CHAIRMAN'S LETTER

29 July 2010

Dear Shareholder

On behalf of the Board of Kentor Gold Ltd (“**KGL**”), I am pleased to invite you to participate in this Rights Issue that would allow you to subscribe for new additional Shares in your company.

KGL is seeking to raise approximately \$8.32 million through the Rights Issue. In addition, KGL has also completed a Placement that raised approximately \$4.23 million. The holders of Placement Shares will be entitled to participate in the Rights Issue. Details of the Placement are described further in Section 1.2 of this Offer Document.

In accordance with the terms of this Offer Document, Eligible Shareholders will have the opportunity to subscribe for 2 New Shares for every 7 Shares held at 7.00 pm on 9 August 2010. The Issue Price of the New Shares will be \$0.065 per New Share. The Issue Price represents a 31.6% discount to the closing market price of Shares on the ASX on 26 July 2010, the last day of trading on ASX before KGL announced that it would conduct the Rights Issue. New Shares will rank equally from allotment with Existing Shares in all respects.

Importantly, Eligible Shareholders will also be able to apply for Shares in excess of their entitlement through the Top-Up Offer. There is no guarantee of the number of Shares (if any) that will be available for Eligible Shareholders to take up in addition to their entitlement under the Rights Issue. The Directors reserve the right to satisfy any shortfall by way of the Top-Up Offer or by other means and reserve the right to satisfy applications in the Top-Up Offer at their sole discretion.

The Rights Issue closes at 5.00 pm on 26 August 2010. Further information on how to take up your Entitlement and how to apply for additional New Shares in the Top-Up Offer is provided in this Offer Document.

The proceeds of the Rights Issue and Placement will be primarily used to continue with development activities at the Andash Gold-Copper Project which includes detailed engineering design work, procurement activities, site works and the construction of the on-site camp and access roads.

As at the date of this Offer Document, Shareholders equating to 36% of the issued share capital of KGL have committed to take up their entitlements. In addition to this, a number of Shareholders and other investors have committed to subscribe for up to 64.6 million shares of any shortfall that arises under the Rights Issue. The Directors are very pleased by this support and consider that these undertakings, cumulatively totalling \$7.2 million, validate the attractiveness of the Andash Copper Gold Project and provide funding certainty for KGL.

Despite the recent political and social upheavals in the Kyrgyz Republic negatively affecting the timing of KGL's proposed project financing of the Andash Copper-Gold Project, none of the financial institutions with whom we have been discussing the project financing have withdrawn their interest. The Company is anticipating mandating a financial institution to provide the project financing for the Andash Copper-Gold Project in the September quarter of 2010.

The current development timetable for the Andash Copper-Gold Project is:

- Commence site development: September quarter 2010
- Commence mining: June quarter 2011
- Commissioning: March quarter 2012

On 27 June 2010, the Kyrgyz Republic held a referendum and adopted a new constitution pursuant to which the powers of the President were reduced. In addition, Ms Roza Otunbayeva was ratified as the President of the Kyrgyz Republic to ensure stability and continuity ahead of new Presidential elections to be held in November 2011.

KGL is closely monitoring the political situation in the Kyrgyz Republic and remains confident that the government led by Ms Roza Otunbayeva will stabilise the situation and that the parliamentary elections scheduled for early October 2010 will bring further stability to the country.

Before making an investment decision, you should consider the risks that affect KGL specifically and the general risks associated with the mining and exploration industry in which it operates. Further details of the risks affecting the Company are set out in Section 3.1 of this Offer Document.

With the exception of Hugh McKinnon, all the Directors of KGL intend to take up their full Entitlement under the Rights Issue. Hugh McKinnon intends to take up half of his Entitlement under the Rights Issue.

If you have any questions in respect of the Offer, please call the KGL Shareholder Information Line on 1300 551 472 (toll free from within Australia) or +61 2 8280 7706 (from outside Australia) or consult your stockbroker, accountant, solicitor, tax adviser or other professional adviser.

Whilst the Directors cannot guarantee the future performance of the Shares, I commend the Rights Issue to you and thank you for your continuing support.

Yours Sincerely,

A handwritten signature in cursive script, appearing to read "John Barr".

