MAp Presentation to Deutsche Transport Conference

Keith Irving, Chief Financial Officer

November 2009

Disclaimer

General Securities Warning

This presentation is not an offer or invitation for subscription or purchase of or a recommendation of securities. It does not take into account the investment objectives, financial situation and particular needs of the investor. Before making an investment in MAp, the investor or prospective investor should consider whether such an investment is appropriate to their particular investment needs, objectives and financial circumstances and consult an investment adviser if necessary.

Information, including forecast financial information, in this presentation should not be considered as a recommendation in relation to holding purchasing or selling shares, securities or other instruments in MAp. Due care and attention has been used in the preparation of forecast information. However, actual results may vary from forecasts and any variation may be materially positive or negative. Forecasts by their very nature, are subject to uncertainty and contingencies many of which are outside the control of MAp. Past performance is not a reliable indication of future performance.

Disclaimer

Foreign Ownership

MAp advises that its foreign ownership is 36.3% at 30 October 2009.

Note that the beneficial impact of TICkETS, which are predominantly Australian-owned, continues to be incorporated into the calculation of the foreign ownership level. If this impact were to be excluded, MAp's foreign ownership level would be 41.7%. TICkETS will be redeemed on 31 December 2009.

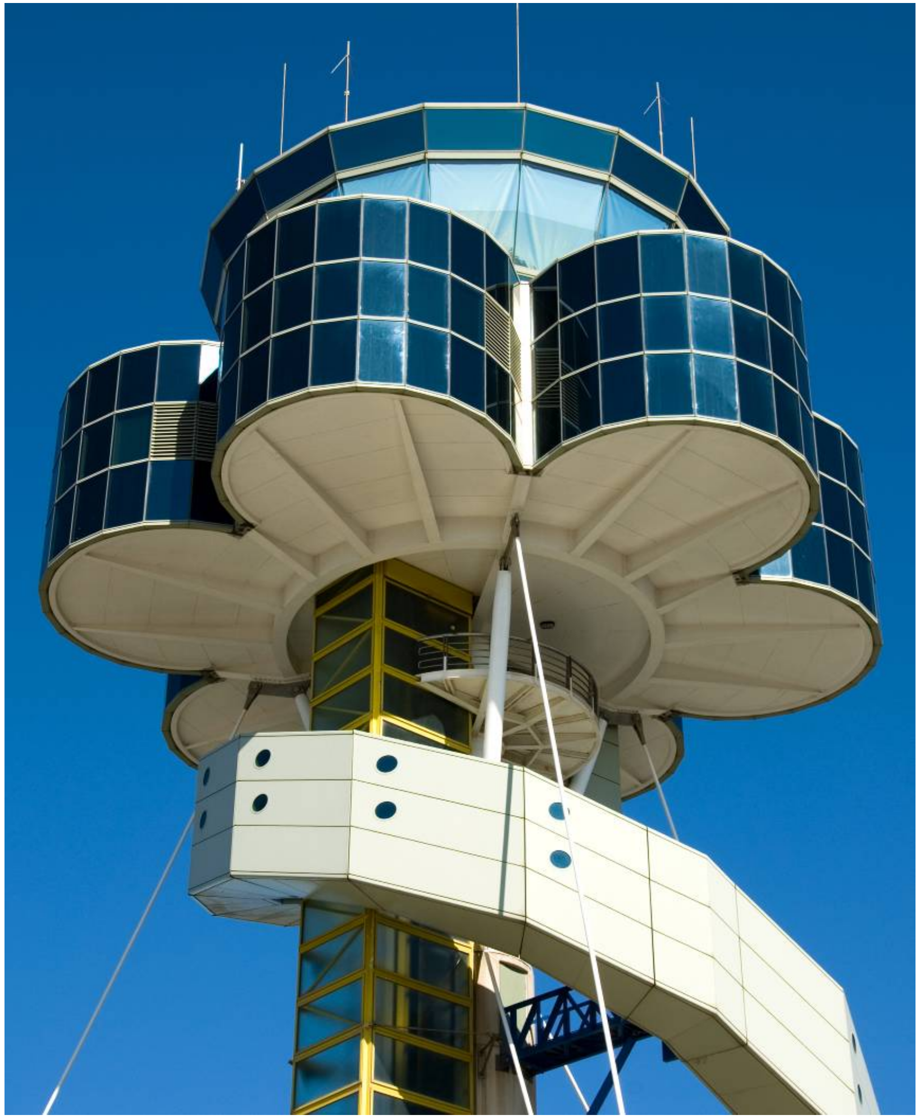
These calculations do not take account of the impact of the recent 1-11 Non-Renounceable Entitlement Offer.

MAp is not a "Foreign Person" under the Airports Act 1996 for so long as foreign ownership of MAp remains below 40%. As such, MAp is not currently a Foreign Person.

The MAp constitutions set out the process for disposal of securities to prevent MAp from becoming a Foreign Person or to cure the situation where MAp becomes a Foreign Person (Foreign Ownership Situation). Where a Foreign Ownership Situation occurs or is likely to occur, MAp can require a foreign security holder (on a last in first out basis) to dispose of MAp stapled securities. MAp has the power to commence procedures to divest foreign security holders once the foreign ownership of MAp reaches 39.5% under the Foreign Ownership Divestment Rules that it has adopted. If the foreign security holder fails to dispose of its MAp stapled securities, MAp may sell those securities at the best price reasonably obtainable at the time.

Agenda

1. MAp Today
2. 3Q09 Performance
3. Airport Results
4. Retail Performance
5. Growth Initiatives
6. Outlook



1

MAp Today

MAp Today

One of the Largest Private Owners & Operators of Airports in the World

MAp has a uniquely integrated management model, with operational & financial skills in house

MAp has reached a level of experience & scale such that management internalisation was a rational step

MAp's airports serve ~70 million passengers every year

Sydney

- ~32 m passengers
- ~300 employees
- Busiest Australian aviation hub
- UK Conde Nast top ten Airport (2009)
- Skytrax Airport of the Year Top Ten (2006/7)
- 2007 best airport in Australia/Pacific region

Copenhagen

- ~20 m passengers
- ~ 1,700 employees
- Scandinavia's largest airport
- Most Efficient Airport (2004, 2005, 2006)
- Skytrax Airport of the Year Top Ten (2006)
- #1 Airport in Europe (2005)

Brussels

- ~17 m passengers
- ~ 800 employees
- Gateway to the political capital of Europe
- #1 Airport in Europe (2005)
- ACI Airport People Award (2006)

MAp's Place in the World

MAp Has Delivered Superior Returns

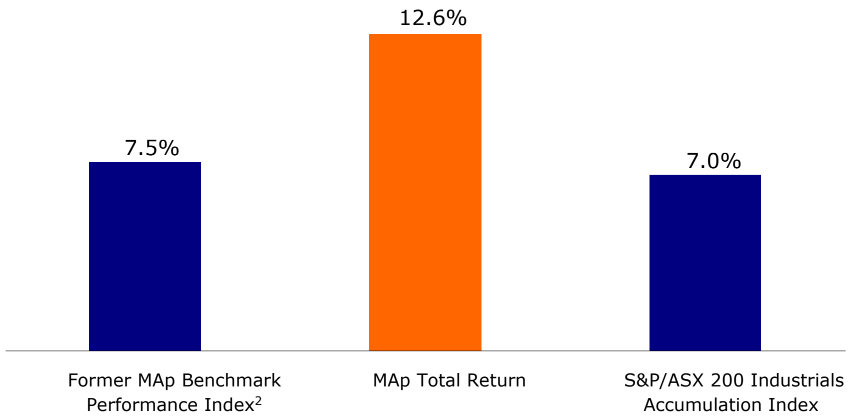
MAp has a well developed model for the acquisition, development & management of airports, aimed at delivering consistent value to security holders over the medium to long term

