

Eneabba Gas Limited

ABN 69 107 385 884

Media Release
24 March 2010

Eneabba becomes a Member of AMEC

Australian energy company Eneabba Gas Limited (ASX: ENB) (“EGL” or “the Company”) is pleased to announce that it is now a member of the Association of Mining and Exploration Companies Inc (“AMEC”) (as per attached Certificate of Membership).

AMEC is the pre-eminent *voice of the mineral exploration industry in Australia* with a full membership almost three times larger than its nearest national counterpart. AMEC members are represented at both the national and state level on matters pertaining to encouraging mineral exploration in Australia.

This new membership adds to the stable of the Company’s associations, including Chamber of Commerce and Industry Western Australia and Greenhouse Challenge Plus (see attached Certificates of Membership).

These associations support the Company’s commercial position as it continues to develop its Sargon Tenements in the Mid West as part of its strategic review to be the first commercial Underground Coal Gasification operation in Australia.

About Eneabba Gas Limited

Eneabba Gas is focused on the development of its 168MW gas-fired Centauri 1 Power Station on Company-owned land near Dongara in the Mid West of Western Australia. Eneabba Gas proposes to market power from Centauri 1 to the fast growing Mid West region of Western Australia.

The Company’s strategic position is to convert the coal in its highly prospective tenement package in the Mid West Region of Western Australia into UCG Syngas for fuel. While UCG is the gasification of burning coal underground, it is the Company’s intention to capture the resultant CO₂ (geo-sequestration), which may potentially be injected into an existing geological formation. This process will significantly reduce the total carbon footprint of the project, farming of land will remain relatively uninterrupted and water resources will be preserved. In other words, energy in the coal is extracted without the environmental impacts associated with traditional coal-mining.

MEMBERSHIP CERTIFICATE

THIS IS TO CERTIFY THAT

Eneabba Gas Limited

IS A MEMBER OF

THE ASSOCIATION OF MINING
AND EXPLORATION COMPANIES INC.
