the consideration paid is deducted from total Shareholders' Equity and the shares are treated as treasury shares until they are subsequently sold, reissued or cancelled. Where such shares are sold or reissued, any consideration received is included in Shareholders' Equity.

**Retained profits:**

Retained profits include the accumulated profits and certain amounts recognised directly in retained profits less dividends paid.

**Reserves:**

*General reserve*

In prior periods General reserve was derived from profits and was available for dividend payments except for undistributable profits in respect of the Group's life insurance business. Following deconsolidation of CommInsure Life on 1 November 2019, the Group is no longer required to quarantine undistributable profits in General reserve. As a result General reserve was reclassified to Retained profits during the half year ended 31 December 2019.

*Asset revaluation reserve*

The Asset revaluation reserve is used to record revaluation adjustments on the Group's property assets. Where an asset is sold or disposed of, any balance in the reserve in relation to the asset is transferred directly to retained profits.

*Foreign currency translation reserve*

Exchange differences arising on translation of the Group's foreign operations are accumulated in the Foreign currency translation reserve. Assets and liabilities are translated at the prevailing exchange rate at Balance Sheet date; revenue and expenses are translated at the transaction date; and all resulting exchange differences are recognised in the Foreign currency translation reserve. When a foreign operation is disposed of, exchange differences are recycled out of the reserve and recognised in the Income Statement.

*Cash flow hedge reserve*

The Cash flow hedge reserve is used to record fair value gains or losses associated with the effective portion of designated cash flow hedging instruments. Amounts are reclassified to the Income Statement when the hedged transaction impacts the Income Statement.

*Employee compensation reserve*

The Employee compensation reserve is used to recognise the fair value of shares and other equity instruments issued to employees under the employee share plans and bonus schemes.

*Investment securities revaluation reserve*

The Investment securities revaluation reserve includes changes in the fair value of investment securities measured at fair value through OCI. For debt securities, these changes are reclassified to the Income Statement when the asset is derecognised. For equity securities, these changes are not reclassified to the Income Statement when derecognised.

---

# Notes to the Financial Statements (continued)

## 6. Fair Values

### Overview

The Group holds a range of financial instruments as a result of its lending, investing and funding activities. Some of the financial instruments are actively traded on stock exchanges or in over-the-counter markets whilst others do not have liquid markets. This section provides information about fair values of the Group's financial instruments including a description of valuation methodologies used, the classification of financial instruments according to liquidity and the observability of inputs used in deriving the fair values.

### 6.1 Disclosures about Fair Values

Financial assets and financial liabilities are measured on an ongoing basis either at fair value or amortised cost.

#### (a) Fair Value Information for Financial Instruments not measured at Fair Value

The estimated fair values of the Group's financial instruments not measured at fair value as at 31 December 2020 are presented below.

	31 Dec 20		30 Jun 20	
	Carrying value \$M	Fair Value \$M	Carrying value \$M	Fair Value \$M
<b>Financial assets</b>				
Investment securities at amortised cost	4,391	4,404	5,173	5,160
Loans, bills discounted and other receivables	785,429	787,694	771,547	771,763
<b>Financial liabilities</b>				
Deposits and other public borrowings	746,466	746,866	701,999	702,438
Debt issues	122,548	123,690	142,503	142,466
Loan capital	27,608	28,151	27,357	26,711

#### (b) Fair Value Hierarchy for Financial Assets and Liabilities measured at Fair Value

The classification in the fair value hierarchy of the Group's financial assets and liabilities measured at fair value is presented in the table below. An explanation of how fair values are calculated and the levels in the fair value hierarchy are included in the accounting policy within this note.

	Fair Value as at 31 December 2020				Fair Value as at 30 June 2020			
	Level 1 \$M	Level 2 \$M	Level 3 \$M	Total \$M	Level 1 \$M	Level 2 \$M	Level 3 \$M	Total \$M
<b>Financial assets measured at fair value on a recurring basis</b>								
Assets at fair value through Income Statement:								
Trading	34,631	5,787	–	40,418	33,001	5,422	–	38,423

## 6.1 Disclosures about Fair Values (continued)

### (c) Analysis of Movements between Fair Value Hierarchy Levels

During the half year ended 31 December 2020 there have been no reclassifications between Level 1 and Level 2.

The table below summarises movements in Level 3 balances during the half year. Transfers have been reflected as if they had taken place at the end of the reporting periods. Transfers in and out of Level 3 were due to changes in the observability of inputs.

#### Level 3 Movement Analysis for the half year ended 31 December 2020

	Financial Assets			Financial Liabilities
	Derivative Assets \$M	Investment Securities at Fair Value through OCI \$M	Assets at Fair Value through Income Statement \$M	Derivative Liabilities \$M
<b>As at 30 June 2020</b>	127	565	53	(30)

Transfers out	(19)	—	—	—
Derecognised on deconsolidation of controlled entities	—	—	—	—
<b>As at 31 December 2020</b>	88	873	166	(26)
<b>Gains/(losses) recognised in the Income Statement for financial instruments held as at 31 December 2020</b>	(8)	—	—	—

### Accounting Policy

#### Valuation

Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. On initial recognition, the transaction price generally represents the fair value of the financial instrument, unless there is observable information from an active market that provides a more appropriate fair value.

The fair value for financial instruments traded in active markets at the reporting date is based on their quoted market price or dealer price quotations, without any deduction for transaction costs. Assets and long positions are measured at a quoted bid price; liabilities and short positions are measured at a quoted asking price. Where the Group has positions with offsetting market risks, mid-market prices are used to measure the offsetting risk positions and a quoted bid or asking price adjustment is applied only to the net open position as appropriate.

Non-market quoted financial instruments are mostly valued using valuation techniques based on observable inputs except where observable market data is unavailable. Where market data is unavailable the financial instrument is initially recognised at the transaction price, which is generally the best indicator of fair value. This may differ from the value obtained from the valuation model. The timing of the recognition in the Income Statement of this initial difference in fair value depends on the individual facts and circumstances of each transaction, but is never later than when the market data becomes observable. The difference may be either amortised over the life of the transaction, recognised when the inputs become observable or on derecognition of the instrument, as appropriate.

# Notes to the Financial Statements (continued)

## 6.1 Disclosures about Fair Values (continued)

### Accounting Policy (continued)

The fair value of Over-the-Counter (OTC) derivatives includes credit valuation adjustments (CVA) for derivative assets to reflect the credit worthiness of the counterparty. Fair value of uncollateralised derivative assets and uncollateralised derivative liabilities incorporate funding valuation adjustments (FVA) to reflect funding costs and benefits to the Group. These adjustments are applied after considering any relevant collateral or master netting arrangements.

### Fair Value Hierarchy

The Group utilises various valuation techniques and applies a hierarchy for valuation inputs that maximise the use of observable market data, if available. Under AASB 13 *Fair Value Measurement* all financial and non-financial assets and liabilities measured or disclosed at fair value are categorised into one of the following three fair value hierarchy levels:

#### Quoted Prices in Active Markets – Level 1

This category includes assets and liabilities for which the valuation is determined by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted price is readily available, and the price represents actual and regularly occurring market transactions. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an ongoing basis.

Financial instruments included in this category are liquid government bonds, bank bills, listed equities and exchange traded derivatives.

#### Valuation Technique Using Observable Inputs – Level 2

This category includes assets and liabilities that have been valued using inputs other than quoted prices as described for Level 1, but which are observable for the asset or liability, either directly or indirectly. The valuation techniques include the use of discounted cash flow analysis, option pricing models and other market accepted valuation models.

Financial instruments included in this category are financial institution and corporate bonds, certificates of deposit, commercial papers, mortgage-backed securities and OTC derivatives including interest rate swaps, cross currency swaps and foreign currency options.

#### Valuation Technique Using Significant Unobservable Inputs – Level 3

This category includes assets and liabilities where the valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). Unobservable inputs are those not readily available in an active market due to market illiquidity or complexity of the product. These inputs are generally derived and extrapolated from observable inputs to match the risk profile of the financial instrument, and are calibrated against current market assumptions, historic transactions and economic models, where available. These inputs may include the timing and amount of future cash flows, rates of estimated credit losses, discount rates and volatility.

Financial instruments included in this category for the Group are certain exotic OTC derivatives and unlisted equity investments.

As at 31 December 2020, Level 3 investment securities at fair value through other comprehensive income include unlisted equity instruments of \$813 million (30 June 2020: \$506 million). The valuation of this investment is based on a methodology that leverages revenue multiples of market listed comparable entities and significant unobservable inputs including adjustments for marketability and liquidity. The range of revenue multiples applied by the Group as at 31 December 2020 was 12x-13x (30 June 2020: 9x-10x). The effect of adjusting these inputs by +/-15% representing a range of reasonably possible alternatives would be to increase the fair value by up to \$122 million (30 June 2020: \$75 million) or to decrease the fair value by up to \$122 million (30 June 2020: \$75 million) with all of the potential effect impacting Investment securities revaluation reserve.

### Critical accounting judgements and estimates

Valuation techniques are used to estimate the fair value of financial instruments. When using valuation techniques the Group makes maximum use of market inputs and relies as little as possible on entity specific inputs. It incorporates all factors that the Group believes market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments. Data inputs that the Group relies upon when valuing financial instruments relate to counterparty credit risk, volatility, correlation and extrapolation.

Periodically, the Group calibrates its valuation techniques and tests them for validity using prices from any observable current market transaction in the same instruments (i.e. without modification or repackaging) and any other available observable market data.

# Notes to the Financial Statements (continued)

## 7. Other Information

### 7.1 Contingent Liabilities, Contingent Assets and Commitments arising from the banking business

Details of contingent liabilities and Off Balance Sheet instruments are presented below and in Note 7.2, in relation to litigation, investigations and reviews. The face (contract) value of credit risk related instruments as disclosed below represents the maximum potential amount that could be lost if the counterparty fails to meet its financial obligations. The credit equivalent amounts are a measure of potential loss to the Group in the event of non-performance by the counterparty. The credit commitments shown in the table below also constitute contingent assets. These commitments would be classified as loans, bills discounted and other receivables in the Balance Sheet should they be drawn upon by the customer.

