# Revaluations

## Cap rate headwinds but rental growth delivers

- Independent valuations undertaken at 31 March.
- \$146.6m decline reported, or 6.4% revaluation to book values.
- Cap rate softening has been offset to some extent by market rental growth.
- Continued dearth of transactional evidence during the period.

# Financial Performance

## Top line growth maintained

- The net property income increase was driven by a range of factors including strong like-for-like rental growth, leasing up activity, the acquisition of Maui St and developments.
- Corporate expenses were down due to the combination of lower acquisition investigation costs and development salaries capitalised to projects.
- Net interest expense was higher driven by higher volume of debt, higher floating interest rates and lower capitalised interest.
- The unrealised revaluation loss of \$146.6m was driven by cap rate softening, offset by market rental growth.

# Lease Expiry & Rent Review Profile

## Expiry profile remains well managed

- The largest single expiry remains the 9.4% expiry in Mar-27 to Ministry for Business, Innovation and Employment, at 15-21 Stout Street.
- FY24 sees \$91.4m of portfolio income subject to rent reviews. Of these, \$61.8m is subject to fixed reviews, \$21.8m to market review and \$7.8m to CPI.

**3.6%**

● Annualised rent review for FY23

# MARKET INSIGHTS

## INDUSTRIAL

- Strong demand continues to drive additional supply but quieter period in 2024 is projected.
- Limited land supply in Auckland and Wellington continues pressure on land values with prime sites holding their value.
- Rentals continue to show solid growth in well located assets.
- “Reshoring” return of domestic manufacturing.
- Vacancy remains very low, with limited speculative supply.
- Supply chain issues largely resolved but Just-in-time challenges remain.

## OFFICE

- Flexible working environments continue but full-time remote work is declining.
- Changes in the way space is used, focusing on the environment, now a staff attraction matter.
- Increased focus from tenants on sustainability/green.
- Decrease in space available for sub-lease following pandemic.
- Wellington has low vacancy, and demand continues for good quality, green well located space.
- Auckland office still exhibits elevated (but reducing) vacancy with occupancy demand focused on green assets.

## LARGE FORMAT RETAIL

- Online proportion of total sales has reduced post pandemic.
- Large Format Retail continues to receive solid demand in prime locations.
- Retailers consolidating to a fewer number of locations.

# Focus & Outlook

Argosy

# FY24 brings fresh challenges, but we're well placed

## Strategy delivery is our key focus

- New Zealand domestic economy continues to experience headwinds from high interest rates and inflation.
- Argosy's diversified portfolio exposure to attractive sectors provides resilience in turbulent times. Diversification remains a strength.
- The company remains well positioned to navigate through near term economic volatility, underpinned by its sound capital position and growing portfolio of green and environmentally centred buildings.
- Our key objectives for FY24 remain clear and unchanged from what has delivered success previously: keep delivering strong operational results, address key expiries, lease up remaining vacancies, complete key green developments and commence new ones as planned.
- Progress Master planning across key green Value Add developments at Neilson Street and Mt Richmond where we continue to receive strong market interest in these opportunities.
- Strong bottom up property fundamentals in key markets (Auckland Industrial and Wellington Office) continue to present attractive dynamics of low supply, high demand and steady rental growth. Rising demand by the market for green buildings remains very encouraging and Argosy is well placed to benefit.
- Deliver sustainable dividends to shareholders.

Thank you.
