**BLACK RIDGE MINING WITHDRAWS FROM BENGKULU EXCLUSIVE DEALING
AGREEMENT**

The directors of Black Ridge Mining NL (**BRD**) advise that they have withdrawn by mutual consent, from the Exclusive Dealing Agreement with PT Inmas Abadi, for the coal concession in the Bengkulu district of Sumatra.

As reported in the March Quarterly, the legal issues with this agreement were far more challenging than the collection of geological data and ultimately, it was deemed inappropriate for the company to continue whilst these were being addressed by the relevant parties.

BRD continue to evaluate further opportunities in the coal and gold sectors in Indonesia and will report on any progress in due course.