	Face Value		Credit Equivalent	
	31 Dec 20	30 Jun 20	31 Dec 20	30 Jun 20
	\$M	\$M	\$M	\$M
<b>Credit risk related instruments</b>				
Guarantees	6,086	6,448	4,840	5,034
Documentary letters of credit	142	272	110	210
Performance related contingencies	5,342	5,071	2,671	2,535
Commitments to provide credit	183,992	168,537	175,152	159,761
Other commitments	1,378	2,015	1,369	2,005
<b>Total credit risk related instruments</b>	<b>196,940</b>	<b>182,343</b>	<b>184,142</b>	<b>169,545</b>

### Accounting Policy

Credit default financial guarantees are unconditional undertakings given to support the obligations of a customer to third parties. Other forms of financial guarantees include documentary letters of credit which are undertakings by the Group to pay or accept drafts drawn by a supplier of goods against presentation of documents in the event of payment default by a customer. Financial guarantees are recognised within other liabilities and are initially measured at their fair value, equal to the premium received. Subsequent to initial recognition, the Group's liability under each guarantee is measured at the higher of the amount initially recognised less cumulative amortisation recognised in the Income Statement, and the expected credit loss. Any increase in the liability relating to financial guarantees is recorded in the Income Statement. The premium received is recognised in the Income Statement in other operating income on a straight-line basis over the life of the guarantee.

Performance related contingencies are undertakings that oblige the Group to pay third parties should a customer fail to fulfil a contractual non-monetary obligation. Performance related contingencies are performance guarantees and do not meet the definition of a financial guarantee, because they do not transfer credit risk. Performance guarantees are recognised when it is probable that an obligation has arisen. The amount of any provision is the best estimate of the amount required to fulfil the obligation.

Commitments to provide credit include all obligations on the part of the Group to provide credit facilities (unutilised credit lines or undrawn portions of credit lines) against which clients can borrow money under defined terms and conditions. Such loan commitments are made either for a fixed period, or are cancellable by the Group subject to notice conditions. As facilities may expire without being drawn upon, the notional amounts do not necessarily reflect future cash requirements. Under AASB 9 loan commitments must be measured with reference to the quantum of expected credit losses required to be recognised. In the case of undrawn loan commitments, the inherent credit risk is managed and monitored by the Group together with the drawn component as a single credit exposure. The exposure at default on the entire facility is therefore used to calculate the cumulative expected credit losses. Upon a loan drawdown by the counterparty, the amount of the loan is accounted for in accordance with accounting policies for loans and receivables disclosed in Note 3.1.

Other commitments to provide credit include commitments with certain drawdowns, standby letters of credit and bill endorsements.

The details of the Group's accounting policies and critical judgements and estimates involved in calculating the AASB 9 impairment provisions are provided in Note 3.2.

# Notes to the Financial Statements (continued)

## 7.2 Customer Remediation, Litigation, Investigations and reviews, other matters

### Customer Remediation

Provisions for customer remediation require significant levels of estimation and judgement. The amount raised depends on a number of different assumptions, such as the number of years impacted, the forecast refund rate and the average cost per case. The Group is committed to comprehensively and efficiently addressing the full range of remediation issues impacting customers of the Banking and Wealth Management businesses. Significant resources have been committed to a comprehensive program of work, to ensure that all issues are identified and addressed.

#### Aligned Advice remediation – ongoing service fees

Aligned advisors were not employed by the Group but were representatives authorised to provide financial advice under the licences of the Group's subsidiaries, Financial Wisdom Limited (FWL), Count Financial Limited (Count Financial) and Commonwealth Financial Planning Limited-Pathways (CFP-Pathways).

The Group completed the sale of Count Financial to CountPlus Limited (CountPlus) on 1 October 2019, and ceased providing licensee services through CFP-Pathways and Financial Wisdom in March and June 2020, respectively. The Bank entered into reimbursement agreements with Financial Wisdom and CFP-Pathways, and an indemnity deed with CountPlus, to cover potential remediation of past issues including ongoing service fees charged where no service was provided. For details on the reimbursement agreements and the indemnity deed, refer to Note 11.2 of the 2020 Annual Report.

During the half year ended 31 December 2020, the Group recognised an increase in the provision for Aligned Advice remediation issues and program costs of \$118 million, including ongoing service fees charged where no service was provided.

As at 31 December 2020, the provision held by the Group in relation to Aligned Advice remediation was \$896 million (30 June 2020: \$804 million; 31 December 2019: \$529 million). The provision includes \$436 million for customer fee refunds (30 June 2020: \$418 million; 31 December 2019: \$251 million), \$329 million for interest on fees subject to refunds (30 June 2020: \$280 million; 31 December 2019: \$123 million) and \$131 million for costs to implement the remediation program (30 June 2020: \$106 million; 31 December 2019: \$155 million).

The Group's estimate of the proportion of fees to be refunded is based on sample testing and assumes an average refund rate across licensees of 37% (30 June 2020: 37%; 31 December 2019: 24%). This compares to a refund rate of 22%, which was paid for our salaried advisors. An increase/(decrease) in the failure rate by 1% would result in an increase/(decrease) in the provision of approximately \$20 million. The Group is continuing to engage with ASIC in relation to its remediation approach.

#### Banking and other Wealth customer remediation

As at 31 December 2020, the provision held by the Group in relation to Banking and other Wealth Management customer remediation programs was \$174 million (30 June 2020: \$227 million; 31 December 2019: \$262 million). The provision for Banking remediation includes an estimate of customer refunds (including interest) relating to business and retail banking products (including bank guarantees, cash deposit accounts, merchants billing and certain other lending products), and the related program costs. The wealth remediation

provision includes an estimate of customer refunds (including interest) relating to advice quality, transactions with deceased estates, the Consumer Credit Insurance products, certain superannuation and other products, and the related program costs.

### Litigation, Investigations and reviews

The Group is party to a number of legal proceedings, and the subject of various investigations and reviews. Provisions have been raised where indicated in accordance with the principles outlined in the accounting policy section of this note.

#### Litigation

The main litigated claims against the Group as at 31 December 2020 are summarised below.

#### Shareholder class actions

In October 2017 and June 2018 two separate shareholder class action proceedings were filed against CBA in the Federal Court of Australia, alleging breaches of CBA's continuous disclosure obligations and misleading and deceptive conduct in relation to the subject matter of the civil penalty proceedings brought against CBA by the Australian Transaction Reports and Analysis Centre (AUSTRAC). The AUSTRAC proceedings concerned contraventions of the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (Cth).

The resolution of the AUSTRAC civil penalty proceedings was approved by the Federal Court on 20 June 2018 with CBA paying a penalty of \$700 million and legal costs.

It is alleged in the class actions that CBA shareholders who acquired an interest in CBA shares between 16 June 2014 and 3 August 2017 suffered losses as a result of the alleged conduct. The two class actions are being case managed together, with a single harmonised statement of claim. CBA denies the allegations made against it, and it is currently not possible to determine the ultimate impact of these claims, if any, on the Group. The Group has provided for legal costs expected to be incurred in the defence of the claims.

#### Superannuation class actions

The Group is also defending four class action claims in relation to superannuation products.

On 9 October 2018, a class action was filed against Colonial First State Investments Limited (CFSIL) and CBA in the Federal Court of Australia. The claim initially related to investment in cash and deposit options (which are cash and deposit products provided by CBA) in the Colonial First State First Choice Superannuation Trust (FirstChoice Fund) and Commonwealth Essential Super (CES). A second further amended statement of claim and amended application was filed on 2 June 2020, joining Avanteos Investments Limited (AIL) as a party in respect of claims regarding the FirstWrap Pooled Cash Account and expanding the existing claims made against CFSIL and CBA. The main claims are that members invested in these cash and deposit options received lower interest rates than they could have received had CFSIL/AIL offered similar products made available in the market by another bank with comparable risk and that CFSIL/AIL retained the margin that arises through the internal transfer pricing process in respect of deposits made with CBA, for their own benefit. It is claimed CFSIL/AIL breached their duties as a trustee of the funds, CFSIL breached its duties as a Responsible Entity of the underlying managed

# Notes to the Financial Statements (continued)

## 7.2 Customer Remediation, Litigation, Investigations and reviews, other matters (continued)

investment schemes and that CBA was involved in CFSIL/AIL's breaches. CBA, CFSIL and AIL deny the allegations and are defending the proceedings. The matter was not resolved at the mediation on 3 September 2020.

On 18 October 2019, a second class action was commenced against CFSIL in the Federal Court of Australia. The claim relates to certain fees charged to members of the FirstChoice Fund. It is alleged that CFSIL breached its duties as trustee and acted unconscionably because it failed, between 2013 and 2019, to take steps to avoid the payment of grandfathered commissions to financial advisers, which would have resulted in a reduction of the fees paid by members in respect of whom those commissions were paid. CFSIL denies the allegations and is defending the proceedings. The Court has ordered the parties to participate in a mediation by 31 May 2021.

On 24 October 2019, a third class action was filed against CFSIL and a former executive director of CFSIL in the Federal Court of Australia, relating to alleged contraventions of statutory obligations under superannuation law and trustee breaches in the period 2013 to 2017. The class action relates to the transfer of certain default balances held by members of FirstChoice Employer Super to a MySuper product. The key allegation is that members should have been transferred to a MySuper product earlier than they were, and that the alleged failure to effect the transfer as soon as reasonably practicable caused affected members to pay higher fees and receive lower investment returns during the period of delay. CFSIL and its former director deny the allegations and are defending the proceedings. The Court has ordered the parties to participate in a mediation which will take place on 21 April 2021.

On 22 January 2020, a fourth class action was filed against CFSIL and The Colonial Mutual Life Assurance Society Limited (CMLA) in the Federal Court of Australia. The class action alleges that CFSIL did not act in the best interests of members and breached its trustee duties when taking out group insurance policies obtained from CMLA. The key allegation is that CFSIL entered into and maintained insurance policies with CMLA on terms that were less favourable to members than would have reasonably been available in the market. It is alleged that CMLA was knowingly involved in CFSIL's contraventions as trustee and profited from those contraventions. CFSIL and CMLA deny the allegations and are defending the proceedings.

