Notes to the Consolidated Financial Statements For the year ended 31 December 2023

MATERIAL SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

CDL Investments New Zealand Limited (the "Company") is a company domiciled in New Zealand, registered under the Companies Act 1993 and listed on the New Zealand Stock Exchange. The Company is a FMC Reporting Entity in terms of the Financial Markets Conduct Act 2013 and the Financial Reporting Act 2013.

The financial statements of the Company for the year ended 31 December 2023 comprises the Company and its subsidiary (together referred to as the "Group"). The registered office is located at Level 7, 23 Customs Street East, Auckland, New Zealand.

The principal activities of the Group are the development and sale of residential land properties and rental income from the ownership of development properties and investment properties comprising commercial warehousing and retail shops.

(a) Statement of compliance

The financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice ("NZ GAAP"). They comply with New Zealand equivalents to International Financial Reporting Standards ("NZ IFRS") and other applicable Financial Reporting Standards, as appropriate for Tier 1 profit-oriented entities. The financial statements also comply with International Financial Reporting Standards ("IFRS").

The financial statements were authorised for issuance on 26 February 2024.

(b) Basis of preparation

The financial statements are presented in New Zealand Dollars (\$), which is the Company's functional currency. All financial information presented in New Zealand dollars has been rounded to the nearest thousand, unless otherwise indicated.

The financial statements have been prepared on the historical cost basis and on a going concern basis.

The preparation of financial statements in conformity with NZ IFRS requires management to make judgements, estimates and assumptions that affect the application of company policies and reported amounts of assets and liabilities, income and expenses. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future period affected.

In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are described in Note 2 - Accounting Estimates and Judgements.

(c) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Intragroup balances and any unrealised gains and losses or income and expenses arising from intragroup transactions, are eliminated in preparing these consolidated financial statements.

Notes to the Consolidated Financial Statements For the year ended 31 December 2023

Material significant accounting policies - continued

(d) Property, plant and equipment

Items of property, plant and equipment are stated at cost less accumulated depreciation. The cost of purchased property, plant and equipment is the value of the consideration given to acquire the assets and the value of other directly attributable costs, which have been incurred in bringing the assets to the location and condition necessary for their intended service. Depreciation on assets is calculated using the straight-line method to allocate cost to their residual values over their estimated useful lives, as follows:

50 years
30 years
20 - 30 years
3 - 10 years

No residual values are ascribed to building surfaces and finishes. Residual values of 10% are ascribed to building core.

(e) Trade and other payables

Trade and other payables are stated at amortised cost.

(f) Revenue

Revenue represents amounts derived from land and property sales, and is recognised when the customer obtains control of the property and is able to direct and obtain the benefits from the property. The customer gains control of the property when the Company receives full and final consideration for the property and the Company transfers over the Certificate of Title.

Rental income from investment properties under operating leases is recognised on a straight-line basis over the term of the lease to the extent that future rental increases are known with certainty. Lease incentives granted are recognised as an integral part of the total rental income.

The Group grants settlement terms of up to 12 months on certain sections as part of the agreement for sale and purchase for unconditional sales. In some instances, the acquirers are permitted access to the residential sections for building activities prior to settlement. However, the acquirer does not obtain substantially all of the remaining benefits of the asset until final settlement of the land and the title has passed.

(g) New standards and interpretations not yet adopted

A number of amendments to standards are effective for annual periods beginning after 1 January 2024 and earlier application is permitted. The Group has not early adopted the amended standards in preparing the consolidated financial statements. The Group will be adopting the amended standards from 1 January 2024.

The following amended standards are not expected to have a significant impact on the Group's consolidated financial statements.

- 1. Amendments to NZ IAS1 Non-current Liabilities with Covenants.
- 2. Amendments to NZ IFRS 16 Lease Liability in a Sale and Leaseback.
- 3. Amendments to NZ IAS 7 Supplier Finance Arrangements.
- 4. Amendments to NZ IFRS 7 Supplier Finance Arrangements.
- 5. Amendments to FRS-44 New Zealand Additional Disclosures of Fees for Audit Firms' Services.

(h) New currently effective standards

The Group adopted all new and amended standards that became effective during the reporting period. However, they did not have any impact on the financial position, performance and cash flows of the Group.

