Announcement to Australian Securities Exchange Limited

Smart&Secure implemented in Automatic Vehicle Identification applications across the Americas

6 January 2009

MIKOH Corporation Limited is pleased to announce that Smart&Secure has been incorporated into several Automatic Vehicle Identification (AVI) applications throughout North and South America. These projects have resulted in the delivery and installation of over 100,000 tags during the fourth quarter of 2008. The potential size of these combined installations could reach over five million Smart&Secure tags over the next 12 to 24 months.

These high-volume applications are the first to be received under the newly signed global agreement with Sirit (refer ASX announcement of 31 October 2008) whereby Sirit has been licensed to exclusively promote and sell MIKOH's Smart&Secure technology worldwide in AVI systems where tamper indicating vehicle tags are required.

The order builds on MIKOH's supply of Smart&Secure tags for the electronic vehicle registration system implemented in Bermuda.

Matt Blomfield
Managing Director

About MIKOH:

MIKOH Corporation Limited is a leading provider of physical security and digital marking solutions and consulting services. The company works with customers to design and implement physical security solutions to track, seal and/or monitor valuable assets. Both RFID and non-RFID in nature, MIKOH solutions align proper business processes and labeling technologies to ensure assets are effectively managed with certainty.

MIKOH's Smart&Secure tamper-evident technology provides physical security certainty for RFID tags. Physical security for RFID is vital in applications where the compromise of sensitive assets results in commercial and/or revenue loss. These applications include government asset tracking, vehicle identification, pharmaceutical distribution and more. Smart&Secure is flexible, scalable and easily integrates into any RFID system.

MIKOH has offices in Melbourne and Sydney in Australia, and McLean, VA and New York, NY in the USA. For more information, visit the company's website at http://www.MIKOH.com.
