3RD DRILLING GRANT APPLICATION SUCCESSFUL

Dart Mining is pleased to announce to the ASX that it is again a recipient of a Rediscover Victoria Drilling grant from the Victorian Government Department of Primary Industries.

The grant amount is \$80,000 to assist in the drilling of its Unicorn molybdenum prospect in North East Victoria.

Dart has been successful in all three of the grants awarded to date. In this round the range of grants was from \$25,000 to \$80,000.

As previously advised Dart has undertaken geophysics and drilling at Unicorn in the past year. Yesterday Dart commenced a major \$100,000 geophysics investigation of the Unicorn prospect in order to accurately position the drill holes. Drilling at Unicorn is expected to commence in late February.