Notes to the Consolidated Financial Statements For the year ended 31 December 2023

1. SEGMENT REPORTING

Operating segments

The operating segments of the Group consists of property operations, comprising the development and sale of residential land sections and rental income from investment properties.

The Group has determined that its chief operating decision maker is the Board of Directors on the basis that it is this group which determines the allocation of resources to segments and assesses their performance.

An operating segment is a distinguishable component of the Group:

- that is engaged in business activities from which it earns revenues and incurs expenses,
- whose operating results are regularly reviewed by the Group's chief operating decision maker to make
 decisions on resource allocation to the segment and assess its performance, and
- for which discrete financial information is available.

The Group has changed the composition of its reportable segments, therefore the comparatives have been restated.

Geographical segments

Segment revenue is based on the geographical location of the segment assets. All segment revenues are derived in New Zealand.

Segment assets are based on the geographical location of the development property. All segment assets are located in New Zealand.

The Group has no major customer representing greater than 10% of the Group's total revenues (2022: One off transaction for the sale of an industrial property of \$29.0 million).

Notes to the Consolidated Financial Statements For the year ended 31 December 2023

2. ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below:

- Determining the net realisable value of development property to identify any impairment.
- The impairment test for investment properties (refer to note 9 for key assumptions and estimates used).

Management discussed with the Audit Committee the development, selection and disclosure of the Group's critical accounting policies and estimates and the application of these policies and estimates.

Key sources of estimation uncertainty

The Group is exposed to a risk of impairment to development properties should the carrying value exceed the net realisable value due to market fluctuations in the value of development properties. However, there is no indication of impairment as the net realisable value determined by an independent registered valuer significantly exceeds the carrying value of development properties (see Note 8).

The valuer adopts the Sales Comparison Approach to determine rates per hectare/per square metre for block land holdings in addition to recent section sales to derive the gross realisation values. The net realisable values are determined from gross realisation values after deducting appropriate selling costs.

For residential land under development or is due to commence development in the short term, the valuer adopts the Residual Subdivision Approach. This approach considers the gross realisation values of the sections less costs associated with development including GST, sales commissions, legal fees, civil and development costs including Council contributions, professional fees, and contingency allowances. In addition, holding costs are deducted for the estimated timing of development and sell down periods.

In both valuation approaches, the valuer makes assumptions relating to section prices, sell down periods, consumer confidence, unemployment rates, interest rates, and external economic factors. These assumptions are sensitive to economic factors such as net migration, Official Cash Rate set by the Reserve Bank, inflation, residential market activity, and business confidence.

The Group is also exposed to a risk of impairment to investment properties should the carrying value exceed the recoverable amount due to market fluctuations in the value of investment properties. However, there is no indication of impairment as the recoverable amount determined by an independent registered valuer significantly exceeds the carrying value of investment properties (see Note 9). In determining the recoverable amount, the valuer adopts the Income Capitalisation Approach whereby the assessed market rent for each asset is capitalised in perpetuity from the valuation date at an appropriate capitalisation rate. The adopted capitalisation rate reflects the nature, location, and tenancy profile of the property together with current market investment criteria as evidenced by recent sales. The recoverable amount is sensitive to movements in the adopted capitalisation rate and the market rent.

Climate-related disclosure

The Group is currently in the process of identifying and reporting on the impacts of climate change that are affecting the business. Climate change poses significant risks and challenges for the construction and property industry, as it affects the physical, operational, and financial aspects of development properties and investment properties. Extreme weather events, such as floods, storms, heatwaves, and droughts, can damage the infrastructure, disrupt the supply chain, reduce the revenue, and increase the insurance and maintenance costs. While property investors, managers, and owners are increasingly cognisant of the climate-related impacts on their properties, the investment community have yet to price in the climate-related impacts on the asset values. This means that the current market values of development properties and investment properties may not reflect the potential losses or gains associated with their exposure to climate risks or their adoption of sustainability measures, decarbonisation initiatives, and sound environmental stewardship.