It is currently not possible to determine the ultimate impact of these claims on the Group. The Group has provided for the legal costs expected to be incurred in the defence of the claims.

### Advice Class Actions

On 21 August 2020, a class action was filed in the Federal Court of Australia against Commonwealth Financial Planning Limited (CFP), Financial Wisdom Limited (FWL) and CMLA. The claim relates to certain CommInsure (CMLA) life insurance policies recommended by financial advisers appointed by CFP and FWL during the period 21 August 2014 to 21 August 2020. The key allegations include that CFP and FWL or their financial advisers breached their fiduciary duties to their clients, breached their duty to act in the best interest of their clients, and had prioritised their own interests (and the interests of CFP, FWL and CMLA) over the interest of their clients, in recommending certain CommInsure life insurance policies in

preference to substantially equivalent or better policies available at lower premiums from third party insurers. It is also alleged that CMLA is liable to account for excess premiums because it knew the material facts giving rise to the breaches of fiduciary duty. CFP, FWL and CMLA intend to defend the proceedings.

On 3 September 2020, CBA was notified of a class action commenced against Count Financial Limited (Count) in the Federal Court of Australia on 24 August 2020. The proceeding relates to commissions paid to Count and its authorised representative financial advisers in respect of financial products (including insurance) and certain obligations of its financial advisers to provide ongoing advice in the period from 21 August 2014 to 21 August 2020. The claim also includes allegations (related to the receipt of commissions) that Count engaged in misleading or deceptive conduct under the Australian Consumer Law, and that Count and its authorised representatives breached fiduciary duties owed to the applicant and group members. The claim seeks compensation and damages from Count, including any profits resulting from the contraventions.

Count was a wholly owned subsidiary of CBA until 1 October 2019, when it was acquired by CountPlus Limited. CBA has assumed the conduct of the defence in this matter on Count's behalf. Count intends to defend the proceedings.

It is currently not possible to determine the ultimate impact of these claims on the Group. The Group has provided for legal costs expected to be incurred in the defence of these claims.

### US BBSW class action

In 2016, a class action was commenced in the United States District Court in New York against CBA, other banks and two brokers, claiming a conspiracy among competitors to manipulate the BBSW benchmark for mutual gain. The claims include allegations that United States racketeering and antitrust legislation have been contravened. In November 2018, the Court dismissed the claims against CBA and the other foreign defendants, but in April 2019, an amended complaint was filed that included new allegations and added a new named plaintiff. The defendants applied to the Court to dismiss the amended complaint. In February 2020, the judge determined that the new named plaintiff's claims could proceed against CBA and nine other banks. CBA denies the allegations and is defending the proceedings. The breadth of the class (if any) that may be allowed to claim against CBA will not be determined until August 2021 at the earliest. The proceedings are currently in the class certification discovery phase, where the parties are taking discovery on issues related to whether the matter should proceed as a class action.

It is currently not possible to determine the ultimate impact of this claim on the Group. The Group has provided for legal costs expected to be incurred in the defence of this claim.

### Consumer credit insurance class action

On 10 June 2020, a class action was commenced against CBA and CMLA in the Federal Court of Australia. The claim relates to consumer credit insurance for credit cards and personal loans that was sold between 1 January 2010 and 7 March 2018. The class action alleges that CBA and CMLA engaged in unconscionable and misleading or deceptive conduct, failed to

# Notes to the Financial Statements (continued)

## 7.2 Customer Remediation, Litigation, Investigations and reviews, other matters (continued)

act in the best interests of customers and provided them with inappropriate advice. In particular, it is alleged that some customers were excluded from claiming certain benefits under the policies and the insurance was therefore unsuitable or of no value. Allegations are also made in relation to the manner in which the insurance was sold. CBA and CMLA deny the allegations and are defending the proceedings.

It is currently not possible to determine the ultimate impact of this claim, if any, on the Group. The Group has provided for legal costs expected to be incurred in the defence of this claim.

### ASIC regulatory enforcement proceedings

#### CFSIL My Super (29WA)

On 17 March 2020, ASIC commenced civil penalty proceedings against CFSIL in the Federal Court of Australia for alleged breaches of the *Australian Securities and Investments Commission Act 2001* (Cth) (ASIC Act) and *Corporations Act 2001* (Cth) (Corporations Act) arising from communications with members of the FirstChoice Fund. In 2012, the Australian government passed legislation requiring trustees, such as CFSIL, to allocate member contributions to a default MySuper superannuation product in certain circumstances including where a written investment direction had not been provided by the member. ASIC alleges, amongst other things, that CFSIL communicated with members both in template letters and on telephone calls, in a misleading or deceptive manner regarding the provision of investment directions to stay with CFSIL's FirstChoice Fund rather than transitioning to CFSIL's MySuper product.

CFSIL filed its response to the claim on 17 July 2020. ASIC filed an amended statement of claim which, amongst other things, includes additional telephone calls which it alleges are misleading or deceptive. A defence to the amended statement of claim was filed on 11 December 2020.

It is currently not possible to determine the ultimate impact of this claim on the Group. The Group has provided for legal costs expected to be incurred in the defence of this claim.

#### Commonwealth Essential Super

On 22 June 2020, ASIC commenced civil penalty proceedings against CFSIL and CBA in the Federal Court of Australia for alleged contraventions of the conflicted remuneration provisions in the Corporations Act relating to the arrangements between CFSIL and CBA for the distribution of CES. CES is a MySuper product issued by CFSIL.

CBA filed its defence to the proceedings on 24 August 2020 and CFSIL filed its defence on 25 August 2020. CBA and CFSIL deny the allegations and are defending the proceedings.

It is currently not possible to determine the ultimate impact of this claim, if any, on the Group. The Group has provided for legal costs expected to be incurred in the defence of this claim.

#### CBA business overdraft proceedings

On 1 December 2020, ASIC commenced civil penalty proceedings in the Federal Court of Australia against CBA, alleging contraventions of the Corporations Act and ASIC Act in relation to overcharging of interest on certain business overdraft accounts. ASIC is seeking penalties in respect of conduct which occurred during the period 1 December 2014 to 31 March 2018.

The overcharging affected 2,269 customers. The affected customers have been sent refunds and CBA's remediation program has concluded.

CBA does not intend to defend the proceedings. It is currently not possible to determine the ultimate impact of the claim.

### Ongoing regulatory investigations and reviews

The Group undertakes ongoing compliance activities, including breach reporting, reviews of products, advice, conduct and services provided to customers, as well as interest, fees and premiums charged. Some of these activities have resulted in remediation programs and where required the Group consults with the relevant regulator on the proposed remediation action.

Provisions have been recognised by the Group where the criteria outlined in the accounting policy section of this note are satisfied. Contingent liabilities exist with respect to these matters where it is not possible to determine the extent of any obligation to remediate or the potential liability cannot be reliably estimated.

There are also a number of ongoing matters where regulators are investigating whether CBA or a Group entity has breached legal or regulatory obligations. Where a breach has occurred, regulators are likely to impose, or apply to a Court for, fines and/or other sanctions. These matters include investigations by APRA and ASIC of issues which were referred to them by the Financial Services Royal Commission, as well as a number of other matters notified to, or identified by, regulators.

In addition to possible regulatory action, there may also be financial exposure to claims by customers, third parties and shareholders and this could include further class actions, customer remediation or claims for compensation. The outcomes and total costs associated with such regulatory investigations and possible claims remain uncertain.

### Fair Work Ombudsman (FWO) investigation

The FWO's investigation in relation to CBA's self-disclosure of discrepancies in employee arrangements and entitlements is ongoing, and CBA continues to engage with FWO and respond to its requests for information. It is currently not possible to determine the ultimate impact of this investigation on the Group.

CBA is continuing with its broad review of employee entitlements and is remediating impacted current and former employees as the review progresses. We continue to update both the FWO and the Finance Sector Union. The Group holds a provision for remediation and program costs related to this matter.

# Notes to the Financial Statements (continued)

## 7.2 Customer Remediation, Litigation, Investigations and reviews, other matters (continued)

### Other regulatory matters

The following matters were significant regulatory investigations and reviews, which have been completed, but have resulted in ongoing action required by the Group.

#### Enforceable undertaking to ASIC (foreign exchange)

In December 2016, CBA provided an enforceable undertaking (EU) to ASIC arising from an investigation into wholesale spot foreign exchange (FX) trading between 2008 and 2013. The EU included the engagement of an independent expert, to review and assess the changes we have made to our trading operating model in recent years, including in training, procedures and oversight.

It also included a voluntary contribution of \$2.5 million to support the further development of financial literacy education relating to changes to delivery of care in the aged care sector.

CBA provided details of the implementation of its Final FX EU Program to ASIC in March 2019. The independent expert conducted an assessment of CBA's implementation and submitted its final expert report on 31 May 2019. The report highlighted certain terms of the consolidated Final FX EU Program, which were yet to be implemented, certain matters that could not be assessed and some other areas for improvement. ASIC accepted a variation to the EU on 16 October 2020 and CBA is implementing the terms of the varied EU.

#### Prudential inquiry into CBA and enforceable undertaking to APRA

On 28 August 2017, APRA announced it would establish an independent prudential inquiry (the Inquiry) into the Group focusing on the governance, culture and accountability frameworks and practices within the Group. The final report of the Inquiry was released on 1 May 2018 (the Final Report). The Final Report made a number of findings regarding the complex interplay of organisational and cultural factors within the Group and the need for enhanced management of non-financial risks. In response to the Final Report, the Group acknowledged that it would implement all of the recommendations and agreed to adjust its minimum operational risk capital requirements by an additional \$1 billion (an impact to risk weighted assets of \$12.5 billion) until such time as the recommendations are implemented to APRA's satisfaction.

