

Cluff Resources Pacific NL

ABN 72 002 261 565

30 April, 2010

The Manager (Companies),
Australian Stock Exchange,
Sydney, NSW, 2000.

Dear Sir,

POSITIVE INDICATOR MINERAL RESULTS, DOCTORS CREEK, BINGARA

Approximately 1,200 diamond indicator chromite grains, together with eight diamond indicator pyrope garnet grains, have been recovered from rocks which recently produced 183 diamonds. They occur in rubble overlying weathered pelletal claystone in the upper reaches of Doctors Creek. Fourty one similar grains were recorded in an overlying clay bed.

The garnets are interpreted as having travelled less than two kilometres, hence are clearly from a local source.

The diamond indicator minerals present are outlined below:

| Sample Number | Number of Indicator Minerals | Diamond Indicator Minerals Present | Sample Weight |
|---------------|------------------------------|------------------------------------|---------------|
| HVY 2/MCR45 | Approx. 1,200 | Chromite Group A, Chromite Group B | 26.2 Kg |
| | 8 | Pyrope Group 1-8 | |
| HVY 1/MCR45 | 41 | Chromite Group A, Chromite Group B | 22.7 Kg |

The diamond indicator mineral results reported are based on information provided by John Towie of Independent Diamond Laboratories Pty Ltd, Perth.

The information in this report that relates to exploration results is based on information compiled by Peter John Kennewell, who is a corporate member of the Australasian Institute of Mining and Metallurgy included in a list promulgated by the ASX from time to time. Peter John Kennewell is a full time employee of Cluff Resources Pacific NL and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a competent person as defined in the 2004 Edition of the "Australasian Code for Reporting of Exploration Results, Identified Mineral Resources, and Ore Reserves". Peter John Kennewell consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.