MAp has a proven track record in delivering security holder value with a 12.6% annual return from IPO in April 2002 to the present day

- 5.6% outperformance of S&P/ASX 200 Industrials Accumulation Index

MAp remains a 'growth stock' – long term traffic growth of 4%–5% pa & sustainable EBITDA outperformance

Total Security Holder Return vs Benchmark Index[1]



Notes:

1. *As at 30 September 2009*
2. *MSCI World Transportation Infrastructure Index, excluding MAp, calculated on an accumulation basis & in local currency.*

MAp's Active Management

MAp Has Driven Consistent EBITDA Outperformance Over Traffic Growth

Operational Value Drivers

- Pax Growth
- Commercial Yields
- Lower Unit Cost

Operating Earnings Growth

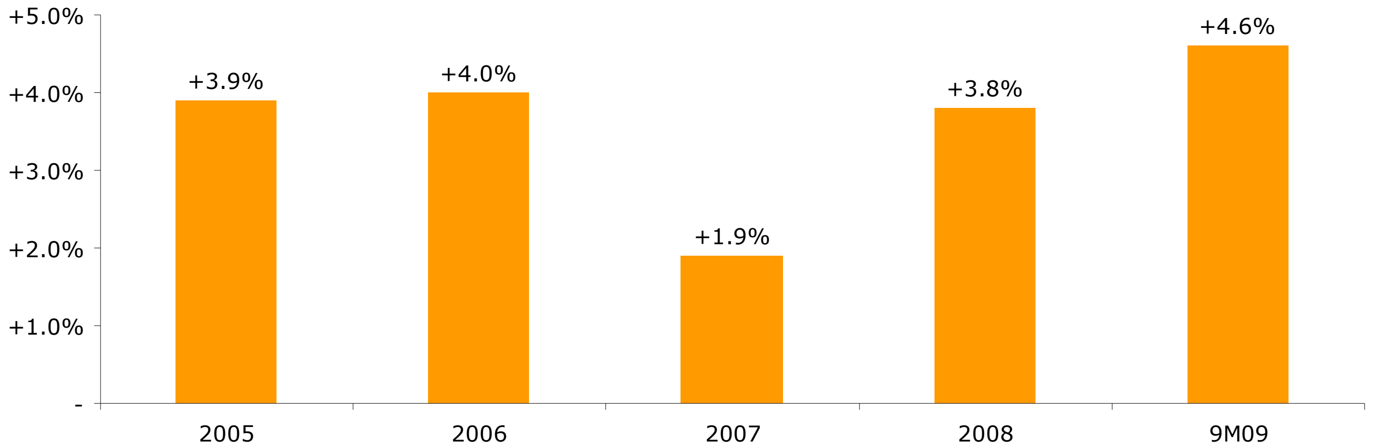
Financial Value Drivers

- Efficient, Timely Capex
- Appropriate Capital Structure

Increased Cash Flow

Increased Returns to Investors

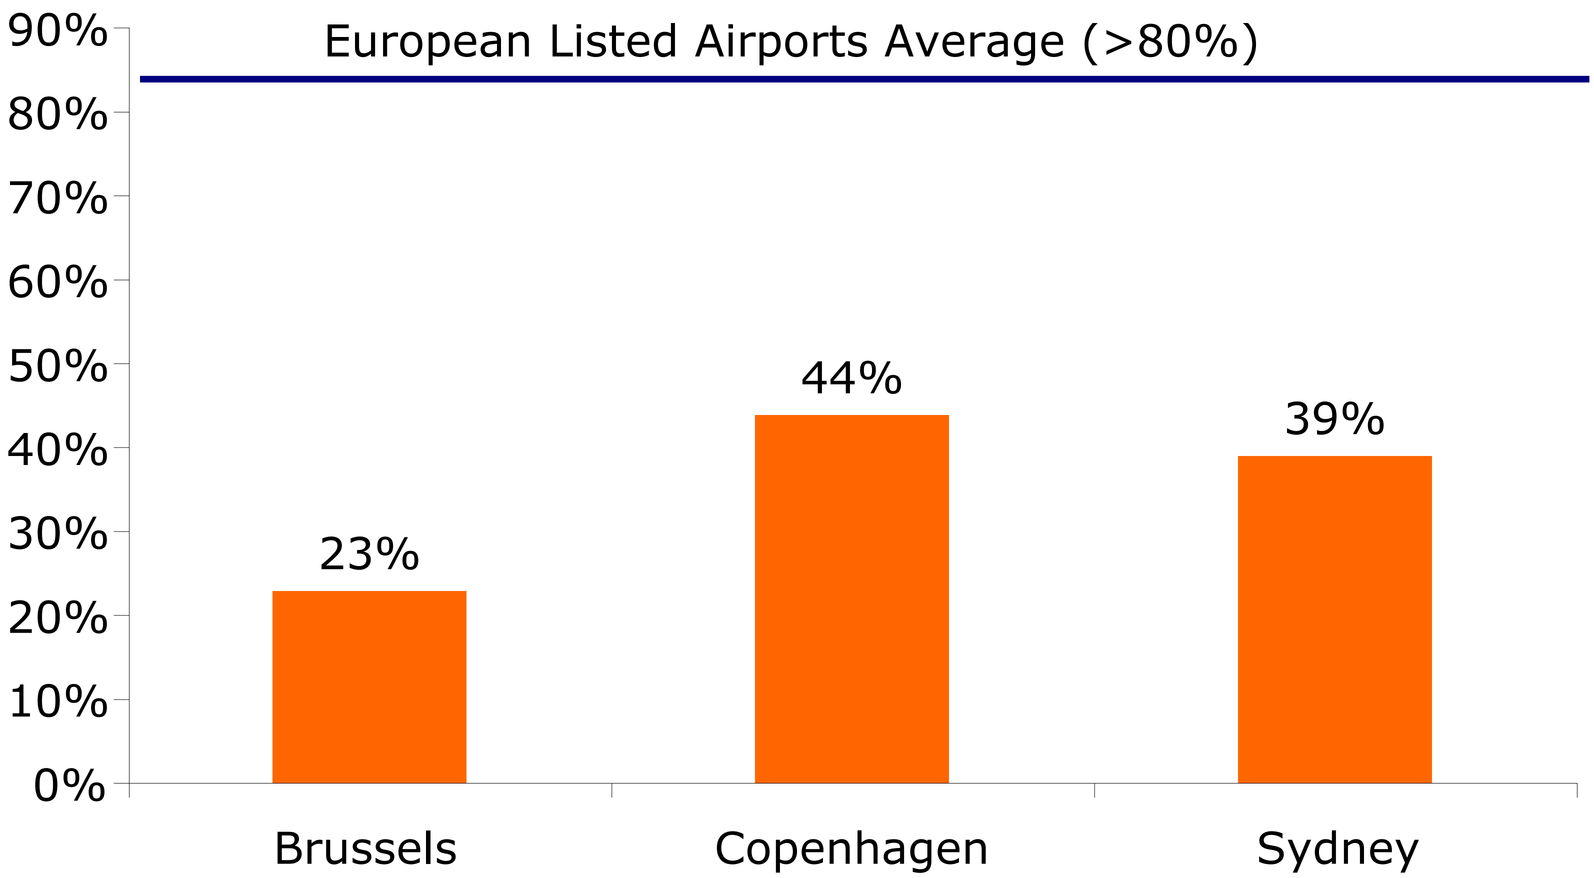
MAp EBITDA Outperformance vs Traffic



Capital Expenditure Comparisons

MAp's High Quality Airport Facilities Ensure More EBITDA is Available to Service Capital Providers (Debt & Equity)

