IMPORTANT NOTICE

Shareholders should read this Prospectus in its entirety and, if in doubt, should consult their professional advisers before deciding whether to accept their Entitlements. This Prospectus is dated 3 September 2010. A copy of this Prospectus was lodged with the ASIC on 3 September 2010. No responsibility for the contents of this Prospectus is taken by ASIC. No applications for New Shares will be accepted nor will New Shares be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

In preparing this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act 2001 and that certain matters may reasonably be expected to be known to investors and professional advisers who investors may consult. No person is authorised to give any information or to make any representation in connection with the Rights Issue described in this Prospectus. Any information or representation which is not contained in this Prospectus or disclosed by the Company pursuant to its continuous disclosure obligations may not be relied upon as having been authorised by the Company in connection with the issue of this Prospectus.

This Prospectus does not constitute an offer or invitation in any place in which, or to any person to whom it would not be lawful to make such an offer or invitation. The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

The Offer to New Zealand investors are regulated offers made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and the Corporations Regulations 2001. In New Zealand, this is Part 5 of the Securities Act 1978 and the Securities (Mutual Recognition of Securities Offerings – Australia) Regulations 2008.

The Offer and the content of the Prospectus are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act sets out how the Offer must be made.

There are differences in how securities are regulated under Australian law.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian securities may differ from the rights, remedies, and compensation arrangements for New Zealand securities.

Both the Australian and New Zealand securities regulators have enforcement responsibilities in relation to the Offer. If you need to make a complaint about the Offer, please contact the Securities Commission, Wellington, New Zealand. The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian securities is not the same as for New Zealand securities.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The Offer may involve a currency exchange risk. The currency for the Shares is not New Zealand dollars. The value of the Shares will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant. If you expect the Shares to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

As noted in the Prospectus at Section 1.10, the Company will apply to the ASX for quotation of the New Shares offered under this Prospectus. If quotation is granted, the Shares offered under this Prospectus will be able to be traded on the ASX. If you wish to trade the Shares through that market, you will have to make arrangements for a participant in that market to sell the Shares on your behalf. As the ASX does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the securities and trading may differ from securities markets that operate in New Zealand.

Throughout this Prospectus, for ease of reading, various words and phrases have been defined rather than used in full on each occasion and are set out in Section 5 of this Prospectus.

Section 1 DETAILS OF THE RIGHTS ISSUE

1.1 **Rights Issue**

This Prospectus invites Eligible Shareholders to participate in a pro-rata renounceable Rights Issue of approximately 33,959,543 New Shares on the basis of 2 New Shares for every 3 Shares held on the Record Date at an issue price of 9 cents per New Share, to raise up to \$3,056,359. Fractional entitlements will be rounded up to the nearest whole number.

In setting the issue price for New Shares, the Directors noted the volume of trades in Shares has been very low, with a total of 78,550 Shares traded on market in the past 12 months. Accordingly, the Directors believe that the on-market trades are not currently a good indicator of the value of the Shares. However, there was a significant off-market trade of 10,066,134 Shares in February 2010 between unrelated parties. Taking this sale into account, the weighted average price of Shares over the past twelve months is 12 cents per Share.

The Rights Issue will raise up to \$3,056,359 (less expenses of the Rights Issue estimated to be \$70,000).

Managing Director Mr Joseph Wong is a shareholder in the Company and intends to partially participate in the Rights Issue to the extent of 13,088,888 New Shares (the full entitlement of Mr Wong and his associates is 14,451,685 New Shares). Executive Director Ms Helen Glastras is a shareholder in the Company and intends to partially participate in the Rights Issue to the extent of 1,750,000 New Shares (the full entitlement of Ms Glastras and her associates is 2,818,750 New Shares). Non-Executive Directors Messrs Michael Wright and Gregory Major are not shareholders in the Company and therefore not eligible to participate in the Rights Issue.

As at the date of this Prospectus, 50,939,315 Shares are on issue.

Existing holders of Options will not be entitled to participate in the Rights Issue. However, they may exercise their Options prior to the Record Date if they wish to participate in the Rights Issue. The Company currently has 655,000 unquoted Options on issue (each Option exercisable at 18 cents on or before 4 November 2013), of which 131,000 have vested and may be exercised by Optionholders. Accordingly, this Prospectus will also offer a further 65,500 New Shares to raise up to a further \$5,895 if all of the vested Options are exercised.

1.2 **Purpose of the Rights Issue and Use of Funds**

The funds raised will be applied towards the following:

- (a) funding the costs of the Rights Issue;
- (b) redemption of Redeemable Preference Shares;
- (c) partial repayment of loan commitments; and
- (d) working capital.