CBA has entered into an EU under which CBA's remedial action (Remedial Action Plan) in response to the Final Report would be agreed and monitored regularly by APRA. The Remedial Action Plan provides a detailed program of change outlining how CBA will improve the way it runs its business, manages risk, and works with regulators. The Remedial Action Plan also provides a comprehensive assurance framework, with Promontory Australasia (Sydney) Pty Ltd (Promontory) having been appointed as the independent reviewer, and which is required to report to APRA on the Group's progress against committed milestones every 3 months.

Promontory is continuing to provide APRA with quarterly progress reports, and CBA is committed to report publicly on its progress against the Remedial Action Plan twice a year. Ten Promontory reports have been released by CBA. Promontory has noted that the Remedial Action Plan program of work remains on track and CBA's commitment to implementing the Inquiry's recommendations continued to be strong with all 177 milestones on schedule to be delivered by the applicable due dates.

In November 2020 APRA completed a validation review of the Group's progress and found that it had made significant progress in implementing the Remedial Action Plan. The Group acknowledged the outcome of APRA's review and its decision that it would reduce the minimum operational risk capital requirements from an additional \$1 billion to an additional \$500 million.

The Group has provided for costs associated with the implementation of the Remedial Action Plan.

#### Financial crime compliance

As noted above, in 2018 the Group resolved the AUSTRAC proceedings relating to contraventions of anti-money laundering/counter-terrorism financing (AML/CTF) laws.

Recognising the crucial role that the Group plays in fighting financial crime, it continues to invest significantly in its financial crime capabilities, including in its AML/CTF Compliance team and through the Program of Action with coverage across all aspects of financial crime (including anti-money laundering/counter-terrorism financing, sanctions and anti-bribery and corruption) and all business units. The Group has provided for costs related to the Program of Action.

The Group provides updates to AUSTRAC and the Group's other regulators on the Program of Action implemented by the Group.

However, there is no assurance that AUSTRAC or the Group's other regulators will agree that the Group's Program of Action will be adequate or that the Program of Action will effectively enhance the Group's financial crime compliance programs across its business units and the jurisdictions in which it operates. Although the Group is not currently aware of any other enforcement action by other domestic or foreign regulators in respect of its AML/CTF compliance, the Group regularly engages with such regulators (including in respect of compliance matters) and there can be no assurance that the Group will not be subject to such enforcement actions in the future.

# Notes to the Financial Statements (continued)

## 7.2 Customer Remediation, Litigation, Investigations and reviews, other matters (continued)

### Enforceable undertaking to ASIC (BBSW)

On 21 June 2018, the Federal Court approved an agreement between CBA and ASIC to resolve proceedings concerning alleged market manipulation and unconscionable conduct in respect of the bank bill market. CBA paid a civil penalty of \$5 million and a community benefit payment of \$15 million to Financial Literacy Australia. It also agreed to pay ASIC's costs of the investigation and legal costs. The Group provided for these costs in an earlier period.

As part of the settlement CBA also entered into an EU with ASIC under which CBA undertook to engage an independent expert to assess changes it has made (and will make) to its policies, procedures, controls systems, training, guidance and framework for the monitoring and supervision of employees and trading in Prime Bank Bills and CBA's BBSW-referenced product businesses. On 5 October 2018, CBA appointed EY as the independent expert. CBA provided its BBSW Program of remediation work to ASIC and EY on 21 December 2018. EY reviewed the BBSW Program and provided certain recommendations in its report dated 23 April 2019. CBA considered those recommendations with ASIC and EY and delivered its Final BBSW Program to ASIC and EY on 23 July 2019.

CBA has developed an enhanced control framework which, if it is satisfactory to ASIC, will be incorporated as part of the Final BBSW program. Once CBA and ASIC have agreed the terms of the Final BBSW Program, CBA will implement the program in accordance with the terms of the enforceable undertaking. The Group has provided for costs associated with implementation of the BBSW Program.

### Enforceable undertaking to the Office of Australian Information Commissioner (OAIC)

In June 2019, the Australian Information Commissioner (Commissioner) accepted an EU offered by CBA, which requires further enhancements to the management and retention of customer personal information within CBA and certain subsidiaries.

The EU follows CBA's work to address two incidents: one relating to the disposal by a third party of magnetic data tapes containing historical customer statements and the other relating to potential unauthorised internal user access to certain systems and applications containing customer personal information. CBA reported the incidents to the Commissioner in 2016 and 2018 respectively and has since been working to address these incidents. CBA found no evidence that its customers' personal information was compromised by the incident reported in 2016, and has found no evidence to date that there have been any instances of unauthorised access by CBA employees or third parties as a result of the incident reported in 2018 and has now closed all of its internal investigations.

The Group has provided for certain costs associated with implementation and compliance with the EU provided to the Commissioner.

### Other matters

#### Exposures to divested businesses

The Group has potential exposures to divested businesses, including through the provision of services, warranties and indemnities. These exposures may have an adverse impact on the Group's financial performance and position. The Group has recognised provisions where payments in relation to the exposures are probable and reliably measurable.

### Accounting Policy

Provisions are recognised for present obligations arising from past events where a payment to settle the obligation is probable and can be reliably estimated. Where the effect of the time value of money is material, the amount of the provision is measured as the present value of expenditures required to settle the obligation, based on a market observable rate.

Where a provision is not recognised, a contingent liability may exist. A contingent liability is a possible obligation whose existence will be confirmed only by one or more uncertain future events, or a present obligation where an outflow of economic resources is not probable or the obligation cannot be reliably measured. Contingent liabilities are not recognised on the balance sheet, but are disclosed unless an outflow of economic resources is remote.

# Notes to the Financial Statements (continued)

## 7.3 Discontinued Operations and Businesses Held for Sale

The Group continues to deliver on its strategic priority to create simpler, better foundations through divestments of wealth management and other non-core businesses. A summary of divestments completed during the half years ended 31 December 2020, 30 June 2020 and 31 December 2019, as well as ongoing divestments is provided below.

### Completed transactions

#### Colonial First State Global Asset Management

On 31 October 2018, the Group announced the sale of Colonial First State Global Asset Management (CFSGAM) to Mitsubishi UFJ Trust and Banking Corporation (MUTB). The sale of CFSGAM completed on 2 August 2019, resulting in a total post-tax gain of \$1,617 million (net of transaction and separation costs). This includes a \$1,688 million post-tax gain net of transaction and separation costs recognised during the half year ended 31 December 2019, and \$71 million post-tax transaction and separation costs recognised during the year ended 30 June 2019.

#### Count Financial

On 13 June 2019, the Group announced the sale of its 100% interest in Count Financial Limited (Count Financial) to CountPlus Limited (CountPlus) for \$2.5 million. The sale completed on 1 October 2019, resulting in a post-tax gain of \$19 million (net of transaction and separation costs). This includes a post-tax gain of \$52 million (net of transaction and separation costs) recognised during the half year ended 31 December 2019, post-tax impairment losses of \$26 million and post-tax transaction and separation costs of \$7 million recognised during the half year ended 30 June 2019. Upon completion, the Group provided an indemnity to CountPlus capped at \$200 million, which was increased to \$300 million on 29 July 2020. Refer to Note 7.1 of the 2020 Annual Report for further information. As Count Financial did not constitute a major line of the Group's business, it was not classified as a discontinued operation.

#### PT Commonwealth Life

On 23 October 2018, the Group announced the sale of its 80% interest in its Indonesian life insurance business, PT Commonwealth Life (PTCL), to FWD Group (FWD). The sale of PTCL completed on 4 June 2020, resulting in a total post-tax gain of \$109 million (net of transaction costs). As part of the sale, CBA's Indonesian banking subsidiary, PT Bank Commonwealth (PTBC), has entered into a 15 year life insurance distribution partnership with FWD.

#### Aligned advice

On 7 August 2019 CBA confirmed it would commence the assisted closure of Financial Wisdom Limited (Financial Wisdom) and allow Commonwealth Financial Planning Limited-Pathways (CFP-Pathways) advisers to transition to a self-licensing arrangement or move to another licensee. The Group ceased providing licensee services through CFP-Pathways in March 2020 and through Financial Wisdom in June 2020. As Financial Wisdom and CFP-Pathways did not constitute a major line of the Group's business, they were not classified as discontinued operations.

#### BoCommLife

On 23 May 2018, the Group announced the sale of its 37.5% equity interest in BoCommLife Insurance Company Limited (BoCommLife) to MS&AD Insurance Group Holdings (MS&AD), the ultimate parent company of Mitsui Sumitomo Insurance Co., subject to Chinese regulatory approvals.

The sale of BoCommLife completed on 10 December 2020, resulting in a post-tax gain of \$369 million (net of transaction

costs) recognised during the half year ended 31 December 2020.

### Ongoing transactions

#### Life insurance businesses in Australia

On 21 September 2017, the Group entered into an agreement to sell 100% of its life insurance businesses in Australia (CommInsure Life) to AIA Group Limited (AIA).

On 1 November 2019, the Group announced the implementation of a joint cooperation agreement (JCA) which resulted in the full economic interests associated with CommInsure Life being transferred to AIA and AIA obtaining direct management and control of the business (excluding in relation to the Group's 37.5% equity interest in BoCommLife). As a result, CommInsure Life (excluding BoCommLife) was deconsolidated and derecognised on 1 November 2019.

The aggregate proceeds, which are receivable in instalments under the JCA, are \$2,375 million (before completion account adjustments), and includes four partnership milestone payments of \$50 million each. The Group recognised a total post-tax loss of \$316 million on the deconsolidation of CommInsure Life. This includes a \$116 million post-tax loss on deconsolidation, net of transaction and separation costs recognised during the half year ended 31 December 2019. Post-tax transaction and separation costs of \$82 million and \$118 million were recognised during the years ended 30 June 2019 and 30 June 2018, respectively.

Ultimate completion of the divestment of CommInsure Life is expected to occur via a statutory asset transfer in the first half of the calendar year 2021, at which time the remaining proceeds of approximately \$100 million are expected to be received.

#### Australian Investment Exchange

On 28 April 2020, the Group announced the sale of its subsidiary, Australian Investment Exchange Limited (AUSIEX), to Nomura Research Institute (NRI). AUSIEX trades under the brand name CommSec Advisor Services. On completion, the Group is expected to receive proceeds of approximately \$85 million, subject to completion adjustments.