Capital Expenditure as a Proportion of EBITDA (last 5yrs)



Proactive Portfolio Actions

MAp has Re-shaped its Portfolio During the Last 24 Months to Realise Value & Position for Current Challenges

Divestment of non-core businesses (ACSA, HMA, JAT)

MAp has realised value by divesting airport interests

- Divestment of Rome & Birmingham airports (at substantial premia)
- Divestment of partial interests in Brussels & Copenhagen airports to validate valuations & position balance sheet ahead of GFC – maintained joint control

With this cash, MAp has significantly deleveraged

- Eliminated all corporate debt (A$900m)
- Reduced term debt at Sydney (A$870m)

Aligned distributions with sustainable proportionate earnings

- 9M09 proportionate earnings represent ~75% of 2009 distribution guidance

No further debt maturities until September 2011, A$900m cash on hand

Benefits of internalisation

- Provides greater certainty via replacement of volatile management & performance fees with lower operating expenses
- Increase in potential investor base
- Management remuneration determined solely by MAp

MAp

2

3Q09 Performance

3Q09 Delivery & Full Year Outlook

Traffic Decline Moderating

Significant moderation in European airport performance in 3Q09

- Proportionate EBITDA flat vs traffic down 7.6% for 3Q09
- Sydney (61% of the portfolio) proving highly resilient – 3Q09 EBITDA up 6.2%
- European traffic & EBITDA declines moderated substantially in 2Q09 & 3Q09
- Financial position remains very strong with A$900m in cash on hand post Bristol sale

Full year outlook

- Airline capacity returning, particularly in Europe
- Costs continue to be well-controlled, capex programs have been right-sized
- Long term growth prospects for the aviation sector remain strong

9M09 & 3Q09 Performance

MAp Continues to Deliver EBITDA Outperformance

EBITDA has outperformed traffic

- Despite tough 1Q09 in Europe, revenue, EBITDA & earnings outperformed traffic for 9M09
- H1N1 had significant impact on ASUR traffic in 2Q09 & 3Q09

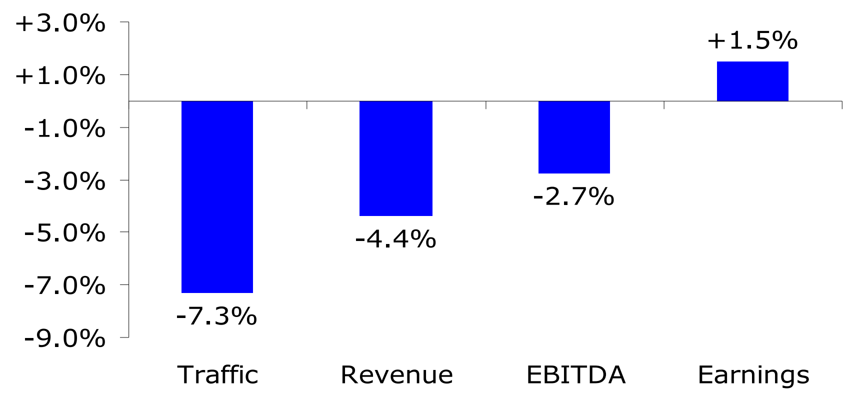
Improved performance in 2Q09 & 3Q09

- Aided by agreed increases in aeronautical charges at Brussels & Copenhagen, solid retail performances & ongoing cost control

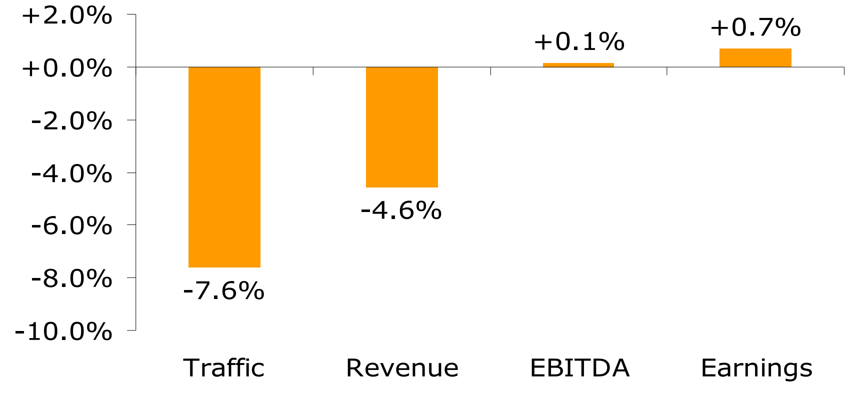
EBITDA margin

- EBITDA margin steady at 61.8% for 9M09

9M09 (vs pcp[1])



3Q09 (vs pcp[1])



1. *pcp results are derived by restating prior period results with current period ownership interests & foreign exchange rates*
2. *Excluding airport specific gains/(losses)*
3. *Excluding concession asset net debt amortisation & non-recurring items*

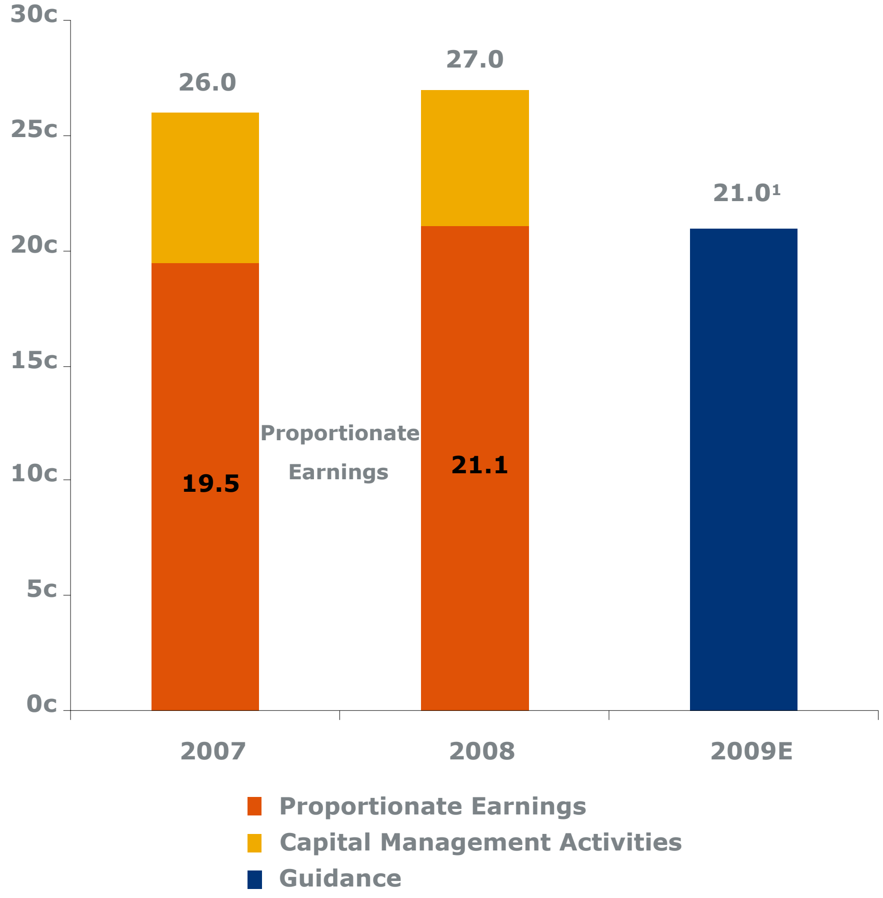
MAp Regular Distributions

2009 Distribution Guidance Reaffirmed at 21c per Stapled Security

9M09 proportionate EPS of 15.9c provides 75% of full year distribution guidance

Remain on target to deliver 100% coverage of regular distribution from proportionate earnings for FY09