Notes to the Consolidated Financial Statements For the year ended 31 December 2023

3. ADMINISTRATIVE AND OTHER EXPENSES

The following items of expenditure are included in administrative and other expenses:

In thousands of dollars	Group)
	Note	2023	2022
Auditors' remuneration	I F		
- Audit fees		91	88
 Tax compliance & tax advisory fees 		4	4
- Strategy advisory fees		74	-
Depreciation		974	560
Directors' fees	17	130	130
Rental payments		90	66

4. PERSONNEL EXPENSES

In thousands of dollars	Group)
	2023	2022
Wages and salaries	1,129	751
Employee related expenses and benefits	145	121
Increase in liability for long-service leave	6	8
, ,	1,280	880

The Group's net obligation in respect of long-term service benefits, is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The obligation is calculated using their expected remunerations and an assessment of likelihood the liability will arise.

5. NET FINANCE INCOME

In thousands of dollars	Group	
	2023	2022
Finance income	3,514	1,664
Finance costs	(12)	(7)
Net finance income	3,502	1,657

Finance income comprises interest receivable on funds invested that are recognised in profit or loss. Interest income is recognised in profit or loss as it accrues, using the effective interest method.

Finance costs comprises interest costs on lease liabilities that are recognised in the income statement.

6. INCOME TAX EXPENSE

Notes to the Consolidated Financial Statements For the year ended 31 December 2023

6. INCOME TAX EXPENSE - continued

Income tax for the year comprises current and deferred tax. Income tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised in equity or in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The temporary differences relating to investments in subsidiaries are not provided for to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

7. IMPUTATION CREDITS

In thousands of dollars

Imputation credits available for use in subsequent reporting periods

Group 2023 2022 96,243 93,113

8. DEVELOPMENT PROPERTY

In thousands of dollars	Group	
	2023	2022
Expected to settle greater than one year	203,034	186,728
Expected to settle within one year	21,507	16,420
Development property	224,541	203,148

Development property is carried at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, and holding costs such as interest. Interest and other holding costs incurred after completion of development are expensed as incurred. All holding costs are written off through profit or loss in the year incurred with the exception of interest holding costs which are capitalised during the period when active development is taking place. No interest (2022: nil) has been capitalised during the year.

The Group's inventory of development property is reviewed at each balance date to ensure its carrying amount is recorded at the lower of its cost and net realisable value. The net realisable value of the development property is the estimated selling price in the ordinary course of business less the estimated costs of completion and costs necessary to make the sale. The determination of net realisable value of inventory involves estimates taking into consideration prevailing market conditions, current prices and expected date of commencement and completion of the project, the estimated future selling price, cost to complete projects and selling costs. An impairment loss is recognised in the income statement to the extent that the carrying value of development property exceeds its estimated net realisable value.

The fair value of development property held at 31 December 2023 was determined by an independent registered valuer, DM Koomen SPINZ of Extensor Advisory Limited. The fair value is determined to estimate the net realisable value. The net realisable value as determined by the independent registered valuer, exceeds the carrying value of development property.

A-----

Investment properties consist of commercial warehousing at Wiri in Auckland, retail shops at Prestons Park in Christchurch, and retail shops at Stonebrook in Rolleston which are fully operational. The fair value of investment properties held at 31 December 2023 was determined by an independent registered valuer, DM Koomen SPINZ of Extensor Advisory Limited as \$62.7 million (2022: \$62.6 million). The fair value measurement was categorised as Level 3 (highest of the fair value hierarchy) based on the inputs to the valuation methodology used i.e. income capitalisation approach.

Investment properties are properties held either to earn rental income or capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods and services, or for administrative purposes.

Investment properties are stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation on the investment properties is computed by asset classes using the policy disclosed in Note (d). Cost includes expenditure that is directly attributable to the acquisition of the investment properties. Costs of self-constructed investment properties include costs of materials and direct labour, any other costs directly attributable to bringing the investment properties to a working condition for their intended use and capitalised borrowing costs. Gains and losses on disposal of investment properties (calculated as the difference between the net proceeds from disposal and the carrying amounts of the investment properties) are recognised in the profit and loss.

Impairment

Annual reviews of the carrying amounts of investment properties are undertaken for indicators of impairment. Where indicators of impairment were identified, the recoverable amounts were estimated based on internal or external valuations undertaken. The cash generating units (CGU) are individual properties. The recoverable amounts of the investment properties, being the higher of the fair value less costs to sell and value-in-use, were predominantly determined using the fair value less costs to sell basis and were estimated using the income capitalisation approach.