The application of the \$3,056,359 raised under the Rights Issue is summarised as follows:

Use of Funds	Amount (\$)
Expenses of the Rights Issue	70,000
Redemption of Redeemable Preference	1,178,000
Shares	
Partial repayment of loan commitments	350,000
Working Capital	1,458,359
TOTAL	3,056,359

As noted in section 1.14 the Company has agreed that in relation to applications for New Shares by the holder of the Redeemable Preference Shares and its associates it will redeem one Redeemable Preference Share for every \$1.00 paid by the holder or its associates for New Shares in the Rights Issue.. Mr Wong has indicated his and his associates intention to participate in the Rights Issue to the extent of 13,088,888 New Shares (the full entitlement of Mr Wong and his associates is 14,451,685 New Shares) as a separate obligation to his underwriting commitments. As such, the redemption of Redeemable Preference Shares will be funded by Mr Wong's participation as a Shareholder.

The Rights Issue is also partially underwritten up to a maximum of \$1,000,000 of any shortfall in the Rights Issue. All additional funds raised following the payment of expenses of the Rights Issue (including the payment of the underwriting fee), the redemption of the Redeemable Preference Shares and the partial repayment of loan commitments will be applied to working capital requirements of the Company.

Any additional funds raised from the participation of shareholders in the Rights Issue as a result of their exercising any of the 655,000 Options currently on issue will be applied firstly towards expenses of the Rights Issue and secondly towards the Company's working capital requirements.

1.3 **Rights Trading**

Entitlements to New Shares pursuant to the Rights Issue are renounceable. This enables shareholders who do not wish to subscribe for some or all of the New Shares under this Rights Issue to sell their respective Rights and also enables shareholders to purchase additional Rights if they wish.

Rights trading commences on ASX on 8 September 2010 and will cease trading on 27 September 2010.

1.4 **Opening and Closing Dates**

The Rights Issue will open for receipt of acceptances at 9.00am WST on 20 September 2010 and will close at 5.00pm WST on 5 October 2010, or such later date as the Directors, in their absolute discretion and subject to compliance with the Listing Rules, may determine and provided that the Company gives ASX notice of the change at least 6 Business Days prior to the Closing Date.

1.5 **Partial Underwriting**

The Rights Issue is partially underwritten to the extent of \$1 million by Mr Joseph Wong (refer to Section 4.9 for full details). Pursuant to the Underwriting Agreement, the Company will pay Mr Wong an underwriting commission equal to 3% of the underwritten amount. A summary of the material terms of the Underwriting Agreement, including rights of termination, are set out in Section 4.9.

Mr Wong has advised the Company that 65% of his underwriting commitment will be sub-underwritten by unrelated parties.

No brokerage or stamp duty will be payable by investors.

1.6 **Entitlements and Acceptance**

The number of New Shares to which you are entitled is shown in the accompanying Entitlement and Acceptance Form.

In determining entitlements, any fractional entitlement will be rounded up to the nearest whole number.

Acceptance of Entitlement in Full

If you are an Eligible Shareholder and wish to take up **all** of your Entitlement under the Rights Issue, please complete the Entitlement and Acceptance Form in accordance with the instructions set out on the reverse of that form.

Rights trading commences on 8 September 2010. You must deal with that part of your Entitlement which you do not intend to accept by close of trading on the ASX on 27 September 2010, when Rights trading ceases.

All applications for New Shares must be made on the Entitlement and Acceptance Form. 1.7 **Rights Issue Shortfall**

An application to participate in any Shortfall may be made by an Eligible Shareholder who is entitled to participate under the laws of all relevant jurisdictions which apply to them. The Directors (other than Mr Joseph Wong in his capacity as Underwriter) may not themselves participate in any Shortfall.

If you wish to participate in any Shortfall that may arise under the Rights Issue you should complete the necessary section on the Entitlement and Acceptance Form accompanying this Prospectus in accordance with the instructions set out thereon together with a separate cheque made payable to "*CCK Financial Solutions Ltd*" and crossed "Not Negotiable", to the Company's Share Registry at:

By Delivery:	By Post:
Computershare Investor Services Pty Ltd	Computershare Investor Services Pty Ltd
Level 2	Locked Bag 2508
45 St George's Terrace	PERTH WA 6001
PERTH WA 6000	

To the extent that Eligible Shareholders do not take up their Entitlement in full, the resultant Shortfall will be allocated at the discretion of the Directors in consultation with the Underwriter and in accordance with the provisions of the Underwriting Agreement. In the event that applications for the Shortfall cannot be filled in full or in part, application monies (without interest) will be refunded by the Company in accordance with the provisions of the Corporations Act. Neither the Company nor the Underwriter guarantees that you will receive any Shortfall Shares.