Regular Distributions & Guidance



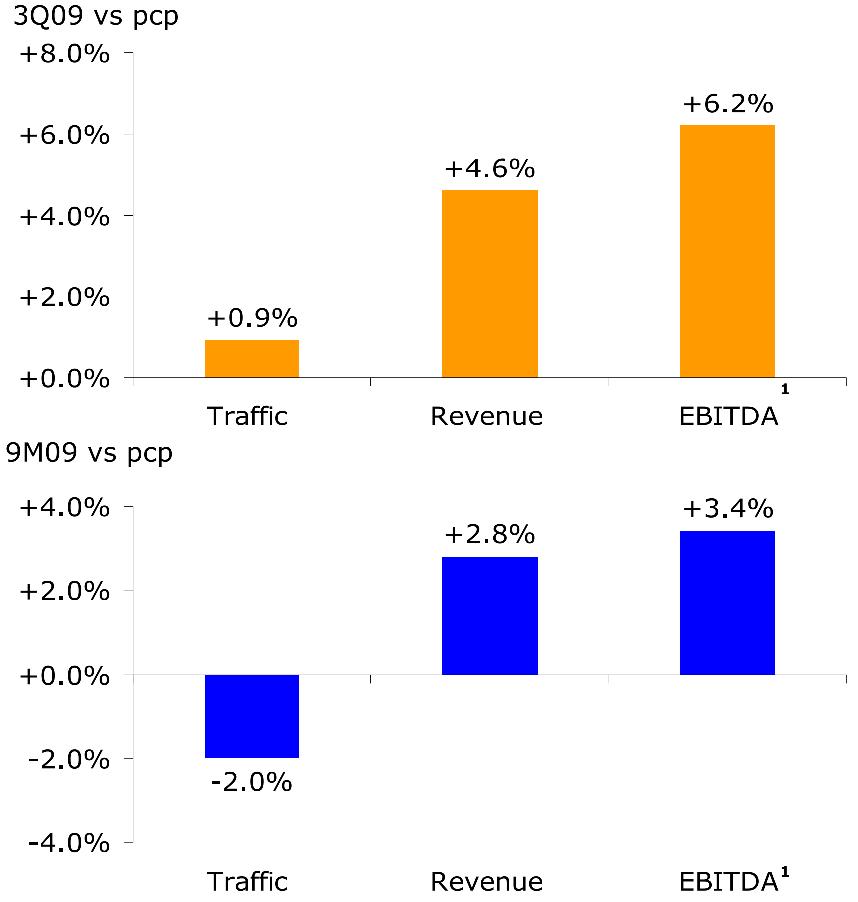
1. *Subject to external shocks to the aviation industry or any material changes in the forecast assumptions*

3 Airport Results

Leveraged to Economic Recovery

- 3Q09 demonstrated a significant recovery with a return to traffic growth & continued good cost control
- Air Austral, V Australia, Delta Air Lines and Tiger Airways commenced operations this year whilst Pacific Blue entered new trans-Tasman markets
- A$500m state-of-the-art redevelopment of the International Terminal continues to plan, with the new Customs hall now open & an excellent range of retail outlets being delivered over the next 6mths
- Aeronautical revenue rose by 8.1% in 3Q09, reflecting the level of new investment, whilst retail revenue increased by 1.9%, slightly ahead of traffic growth of 0.9%. Operating costs were down 3.0% in 3Q09

Sydney Airport Financial Performance

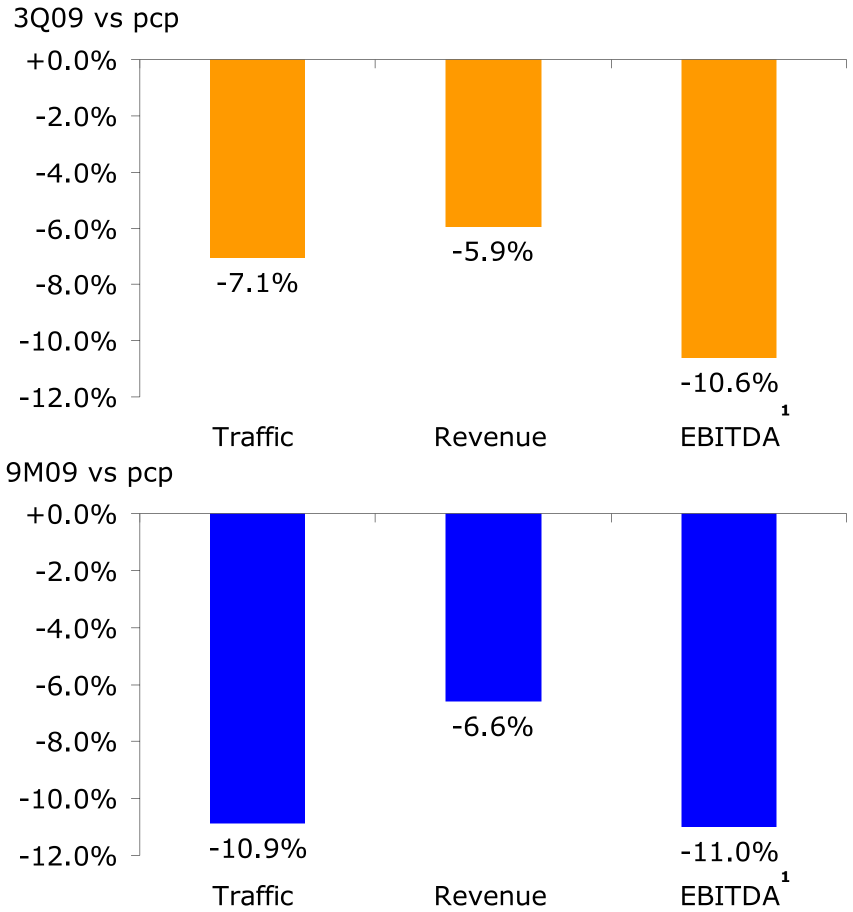


1. Before specific items

Additional LCC Capacity, Solid Retail Performance

- Traffic decline moderated in 3Q09, down 7.1% on pcp, relative to 13% for 1H09. O&D traffic benefited from resilience of summer holiday travel & LCC competition
- New 5½yr agreement covering future level & structure of aeronautical charges – effective October 2009, charges held flat for 18mths (following 4.2% increase in April 2009), followed by annual increases equivalent to CPI+1%
- Operating costs, excluding specific items, up just 1.0% in 3Q09 as a result of reduced staff costs (-0.4%) following a redundancy program at the end of 1Q09

