FOUR MILE URANIUM PROJECT JOINT VENTURE (Alliance 25%)

The Four Mile Uranium Project area is located 550 kilometres north of Adelaide in South Australia. Alliance's 100% owned subsidiary, Alliance Craton Explorer Pty Ltd (**ACE**) is the registered holder of 25% of EL3666. Quasar Resources Pty Ltd (**Quasar**) is the registered holder of the remaining 75% and is the manager of the Project.

Legal Proceedings

Details of the current legal actions initiated by ACE against Quasar, or Quasar and its affiliate, Heathgate Resources Pty Ltd (**Heathgate**) may be found on www.allianceresources.com.au under the subheading Latest Status Update.

In the matter relating to ACE's application in the Federal Court of Australia for access to books, records and agreements pertaining to the joint venture, the application was heard on 22-23 February 2010 and ACE is still awaiting judgment.

In the matter of ACE's application in the Supreme Court of South Australia to test its right to record joint venture management committee meetings, judgment was delivered on 27 August 2010. Sulan J found that the law did not prohibit ACE from taping joint venture meetings but that both the chairman's ruling and the resolution of the management committee that meetings not be recorded were valid.

In the matter of ACE's application in the Supreme Court of South Australia relating to the authority of Quasar to enter into a native title agreement binding on ACE, ACE has sought further detail of Quasar's and Heathgate's discovered documents for which privilege has been claimed so as to test that claim. A hearing is scheduled for 3 November 2010.

On 12 July 2010, ACE filed an application in the Federal Court of Australia (Melbourne) against Quasar and Heathgate seeking damages from Heathgate and damages and restitution of the 75% interest in the exploration licence over the Four Mile from Quasar. The next directions hearing, at which Quasar's application to transfer the proceedings to Adelaide will be heard, is set down for 19 November 2010.

Exploration & Development

As the issues surrounding the registration of a native title mining agreement are yet to be resolved, a mining lease has not been issued and work on the Project has been scaled down.

There were no exploration, well-field or engineering activities reported by Quasar in its Manager's monthly joint venture reports for July to September 2010.

Optimisation Study

Alliance previously announced, details of the final Scoping Study report prepared by Como Engineers Pty Ltd and Adelaide Control Engineering Pty Ltd in relation to the capital cost estimate for the design, procurement and construction of an In-Situ Recovery (**ISR**) and uranium processing facility, at the Four Mile Uranium Project, as well as estimating the ongoing operating costs of the facility to an order of accuracy of $\pm 30\%$ using all new equipment for:

- a. 3 million pound per annum (**MIbpa**) stand alone ISR plant including all associated infrastructure
- b. 5MIbpa stand alone ISR plant including all associated infrastructure
- c. 7MIbpa stand alone ISR plant including all associated infrastructure
- d. 3MIbpa satellite ISR (satellite) plant utilizing existing infrastructure at nearby Beverley Site
- e. 3MIbpa stand alone Resin in Pulp plant.

The Scoping Study cost estimates indicate to Alliance that Four Mile offers a significantly greater return if developed as a stand alone project with a production rate of approximately 5 million pounds per annum.

Alliance has since commissioned an optimization study for the design, capital and operating cost estimates for a 5 million pound per annum standalone plant at Four Mile to an order of accuracy of +/-25%.

Contributions to Development

Alliance paid an amount of \$167,404 towards the cost of development of the Four Mile project during the quarter (\$14.5 million project-to-date)¹.

MALDON GOLD PROJECT (Alliance Resources 100%)

The Maldon Gold Project is located 30 km southwest of Bendigo in central Victoria. The Union Hill decline and the processing plant remained on care and maintenance during the quarter.

Alliance is currently considering various options including an ASX listing, or divestment, of the Maldon assets.

CORPORATE

Alliance has cash reserves of \$37.2 million (unaudited) at 30 September 2010 and has 341,172,309 ordinary shares and 6,200,000 unlisted options on issue.

Further information relating to the Company and its various exploration projects can be found on the Company's website at www.allianceresources.com.au

Steve Johnston
Chief Executive Officer

¹ Alliance disputes the validity of the cash calls made by Quasar and, in making these payments, has reserved all of its rights. The payments are made to preserve Alliance's participatory rights in the Four Mile project.

Notes:

1. Includes

- a. cash calls for the Four Mile Project based on an updated programme and budget received from Quasar Resources Pty Ltd (Quasar), in May 2009 (which has not been presented to or approved by the joint venture management committee). Quasar is registered as the holder of 75% of EL3666 and manages the Project. In the period from 1 June 2010 to 30 September 2010 Alliance continued to make payments in order to preserve its participatory rights in the Four Mile Project. Alliance disputes the validity of the Programme and Budget and the cash calls made by Quasar based on that Programme and Budget (as scaled back pending the issue of a mining licence) and in making the payments has reserved all of its rights; and
- b. payments to contractors for maintaining the underground decline in Maldon while on care and maintenance.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedents, which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** the issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
