**ASX/NEWS RELEASE**

**28 January 2010**

**FRACTURE STIMULATION SUCCESSFULLY COMPLETED**

**Project:** Yellow Rose  
**Well:** Frances Dilworth No. 2H  
**Working Interest:** 75%  
**Location:** McMullen County, Texas  
**Operator:** San Isidro Development Company (25%)

Antares Energy is pleased to advise Halliburton has successfully completed fracture stimulation operations on the Frances Dilworth No. 2H.

**Aerial photograph of fracture stimulation operations at the Frances Dilworth No. 2H.**

The Frances Dilworth No. 2H is currently cleaning up and will reach a stabilized flow rate once fracture stimulation fluid production ceases. Halliburton pumped approximately 5 million gallons of fracture stimulation fluids and 2 million pounds of proppant to successfully fracture stimulate the well. Antares will announce the Initial Production rate at the conclusion of flow back operations.

Antares is pleased with the quality of fracture stimulation operations completed by Halliburton and has engaged Halliburton to provide fracture stimulation services for the remaining 9 wells to be completed as part of the 10 well 2010 drilling program.

**Three members of the board (Matt Gentry, James Cruickshank and Greg Shoemaker) onsite overseeing operations during the fracture stimulation of the Frances Dilworth No. 2H.**

**Matt Gentry**  
**Director & Chief Operating Officer**