Copenhagen Airports Financial Performance



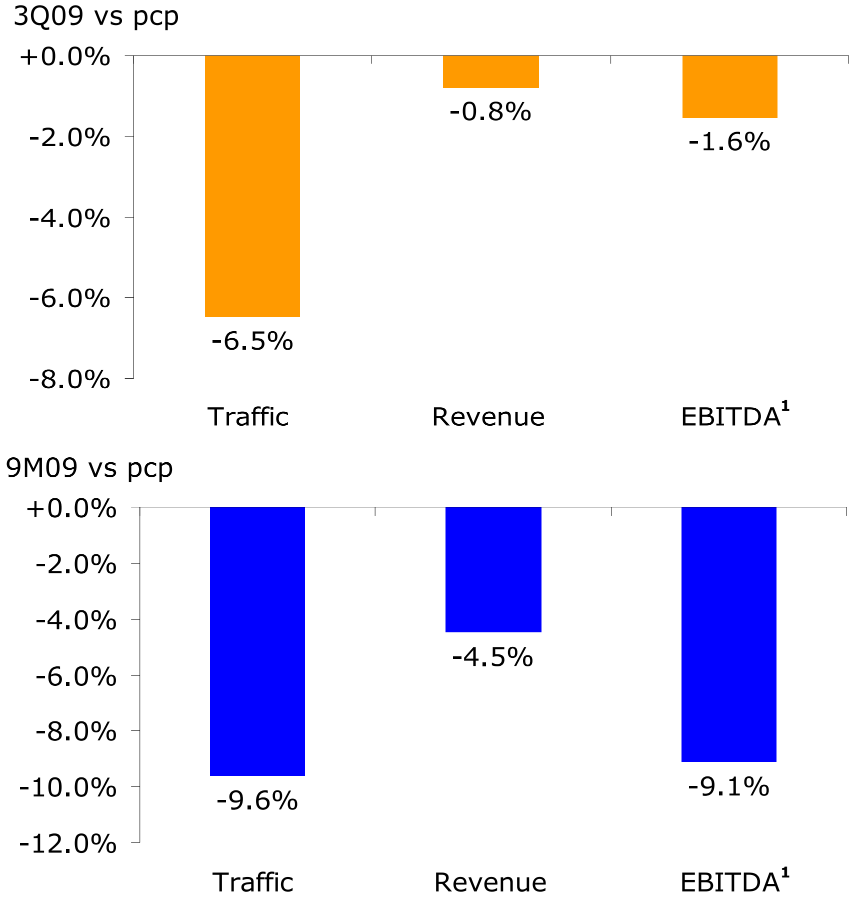
1. *Before specific items*

Brussels

Traffic Decline Moderating

- EBITDA & traffic show improving trend during 2009 & improvement over 1H09
- Improvement in traffic driven by the restoration of capacity from Brussels Airlines, easyJet increasing its presence & additional long-haul services. Air Canada announcing the start of direct flights to Montreal from summer 2010, giving Brussels' passengers access to Air Canada's extensive network of Nth American destinations
- Aeronautical revenue was 1.4% down on pcp, outperforming the decline in traffic due to 5.1% increase in aeronautical tariffs. Retail revenue per passenger is 6.7% ahead of the pcp, driven by the full year effect of the new specialist shops and food and beverage outlets.

Brussels Airport Financial Performance



1. *Before specific items*

4

Retail Performance

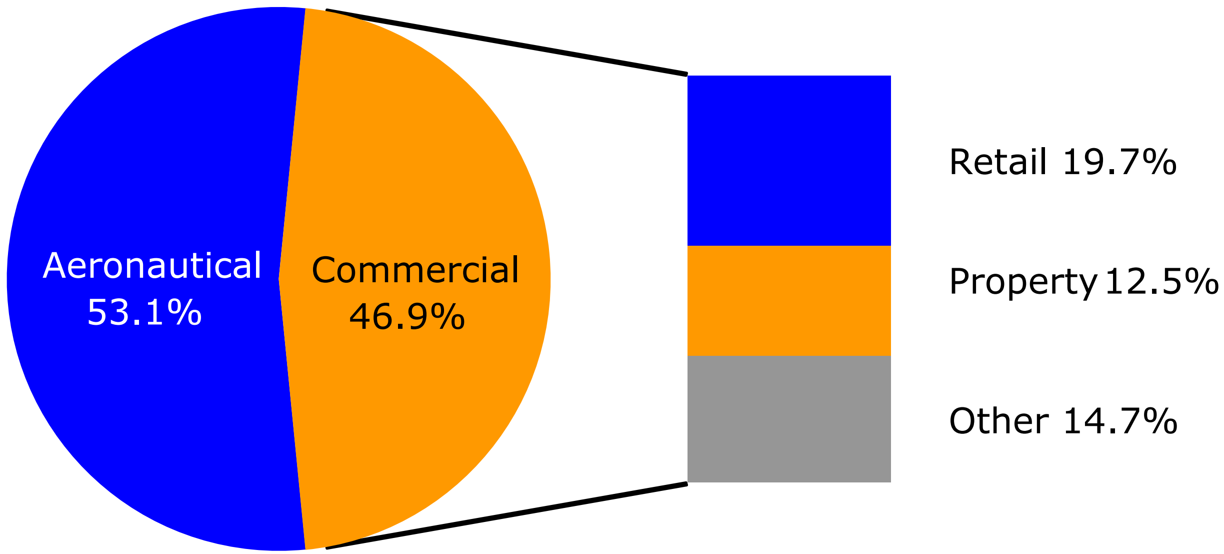
Revenue Mix

Commercial Businesses Account for Almost Half of Total Revenue

Commercial businesses (retail, property, car parking etc) contributed 47% of proportionate revenue for 9M09

- Retail operations account for the largest component and almost 20% of total revenue
- Retail operations are generally run as concessions with minimum guarantees & turnover-based rents

Core Portfolio Revenue Mix (9M09)



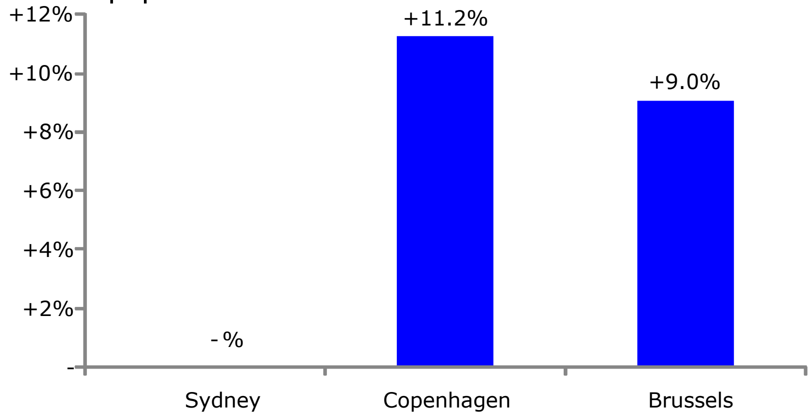
Resilience of Retail Revenue

Expansion Initiatives Have Ensured that Retail Revenue Has Performed Well

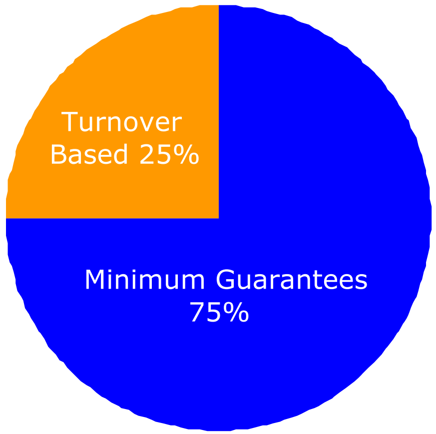
- Despite the challenging external conditions, retail revenues per passenger have increased for 9M09 (~A$5m in one off revenues at Sydney in the pcp)
- Whilst the luxury segment has felt some pressures, the value proposition of the core duty free offering (liquor, tobacco, cosmetics) has been well-received
- Food & beverage revenues have performed very well supported by the structural shift towards leisure & low cost traffic
- Significant initiatives at each core airport to optimise airside retail & meet passenger needs – assisted in offsetting impact of current economic conditions
- Strong support from minimum guarantees – largest contracts (Sydney & Copenhagen duty free) are relatively immature