WH John Barr AM, MAICD
Chairman

1. DETAILS OF THE RIGHTS ISSUE

1.1 Introduction

The Rights Issue is a non-renounceable pro-rata offer to Eligible Shareholders to acquire 2 New Shares for every 7 Shares held as at the Record Date of 7.00 pm on 9 August 2010 at an issue price of \$0.065 per New Share. Eligible Shareholders may also apply for additional shares under the Top-Up Offer.

The Rights Issue is non-renounceable. This means that Shareholders who do not take up their Entitlements by the Closing Date of 5.00 pm on 26 August 2010 will not receive any payment or value for those Entitlements, and their proportionate equity interest in KGL will be diluted.

New Shares issued pursuant to the Rights Issue will be fully paid and will rank equally with existing Shares.

1.2 Placement

The Company has also undertaken a Placement of 54,951,722 Shares to sophisticated and professional investors to raise a further \$4.23 million at \$0.077 per Share. The holders of the Placement Shares will be entitled to participate in the Rights Issue. It is intended that the Company will rely on section 708A(5) and comply with 708A(6) of the Corporations Act so that the recipients of the Placement Shares will be able to on-sell the Placement Shares without a disclosure document.

1.3 Use of Proceeds

In combination with the funds raised from the Placement, capital raised under the Rights Issue will be used by the Company to fund:

- (a) development activities at the Andash Copper-Gold Project which include detailed engineering design work, procurement activities, site works and the construction of the on-site camp and access roads;
- (b) working capital requirements; and
- (c) any costs and expenses associated with this Rights Issue and the Placement.

The Rights Issue is not underwritten and therefore there is no guarantee that all the projected proceeds of the Rights Issue will be raised. However, as at the date of this Offer Document, the Company has undertakings from existing and new shareholders to subscribe for up to \$7.2 million under the Rights Issue by way taking up their Rights Issue Entitlements and commitments to subscribe for any shortfalls under the Top - Up Offer.

The Company currently has approximately \$5.3 million in cash at bank as at the date of this Offer Document and has raised net proceeds of approximately \$4.23 million under the Placement. Should the Company receive less than the full subscription amount under the Rights Issue (and any placement of shortfall), the Company's proposed allocation of expenditure to working capital shall be reduced proportionately by the amount of the shortfall.

Shareholders should note that should there be a substantial shortfall under the Rights Issue, the Company will be required in the short term to reduce its proposed expenditure on development activities at the Andash Gold Copper Project. This expenditure will then need to be funded by either debt or equity at a future date.

1.4 Effect of Placement and Rights Issue on KGL

The effect of the Placement and Rights Issue on the capital structure of KGL will be as follows:

Shares	Number
Number of Shares on issue as at 26 July 2010, the day immediately prior to announcement of the Placement and the Rights Issue	393,011,481
Number of Placement Shares to be issued	54,951,722
Maximum number of New Shares to be issued under the Rights Issue	127,989,487
Maximum number of Shares on issue following the Placement and the Rights Issue	575,952,690

1.5 Eligible Shareholders

Eligible Shareholders are those holders of Shares who:

- (b) have a registered address in Australia or New Zealand;
- (c) are not in the United States and are not acting for the account or benefit of, any U.S. Person; and
- (d) are eligible under all applicable securities laws to receive an offer under the Rights Issue.

- (b) do nothing, in which case all of your Entitlement will lapse and you will receive no value or payment for your Entitlement.

Eligible Shareholders may also apply for New Shares under the Top-Up Offer.

As further explained in paragraphs 1.12 and 1.13, the Rights Issue is not being extended to any Shareholder with a registered address outside Australia and New Zealand.

1.6 Commencement of the Rights Issue

The Rights Issue opens on 12 August 2010 and is expected to close at 5.00 pm on 26 August 2010. Eligible Shareholders wishing to acquire New Shares under the Rights Issue will need to complete the Entitlement and Acceptance Form which is expected to be mailed to Eligible Shareholders by 12 August 2010.

1.7 Applications

Detailed information on how to apply for New Shares is set out in Section 2 of this Offer Document. Applicants are encouraged to submit their Entitlement and Acceptance Forms, and pay the requisite Application Monies due as soon as possible after the Opening Date.

No allotment or issue of New Shares will be made under this Offer Document until the proceeds of the Rights Issue have been received by KGL and permission has been granted for official quotation of the New Shares on ASX. KGL has applied to ASX for quotation of the New Shares.