The sale is subject to Australian regulatory approvals and other conditions, and is expected to complete in the first half of calendar year 2021. As AUSIEX did not constitute a major line of the Group's business, it was not classified as a discontinued operation.

#### Colonial First State

On 13 May 2020, the Group entered into an agreement to sell a 55% interest in Colonial First State (CFS) to KKR. On completion, the Group is expected to receive proceeds of approximately \$1.7 billion, subject to completion adjustments. The sale is subject to Australian regulatory approvals, and is expected to complete in the first half of calendar year 2021.

#### Aussie Home Loans

On 16 December 2020, the Group entered into an agreement to merge Aussie Home Loans with Lendi, an online home loan platform. Upon completion, the Group will retain a 45% shareholding in the combined business, with existing Lendi shareholders holding the remaining 55% shareholding. The Group will also receive deferred consideration and a pre-completion dividend of \$105 million in aggregate (subject to adjustments).

The sale is subject to Australian regulatory approvals, and is expected to complete by mid calendar year 2021. As Aussie Home Loans did not constitute a major line of the Group's business, it was not classified as a discontinued operation.

<b>Total assets</b>	<b>1,615</b>	<b>1,767</b>	<b>1,201</b>
<b>Liabilities held for sale</b>			
Insurance policy liabilities	–	–	491
Other liabilities	655	594	71
<b>Total liabilities</b>	<b>655</b>	<b>594</b>	<b>562</b>

Foreign currency translation reserve related to discontinued operations was a gain of \$2 million and \$3 million as at 30 June 2020 and 31 December 2019, respectively. Investment securities revaluation reserve related to discontinued operations was a loss of \$35 million and \$19 million as at 30 June 2020 and 31 December 2019, respectively.

### Accounting Policy

Non-current assets (including disposal groups) are classified as held for sale if they will be recovered primarily through sale rather than through continuing use. Non-current assets which are to be abandoned, or businesses which are to be closed, are not classified as held for sale, since the carrying amount will be recovered principally through continuing use. A discontinued operation is a component of an entity that has been sold, or classified as held for sale, and represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or is a subsidiary acquired exclusively with a view to resale.

# Notes to the Financial Statements (continued)

## 7.4 Subsequent Events

The Directors have determined a fully franked interim dividend of 150 cents per share amounting to \$2,661 million.

The Bank expects the DRP for the interim dividend for the half year ended 31 December 2020 will be satisfied in full by an on-market purchase of shares of approximately \$399 million.

# Directors' Declaration

The Directors of the Commonwealth Bank of Australia declare that:

In the opinion of the Directors, the consolidated financial statements and notes for the half year ended on 31 December 2020, as set out on pages 74 to 125, are in accordance with the *Corporations Act 2001 (Cth)*, including:

- i. complying with the Australian Accounting Standards and any further requirements in the *Corporations Regulations 2001*; and
- ii. giving a true and fair view of the Group's financial position as at 31 December 2020 and its performance for the six months ended 31 December 2020;

In the opinion of the Directors, there are reasonable grounds to believe that the Bank will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors.

Catherine Livingstone AO

Chairman

10 February 2021

Matt Comyn

Managing Director and Chief Executive Officer

## **Independent auditor's review report to the members of Commonwealth Bank of Australia**

### ***Report on the half-year financial report***

#### ***Conclusion***

We have reviewed the half-year financial report of Commonwealth Bank of Australia (the Bank) and the entities it controlled during the half-year (together the Group), which comprises the consolidated balance sheet as at 31 December 2020, the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, significant accounting policies and explanatory notes and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

1. giving a true and fair view of the Group's financial position as at 31 December 2020 and of its performance for the half-year ended on that date; and
2. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### ***Basis for conclusion***

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

#### ***Responsibility of the directors for the half-year financial report***

The directors of the Bank are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement whether due to fraud or error.

#### ***Auditor's responsibility for the review of the half-year financial report***

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that

---

**PricewaterhouseCoopers, ABN 52 780 433 757**

One International Towers Sydney, Watermans Quay, Barangaroo, GPO BOX 2650, SYDNEY NSW 2001  
T: +61 2 8266 0000, F: +61 2 8266 9999, [www.pwc.com.au](http://www.pwc.com.au)

Liability limited by a scheme approved under Professional Standards Legislation.

the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2020 and of its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

*Matters relating to the electronic presentation of the reviewed half-year financial report*

This review report relates to the half-year financial report of the Bank for the half-year ended 31 December 2020 included on Commonwealth Bank of Australia's web site. The Bank's directors are responsible for the integrity of the Commonwealth Bank of Australia web site. We have not been engaged to report on the integrity of this web site. The review report refers only to the statements named above. It does not provide a conclusion on any other information which may have been hyperlinked to/from these statements. ## 1. Our Performance

### Overview

The Group earns its returns from providing a broad range of banking and wealth management products and services to retail and wholesale customers in Australia, New Zealand and other jurisdictions.

Lending and deposit taking are the Group's primary business activities with net interest income being the main contributor to the Group's results. Net interest income is derived from the difference between interest earned on lending and investment assets and interest incurred on customer deposits and wholesale debt raised to fund these assets.

The Group further generates income from lending fees and commissions, general insurance products and trading activities. It also incurs costs associated with running the business such as staff, occupancy and technology related expenses.

The Performance section provides details of the main contributors to the Group's returns and analysis of its financial performance by business segments and geographical regions.

### 1.1 Net Interest Margin (continuing operations basis)

	Half Year Ended		
	31 Dec 20	30 Jun 20	31 Dec 19
	%	%	%
<b>Australia</b>			
Interest spread <sup>1,2</sup>	1.97	1.96	1.98
Benefit of interest-free liabilities, provisions and equity <sup>3</sup>	0.12	0.17	0.22
<b>Net interest margin</b> <sup>2,4</sup>	<b>2.09</b>	2.13	2.20
<b>New Zealand</b>			
Interest spread <sup>1,2</sup>	1.62	1.60	1.60
Benefit of interest-free liabilities, provisions and equity <sup>3</sup>	0.24	0.26	0.29

<b>Other Overseas</b>			
Interest spread <sup>1,2</sup>	0.40	0.37	0.40
Benefit of interest-free liabilities, provisions and equity <sup>3</sup>	0.03	0.07	0.12
<b>Net interest margin</b> <sup>2,4</sup>	<b>0.43</b>	0.44	0.52
<b>Total Group</b>			
Interest spread <sup>1</sup>	1.88	1.85	1.88
Benefit of interest-free liabilities, provisions and equity <sup>3</sup>	0.13	0.19	0.23
<b>Net interest margin</b> <sup>4</sup>	<b>2.01</b>	2.04	2.11

1 Difference between the average interest rate earned and the average interest rate paid on funds.

2 Interest spread and margin calculations have been adjusted to include intragroup borrowings to more appropriately reflect the overseas cost of funds.

3 A portion of the Group's interest earning assets is funded by net interest-free liabilities and shareholders' equity. The benefit to the Group of these interest-free funds is the amount it would cost to replace them at the average cost of funds.

4 Net interest income divided by average interest earning assets for the half year annualised.

# Appendices (continued)

## 1.2 Average Balances and Related Interest (continuing operations basis)

The following tables list the major categories of interest earning assets and interest bearing liabilities of the Group together with the respective interest earned or paid and the average interest rate for each of the half years ended 31 December 2020, 30 June 2020 and 31 December 2019. Averages used were predominantly daily averages. Interest is accounted for based on product yield.

Where assets or liabilities are hedged, the interest amounts are shown net of the hedge, however individual items not separately hedged may be affected by movements in exchange rates.

The New Zealand and Other Overseas components comprise overseas branches of the Group and overseas domiciled controlled entities.

Non-accrual loans are included in interest earning assets under loans, bills discounted and other receivables.

During the half year ended 31 December 2020 the official cash rate in Australia decreased 15 basis points on a spot basis, while in New Zealand the official cash rate remained flat on a spot basis.

	Half Year Ended 31 Dec 20			Half Year Ended 30 Jun 20			Half Year Ended 31 Dec 19

<b>Total average assets</b>	<b>1,031,108</b>			<b>1,016,344</b>			<b>983,389</b>		

<sup>1</sup> Home loans are reported net of average mortgage offset balances (half year ended 31 December 2020: \$55,040 million; half year ended 30 June 2020: \$50,118 million; half year ended 31 December 2019: \$47,510 million), which are included in non-interest earning assets. Gross average home loans balance in the half year ended 31 December 2020, excluding mortgage offset accounts was \$549,776 million (half year ended 30 June 2020: \$539,132 million; half year ended 31 December 2019: \$527,650 million). While these balances are required to be grossed up under accounting standards, they are netted down for the calculation of customer interest payments and the calculation of the Group's net interest margin.

<sup>2</sup> Consumer finance includes personal loans, credit cards and margin loans.

<sup>3</sup> Used for calculating net interest margin.

<b>Total other banking income - "statutory basis"</b>	<b>2,354</b>	<b>2,408</b>	<b>2,594</b>	<b>(2)</b>	<b>(9)</b>

<sup>1</sup> Includes gains/(losses) on non-trading derivatives that are held for risk management purposes.

<sup>2</sup> The half year ended 31 December 2020 includes depreciation of \$40 million in relation to assets held for lease by the Group (30 June 2020: \$43 million; 31 December 2019: \$40 million).

<sup>3</sup> The half year ended 31 December 2020 includes a further \$124 million impairment loss recognised by the Group in relation to certain aircraft owned by the Group and leased to various airlines (30 June 2020: \$92 million). The impairment loss was driven by the impact of COVID-19 on the aviation sector.

#### Other Banking Income – Reconciliation of Cash and Statutory Basis

The table below sets out various accounting impacts arising from the application of AASB 139 *Financial Instruments: Recognition and Measurement* to the Group's derivative hedging activities and other non-cash items.