Retail Revenue Growth per Pax

9M09 vs pcp



Retail Revenue Composition 2008



Benchmarking Appropriate Retail Space

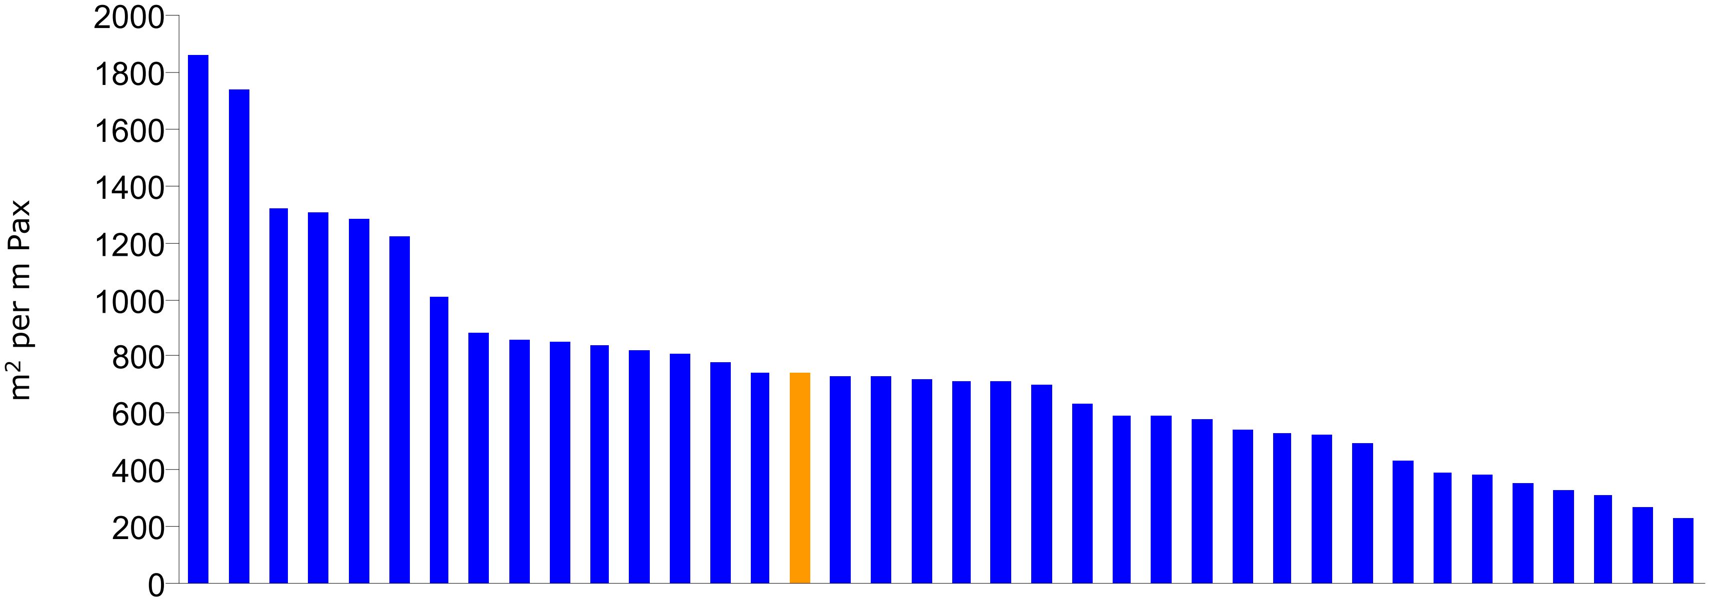
Target Retail Space at International Terminals of 800m^2 per 1m Pax per Annum

Average across 40 major international airports is ~740m^2

— MAp initiatives at Sydney & Copenhagen will deliver the optimum retail space per pax

— Reconfiguration at Brussels is providing a more appropriate layout

Retail Space per m Pax (International Airports)

