ASX / MEDIA RELEASE

31 MARCH 2009
ELS086.2009

SMX PILOT TO COMMENCE AT WORLD LEADING OIL & GAS COMPANY

As foreshadowed in the ASX announcement of 15 October 2008, Synergy Equities Group Limited (“SYNERGY”, ASX : SYG) advises that its wholly owned subsidiary Data-inCrypt[®] Pty Ltd (“Data-inCrypt[®]”) has held a further SMX secure registered email workshop / discovery session for one of the nation’s largest publicly-traded oil and gas exploration and production companies.

At the conclusion of the workshop / discovery session, the company advised that it would commence an SMX pilot in the coming weeks. Furthermore, Data-inCrypt[®] is given to understand that the company has budgeted for and intends to implement a secure email platform during the 2009 calendar year, with the implementation planned to be completed in the first half of the year (i.e. by 30 June 2009).

Should Data-inCrypt[®] be selected as the company’s preferred supplier for secure email, an in-house SMX implementation of the proposed magnitude would represent sales revenue in the region of AU\$500,000 (ex GST) to SYNERGY in the first year, based on current pricing models.

SYNERGY looks forward to keeping the market informed.

Yours faithfully

Ronald Moir
Managing Director
SYNERGY EQUITIES GROUP LIMITED