Notes to the Consolidated Financial Statements For the year ended 31 December 2023

9. **INVESTMENT PROPERTY - Impairment - continued**

During the year, management identified two (2022: two) properties with a carrying value of \$13.7 million that had indicators of impairment. Average market capitalisation rates appropriate to the properties range from 6.50% to 7.00% (2022: 6.25% to 6.75%). Average market rent per square metre rates appropriate to the properties range from \$341 to \$358 (2022: \$330 to \$368).

Operating leases

The Group leases out its investment property. The Group has classified these leases as operating leases, because they do not transfer substantially all of the risks and rewards incidental to the ownership of the assets.

Rental income recognised by the Group during 2023 was \$2.5 million (2022: \$1.2 million).

The following table sets out a maturity analysis of lease payments, showing the undiscounted lease payments to be received after the reporting date:

11. TRADE AND OTHER RECEIVABLES

In thousands of dollars

Trade receivables Other receivables and prepayments Trade and other receivables

None of the trade and other receivables are impaired.

Trade and other receivables are stated at their cost less impairment losses. The Group applies the simplified approach to providing for expected credit losses prescribed by NZ IFRS 9, which permits the use of the lifetime expected credit loss provision for all trade receivables. The allowance for doubtful debts on trade receivables are either individually or collective assessed based on number of days overdue. The Group takes into account the historical loss experience and incorporate forward looking information and relevant macroeconomic factors.

12. CASH AND CASH EQUIVALENTS

Total shares issued and outstanding	290,785	67,318	288,808	65,829	

All shares carry equal rights and rank pari passu with regard to residual assets of the Company and do not have a par value. At 31 December 2023, the authorised share capital consisted of 290,784,833 fully paid ordinary shares (2022: 288,807,697).

Dividend Reinvestment Plan

In 1998, the Company adopted a Dividend Reinvestment Plan pursuant to which shareholders may elect to receive ordinary dividends in the form of either cash or additional shares in the Company. The additional shares are issued at the weighted average market price for the shares traded over the first five business days immediately following the Record Date.

Accordingly, the Company issued 1,977,136 additional shares under the Dividend Reinvestment Plan on 12 May 2023 (2022: 1,294,674) at a strike price of \$0.7530 per share issued (2022: \$1.0624).

Supplementary dividend and foreign investment tax credit

The Company pays a supplementary dividend to portfolio non-resident investors to offset non-resident withholding tax payable on imputed dividends from the Company. Under the foreign investor tax credit (FITC) rules, the Company receives a tax credit equal to the supplementary dividend paid. The supplementary dividend is based on the amount of imputation credit attached to the dividend.

Notes to the Consolidated Financial Statements For the year ended 31 December 2023

14. FINANCIAL INSTRUMENTS

The Group only holds non-derivative financial instruments which comprise trade and other receivables, cash and cash equivalents, short term deposits, and trade and other payables.

Non-derivative financial instruments are recognised initially at fair value plus, for instruments not at fair value through profit or loss, any directly attributable transaction costs. Subsequent to initial recognition non-derivative financial instruments are measured as described below.

On initial recognition, a financial asset is classified as subsequently measured at: Amortised cost; FVOCI- debt investment; FVOCI- equity investment; or FVTPL. Financial liabilities are classified as measured at amortised cost or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and not designated at FVTPL:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows: and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets are derecognised if the Group's contractual rights to the cash flows from the financial assets expire or if the Group transfer the financial asset to another party without retaining control or substantially all risks and rewards of the asset.

Financial liabilities are derecognised if the Group's obligations specified in the contract expire or are discharged or cancelled.

In thousands of dollars		Group	
	Note	2023	2022
Financial Assets			
Cash and cash equivalents	12	2,159	31,667
Short term deposits		50,000	40,075
Trade and other receivables	11	6,578	2,327
Financial Liabilities			
Trade and other payables		3,820	1,340

Exposure to credit and interest rate risks arises in the normal course of the Group's business.

Credit risk

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount. The Group does not require collateral in respect of financial assets.

The key factor in managing risk is that the Certificate of Title is only transferred to the purchaser when all cash is received in full upon settlement.

The Group's exposure to credit risk is mainly influenced by its customer base. As such it is concentrated to the default risk of its industry. However, geographically there is no credit risk concentration as the Company spreads the risk by operating in three regions in the North Island and one region in the South Island.