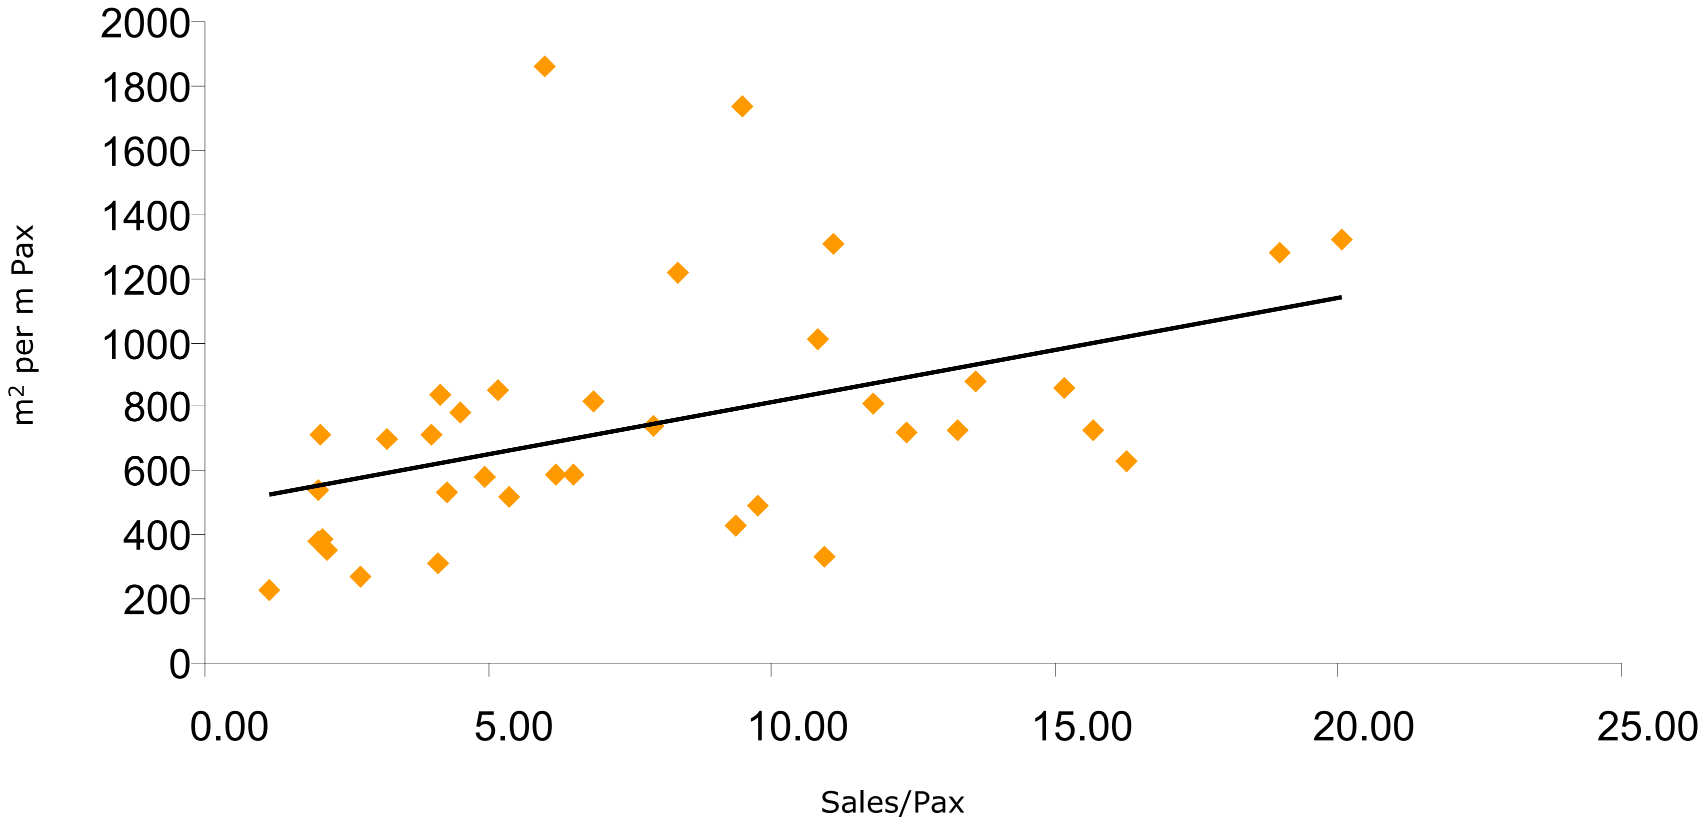


Source: The Airport Retail Study – The Moodie Report

Relationship Between Sales & Space

There is a Clear Correlation Between the Amount of Retail Space & Optimal Sales per Passenger

Sales per Pax vs Space per Pax (International Airports)



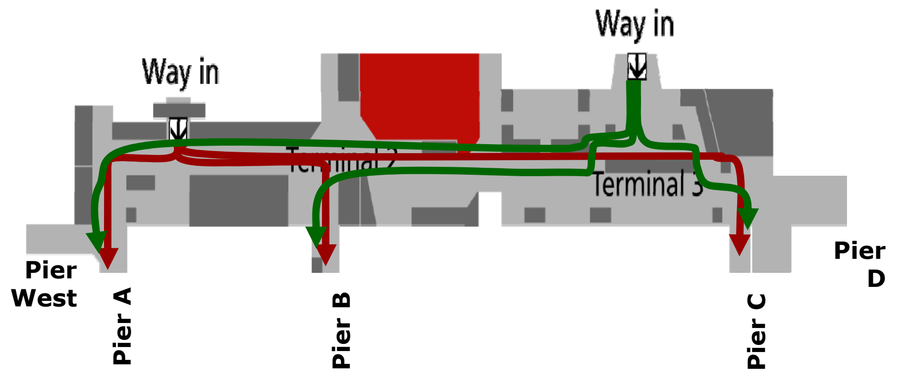
Source: The Airport Retail Study – The Moodie Report

Copenhagen Case Study

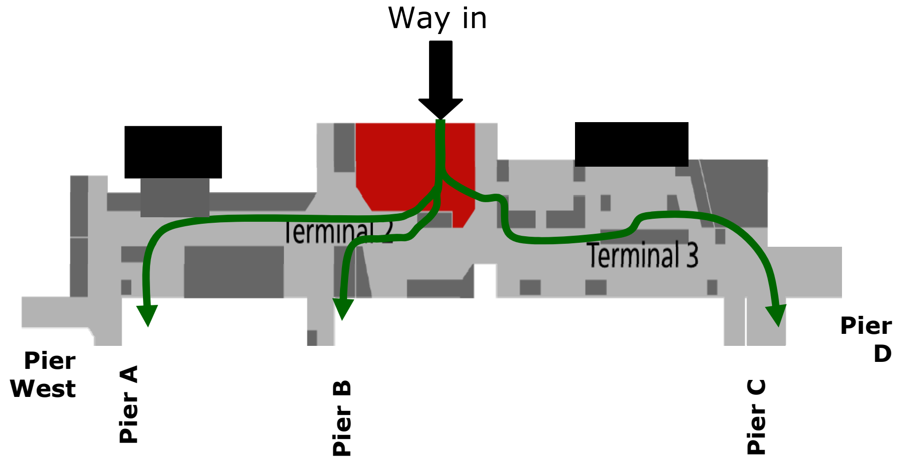
Strategy to Deliver Significant Increase in Retail Space over a 5yr Period

- Pre-existing retail operation (10,000m^2) highly regarded
- Retail space master plan with a target provision of 16,000m^2 established with 14,000m^2 delivered
- Range of products & merchandise expanded
- Has aided Copenhagen in facing today's challenges & delivered an increase in retail revenue per pax

Before



After



Centralised Security Checkpoint & Walk-Thru Duty Free Store

Significant Upgrade to the Copenhagen Passenger Experience

Sydney Case Study

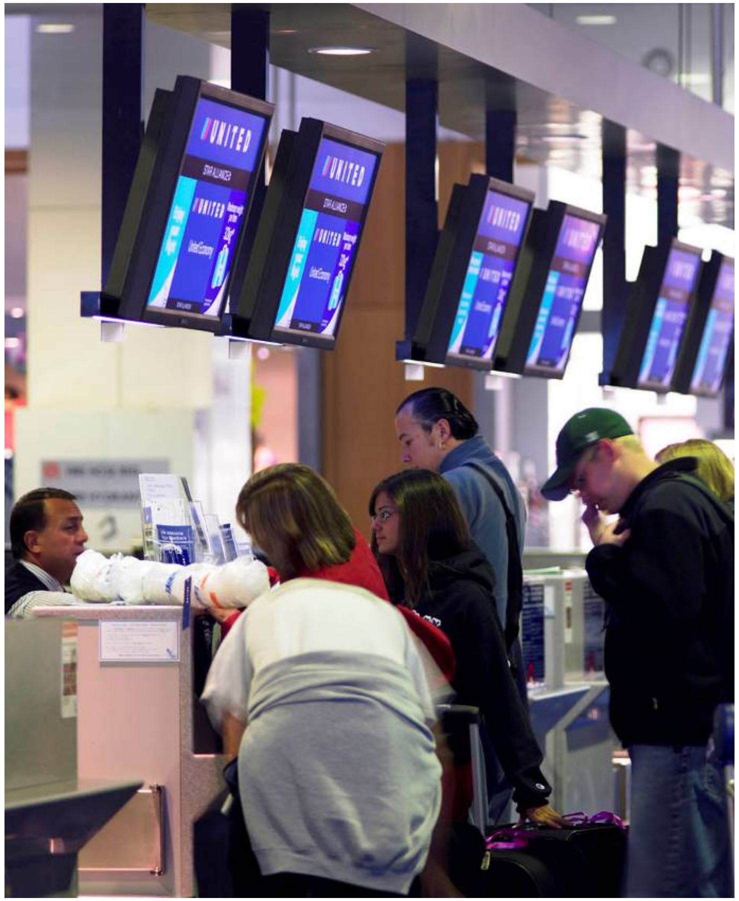
A$500m Passenger/Facilities Improvement Program