	Half Year Ended

## 2. Risk Management

### Overview

The Group is exposed to financial risks, non-financial risks and strategic risks arising from its operations. The Group manages these risks through its Risk Management Framework (the Framework), which evolves to accommodate changes in the business operating environment, better practice approaches, and regulatory and community expectations. The Group's key risk types are credit, market, liquidity, operational, insurance, strategic and compliance. The framework is discussed in Note 9.1 in the 2020 Annual Report.

### 2.1 Integrated Risk Management

The Group's approach to risk management is described within Note 9 of the Financial Statements in the 2020 Annual Report. Further disclosures in respect of capital adequacy and risk are provided in the Group's annual Pillar 3 document.

#### Credit Risk

The Group uses a portfolio approach for the management of its credit risk, of which a key element is a well-diversified portfolio. The Group uses various portfolio management tools to assist in diversifying the credit portfolio.

Below is a breakdown of the Group's committed exposures across industry sector, region and commercial credit quality.

By Sector	As at <sup>1, 2</sup>		
	31 Dec 20 %	30 Jun 20 %	31 Dec 19 %
Consumer	58.7	58.8	60.0
Government, Admin. & Defence	12.8	11.8	10.0
Finance & Insurance	6.8	7.6	7.9
Commercial Property	6.6	6.6	6.5
Transport & Storage	2.3	2.5	2.5
Agriculture & Forestry	2.1	2.1	2.1
Manufacturing	1.4	1.4	1.5
Entertainment, Leisure & Tourism	1.1	1.2	1.1

<sup>1</sup> Committed exposures by region and commercial credit quality are disclosed on a gross basis (calculated before collateralisation).

<sup>2</sup> Comparative information has been restated to conform to presentation in the current period.

As a measure of individually risk-rated commercial portfolio exposure (including finance and insurance), the Group has 65.9% (June 2020: 66.3%; December 2019: 65.3%) of commercial exposures at investment grade quality.

# Appendices (continued)

## 2.1 Integrated Risk Management (continued)

### Market Risk

Market risk in the Balance Sheet is discussed within Note 9.3 of the 2020 Annual Report.

#### Value at Risk (VaR)

The Group uses Value at Risk (VaR) as one of the measures of Traded and Non-Traded market risk. VaR measures potential loss using historically observed market movements and correlation between different markets.

VaR is modelled at a 99.0% confidence level. This means that there is a 99.0% probability that the loss will not exceed the VaR estimate on any given day.

A 10-day holding period is used for trading book positions. A 20-day holding period is used for interest rate risk in the banking book.

Where VaR is deemed not to be an appropriate method of risk measurement other risk measures have been used, as specified by the heading or accompanying footnotes of the tables provided.

	Average VaR <sup>1</sup>		
	31 Dec 20	30 Jun 20	31 Dec 19
	\$M	\$M	\$M
<b>Traded Market Risk</b>			
<b>Risk Type</b>			
Interest rate risk	29.1	26.5	21.2
Foreign exchange risk	7.6	33.2	9.4
Equities risk	0.4	0.3	0.4
Commodities risk	14.4	7.9	9.2
Credit spread risk	27.5	31.5	7.6
Other market risk <sup>2</sup>	20.5	52.0	30.2
Diversification benefit	(35.7)	(89.9)	(50.4)
Total general market risk	63.8	61.5	27.6
Undiversified risk	14.7	8.6	5.7
ASB & PTBC Banks	3.6	0.5	0.8
<b>Total</b>	<b>82.1</b>	<b>70.6</b>	<b>34.1</b>

<sup>1</sup> Average VaR is at 10 day 99% confidence and is calculated for each 6 month period.

<sup>2</sup> Includes volatility risk and basis risk.

# Appendices (continued)

## 2.1 Integrated Risk Management (continued)

### Interest rate risk in the banking book

Interest rate risk in the banking book is discussed within Note 9.3 of the 2020 Annual Report.

#### (a) Next 12 Months' Earnings

The figures in the following table represent the potential unfavourable change to the Group's net interest earnings during the year based on a 100 basis point parallel rate shock. As the official cash rate in both Australia and New Zealand was below 1.00% as at 31 December 2020, a downward rate shock of 100 basis points implies a negative interest rate of 0.90% and 0.75% for Australia and New Zealand, respectively. The analysis does not take into account management actions that may be taken to mitigate the unfavourable impact of falling interest rates.

		31 Dec 20	30 Jun 20 <sup>2</sup>	31 Dec 19 <sup>2</sup>
		\$M	\$M	\$M
<b>Net Interest Earnings at Risk<sup>1</sup></b>				
Average monthly exposure	AUD	1,833. 6	1,230. 2	787. 2
	NZD	253. 2	140. 3	72. 4
High month exposure	AUD	2,084. 4	1,682. 0	1,038. 0
	NZD	313. 5	215. 9	104. 0
Low month exposure	AUD	1,627. 0	812. 0	506. 7
	NZD	212. 4	88. 4	47. 3

1 Exposures over a 6 month period. NZD exposures are presented in NZD.

2 Comparative information for NZD has been restated to conform to presentation in the current period. This includes a change in modelling to account for the impact of interest rate floors on deposits.

Net interest earnings at risk increased during the period due to decreases in the official cash rate combined with deposit growth, which resulted in additional deposit balances becoming subject to interest rate floors.

#### (b) Economic Value

A 20-day 99.0% VaR measure is used to capture the economic impact of adverse changes in interest rates on all banking book assets and liabilities.

	31 Dec 20	30 Jun 20	31 Dec 19
	\$M	\$M	\$M
<b>Non-Traded Interest Rate Risk VaR<sup>1</sup> (20-day 99.0% confidence)</b>			
Average daily exposure	686. 1	493. 3	242. 4
High daily exposure	743. 0	804. 2	271. 0
Low daily exposure	638. 5	258. 7	224. 1

1 Exposures over a 6 month period.

# Appendices (continued)

## 2.1 Integrated Risk Management (continued)

### Funding Sources

The following table provides the funding sources for the Group including customer deposits, and short-term and long-term wholesale funding. Shareholders' equity is excluded from this view of funding sources.

1 Comparative information has been restated to conform to presentation in the current period.

2 Transaction deposits exclude non-interest bearing deposits (included in other customer deposits).

3 Other customer deposits primarily consist of non-interest bearing transaction deposits and deposits held at fair value through the Income Statement.

4 Includes Bank acceptances.

5 Includes net securities sold under agreement to repurchase and purchased under agreement to resell and interbank borrowings.

6 Residual maturity of long-term wholesale funding (included in Debt issues and Loan capital) is the earlier of the next call date or final maturity.

7 Includes notes issued under the Bank's 3(a)(2) program.

8 Includes accrued interest payable at maturity.

# Appendices (continued)

## 2.1 Integrated Risk Management (continued)

### Overview

The Group's liquidity and funding policies are designed to ensure it will meet its obligations as and when they fall due by ensuring it is able to issue debt on an unsecured or secured basis, has sufficient liquid assets to borrow against under repurchase agreements or sell to raise immediate funds without adversely affecting the Group's net asset value.

The Group's liquidity policies are designed to ensure it maintains sufficient cash balances and liquid asset holdings to meet its obligations to customers, in both ordinary market conditions and during periods of extreme stress. These policies are intended to protect the value of the Group's operations during periods of unfavourable market conditions.

The Group's funding policies are designed to achieve diversified sources of funding by product, term, maturity date, investor type and location, currency and concentration, on a cost effective basis. This objective applies to the Group's wholesale and retail funding activities.

### Liquidity and Risk Management Framework

The CBA Board is ultimately responsible for the sound and prudent management of liquidity risk across the Group. The Group's liquidity and funding policies, structured under a formal Group Liquidity and Funding Risk Management Framework, are approved by the Board and agreed with APRA. The Group Asset and Liability Committee (ALCO) charter includes reviewing the management of assets and liabilities, reviewing liquidity and funding policies and strategies, and regularly monitoring compliance with those policies across the Group. Group Treasury manages the Group's liquidity and funding positions in accordance with the Group's Liquidity Policy and supporting standards, and has ultimate authority to execute liquidity and funding decisions should the Group Contingency Funding Plan be activated. Risk Management provides oversight of the Group's liquidity and funding risks, compliance with Group policies and manages the Group's relationship with prudential regulators.

Subsidiaries within the Group apply their own liquidity and funding strategies to address their specific needs. The Group's New Zealand banking subsidiary, ASB, manages its own domestic liquidity and funding needs in accordance with its own liquidity policy and the policies of the Group. ASB's liquidity policy is also overseen by the RBNZ.

### Liquidity and Funding Policies and Management

The Group's liquidity and funding policies provide that:

- An excess of liquid assets over the minimum prescribed under APRA's Liquidity Coverage Ratio (LCR) requirement is maintained. Australian Authorised Deposit-taking Institutions (ADIs) are required to meet a 100% LCR, calculated as the ratio of high quality liquid assets to 30 day net cash outflows projected under a prescribed stress scenario;
- A surplus of stable funding from various sources, as measured by APRA's Net Stable Funding Ratio (NSFR), is maintained. The NSFR is calculated by applying factors prescribed by APRA to assets and liabilities to determine a ratio of available stable funding to required stable funding which must be greater than 100%;
- Additional internal funding and liquidity metrics are calculated and stress tests in addition to the LCR are run;

- Short and long-term wholesale funding limits are established, monitored and reviewed regularly;
- The Group's wholesale funding market capacity is regularly assessed and used as a factor in funding strategies;
- Balance Sheet assets that cannot be liquidated quickly are funded with stable deposits or term borrowings that meet minimum maturity requirements with appropriate liquidity buffers;
- Liquid assets are held in Australian dollar and foreign currency denominated securities in accordance with expected requirements;
- The Group has three categories of liquid assets within its domestic liquid assets portfolio. The first includes cash, and Government and Australian semi-government securities. The second includes Negotiable Certificates of Deposit, bank term securities, supranational bonds, Australian Residential Mortgage Backed Securities (RMBS) and other securities that meet the RBA criteria for purchases under repurchase agreements. The final category is internal RMBS, being mortgages that have been securitised but retained by the Bank, that are repo-eligible with the RBA using the Committed Liquidity Facility (CLF) and the Term Funding Facility (TFF); and
- Offshore branches and subsidiaries adhere to liquidity policies and hold appropriate foreign currency liquid assets to meet required regulations.