Cash, cash equivalents, and term deposits are allowed only in liquid securities and only with counterparties (minimum rating of Moody's Aa3) that have a credit rating equal to or better than the Group. Given their high credit ratings, management does not expect any counterparty to fail to meet its obligations.

At the balance date there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset.

Interest rate risk

The Group has no debt (2022: nil) and is only exposed to movements in interest rates on short-term investments which is explained in the sensitivity analysis. Interest income is earned on the cash and cash equivalent balance and the short-term deposits balance.

Notes to the Consolidated Financial Statements For the year ended 31 December 2023

14. FINANCIAL INSTRUMENTS - continued

Sensitivity analysis

The Group manages interest rate risk by maximising its interest income through forecasting its cash requirements and cash inflows. Over the longer-term, however, permanent changes in interest rates will have an impact on profit.

An increase of one percentage point in interest rates would have increased the Group's profit before income tax by \$641,000 (2022: \$623,000) in the current period. Conversely, a decrease of one percentage point in interest rates would have decreased the Group's profit before income tax by \$641,000 (2022: \$623,000) in the current period.

Effective interest and repricing analysis

In respect of income earning financial assets, the following tables indicate the effective interest rates at the balance sheet date and the periods in which they reprice.

Group	2023					202	22		
In thousands of dollars	Note	Effective interest rate	Total	6 months or less	6-12 months	Effective interest rate	Total	6 months or less	6-12 months
Cash and cash equivalents	12	0.00% to 5.77%	2,159	2,159	-	0.00% to 4.78%	31,667	31,667	-
Short term deposits		5.79% to 6.05%	50,000	45,000	5,000	3.30% to 5.26%	40,075	35,075	5,000
			52,159	47,159	5,000		71,742	66,742	5,000

Liquidity risk

Liquidity risk represents the Group's ability to meet its contractual obligations. The Group evaluates its liquidity requirements on an ongoing basis. In general, the Group generates sufficient cash flows from its operating activities to meet its obligations arising from its financial liabilities. It is the Group's policy to provide credit and liquidity enhancement only to wholly owned subsidiaries.

The following table sets out the contractual cash flows for all financial liabilities that are settled on a gross cash flow basis:

Group	2023				2022	
In thousands of dollars	Balance	6 months	6-12	Balance	6 months	6-12
	Sheet	or less	months	Sheet	or less	months
Trade and other payables	3,820	1,625	2,195	1,340	1,258	82
	3,820	1,625	2,195	1,340	1,258	82

Estimation of fair values

The following summarises the major methods and assumptions used in estimating the fair values of financial instruments reflected in the above tables.

(a) Cash, accounts receivable, accounts payable and related party receivables. The carrying amount for these balances approximate their fair value because of the short maturities of these items.

Capital management

The Group's capital includes share capital and retained earnings.

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The impact of the level of capital on shareholders' return is also recognised and the Group recognises the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position.

The Group is not subject to any external imposed capital requirements. The allocation of capital is, to a large extent, driven by optimisation of the return achieved on the capital allocated. The Group's policies in respect of capital management and allocation are reviewed regularly by the Board of Directors. There have been no material changes in the Group's management of capital during the period.

Notes to the Consolidated Financial Statements For the year ended 31 December 2023

15. CAPITAL AND LAND DEVELOPMENT COMMITMENTS

As at 31 December 2023, the Group had entered into contractual commitments for development expenditure and unconditional purchases of land. Development expenditure represents amounts contracted and forecast to be incurred in 2024 in accordance with the Group's development programme.

In thousands of dollars	Group	Group	
	2023	2022	
Development expenditure	19,743	21,991	
Land purchases	6,620	4,010	
	23,363	26,001	

16. RELATED PARTIES

Identity of related parties

The Company has a related party relationship with its wholly owned subsidiary, CDL Land New Zealand Limited, as well as a fellow subsidiary of its parent (see Note 17), and with its Directors and executive officers.

Transactions with key management personnel

None of the Directors of the Company and their immediate relatives have control of the voting shares of the Company. Key management personnel include the Board comprising non-executive directors and executive directors.

