Austpac Share Placement Raises \$2.01 million

Austpac is pleased to announce that the Company has completed a private placement of 67,000,000 fully paid ordinary shares at 3 cents each to raise \$2.01 million. These shares were placed with institutional and international investors. The funds will be used to accelerate the development of the Newcastle EARS project.

Austpac has started the refurbishment of the EARS section of the ERMS SR Demonstration Plant to commercially recycle waste from the steel industry and generate a profit for the Company. The EARS plant has a capacity to process up to 13,000 tpa of spent pickle liquor and up to 25,000 tpa of mill scale or other iron oxide wastes from steel mills. The refurbishment will take three months, with commissioning and production scheduled to commence late in 2009.

Negotiations are well advanced for the supply of spent pickle liquor, mill scale and other wastes to enable the EARS plant to commence operations in 2009, and also for the sale of the hydrochloric acid and the high grade iron briquettes produced by the EARS plant.

The capital cost estimate for the EARS plant refurbishment indicates a very affordable entry into commercial production for the first of Austpac's technologies.