The Directors reserve the right to separately place any New Shares which are not taken up by Eligible Shareholders under the Rights Issue over and above the underwritten amount of \$1,000,000, within 3 months after the Closing Date. Those New Shares will be issued at the same issue price as offered to Eligible Shareholders under the Rights Issue and will be granted on the same basis as under the Rights Issue and will be a separate offer made pursuant to this Prospectus and will remain open for up to three (3) months following the Closing Date.

1.8 Withdrawal of Rights Issue

The Company, in consultation with the Underwriter, reserves the right not to proceed with the Rights Issue at any time before the issue of the New Shares to Eligible Shareholders. If the Rights Issue does not proceed, the Company will return all application monies as soon as practicable after giving notice of its withdrawal, without interest.

1.9 Issue and Allotment of New Shares

The New Shares are expected to be issued and allotted by no later than 13 October 2010. Until issue and allotment of the New Shares under this Prospectus, the acceptance money will be held in trust in a separate bank account opened and maintained for that purpose only. Any interest earned on the acceptance money will be for the benefit of the Company and will be retained by it irrespective of whether allotment of the New Shares takes place.

1.10 ASX Listing

The Company will make application to ASX within 7 days following the date of this Prospectus for official quotation of the New Shares to be offered pursuant to this Prospectus.

If approval is not granted by ASX within 3 months after the date of this Prospectus, the Company will not allot or issue any New Shares and will repay all application monies as soon as practicable, without interest.

A decision by ASX to grant official quotation of the New Shares is not to be taken in any way as an indication of ASX's view as to the merits of the Company, or the New Shares now offered for subscription.

1.11 No Issue of New Shares after 13 months

No New Shares will be allotted or issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

1.12 **Overseas Investors**

The Company is of the view that it is unreasonable to make an offer under this Prospectus to Eligible Shareholders outside of Australia and New Zealand having regard to:

- (a) the number of Eligible Shareholders registered outside of Australia and New Zealand;
- (b) the number and value of the securities to be offered to Eligible Shareholders registered outside of Australia and New Zealand; and
- (c) the cost of complying with the legal requirements and requirements of regulatory authorities in the overseas jurisdictions.

Accordingly, the Company is not required to make offers under the Prospectus to Eligible Shareholders registered outside of Australia and New Zealand.

In compliance with section 615 of the Corporations Act, the Company has appointed, Patersons Securities Limited ("**Nominee**") as nominee for foreign holders of the Company's securities in those countries outside of Australia and New Zealand. Approval is being sought from ASIC in relation to the Nominee's appointment.

The Company will transfer the Rights of the Excluded Shareholders to the Nominee who will account to the Company's share registry who will then dispatch the funds (if any) to each individual Excluded Shareholder. The Nominee will have the absolute and sole discretion to determine the timing and the price at which the Rights may be sold and the manner of any such sale. Neither the Company nor the Nominee will be subject to any liability for failure to sell the Rights or to sell them at a particular price.

If, in the reasonable opinion of the Nominee, there is not a viable market for the Rights or a surplus over the expenses of sale cannot be obtained for the Rights that would have been offered to the Excluded Shareholders, then the Rights will be allowed to lapse and they will form part of the Shortfall.

1.13 Market Prices of Shares on ASX

The highest and lowest closing market sale prices of Shares on ASX during the 3 months immediately preceding the date of this Prospectus and the respective dates of those sales were 10 cents on 23 May 2010 - 16 August 2010 and 8 cents on 17 August 2010 - 2 September 2010. During that period there had been only one trade of 6,500 shares on 17 August 2010. The latest available market sale price of Shares on ASX immediately before the date of issue of this Prospectus was 8 cents on 2 September 2010.

The volume of trades in Shares has been very small, with a total of 78,550 Shares traded on market in the past 12 months. Accordingly, the Company believes that the on-market trades are not currently a good indicator of the value of the Shares. However, there was a significant off-market trade of 10,066,134 Shares in February 2010 between unrelated parties. Taking this sale into account, the weighted average price of Shares over the past twelve months is 12 cents per Share.

1.14 **Redeemable Preference Shares**

The Company currently has on issue 1,178,000 Redeemable Preference Shares which are all held by Mr Joseph Wong and CM Wong as trustees of the JSM Wong Family Trust. Mr Joseph Wong is the managing director of the Company.