The Group's key funding tools include:

- Consumer retail funding base, which includes a wide range of retail transaction accounts, savings accounts and term deposits for individual consumers;
- Small business customer and institutional deposit base;
- Wholesale domestic and international funding programmes, which include Australian dollar Negotiable Certificates of Deposit, US and Euro Commercial Paper programmes, Australian dollar Domestic Debt Programme, US Extendible Notes programmes, US Medium-Term Note programmes, Euro Medium-Term Note Programme, multi jurisdiction Covered Bond Programme and Medallion securitisation programmes; and
- Access to the RBA Term Funding Facility (TFF).

The Group's key liquidity tools include:

- A regulatory liquidity management reporting system delivering granular customer and product type information to inform business decision making and product development, resulting in a greater awareness of the liquidity risk-adjusted value of banking products;
- A liquidity management model that allows forecasting of liquidity needs on a daily basis;
- An additional liquidity management model that implements the established prudential liquidity requirements. This model is calibrated with a series of 'stress' liquidity crisis scenarios, incorporating both systemic and idiosyncratic crisis assumptions, such that the Group will have sufficient liquid assets available to ensure it meets all of its obligations as and when they fall due;
- Central bank repurchase agreement facilities including the RBA's CLF that provide the Group with the ability to borrow funds on a secured basis, even when normal funding markets are unavailable; and
- A robust Contingency Funding Plan that is regularly tested so that it can be quickly activated when required.

## 2.2 Counterparty and Other Credit Risk Exposures

### Special Purpose Vehicles (SPV)

The Group invests in or establishes SPVs in the ordinary course of business, primarily to provide funding and financial services for its customers. These SPVs are consolidated in the Financial Statements whenever they meet the criteria of control as outlined in Note 4.4 to the Financial Statements of the 2020 Annual Report. The primary use of SPVs is in relation to securitisation where the primary source of repayment of the debt instruments is the underlying assets and investors have no recourse to the general assets of the sponsor (Covered Bonds have dual recourse to the issuer and the SPV).

The Group may manage these vehicles, hold minor amounts of capital, provide financing or transact derivatives with these entities.

### Securitisation and Covered Bond Vehicles

The Group utilises SPVs for the purposes of issuing residential mortgage backed securities and also as part of its covered bond program. The Group securitises modest amounts of residential home loans to issue residential mortgage-backed securities. The Group also issues covered bonds to diversify the Group's wholesale funding.

The Group manages these SPVs, services assets in the SPVs, provides interest rate and foreign currency risk hedging, or provides other facilities such as liquidity facilities. The Group retains the risks associated with the provision of these services. The Group is also entitled to any residual income from the SPVs after all payments due to investors and costs of the program have been met, where the Group is the income unitholder.

	Covered Bonds		Securitisation	
	31 Dec 20	30 Jun 20	31 Dec 20	30 Jun 20
	\$M	\$M	\$M	\$M
Carrying amount of transferred assets	39,158	43,190	11,625	12,791

<b>Net position</b>	<b>4,446</b>	<b>5,734</b>	<b>1,006</b>	<b>1,114</b>

### Asset-backed Securities

Asset-backed securities are debt securities where the cash flow is dependent on the performance of the assets assigned to SPVs, which may consist of residential mortgages, commercial mortgages or other types of receivables. The Group has acquired asset-backed securities primarily as part of its trading activities (classified as Trading assets), liquidity management (classified as Amortised Cost investments), and balance sheet holdings (classified as Fair Value Through Other Comprehensive Income investments).

The majority of the Group's asset-backed securities portfolio consists of notes externally rated AAA.

An analysis of the exposure to non-Group originated asset-backed securities and warehousing facilities is outlined in the tables below.

## 2.2 Counterparty and Other Credit Risk Exposures (continued)

### Other Exposures

#### *Leveraged Finance*

The Group provides leveraged finance to companies. This can include companies acquired or owned by private equity sponsors which are highly leveraged, primarily domiciled in Australia and New Zealand and exhibit stable and established earnings providing the ability to reduce borrowing levels.

The Group's exposure to firms owned by private equity sponsors is well diversified across industries and private equity sponsors. Highly leveraged debt facilities provided to private equity sponsors are typically senior with first ranking security over the cash flows and assets of the businesses.

#### *Hedge Funds*

There were no material movements in exposures to hedge funds during the current half and these exposures are not considered to be material.

#### *Collateralised Debt Obligations (CDOs) and Credit Linked Notes*

The Group has no material direct or indirect exposure to CDOs or credit linked notes.

## 3. Our Capital, Equity and Reserves

### Overview

The Group maintains a strong capital position in order to satisfy regulatory capital requirements, provide financial security to its depositors and creditors and adequate return to its shareholders. The Group's shareholders' equity includes issued ordinary shares, retained earnings and reserves.

This section provides analysis of the Group's shareholders' equity including changes during the period.

### 3.1 Capital

The tables below show the APRA Basel III capital adequacy calculation at 31 December 2020 together with prior period comparatives.

	As at

<sup>1</sup> Includes goodwill from discontinued operations.

<sup>2</sup> Other intangibles (including capitalised software costs), net of any associated deferred tax liability.

<sup>3</sup> Represents the surplus in the Group's defined benefit superannuation fund, net of any deferred tax liability.

<sup>4</sup> Represents the Group's non-controlling interest in other entities.

<sup>5</sup> Non-consolidated subsidiaries primarily represent the insurance and funds management companies operating in the Colonial Group.

<sup>6</sup> Includes gains due to changes in our credit risk on fair valued liabilities and other prudential valuation adjustment.

<sup>7</sup> As at 31 December 2020, comprises PERLS XII \$1,650 million (November 2019), PERLS XI \$1,590 million (December 2018), PERLS X \$1,365 million (April 2018), PERLS IX \$1,640 million (March 2017), PERLS VIII \$1,450 million (March 2016), and PERLS VII \$3,000 million (October 2014).

<sup>8</sup> Represents APRA Basel III non-compliant Additional Tier 1 Capital Instruments that are eligible for Basel III transitional relief.

<sup>9</sup> In the half year ended 31 December 2020, the Group issued a AUD200 million, a AUD205 million, a AUD1,400 million and a AUD270 million subordinated note, that were Basel III compliant. In the half year ended 30 June 2020, the Group issued a AUD280 million and a AUD210 million subordinated note, that were Basel III compliant.

<sup>10</sup> Includes both perpetual and term instruments subordinated to depositors and general creditors, having an original maturity of at least five years. APRA require these to be included as if they were unhedged. Term instruments are amortised by 20% of the original amount during each of the last five years to maturity. These instruments are eligible for Basel III transitional relief.

<sup>11</sup> Represents the collective provision and general reserve for credit losses for exposures in the Group which are measured for capital purposes under the Standardised approach to credit risk.

## 3.2 Share Capital

	Half Year Ended		
	31 Dec 20	30 Jun 20	31 Dec 19
	Number	Number	Number
<b>Shares on Issue</b>			
Opening balance (excluding Treasury Shares deduction)	1,770,239,507	1,770,239,507	1,770,239,507
Dividend reinvestment plan issues:			
2018/2019 Final dividend fully paid ordinary shares \$78.61 <sup>1</sup>	–	–	–
2019/2020 Interim dividend fully paid ordinary shares \$73.37 <sup>1</sup>	–	–	–
2019/2020 Final dividend fully paid ordinary shares \$68.53	3,856,903	–	–
Closing balance (excluding Treasury Shares deduction)	1,774,096,410	1,770,239,507	1,770,239,507
Less: Treasury Shares <sup>2</sup>	(1,751,078)	(2,095,440)	(2,140,454)
<b>Closing balance</b>	<b>1,772,345,332</b>	<b>1,768,144,067</b>	<b>1,768,099,053</b>

1 The DRP in respect of the interim 2019/2020, and final 2018/2019 dividends were satisfied in full through the on-market purchase and transfer of 7,080,363 shares at \$73.37 and 7,810,285 shares at \$78.61, respectively, to participating shareholders.

2 Relates to treasury shares held within the employee share plans and life insurance statutory funds (prior to deconsolidation of Commlnure Life on 1 November 2019).

### Dividend Franking Account

After fully franking the interim dividend to be paid for the half year, the amount of credits available at the 30% tax rate as at 31 December 2020 to frank dividends for subsequent financial years is \$2,307 million (June 2020: \$2,007 million; December 2019: \$1,255 million). This figure is based on the franking accounts of the Bank at 31 December 2020, adjusted for franking credits that will arise from the payment of income tax payable on profits for the half year and prior years, franking debits that will arise from the payment of dividends proposed, and franking credits that may not be available to be distributed in subsequent financial periods.

The Bank expects that future tax payments will generate sufficient franking credits for the Bank to be able to continue to fully frank future dividend payments. These calculations have been based on the taxation law as at 31 December 2020.

### Dividends

The Directors have determined a fully franked interim dividend of 150 cents per share amounting to \$2,661 million. There is no foreign conduit income attributed to the interim dividend. The dividend will be payable on 30 March 2021 to shareholders on the register at 5:00pm AEST on 17 February 2021.

The Board determines the dividend per share based on net profit after tax ("cash basis") per share, having regard to a range of factors including:

- Current and expected rates of business growth and the mix of business;
- Capital needs to support economic, regulatory and credit ratings requirements;
- Investments and/or divestments to support business development;
- Competitors comparison and market expectations; and
- Earnings per share growth.

### Dividend Reinvestment Plan

The Group has a Dividend Reinvestment Plan (DRP) that is available to shareholders in Australia and certain other jurisdictions. Shareholders can elect to participate to acquire fully paid ordinary shares instead of receiving a cash dividend payment. Shares issued under DRP rank equally with ordinary shares on issue. The DRP for the 2020 final dividend was satisfied by the issuance of shares and had a participation rate of 15.2%. The DRP for the 2020 interim dividend and 2019 final dividend were satisfied in full by the on-market purchase and transfer of shares, and had participation rates of 14.7% and 15.0%, respectively.