The total remuneration and value of other benefits earned by each of the Directors of the Company for the year ending 31 December 2023 was:

In thousands of dollars	Gro	Group	
	2023	2022	
Non-executive directors	130	130	
Executive directors	413	233	
	543	363	

Non-executive directors receive director's fees only. The executive directors receive short-term employee benefits which include a base salary and an incentive plan. They do not receive remuneration or any other benefits as a director of the Company or its subsidiary.

Total remuneration of non-executive directors is included in "administrative and other expenses" (see Note 3) and total remuneration of executive directors is included in "personnel expenses" (see Note 4).

17. GROUP ENTITIES

Control of the Group

CDL Investments New Zealand Limited is a subsidiary of Millennium & Copthorne Hotels New Zealand Limited by virtue of Millennium & Copthorne Hotels New Zealand Limited owning 65.54% (2022: 65.88%) of the Company and having two out of six of the Directors on the Board. Millennium & Copthorne Hotels New Zealand Limited is 70.79% (2022: 70.79%) owned by CDL Hotels Holdings New Zealand Limited (computed on voting shares), which is a wholly owned subsidiary of Millennium & Copthorne Hotels Limited in the United Kingdom. The ultimate holding company is Hong Leong Investment Holdings Pte Ltd in Singapore.

During the year, CDL Investments New Zealand Limited has reimbursed its parent, Millennium & Copthorne Hotels New Zealand Limited, \$427,000 (2022: \$351,000) for shared office expenses incurred by the parent on behalf of the Group and reimbursed its parent for its portion of insurance premiums of \$199,000 (2022: \$153,000).

During 2023, CDL Investments New Zealand Limited issued no additional shares (2022: Nil) to its parent, Millennium & Copthorne Hotels New Zealand Limited, under the Dividend Reinvestment Plan (see Note 13). The total shares on issue to Millennium & Copthorne Hotels New Zealand Limited is 190,591,297 (2022: 190,591,297).

18. CONTINGENT LIABILITIES

CDL Investments New Zealand Limited has a bank guarantee in place as a requirement of being listed on the New Zealand Stock Exchange. The maximum value of this guarantee is \$75,000 (2022: \$75,000).

крма

Notes to the Consolidated Financial Statements For the year ended 31 December 2023

19. SUBSEQUENT EVENTS

Post balance date, the purchase of 10.8 hectares of land for \$6.6 million in Nelson was settled during January 2024. The settlement will be recognised as an increase in land classified as development property in 2024.

On 23 February 2024, an ordinary dividend of 3.5 cents per qualifying share was declared by the Directors (see Note 13).

крмс Independent Auditor's Report

To the shareholders of CDI Investments New Zealand Limited

Report on the audit of the consolidated financial statements

Opinion

In our opinion, the consolidated financial statements of CDI Investments New Zealand Limited (the 'company') and its subsidiaries (the 'group') on pages 1 to 19 present fairly, in all material respects:

 the Group's financial position as at 31 December 2023 and its financial performance and cash flows for the year ended on that date;

in accordance with New Zealand Equivalents to International Financial Reporting Standards issued by the New Zealand Accounting Standards Board and International Financial Reporting Standards issued by the International Accounting Standards Board. We have audited the accompanying consolidated financial statements which comprise:

- the consolidated statement of financial position as at 31 December 2023;
- the consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended; and
- notes, including a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) ('ISAs (NZ)'). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the group in accordance with Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (Including International Independence Standards) (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ('IESBA Code'), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our responsibilities under ISAs (NZ) are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report.

Our firm has also provided other services to the group in relation taxation compliance, taxation advisory and strategy support services. Subject to certain restrictions, partners and employees of our firm may also deal with the group on normal terms within the ordinary course of trading activities of the business of the group. These matters have not impaired our independence as auditor of the group. The firm has no other relationship with, or interest in, the group.

🞱 🕘 Materiality

The scope of our audit was influenced by our application of materiality. Materiality helped us to determine the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the consolidated financial statements as a whole. The materiality for the consolidated financial statements as a whole was set at \$2m determined with reference to a benchmark of group total assets. We chose the benchmark because, in our view, this is a key measure of the group's performance.

🗐 🗎 Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements in the current period. We summarise below those matters and our key audit procedures to address those matters in order that the shareholders as a body may better understand the process by which we arrived at our audit opinion. Our procedures were undertaken in the context of and solely for the purpose of our statutory audit opinion on the consolidated financial statements as a whole and we do not express discrete opinions on separate elements of the consolidated financial statements.