1.8 **Rights Issue not Underwritten**

The Rights Issue is not underwritten. In the event of a shortfall, the Directors reserve the right to place any shortfall at their sole discretion, within 2 months of the Closing Date. In placing any shortfall, the Directors will take into account the application made under the Top - Up Offer as well as any priority shortfall commitments. Any decisions on how to allocate the shortfall will be at the sole discretion of the Directors.

1.9 **Top-Up Offer**

Eligible Shareholders are also able to participate in a further discretionary offer of New Shares, being the New Shares that have been initially offered to Eligible Shareholders under the Rights Issue ("**Top-Up Offer**"). Listing Rule 7.11.4 and Section 708AA(13)(a) of the Corporations Act (as inserted by ASIC Class Order 08/35) permit KGL to make an additional offer of New Shares that may be comprised in any shortfall. It is a condition of the Top-Up Offer that the New Shares being offered may only be issued to a successful applicant where an offer of the New Shares has first been made to, but not accepted by, another Eligible Shareholder under the Rights Issue. New Shares which might otherwise have been offered to persons outside Australia and New Zealand are not included in the Top-Up Offer. In addition:

- (a) the Top-Up Offer is only made to Eligible Shareholders;
- (b) there is no guarantee that any application in the Top-Up Offer will be successful and the Directors reserve the right to issue any shortfall by way of the Top-Up Offer or by other means and reserve the right to satisfy applications in the Top-Up Offer at their sole discretion;
- (c) the Top-Up Offer has the same Closing Date;
- (d) the issue price of New Shares under the Top-Up Offer is the Issue Price; and
- (e) KGL will not issue New Shares under the Top-Up Offer where to do so would result in a breach of the Corporations Act or the Listing Rules.

Eligible Shareholders who are unsuccessful in the Top-Up Offer or whose application is only part accepted will have their excess Application Monies returned as soon as practicable after the Closing Date.

1.10 **Offer Management Agreement**

Under the Offer Management Agreement, subject to certain conditions precedent, the Joint Lead Managers have agreed to place the Placement Shares and any shortfall shares under the Top - Up Offer. In respect of the Placement, the Company has agreed to pay the Joint Lead Managers a capital raising fee of 5% (plus GST) of the proceeds raised under the Placement. In respect of the Rights Issue, the Company has agreed to pay the Joint Lead Managers 5% of the proceeds raised under the Rights Issue. In addition, as set out in paragraph 1.17, the Company has agreed to pay a stamping fee of 1.5% (plus GST) in respect of the value of successful applications pursuant to an Entitlement and Acceptance Form application or BPAY application.

Customary and usual warranties and representations are given by the Company in relation to matters such as the power to enter into the Offer Management Agreement, corporate authority and approvals, compliance with constituent documents, the Corporations Act and the Listing Rules, that this Offer Document does not contain any material statement that is misleading or deceptive and that there is no material omission from this Offer Document. In addition, further warranties and representations are given that the Placement Shares and the Rights Issue shares will rank equally with the Shares and that they will be freely tradeable.

Subject to certain exclusions relating to breaches of the Joint Lead Managers of their principal obligations under the Offer Management Agreement, wilful default, gross negligence or breaches of the law of the Offer Management Agreement, the Company agrees to indemnify the Joint Lead Managers and other members of their respective groups arising as a result of certain circumstances in connection with the Placement or the Rights Issue.

The Joint Lead Managers may terminate the Offer Management Agreement by notice in writing to the Company on the occurrence of a number of customary termination events. These include a breach of a representation or warranty that in the reasonable opinion of the Joint Lead Managers has a material adverse impact on either the prospects of the Company or the price of its Shares, either the ASX's 'Small Resources Index' or the 'All Ordinaries Index' falls to a level that is 10% or more below that as at the date of the Offer Management Agreement or that there is, in the reasonable opinion of the Joint Lead Managers, any material adverse change or any act, omission or thing that could reasonably be expected to result in a material adverse change in the financial position or prospects of the Company or the likelihood of investors to subscribe for the Placement Shares or the shortfall shares under the Top - Up Offer.

1.11 **Shareholder enquiries**

Eligible Shareholders who have questions regarding the Rights Issue should call the KGL Shareholder Information Line on 1300 551 472 (calls within Australia) or +61 2 8280 7706 (from outside Australia) at any time from 8.30 am to 5.30 pm Monday to Friday. Additional information about the Company is available at the Company's website at www.kentorgold.com.au.

