**Cook Operations**

Mining of the second Magatar panel was completed in early December. Activities since that time have focussed on establishing access for the next three panels. These are at right angles to the second panel and utilise that panel's conveyor belt structure. Coal production from roadway development at pit bottom continued during the quarter.

**Minyango**

Exploration activity on the Minyango tenements during the quarter included drilling, analysis and pre-feasibility studies with costs incurred amounting to \$217,000.
