

NZX Announcement

19 August 2016

For Immediate Release

Memorandum of Understanding between Palmerston North City Council and NZ Windfarms Ltd

Palmerston North City Council (PNCC) has previously advised that they will be undertaking a review of the conditions of consent for the Te Rere Hau Windfarm. On 17 August NZ Windfarms and PNCC signed a memorandum of understanding which set out the principles, process and extent of each party's respective obligations in the s 128 review of conditions process. An independent acoustic expert from Australia will be engaged to review the noise issues and make recommendations to assist PNCC in proposing amended review conditions. Following receipt of those recommendations, the review process will commence and is expected to take approximately four months to complete.