T1 Redevelopment update

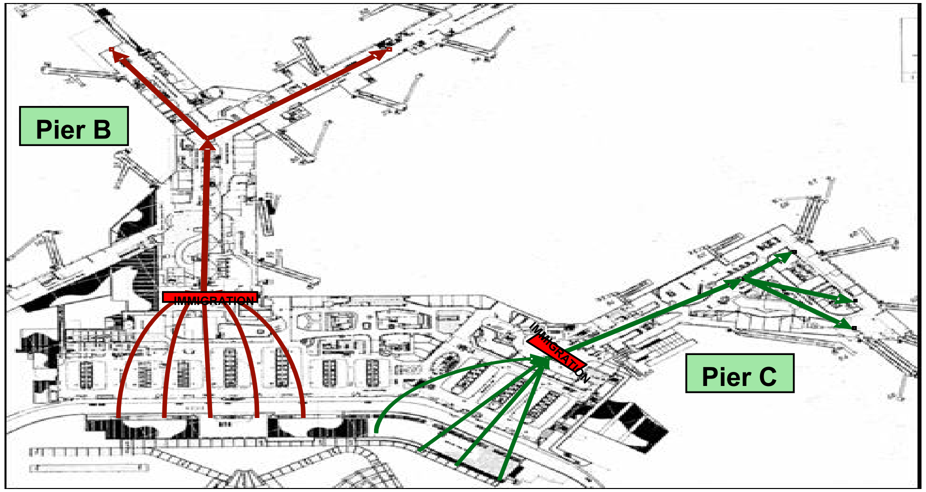
- On track & due to be completed in early 2010 with progressive openings from 4Q09
- 2,000sqm of new retail space
- A total of 120 stores for departing passengers to enjoy
- Tenants already committed to >95% of available space

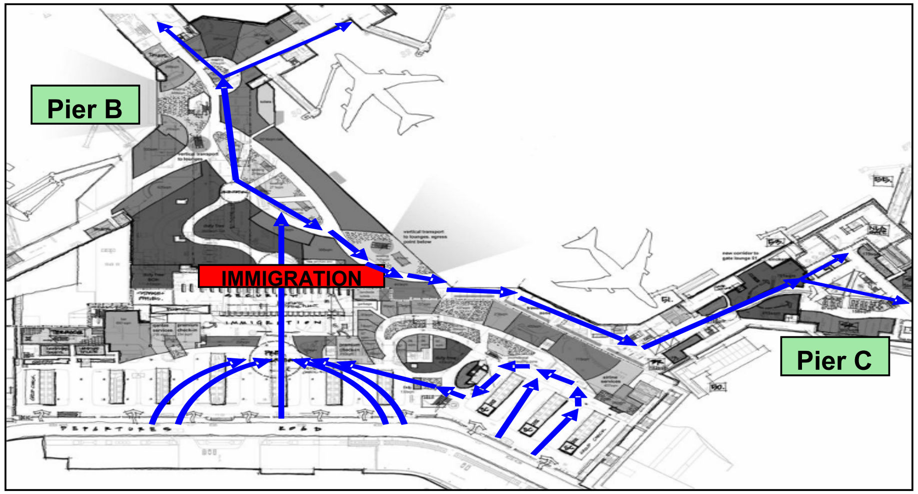
A complete passenger experience

- Improved passenger facilitation – faster, easier
- Food & Beverage – expanded choice & comfort: Dank St Depot, airside McDonalds, wine bar, landside food court
- Wide range of shopping opportunities – Lonely Planet, Burberry, Discover, Australian Made, Emporio Armani, Coach, Rodd & Gunn, Oroton etc



A Complete Passenger Experience





5

Growth Initiatives

Portfolio Traffic Outlook

Early Signs of Recovery, Long Term Outlook Positive

Sydney

- Tiger & Delta launched in July
- Qantas to increase A380 frequencies as new aircraft received
- Emirates 3rd daily service
- Tiger significant expansion of services

Copenhagen & Brussels

- Brussels Airlines restoring short haul capacity
- Terminal facilities for operationally efficient airlines being developed
- Successfully attracting low cost & leisure traffic
- Additional trans-Atlantic services announced at both airports

Mitigating Actions

Have Taken Significant Actions to Deliver EBITDA Outperformance from 2Q09

Efficiency improvements

- Sydney & Bristol: restructurings undertaken in 2008
- Brussels: Financial Performance Improvement Plan Implemented
- Copenhagen: strategic cost review has started to deliver benefits

Capex reviewed & reprioritised

- Work with airline partners to ensure continued investment at an appropriate level
- Capacity projects adjusted to suit traffic environment
- Strategic growth initiatives accelerated: terminal facilities for operationally efficient airlines at Copenhagen & Brussels, other commercial projects which generally have a short payback period etc

6

Outlook

MAp's Medium Term Strategy

MAp has Strategically Positioned its Airport Businesses to Take Advantage of The Economic Recovery

MAp's airports are:

— Exposed to long term aviation growth (4%-5% pa traffic growth)

— Expected to deliver appropriate returns on aeronautical assets & investments (long term commercial deals in place)

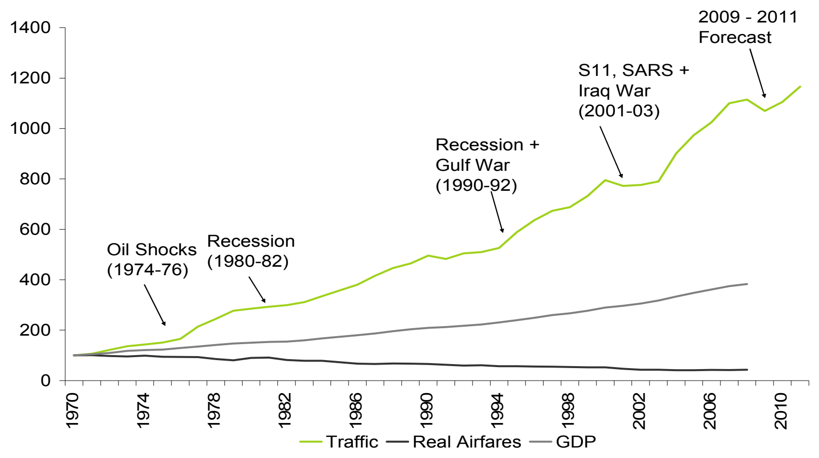
— Have significant opportunities to increase commercial yields (retail & car parking)

— Have significant surplus capacity & limited capex needs

— Appropriately leveraged & benefiting from operational de-gearing through EBITDA growth

— Delivering EBITDA outperformance vs traffic

Global Airline Traffic Growth – Recovery Trend



Airport Outlook

Long Term Growth Prospects for Aviation Industry Remain Strong

Traffic growth moving into +ve territory over next few months

Continuous improvement in efficiency, operational effectiveness & operating costs

Commercial businesses in general continuing to perform well

- In terms of commercial income per pax, in particular, T1 Redevelopment at Sydney

Degree of certainty established on regulated charges

- Copenhagen & Sydney

Balanced growth strategies

- Supporting home-based carriers (Qantas, SAS, Brussels Airline/Lufthansa) & new route development (with Middle East, Asia & LCCs)

Maintain appropriate capital structures

- Proactive debt management has ensured airport balance sheets remain strong
- Operational growth delivers further deleveraging

Outlook

9M09 & 3Q09 Demonstrated MAp's Resilience

EBITDA outperforming traffic at a portfolio level again, active management vital

2009 distribution guidance reaffirmed at 21c per stapled security[1]

Continued delivery from major business initiatives

Strong balance sheet, substantial cash reserves, no near term debt maturities

Maintain a conservative stance towards capital management, notwithstanding some improvement in operating & financial conditions

1. *Subject to external shocks to the aviation industry or any material changes in the forecast assumptions*
