Breakaway Resources Limited is a Company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange.

The nature of the operation and principal activities of the group are described in note 4.

#### 2. SUMMARY OF ACCOUNTING POLICIES

#### 2.1 Basis of Preparation of Half-Year Financial Report

The half-year financial statements are a general purpose financial report prepared in accordance with the requirements of Corporations Act 2001 and, AASB 134. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 Interim Financial Reporting. The half-year financial report does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent annual financial report.

#### 2.2 Significant accounting policies

The half-year consolidated financial statements have been prepared using the same accounting policies as used in the annual financial statements for the year ended 30 June 2009.

#### 2.3 Basis of consolidation

The consolidated financial statements are prepared by combining the financial statements of all the entities that comprise the consolidated entity, being the Company (the parent entity) and its subsidiaries as defined in Accounting Standard AASB 127 'Consolidated and Separate Financial Statements'. Consistent accounting policies are employed in the preparation and presentation of the consolidated financial statements.

#### 2.4 New Accounting Standards and Interpretations

#### (a) Changes in Accounting Policies and Disclosures

The consolidated entity has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board that are relevant to their operations and are effective for the current financial reporting period.

Significant new and revised standards and interpretations effective for the current financial reporting period that are relevant to the consolidated entity are:

- AASB 3 Business Combinations
- AASB 8 Operating Segments
- AASB 101 Presentation of Financial Statements
- AASB 127 Consolidated and Separate Financial Statements

The adoption of AASB 3 and AASB 127 will change the accounting policy of the group for future acquisitions and changes in ownership interests. These standards are applied prospectively and had no material impact on prior combinations.

AASB 8 has replaced AASB 114 Segment Reporting upon its effective date. The Group concluded that the operating segments determined in accordance with AASB 8 are the same as the business segments previously identified under AASB 114. A narrative description has been made in the notes to the financial report.

The revised AASB 101 separates owner and non-owner changes in equity. As a consequence the statement of comprehensive income has been presented by the consolidated entity and related disclosures have been made in the half year financial report.

(b) Accounting Standards and Interpretations issued but not yet effective.

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet effective and have not been adopted by the consolidated entity for the half year ending 31 December 2009.
