Dear Shareholder,

Quarterly Report

Please find enclosed a copy of the 30 September 2010 Quarterly Report of Global Mining Investments Limited (GMI).

This edition of the Quarterly Report discusses GMI's copper holdings and provides an update on our current allocation to different underlying metals and minerals.

Investment Manager Presentation

We were pleased to host Evy Hambro and Catherine Raw from GMI's London based Investment Manager, BlackRock Investment Management (UK), on their recent visit to Australia. We believe that BlackRock's Natural Resources team is an outstanding Investment Manager, exclusively focussed on a sector with tremendous prospects.

Whilst in Australia, the Investment Managers presented to press and several investment advisors. This provided an insight into their views on a number of resources in general, and then drilled down into GMI's specific portfolio of investments.

We have arranged for the presentation to be made available on the GMI website so that shareholders have the opportunity to access the presentation. The slides and audio commentary of the presentation can be accessed by shareholders at our website www.globalmining.com.au.

Email Communications

Shareholder communications can also be received via email which will enable you to receive information about GMI more quickly. If you would like to receive some or all of your shareholder communications via email please complete the enclosed form.

Further Information

For further information please contact GMI on 03 9235 1700 or via email info@globalmining.com.au or visit our website www.globalmining.com.au.

Yours faithfully

Liesl Petterd
Company Secretary