### Record Date

The register closes for determination of dividend entitlement at 5:00pm AEST on 17 February 2021. The deadline for notifying a change to participation in the DRP is 5:00pm AEST on 18 February 2021.

### Ex-Dividend Date

The ex-dividend date is 16 February 2021.

<b>Total intangible assets</b>	<b>6,943</b>	<b>6,944</b>	<b>7,729</b>

1 Brand names predominantly represent the value of royalty costs foregone by the Group through acquiring the Bankwest brand name. The royalty costs that would have been incurred by an entity using the Bankwest brand name are based on an annual percentage of income generated by Bankwest. The Bankwest brand name has an indefinite useful life, as there is no foreseeable limit to the period over which the brand name is expected to generate cash flows. This is not subject to amortisation, but requires annual impairment testing. No impairment was recognised during the year.

2 Other intangibles include the value of customer and credit card relationships acquired from Bankwest. This value represents future net income generated from the relationship that existed at Balance Sheet date. The assets have a useful life of between 6 and 10 years based on the attrition rates of customers. Other intangibles also include prepaid software licenses with a net book value of \$90 million (30 June 2020: \$99 million; 31 December 2019: \$92 million).

## Appendices (continued)

### 4.4 Profit Reconciliation

Non-cash items are excluded from net profit after tax ("cash basis"), which is management's preferred measure of the Group's financial performance, as they tend to be non-recurring in nature or are not considered representative of the Group's ongoing financial performance. The impact of these items on the Group's net profit after tax ("statutory basis") is outlined below and treated consistently with the prior financial year. A description of these items is provided below.

	Half Year Ended 31 December 2020			
	Net profit after tax "cash basis" \$M	Gain/(loss) on disposal and acquisition of controlled entities <sup>1</sup> \$M	Hedging and IFRS volatility \$M	Net profit after tax "statutory basis" \$M

<b>Net profit after income tax</b>	<b>3,975</b>	<b>910</b>	<b>(8)</b>	<b>4,877</b>

<sup>1</sup> These amounts include post-completion adjustments (such as purchase price adjustments, and finalisation of accounting adjustments for goodwill and foreign currency reserve recycling), and transaction and separation costs associated with the previously announced divestments.

<sup>2</sup> Interest income includes total effective interest income and other interest income.

<sup>3</sup> Statutory net profit after income tax from discontinued operations is presented net of non-controlling interests.

#### Gain/(loss) on disposal and acquisition of controlled entities

Gains and losses on these transactions are inclusive of foreign exchange impacts, impairments, restructuring, separation and transactions costs and cover both controlled businesses and associates.

#### Hedging and IFRS volatility

Hedging and IFRS volatility represents timing differences between fair value movements on qualifying economic hedges and the underlying exposure. They do not affect the Group's performance over the life of the hedge relationship, and are recognised over the life of the hedged transaction. To qualify as an economic hedge the terms and/or risk profile must match or be substantially the same as the underlying exposure.

## 4.8 Definitions

### Glossary of Terms

Term	Description
Assets under management	Assets under management (AUM) represents the market value of assets for which the Group acts as appointed manager. Growth and volatility in this balance is a key performance indicator for the Wealth Management and New Zealand businesses.
Bankwest	Bankwest is active in all domestic market segments, with lending diversified between the business, rural, housing and personal markets, including a full range of deposit products. The retail banking activities conducted under the Bankwest brand are consolidated into Retail Banking Services, and the business banking activities conducted under the Bankwest brand are consolidated into Business Banking.
Business Banking	Business Banking (formerly Business and Private Banking) serves the banking needs of business, corporate and agribusiness customers across the full range of financial services solutions, as well as equities trading and margin lending services through the CommSec business. Business Banking also includes the financial results of business banking activities conducted under the Bankwest brand. From July 2020, Commonwealth Private has been consolidated into the Retail Banking Services.
Corporate Centre (including eliminations)	Corporate Centre includes the results of unallocated Group support functions such as Treasury, Investor Relations, Group Strategy, Legal and Corporate Affairs. It also includes Group-wide elimination entries arising on consolidation, centrally raised provisions and other unallocated revenue and expenses.
Corporations Act 2001	<i>Corporations Act 2001</i> (Cth).
Dividend payout ratio ("cash basis")	Dividends paid on ordinary shares divided by net profit after tax ("cash basis").
Dividend payout ratio ("statutory basis")	Dividends paid on ordinary shares divided by net profit after tax ("statutory basis").
DRP	Dividend reinvestment plan.
DRP participation	The percentage of total issued capital participating in the dividend reinvestment plan.
Earnings per share (basic)	Basic earnings per share is the net profit attributable to ordinary equity holders of the Bank, divided by the weighted average number of ordinary shares on issue during the period, per the requirements of relevant accounting standards.
Earnings per share (diluted)	Diluted earnings per share adjusts the net profit attributable to ordinary equity holders of the Bank and the weighted average number of ordinary shares on issue used in the calculation of basic earnings per share, for the effects of dilutive potential ordinary shares, per the requirements of relevant accounting standards.
Full-time equivalent staff	Includes all permanent full-time staff, part-time staff equivalents and external contractors employed through third-party agencies.
Funds under administration	Funds under administration (FUA) represents the market value of funds administered by the Group and excludes AUM. Growth and volatility in this balance is a key performance indicator for the Wealth Management and New Zealand businesses.
International Financial Services	International Financial Services (IFS) incorporates the Indonesian retail and business banking operations, and associate investments in China (Bank of Hangzhou and Qilu Bank) and Vietnam (Vietnam International Bank). It does not include the Business Banking and Institutional Banking and Markets businesses in Asia.
Institutional Banking and Markets	Institutional Banking and Markets serves the commercial and wholesale banking needs of large corporate, institutional and government clients across a full range of financial services solutions including access to debt capital markets, transaction banking, working capital and risk management through dedicated product and industry specialists.
Interest rate risk in the banking book (IRRBB)	Interest rate risk in the banking book (IRRBB) is the risk that the Bank's profit derived from Net interest income (interest earned less interest paid), in current and future periods, is adversely impacted by changes in interest rates. This is measured from two perspectives: quantifying the change in the net present value of the Balance Sheet's future earnings potential, and the anticipated change to the Net interest income earned over 12 months. This calculation is driven by APRA regulations with further detail outlined in the Bank's Basel III Pillar 3 report.

## Appendices (continued)

Term	Description
Net profit after tax ("cash basis")	Represents net profit after tax and non-controlling interests before non-cash items including, hedging and IFRS volatility, and losses or gains on acquisition, disposal, closure and demerger of businesses. This is management's preferred measure of the Group's financial performance.
Net profit after tax ("statutory basis")	Represents net profit after tax and non-controlling interests, calculated in accordance with Australian Accounting Standards. This is equivalent to the statutory item "Net profit attributable to Equity holders of the Bank".
Net Stable Funding Ratio (NSFR)	The NSFR more closely aligns the behaviour term of assets and liabilities. It is the ratio of the amount of available stable funding (ASF) to the amount of required stable funding (RSF). ASF is the portion of an Authorised Deposit-taking Institution's (ADI) capital and liabilities expected to be a reliable source of funds over a one year time horizon. RSF is a function of the liquidity characteristics and residual maturities of an ADI's assets and off Balance Sheet activities.
Net tangible assets per share	Net assets excluding intangible assets, non-controlling interests, and other equity instruments divided by ordinary shares on issue at the end of the period (excluding Treasury Shares deduction). Right of use assets are included in net tangible assets per share.
New Zealand	New Zealand includes the banking and funds management businesses operating in New Zealand under the ASB brand. ASB provides a range of banking, wealth and insurance products and services to its personal, business, rural and corporate customers in New Zealand.
Profit after capital charge (PACC)	The Group uses PACC, a risk-adjusted measure, as a key measure of financial performance. It takes into account the profit achieved, the risk to capital that was taken to achieve it, and other adjustments.
Operating expenses to total operating income	Represents operating expenses as a percentage of total operating income. The ratio is a key efficiency measure.
Other Overseas	Represents amounts booked in branches and controlled entities outside Australia and New Zealand.
Retail Banking Services	Retail Banking Services provides banking and general insurance products and services to personal and private bank customers. Retail Banking Services also includes the financial results of retail banking activities conducted under the Bankwest brand.
Return on equity ("cash basis")	Based on net profit after tax ("cash basis") and non-controlling interests less other equity instruments' distributions applied to average shareholders' equity, excluding non-controlling interests, other equity instruments and the treasury shares deduction relating to life insurance statutory funds.
Return on equity ("statutory basis")	Based on net profit after tax ("statutory basis") less other equity instruments' distributions applied to average shareholders' equity, excluding non-controlling interests and other equity instruments.
Total Committed Exposure (TCE)	Total Committed Exposure is defined as the balance outstanding and undrawn components of committed facility limits. It is calculated before collateralisation and excludes settlement exposures on derivatives.
Wealth Management	Wealth Management provides superannuation, investment and retirement products which help to improve the financial wellbeing of our customers.
Weighted average number of shares ("cash basis")	The calculation incorporates the bonus element of any rights issue, discount element of any DRP and excludes "Treasury Shares" related to investment in the Bank's shares held by the employee share scheme trust.
Weighted average number of shares ("statutory basis")	The calculation incorporates the bonus element of any rights issue, discount element of any DRP and excludes "Treasury Shares" related to investments in the Bank's shares held by the employee share scheme trust.

## Market Share Definitions

### Retail Banking Services

Home loans (APRA)	<p>CBA Loans to individuals that are Securitised Owner Occupied and Investment Home Loans as per APRA monthly ADI Statistics,</p> <p><b>divided by</b></p> <p>APRA Monthly ADI Statistics back series.</p>
Home Loans (RBA)	<p>CBA Loans to individuals that are Securitised Owner Occupied and Investment Home Loans as per APRA monthly ADI Statistics + separately reported subsidiaries: Wallaby Trust, Residential Mortgage Group P/L,</p> <p><b>divided by</b></p> <p>RBA Financial Aggregates Owner Occupied and Investor Home Lending (includes ADIs and RFCs).</p>