This Offer Document is not financial product advice and has been prepared without taking into account your investment objectives, financial circumstances or particular needs. If you have any queries as to whether participation in the Rights Issue is appropriate having regard to your particular circumstances or any queries on the specific consequences for you of any such participation, you should contact your stockbroker, accountant or other professional adviser.

1.12 **Overseas Shareholders**

The Offer is being made to Eligible Shareholders with a registered address in Australia or New Zealand only.

In accordance with the Listing Rules and the Corporations Act, KGL has decided that it would be unreasonable to extend the Rights Issue to Shareholders with a registered address in a place outside Australia or New Zealand, having regard to:

- (a) the number of Shareholders with a registered address in those countries;
- (b) the number and value of New Shares that would be offered under the Rights Issue to Shareholders with a registered address in those countries; and
- (c) costs of complying with legal and other regulatory requirements in those countries.

This Offer Document and the Entitlement and Acceptance Form do not constitute an offer, or an invitation to subscribe for New Shares in any place in which it would not be lawful to make such an offer or invitation. Where this Offer Document has been dispatched to Shareholders with a registered address outside Australia and New Zealand and where the relevant jurisdictions laws prohibit or restrict in any way the making of the Offer, this Offer Document is provided for information purposes only.

The return of a duly completed Entitlement and Acceptance Form with the requisite Application Monies, or making a payment of Application Monies by BPAY, will constitute a representation and a warranty by the applicant that there has been no breach of any such laws.

1.13 What is the position with nominees?

The Rights Issue is being made to all Eligible Shareholders. KGL is not required to determine whether or not any Eligible Shareholder is acting as a nominee or the identity or residence of any beneficial owners of Shares.

Where any registered holder that qualifies as an Eligible Shareholder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Rights Issue is compatible with applicable foreign laws.

Any person in the United States or any person that is, or is acting for the account or benefit of a U.S. Person with a holding through a nominee may not participate in the Rights Issue and the nominee must not take up any Entitlement or send any materials into the United States or to any person that is, or is acting for the account or benefit of, a U.S. Person.

KGL is not able to advise on foreign securities laws.

1.14 Warranties made on acceptance of the Rights Issue

By completing and returning your personalised Entitlement and Acceptance Form with the requisite Application Monies, or making a payment of Application Monies via BPAY, you will be deemed to have acknowledged, represented and warranted that you are an Eligible Shareholder.

By completing and returning your personalised Entitlement and Acceptance Form or making a payment by BPAY, you will also be deemed to have acknowledged, represented and warranted on behalf of each person on whose account you are acting that:

- (a) you and each person on whose account you are acting are not in the United States and are neither a U.S. Person nor acting for the account or benefit of a U.S. Person, and are not otherwise a person to whom it would be illegal to make an offer or issue of New Shares under the Rights Issue;
- (b) you and each person on whose account you are acting acknowledge that the Entitlements and New Shares have not been and will not be registered under the Securities Act or the securities laws of any state or other jurisdiction outside Australia or New Zealand and accordingly, the New Shares may not be offered, sold or otherwise transferred except in accordance with an available exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and any other applicable securities laws; and

- (c) you and each person on whose account you are acting have not and will not send any materials relating to the Rights Issue to any person in the United States or that is, or is acting for the account or benefit of, a U.S. Person.

1.15 Refunds

Any Application Monies received from Eligible Shareholders for more than their Entitlement of New Shares or from Ineligible Shareholders will be refunded as soon as practicable after the Closing Date. No interest will be paid to applicants on any Application Monies received or refunded.

1.16 Option holders

Existing KGL option holders will not be entitled to participate in the Rights Issue unless they:

- (a) have become entitled to exercise their existing options under the terms of their issue and are issued Shares on such exercise prior to the Record Date; and
- (b) are eligible to participate in the Rights Issue as a result of being a holder of Shares on the Record Date and otherwise satisfying the eligibility requirements set out in paragraph 1.5.