The key audit matter How the matter was addressed in our audit

Capitalisation and allocation of development costs

Refer to Note 8 to the Financial Report.

The group's development property comprises land and costs incurred to develop land into subdivisions and individual properties for sale. The development properties represent 70% of total assets on the consolidated statement of financial position.

The capitalisation and allocation of development costs is a key audit matter as determining whether to capitalise or expense costs relating to development of the land is subjective as it depends whether the costs enhance the land or maintain the current value. In addition, there is significant judgement in determining whether obligations exist for future costs and how to allocate capitalised development costs to individual properties or stages.

The key judgements used in this determination are:

- Whether costs are eligible for capitalisation under the relevant accounting standards
- the allocation of capitalised costs to the individual projects, stages and land lots and the associated recognition of cost of sales
- Whether a capitalised cost and the associated liability for future obligations should be recorded under the relevant accounting standard.

Our audit procedures included:

- Evaluating the group's accounting policy for capitalisation of development costs using the criteria in the accounting standard.
- Developing an understanding of the key controls over the cost capitalisation and allocation process.
- Agreeing a sample of capitalised development costs to supporting documentation. For each selected transaction we:
- Considered the nature of the costs capitalised and evaluated whether they are eligible for capitalisation under the relevant accounting standard.
- Assessed the appropriateness of allocation to the individual project stages and land lots.
- Agreeing a sample of land acquisitions to sales and purchase agreements, settlement document and cash payment.
- Performing analytical procedures in relation development property costs of sales to assess that margins recognised between periods were appropriate, including considering alternative methods of allocation.
- Evaluating the reasonableness of the group's judgement to record liabilities for future obligations and that these have been appropriately measured and recorded in accordance with the applicable accounting standard.
- Assessing disclosures included in the consolidated financial statements in respect of the development properties using our understanding obtained from our testing and against the requirements of the accounting standards.

Our testing did not identify any material exceptions related to capitalised development costs, the allocation of those costs to individual project stages and the recognition of future development cost obligations.

$m{i}\equiv$ Other information

The Directors, on behalf of the group, are responsible for the other information included in the entity's Annual Report and Annual Climate Statement (prepared in accordance with the Aotearoa New Zealand Climate Standards). Other information in the Annual report may include the Directors Review, Managing Directors review, disclosures relating to Corporate Governance, the Trend Statement, Financial Summary, and the other information included in the Annual report. The Annual Climate Statement discloses information about the effects of climate change on the entity's business. Our opinion on the consolidated financial statements does not cover any other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements our responsibility is to read the Annual Report and Annual Climate Statement when they become available and consider whether the other information it contains is materially inconsistent with the consolidated financial statements, or our knowledge obtained in the audit, or otherwise appear misstated. If based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have received the Directors' review and have nothing to report in regard to it. The Annual Report and Annual Climate Statement are expected to be made available to us after the date of this Independent Auditor's Report and we will report the matters identified, if any, to those charged with governance.

Use of this independent auditor's report

This independent auditor's report is made solely to the shareholders as a body. Our audit work has been undertaken so that we might state to the shareholders those matters we are required to state to them in the independent auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the shareholders as a body for our audit work, this independent auditor's report, or any of the opinions we have formed.

Responsibilities of the Directors for the consolidated financial statements

The Directors, on behalf of the company, are responsible for:

- the preparation and fair presentation of the consolidated financial statements in accordance with generally accepted accounting practice in New Zealand (being New Zealand Equivalents to International Financial Reporting Standards) and International Financial Reporting Standards issued by the New Zealand Accounting Standards Board;
- implementing necessary internal control to enable the preparation of a consolidated set of financial statements that is free from material misstatement, whether due to fraud or error; and
- assessing the ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations or have no realistic alternative but to do so.

$\times \underline{\mathcal{L}}$ Auditor's responsibilities for the audit of the consolidated financial statements

Our objective is:

- to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and
- to issue an independent auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs NZ will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

A further description of our responsibilities for the audit of these consolidated financial statements is located at the External Reporting Board (XRB) website at:

http://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-1/

This description forms part of our independent auditor's report.

The engagement partner on the audit resulting in this independent auditor's report is Geoff Lewis.

For and on behalf of

KPMG

KPMG Auckland 26 February 2024