The Company has an unconditional right to redeem the Redeemable Preference Shares at any time after allotment of such shares by the payment of an amount equal to the issue price of \$1.00 per Redeemable Preference Share redeemed plus any accrued dividend (no dividends have accrued to date).

The holder may also require the Company to redeem its Redeemable Preference Shares on the terms noted above where it is entitled to participate in an issue of Shares by virtue of its holding of ordinary shares in the Company and only on the basis that one Redeemable Preference Share is redeemable for every \$1.00 payable by the holder or his associates for Shares in that particular issue. The holder of the Redeemable Preference Shares and its associates are entitled to subscribe for up to 14,451,685 Shares pursuant to this Rights Issue for a total amount of \$1,300,651 and has advised the Company of its intention that it and its associates will subscribe for 13,088,888 New Shares for a total amount of \$1,178,000 and require the Company to redeem 1,178,000 Redeemable Preference Shares. The Company has agreed that in relation to applications for New Shares by the holder of the Redeemable Preference Shares and its associates it will redeem one Redeemable Preference Share for every \$1.00 paid by the holder or its associates for Shares in the Rights Issue. This is a separate obligation to Mr Wong's obligations as Underwriter.

Accordingly, an amount equal to \$1,178,000 from the funds raised pursuant to this Prospectus will be used to redeem 1,178,000 Redeemable Preference Shares.

1.15 Privacy Act

The Company collects information about each application from an Application Form for the purposes of processing the application and, if the application is successful, to administer the applicant's security holding in the Company.

By submitting an Application Form, each applicant agrees that the Company may use the information in the Application Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the share registry, the Company's related bodies corporate, agents, contractors and third party service providers (including mailing houses), the ASX, the ASIC and other regulatory authorities.

If an applicant becomes a security holder of the Company, the Corporations Act requires the Company to include information about the security holder (name, address and details of the securities held) in its public register. This information must remain in the register even if that person ceases to be a security holder of the Company. Information contained in the Company's registers is also used to facilitate distribution payments and corporate communications (including the Company's financial results, annual reports and other information that the Company may wish to communicate to its security holders) and compliance by the Company with legal and regulatory requirements.

If you do not provide the information required on the Application Form, the Company may not be able to accept or process your application.

Section 2 EFFECT OF THE RIGHTS ISSUE ON THE COMPANY

2.1 **Principal Effects**

The principal effects of the Rights Issue are:

- (a) the Company's cash funds will increase by \$1,878,359. This increase is the net result of the issue of 33,959,543 New Shares (including New Shares applied for by Mr Wong and his associates in their capacity as Shareholders) at 9 cents per New Share offset by the cost of redeeming 1,178,000 Redeemable Preference Shares at \$1,178,000 and expenses of the Rights Issue, which are estimated to be approximately \$70,000; and
- (b) the total number of Shares on issue will be 84,898,858 (assuming no Options currently on issue are exercised). Assuming all Options currently vested and on issue are exercised, a further 65,500 New Shares will be offered pursuant to this Prospectus.

2.2 **Capital Structure**

The pro-forma capital structure of the Company following the Rights Issue assuming full subscription pursuant to this Prospectus is set out below:

Issued Capital	Number
Existing Shares	50,939,315
Maximum number of New Shares to be issued pursuant to this Prospectus (assuming no Options exercised)*	33,959,543
Shares after this Rights Issue	84,898,858

* Note: Assuming all vested Options currently on issue are exercised, a further 65,500 New Shares will be offered pursuant to this Prospectus.

The Company also has 1,178,000 redeemable preference shares on issue (refer Section 1.14). Following the redemption of these Redeemable Preference Shares referred to in Section 1.14 of this Prospectus, the Company will no longer have Redeemable Preference Shares on issue.

The Company currently has 655,000 unquoted Options on issue (each Option exercisable at 18 cents on or before 4 November 2013), of which 131,000 have vested and may be exercised by Option holders. Accordingly, this Prospectus will also offer a further 65,500 New Shares to raise up to a further \$5,895 if all of the vested Options are exercised.

2.3 Consolidated Balance Sheet

Set out as follows is an unaudited pro forma Consolidated Balance Sheet as at 30 June 2010 adjusted to reflect:

- the Rights Issue of 33,959,543 New Shares to raise \$3,056,359; and
- the cost of redeeming 1,178,000 Redeemable Preference Shares at \$1,178,000 and costs of the Rights Issue of \$70,000 (including underwriting fees of \$30,000).