1.17 Stamping Fee

A stamping fee of 1.5% (plus GST) of the value of successful applications pursuant to an Entitlement and Acceptance Form application or BPAY application will be payable by the Company, subject to the following conditions:

- (a) the stamping fee will be limited to \$300 in respect of any one Entitlement and Acceptance Form;
- (b) where an Eligible Shareholder lodges more than one Entitlement and Acceptance Form, the fee is only payable on one Entitlement and Acceptance Form;
- (c) if an individual is applying on behalf of more than one beneficial holder, a list of beneficial holders must be provided in order to receive up to the maximum amount of \$300 per beneficial holder;
- (d) stamping fees will only be paid to participating organisations of the ASX (being those entities recognised as full service brokers or non-advisory brokers by the ASX); and
- (e) stamping fees will only be paid on applications where a stamping fee claim form and schedule is submitted to the Registry no later than 5.00pm AEST on 26 August 2010. The stamping fee claim form and schedule (including details of how to submit this form) is available from the Registry at the address or telephone number listed in the corporate directory.

2. HOW TO APPLY

2.1 Your Entitlement

Under the Rights Issue, Eligible Shareholders are being offered the opportunity to subscribe for 2 New Shares for every 7 Shares held at 7.00 pm on the Record Date, 9 August 2010, at the offer price of \$0.065 per New Share.

Your Entitlement is set out on the accompanying Entitlement and Acceptance Form and has been calculated as 2 New Shares for every 7 Shares held at 7.00 pm on the Record Date. Eligible Shareholders may also apply for additional Shares through the Top-Up Offer.

Fractional Entitlements of 0.5 or greater will be rounded up to the nearest whole number of New Shares. Fractional Entitlements of less than 0.5 will be disregarded. KGL reserves the right to disregard any transfers of Shares undertaken prior to the Record Date which KGL reasonably considers has been undertaken to take advantage of the rounding up of fractional Entitlements of 0.5 or greater.

The Entitlement and Acceptance Form also contains instructions for participation in the Top-Up Offer.

If you have more than one holding of Shares, you will be sent more than one Entitlement and Acceptance Form and you will have separate Entitlements for each separate holding, New Shares issued under the Rights Issue will be fully paid and rank equally with existing Shares.

Please note that the Entitlement stated on your personalised Entitlement and Acceptance Form may be in excess of the actual Entitlement you may be permitted to take up where you are holding Shares on behalf of a person who is not an Eligible Shareholder.

2.2 Your Application

If you decide to take up all or part of your Entitlement, please complete and return the Entitlement and Acceptance Form with the requisite Application Monies or pay your Application Monies via BPAY by following the instructions set out on the Entitlement and Acceptance Form. KGL will treat you as applying for as many New Shares as your payment will pay for in full, but no more than your Entitlement.

If you are paying by BPAY, please make sure to use the specific "Biller Code" and unique Customer Reference Number ("**CRN**") on your personalised Entitlement and Acceptance Form. If you receive more than one Entitlement and Acceptance Form, please only use the CRN specific to the Entitlement on that Form.

If you take no action you will not be allocated any New Shares and your Entitlement will lapse. Your Entitlement to participate in the Rights Issue is non-renounceable and will not be tradeable or otherwise transferable. Eligible Shareholders who do not take up their Entitlements in full will not receive any payment or value for those Entitlements they do not take up.

If you take up and pay for all or part of your Entitlement before the Closing Date of 5.00 pm on 26 August 2010, you will be allotted your New Shares on 1 September 2010.

KGL reserves the right (in its absolute discretion) to reduce the number of New Shares allocated to Eligible Shareholders, or persons claiming to be Eligible Shareholders, if their claims prove to be overstated or if they or their nominee fails to provide information to substantiate their claims.

The Entitlement and Acceptance Form also contains instructions for payment arrangements for the Top-Up Offer.

2.3 Acceptance of the Rights Issue

The method of acceptance of the Rights Issue will depend on your method of payment, being either:

- (a) by BPAY; or
- (b) by cheque, bank draft or money order.

Payment by BPAY

You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment, and you should therefore take this into consideration when making payment.

Any Application Monies received for more than your final allocation of New Shares will be refunded to you. No interest will be paid on any Application Monies received or refunded.

Payment by cheque, bank draft or money order

2.7 **No cooling off period**

2.8 **Investment decision**

The Rights Issue is being made under provisions of the Corporations Act which allow rights issues to be made without preparing a prospectus lodged with ASIC. As a result, it is important for Eligible Shareholders to read and understand the information on KGL and the Rights Issue made publicly available, prior to accepting all or part of their Entitlement. In particular, you should read this Offer Document, KGL's annual reports, ASX announcements, and other announcements made available on the Company's website at www.kentorgold.com.au.

