

Market release

24 November 2022

[Correction to 1H FY2023 investor presentation](#)

We refer to the 1H FY2023 investor presentation lodged on 23 November 2022.

The second bullet point on slide 8 read: "Rooms booked on Booking.com for Business increased from 121,000 to 208,000."

This contained a minor error and should have read: "Rooms booked on Booking.com for Business increased from 157,000 for the six months to 31 March 2022 to 333,000."

We attach an updated presentation and note that no other changes have been made to the presentation from that released to the market yesterday.

Released for and on behalf of Serko Limited by:

Shane Sampson

Chief Financial Officer
