New Banking Arrangements for Customers

Customers Limited (Customers) today announced that it had finalised new banking arrangements.

The new arrangements consist of facilities provided by National Australia Bank (NAB) and Westpac Banking Corporation (Westpac) and will run for a period of two years.

Given existing balance sheet strength and the appetite of the Company for sustained growth, the new arrangements also enable Customers to access additional funding from the two banks for the financing of potential corporate activity should it be required.

Customers Limited Managing Director, Tim Wildash, said the new facilities aptly reflect the transformation of the Company over the last 18-24 months.

"Pleasingly with a strong balance sheet backed by a platform of exciting growth initiatives, we have been able to negotiate borrowing facilities on significantly improved terms."

Mr Wildash added, "Importantly the new facilities provide the capacity and flexibility for Customers to take advantage of opportunities in the market as and when they arise."
