Preliminary Final Report

NOTE 13: EVENTS SUBSEQUENT TO REPORTING DATE

On the 17 August the Company acquired a new complementary business opportunity in the bioscience industry. This acquisition fits with the Board's strategic objectives of looking to acquire new assets that may add to the Company's existing business model.

Intramedics Pty Ltd (Intramedics) is an Australian company developing Hyper-HA, a bioscience project involved in the development of a biologically stable form of Hyaluronic Acid ("HA"). HA is a key ingredient used in cosmetics, plastic surgery, therapeutic drugs, advanced wound care and drug delivery markets. There appears to be significant opportunities to commercialise this technology across a diverse range of markets.

Consideration for the acquisition of Intramedics is 6 million fully paid ordinary shares in the Company, which will bring the capital of the Company to 94,778,045 shares. Issue of this share consideration will require approval by shareholders at the Company's next general meeting.

There have been no other subsequent events that would have a material impact on the financial report for the period ended 30 June 2010.
