

ASX RELEASE

Date 09 June 2010

Release 0910-09

APPOINTMENT OF DIRECTOR AND COMPANY SECRETARY

The Directors of Bondi Mining Limited are pleased to announce the appointment of Mr Darren Morcombe as a non-executive Director of the Company.

Mr Morcombe has had a successful career, spanning two decades, in a variety of resource-related roles in Australia and overseas, commencing with a number of years in senior business development roles with Normandy Mining and Newmont Australia. He is the founder of Springtide Capital, which is a private investment company specialising in investments in micro cap listed companies, venture capital and resource orientated companies. He was Chairman and shareholder of a group which owned European Gold Refineries SA, 100% owners of Valcambi SA,, Europe's largest gold refinery, and AGR Matthey, the largest gold refinery in the world. He retired from this position in 2008 and these businesses are now owned by Newmont Mining Corporation.

Springtide Capital is a substantial shareholder of Bondi Mining Limited.

"We are very pleased to welcome Darren to the Board," said Simon O'Loughlin, Chairman of Bondi Mining Ltd. "Darren has had a successful career as both an investor and a senior executive in the resources business. As one of Bondi's major shareholders we look forward to his positive input at Board level in bringing his extensive experience in value-creating transactions to Bondi Mining for the benefit of all shareholders."

The Company would also like to advise the resignation of Pierre Van Der Merwe from the position of Company Secretary, and the appointment of Kerry Angel as Company Secretary and Chief Financial Officer, with effect from the 9th of June 2010.

A handwritten signature in black ink, appearing to read "Rick Valenta", with a long horizontal flourish extending to the right.

Dr Rick Valenta

Managing Director

About Bondi Mining Ltd

Bondi Mining Ltd is a Brisbane-based exploration company with a focus on high-grade cycle-proof uranium targets with world class size potential. Bondi's Australian uranium portfolio is currently focused on the Murphy project in the Northern Territory, and the company is currently undertaking generative programs aimed at augmenting its current portfolio, with a strong focus on resource-visible projects. The company also retains a significant land holding in the gold-prospective Georgetown region of Queensland.