This Offer Document is not financial product advice and has been prepared without taking into account your investment objectives, financial circumstances or particular needs. KGL is not licensed to provide financial product advice in respect of the New Shares. This Offer Document does not purport to contain all the information that you may require to evaluate a possible application for New Shares.

3. ADDITIONAL INFORMATION

3.1 Risks

The historic share price performance of the Shares provides no guidance as to the Company's future share price, performance.

There are a number of risks, both specific to KGL and general investment risks, which may materially and adversely affect the future performance of KGL and the value of its Shares.

KGL has taken steps to put in place safeguards and appropriate systems and actions to mitigate risks but it cannot guarantee that these safeguards and systems will be effective.

Some risks are outside the control of KGL and its Directors and cannot be mitigated. This section describes a number of risks associated with an investment in New Shares. Shareholders should note that this list of risks is not exhaustive as it is not possible to identify all risks.

None of the Directors, KGL or any person associated with KGL guarantees the performance of KGL, the performance of New Shares offered under the Rights Issue, the payment of dividends or the market price at which the New Shares and Shares will trade.

Shareholders should have regard to their own investment objectives and financial circumstances, and should consider seeking professional guidance from their accountant, financial adviser, stockbroker, lawyer or other professional adviser before deciding whether to invest.

Prior to making a decision in respect of taking up Entitlements, you should read this Offer Document in its entirety and any other information provided to you by KGL carefully and consider the following risk factors.

It should be noted that the risks set out below are risks to which you are already exposed in relation to your existing shareholding in KGL.

General risk factors

Shareholders should be aware that there are risks associated with any investment listed on ASX. The value of New Shares may rise above or fall below the Issue Price, depending on the financial condition and operating performance of KGL. Further, the price at which Shares trade on ASX may be affected by a number of factors unrelated to the financial and operating performance of KGL and over which KGL and its Directors have no control. These external factors include:

- (a) economic conditions and business climate in Australia and overseas, in particular, the Kyrgyz Republic;
- (b) stock market fluctuations;
- (c) liquidity of Shares and the lack of an active market for Shares;
- (d) dilution of shareholding due to future capital raisings;
- (e) changes in fiscal, monetary, regulatory and other government policies;
- (f) geo-political conditions such as acts or threats of terrorism or military conflicts;

- (g) sovereign risk issues; and
- (h) any future changes to tax laws or accounting standards.

Company specific risk factors

Investors should also be aware that there are certain risk factors that are specific to KGL and AMC (being the Company that holds the relevant licences in respect of the Andash Gold Copper Project and the entity that KGL currently holds an 80% participation interest in) and the gold exploration and development activities conducted by it. Some of these company specific risk factors include:

(i) Country risks

AMC and the Andash Gold Copper Project are located in the Kyrgyz Republic. The Kyrgyz Republic is a less developed country with associated political, economic, legal and social risks. In particular, the Kyrgyz Republic has experienced varying degrees of political and social difficulties during recent times. In April 2010, nation wide protests led to the resignation and expulsion of the former President Kurmanbek Bakiev. He was replaced by President Roza Otunbayeva ("**Ms Otunbayeva**"), who has since called for new parliamentary elections to take place in early October 2010.

More recently during June 2010, the Kyrgyz Republic has been the subject of inter-ethnic unrest in the south of the country - the events of which have been widely reported throughout global media agencies. Despite such events, the referendum scheduled to take place on 27 June 2010 went ahead and on that day, the Kyrgyz Republic adopted a new constitution pursuant to which the powers of the President were reduced. Additionally, the appointment of Ms Otunbayeva as president was ratified and Ms Otunbayeva will hold office for a limited term until 31 December 2011 to ensure stability and continuity ahead of new Presidential elections scheduled to be announced during November 2011. KGL's gold exploration and development activities are affected in varying degrees by political stability and government regulations relating to foreign investment, social unrest, corporate activity and mining businesses. Operations may also be affected in varying degrees by terrorism, military conflict or repression, crime, extreme fluctuations in currency rates and high inflation and sovereign risk in Central Asia and the former Soviet Union.

