

22 July 2021

Probi CEO joins Board of Directors

Blis Technologies Limited (NZX:BLT) advises the appointment of Tom Rönnlund as a director of the company with effect from 22 July 2021.

Mr Rönnlund is currently the CEO of Probi AB, a world leading Swedish listed biotechnology company. Founded in Lund in 1991, Probi today is one of the largest and leading global probiotics companies.

Before joining Probi AB in January 2019, Mr Rönnlund served as CEO of Navamedic ASA, a listed Norwegian pharma and medtech company. Mr Rönnlund has more than 20 years experience working in the healthcare industry, and has held several positions in sales, marketing and general management at IQVIA and in international biopharmaceutical companies such as Bristol-Myers Squibb and Eli Lilly.

The board has determined that Mr Rönnlund is not an independent director due to his role as CEO of Probi AB, which is a substantial product holder of Blis Technologies. Mr Rönnlund will formally offer himself for re-election as director at the 2022 shareholders' meeting.

Chairman Tony Offen said "We are delighted that Tom is joining the board. Tom will bring valuable capability and experience to the board with his background of international business development through his leadership roles held across healthcare, pharma and currently as CEO of Probi, a world leading probiotics company"
