

[Templeton Emerging Markets Investment Trust PLC \('Temit'\)](#)

On behalf of Temit, Franklin Templeton Investment Trust Management Limited reports the unaudited cum-income net asset value ('NAV') of Temit as at

07 August 2023 was £1999.347m, representing a NAV of 174.53 pence per share.

The unaudited ex-income NAV of Temit as at **07 August 2023** was £1969.674m, representing a NAV of 171.93 pence per share.

In accordance with the Association of Investment Companies recommendations, the cum-income NAV has been calculated based on the total value of underlying assets,

including accumulated or accrued income, and using bid price information relating to the underlying assets.

The ex-income NAV has been calculated based on the total value of underlying assets, excluding these income elements, and using bid price information relating to the underlying assets.

[Portfolio data for Temit can be found on the website www.Temit.co.uk.](http://www.Temit.co.uk)

If the long-term debt was valued at cost, the cum-income NAV would decrease by 0.51p.
