## April 2010 NTA and Monthly Investment Update

<b>As at 30 April 2010</b>	<b>NTA Before Tax</b> <b>\$1.43</b>	<b>NTA After Tax</b> <b>\$1.39</b>
As at 31 March 2010	\$1.47	\$1.41
As at 28 February 2010	\$1.35	\$1.34

Net Tangible Assets (NTA) figures are prepared in accordance with AIFRS and are unaudited.

The NTA before tax is the NTA before providing for deferred tax on the unrealised gains and losses on the investment portfolio. The NTA before tax does however include an estimate of any tax payable for the current year. The NTA before tax as at 30 April 2010 was **\$1.43**.

Global Mining Investments Limited (GMI) is a long-term investor in global metal and mining stocks. The Company is required under accounting standards however to provide for tax on all unrealised gains and losses, after the utilisation of any brought forward losses, that would arise on a theoretical disposal of the total portfolio as at each reporting date. As at 30 April 2010, the NTA after providing for tax on unrealised gains was **\$1.39**.

As at 30 April 2010 the portfolio had gearing of 6.0%.

The Australian Government recently announced a proposed resources tax. Whilst some of GMI's holdings will be impacted by the tax, the diverse geographic nature of GMI's portfolio means that the majority of the mines that GMI is exposed to are not affected.
