

SYNERGY EQUITIES GROUP

THE ASIA PACIFIC LEADER IN SECURE EMAIL

ASX / MEDIA RELEASE

22 JUNE 2009
ELS109.2009

DATAMOTION VICE-PRESIDENT TO TOUR AUSTRALIA WITH SMX

As the market knows, SMX secure registered email is powered by DataMotion, Inc (formerly CertifiedMail.com, Inc) (www.datamotion.com). Synergy Equities Group Limited (“the Company”, ASX : SYG) is pleased to announce that Mr R J (“Bob”) Janacek, one of the world’s foremost authorities on secure messaging and DataMotion, Inc.'s Executive Vice-President, Founder and Chief Technical Officer, will tour Australia on behalf of Data-inCrypt® SMX secure registered email during this week (commencing Monday, 22 June 2009).

Bob will meet with media organisations in Sydney, meet with the Australian Medical Association (www.ama.com.au) & Stratsec Pty Ltd (www.stratsec.net) in Canberra in regard to the Common Criteria certification of SMX (the ASX announcement of 16 Jun 09 refers) and hold high level talks with top-end potential corporate and Government SMX customers in Melbourne, including Medibank Private Limited (www.medibank.com.au).

about R J (“Bob”) Janacek BSc MBA (see http://www.datamotion.com/about_team.php#BobJ)

Bob Janacek has almost twenty years of security and software design experience, and is the architect, designer and original developer of the products and services that comprise DataMotion's Secure Email System. His vision keeps DataMotion’s technology on the cutting edge of technology, while his ongoing communications with customers ensure that the products are easy to use and to manage. His foresight helped transform the original Managed Security Service into a software solution for the corporate market, which he has followed with a series of modules to enhance various aspects of the system's functionality.

Previously, Bob was the lead designer and developer of Safetynet's award winning suite of data security products. Since 1992, he has worked closely with the NSA (National Security Agency) Rainbow Series and DoD (Department of Defense) Orange Book standards for C2 Security mandated by the US Federal government. Bob holds a BS in Computer Science from the New Jersey Institute of Technology, and an MBA in Marketing from Rutgers University (the State University of New Jersey).

Bob's visit represents a tremendous opportunity for Data-inCrypt® to introduce Bob to the local media and potential customers, as well as provide DataMotion with first-hand experience of the Australian marketplace.

The Company looks forward to keeping the market informed regarding the outcome of Bob's visit to Australia.

Yours faithfully

Ronald Moir
Managing Director