Section 3 RISK FACTORS

3.1 Introduction

This Section identifies the areas the Directors regard as the major risks associated with participation in the Rights Issue. Investors should be aware that an investment in the Company involves many risks, which may be higher than the risks associated with an investment in other companies. Potential investors should read the whole of this Prospectus in order to fully appreciate such matters and the manner in which the Company intends to operate before any decision is made to apply for New Shares.

There are numerous widespread risks associated with investing in any form of business and with investing in the share market generally. There is also a range of specific risks associated with the Company's business. These risk factors are largely beyond the control of the Company and its Directors because of the nature of the business of the Company. The following summary, which is not exhaustive, represents some of the major risk factors which potential investors need to be aware of.

3.2 **Risk Factors**

Share Investment

The applicant should be aware that there are risks associated with any share investment. The prices at which the Company's Shares trade may be above or below the issue price for the Shares under this Prospectus. The trading price of the Shares is likely to be highly volatile and could be subject to wide fluctuations in response to factors such as actual or anticipated variations in the Company's operating result or new services by the Company or its competitors. The Shares allotted under this Prospectus carry no guarantee in respect of profitability, dividends, return of capital, or the price at which they may trade on the ASX.

Research and Development

Research and development of new technology involves long lead-times. Whilst CCK's software has been an offering in the market for many years, and clients are using the software in the course of their business, risks inherent in these activities include:

- uncertainty as to the outcome of CCK's research and development work;
- difficulties or delays in the enhancement of any of CCK's products; and
- general uncertainty related to the development of technology.

No assurance can be given that the products will be capable of being sold in commercial quantities or at acceptable prices or that any products, will achieve market acceptance. Delays may be experienced in completing enhancements to CCK's products and these may delay the products from entering particular new markets. This may adversely affect CCK's competitive position and financial value.

Dependence on Key Personnel

CCK is dependent on its key personnel who have developed and supported CCK's technologies over the years. There is a risk that CCK may fail to attract, retain or develop key employees and this would have an adverse effect upon the development of the Company.

Competition

Intense competition exists in the financial information technology industry, including competition related to:

- developing products for existing and new markets;
- obtaining and sustaining proprietary rights to technology; and
- marketing, selling and distributing those products.

The risk exists that one or more of the competitive products in development now or in the future will prove more acceptable than CCK's product. It is possible that a competitor may be in the market place sooner than CCK and establish itself as the preferred product.

Such competition and new technologies can have the effect of:

- rendering costly research and development obsolete;
- · decreasing the financial value of products or research projects; and
- reducing price and profit margins.

Dependence of Marketing Alliances

In some geographic markets, CCK utilises third parties to market its product. If CCK were unable to continue to do so, then CCK will need to make alternative arrangements for the marketing in those markets. This may lead to delays in sales in those markets.

Currency Risks

A portion of CCK's income and expenditure is denominated in foreign currencies. Moreover, it is CCK's belief that this portion will increase. To the extent that the Australian dollar strengthens or weakens against these foreign currencies, the portion of CCK's income and expenses which are denominated in foreign currencies will increase or decrease in value.

Risk of Product Liability

CCK's business exposes it to potential product liability risks which are inherent in the research and development of its products. CCK may also need to provide broad indemnities to customers who may consider using CCK's products. CCK will seek to obtain adequate product liability insurance whenever prudent. There can be no assurance that adequate or necessary insurance coverage will be available at an acceptable cost or in sufficient amounts, or that a product liability or other claim would not materially and adversely affect the business or financial condition of CCK.

Lengthy Sales Cycle

CCK's products are utilised to perform mission critical functions within the treasury areas of banks and large corporations. Accordingly, the purchase of such products may require approval at senior levels of the potential buyers' organisations. In addition, the purchase requires a significant amount of expenditure. Accordingly, from the Directors' experience, the sales cycle can range from three months to over a year, and is subject to a number of significant risks, including changes in the potential buyer's situation over which CCK has no control.

Potential Fluctuations in Operating Results

Individual licences of the Company's products can account for large dollar amounts relative to its other revenues. This means that the timing of one licence can cause substantial shifts of revenue and profits between accounting periods. In addition, the loss or delay of a single sale could have a material adverse effect on the Company's business, financial condition and results of operations, just as the achievement of an additional sale could have a significant positive effect on the Company's business.

Absence of Dividends

The ability of CCK to pay any dividend in the future is dependent on many factors including the outcome of its research and development and its ability to generate revenue from its products. The amount, timing and payment of any future dividend will depend on a range of factors including future capital and research and development requirements and the financial position generally of CCK at the time. The Directors are therefore unable to give any assurance regarding the payment of dividends in the future.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for New Shares in the Company.
