**SMX SALES THRUST INTO ASIA BEGINS**

---

Synergy Equities Group Limited ("the Company") advises that its wholly owned subsidiary Data-inCrypt® has commenced its SMX sales thrust into the Middle East and the Asia Pacific.

Data-inCrypt® Directors last week conducted high level talks with representatives of Government and private institutions from the Middle East (Abu Dhabi), Malaysia, Singapore and Indonesia, and as a direct result several evaluation SMX implementations are to be completed within the next fortnight.

Included in these organisations is ISO Group ([www.iso-group.com](http://www.iso-group.com)), an innovative and unprecedented logistics company which delivers spare parts and engineered solutions to its business partners, namely the world's Defence programs, their prime contractors and their sub-contractors. Founded in 2003, the ISO Group delivers US, European and Eastern Bloc spare parts from its Global Vendor Network of over 1.3 million suppliers to assist buyers in over 80 countries. It is a Prime Contractor to the US and other Governments, and a sub-contractor to many prime contractors. Its services include international financing, export compliance and global logistics.

The Company looks forward to keeping the market informed.

Yours faithfully

Ronald Moir  
Managing Director  
SYNERGY EQUITIES GROUP LIMITED
