ASX ANNOUNCEMENT
19 July 2010

New Issue Announcement

Finalisation of Convertible Note

Directors advise that the 23 December 2012 Convertible Note has been fully satisfied pursuant to the terms of the Note. Attached is the Appendix 5B.

Negotiations commenced in April with the Note Holder, Hudson Resources Limited (**Hudson**) to redeem the Note.

Payment of \$783,934, representing the Cash Component (including Interest) of the Note was paid in April with the Outstanding Sum now redeemed for 5,617,337 Shares.

Hudson has voluntarily entered into a Restriction Agreement, whereby the Shares will be restricted and held in escrow until 23 December 2011.

The Note's redemption at this time has saved the Company further interest accruing.

Australian Bauxite CEO, Ian Levy said: "I am pleased that the Company has been able to complete this transaction. It has simplified the Company arrangements, removed an overhang from the market and shares have been issued at a price in line with the market."

About Australian Bauxite Limited: ASX Code ABZ

Australian Bauxite Limited (ABx) holds the core of the newly discovered Eastern Australian Bauxite Province. Its 25 bauxite tenements in Queensland, NSW and Tasmania covering 6,600 km² were rigorously selected on 3 principles:

1. good quality bauxite;
2. proximity to infrastructure connected to export ports; and,
3. free of socio-environmental or native title land constraints.

All tenements are 100% owned and free of obligations for processing and third-party royalties. ABx has already discovered many bauxite deposits and new discoveries are still being made as knowledge and expertise grows.

The company's bauxite is high quality and can be processed into alumina at low temperature – the type that is in short-supply globally. At the company's first drilling prospect in Inverell, northern NSW, a maiden resource of 22 million tonnes has been reported from drilling less than 10% of the identified bauxite deposit. Australian Bauxite Limited aspires to identify bauxite resources in excess of 200 million tonnes in one of the world's best bauxite provinces.

ABx has the potential to create three state-significant bauxite processing projects in Queensland, New South Wales and Tasmania and also has several bauxite deposits that are favourably located for direct shipping of bauxite to export customers. The ABx discoveries of bauxite in Tasmania are yet to be evaluated by drilling but bauxite is confirmed to extend over relatively large areas.

Our business plan is to prove-up the largest tonnages of high quality bauxite resources of any comparable company and to market premium-priced bauxite products into the rapidly growing Asia-Pacific region (especially China) and the large eastern Australian aluminium industry.
