5 Non-Cash Financing and Investing Activities

5(a) Provide details of financing and investing transactions which have had a material effect on consolidated assets and liabilities but did not involve cash flows

N/A

5(b) Provide details of outlays made by other entities to establish or increase their share in projects in which the reporting entity has an interest

N/A

6 Financing Facilities Available

Provide details of used and unused loan facilities and credit standby arrangements, adding such notes as are necessary for an understanding of the position.

	Notes	Amount Available \$NZ'000	Amount Used \$NZ'000
CreditPlus Facility	1	14,900	-
Multi-option Debt Facility	2	10,000	-

		Current Quarter # \$NZ'000	Following Quarter \$NZ'000
7 Estimated Outlays for Specified Quarters			
7(a) Exploration and evaluation		-	-
7(b) Development	3	14,700	11,800
Total		14,700	11,800

The outlays to be shown in this column are the estimates made for this quarter in the previous quarterly report. When these estimates differ by more than 15% from the actual outlays reported in Item 1(b) of this report, provide an explanation of the reason(s) for these differences. The actual outlay for development expenditure in the quarter ended 30 September 2009 was \$4.6 million. Actual cash payments were less than forecast due to some capital expenditure timing differences and areas of under spend compared to budget.

Notes:

1. CreditPlus Facility with Bank of New Zealand – akin to a ‘revolving credit’ style facility which is fully redrawable and repayable at any time. Facility is secured against certain major pieces of mobile mining equipment.
2. Multi-option Debt Facility with Bank of New Zealand – a one year working capital facility secured via a pari-passu first ranking charge over the company assets (excluding major pieces of mobile mining equipment).
3. Development expenditure during the current quarter has been lower than previously forecast primarily due to a rephasing of the timing of certain items of expenditure.