The government of the Kyrgyz Republic has entered into contracts with AMC or granted permits, licenses or concessions that enable it to conduct exploration or development activities. Notwithstanding these arrangements, the ability of KGL to conduct its activities is subject to AMC obtaining and/or renewing permits or concessions, changes in laws or government regulations or shifts in political attitudes beyond the control of AMC and KGL.

There can be no guarantee that government regulations relating to foreign investment, repatriation of foreign currency, taxation and the mining industry in the Kyrgyz Republic will not be amended or replaced in the future to the detriment of the Andash Gold Copper Project and the business conducted by KGL. Additionally, there can be no assurance that the assets of AMC will not be subject to nationalisation, requisition or confiscation, whether legitimate or not, by any authority or body. While there are often provisions for compensation and reimbursement of losses to investors under such circumstances, there is no assurance that such provisions would effectively restore the value of the original investment of KGL. As at the date of this Offer Document, the Directors are not aware of any such proposals.

KGL is closely monitoring the political and social situation in the Kyrgyz Republic and remains confident that the interim government will stabilise the situation and will be successful in conducting parliamentary elections scheduled for early October 2010. However, KGL cannot provide assurance that the systems of government and the political system will stabilise and remain stable.

(j) Environmental risks

The operations and proposed activities of AMC are subject to laws and regulation concerning the environment. In the Kyrgyz Republic, the Company's operations and activities are subject to the environmental laws and regulations of the Kyrgyz Republic. As with most exploration projects and mining operations, the activities of AMC are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. KGL and AMC attempts to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

(k) Resource Estimations and Production Estimates

Resource estimates are expressions of judgment based on knowledge, experience and resource modelling. As such, resource estimates are inherently imprecise and rely to some extent on interpretations made. Despite employing qualified professionals to prepare resource estimates, such estimates may nevertheless prove to be inaccurate. Furthermore, resource estimates may change over time as new information becomes available. Should AMC encounter mineralisation or geological formations different from those predicted by past drilling, sampling and interpretations, resource estimates may need to be altered in a way that could adversely affect the operations of AMC.

(l) Exploration, development, mining and processing risks

The business of mineral exploration, project development and mining by its nature contains elements of significant risk. Ultimate and continuous success of these activities is dependent on many factors such as:

- (a) successful conclusions to bankable feasibility studies;
- (b) access to adequate capital for project development;
- (c) design and construction of efficient mining and processing facilities within capital expenditure budgets;
- (d) securing and maintaining title to tenements and compliance with the terms of those tenements;
- (e) obtaining consents and approvals necessary for the conduct of exploration and mining; and
- (f) access to competent operational management and prudent financial administration, including the availability and reliability of appropriately skilled and experienced employees, contractors and consultants.

Whether or not income will result from projects undergoing exploration and development programs depends on the successful establishment of mining operations. Factors including costs, actual mineralisation, consistency and reliability

of ore grades and commodity prices affect successful project development and mining operations.

Mining is an industry which has become subject to increasing legislative regulation including but not limited to environmental responsibility and liability. The potential for liability is an ever present risk. The use and disposal of chemicals in the mining industry is under constant legislative scrutiny and regulation. The introduction of new laws and regulations or changes to underlying policy may adversely impact on the operations of AMC.

(m) Key Personnel

The success of KGL depends largely on the core competencies of its Directors and management, and their familiarisation with, and ability to operate in the metals and mining industry, particularly in the Kyrgyz Republic and the ability of KGL to retain its key executives.

3.2 Dividends

The future dividend levels of KGL will be determined by the Board having regard to the operating results and financial position of KGL, and there is no guarantee that any dividends will be paid or, if paid, that they will be paid at previous levels. No dividends are currently contemplated to be paid in the near term.

The dividend policy of KGL will be determined in light of a number of factors including, most importantly, the profitability of its business and the terms of the financing arrangements of KGL. The profitability of KGL will be affected by such matters as its trading performance, level of borrowings, tax paid and the various risk factors set out above.

3.3 Taxation law

Set out below is a summary of the Australian tax implications of the Rights Issue for Eligible Shareholders who are residents of Australia for tax purposes and who hold their Shares as capital assets. The summary below does not necessarily apply to Eligible Shareholders who hold their Shares as assets used in carrying on a business or who may carry on the business of share trading, banking or investment.

The summary below does not necessarily apply to Eligible Shareholders whose Shares are held through an employee share plan or whose Shares are held as revenue assets or trading stock.

The summary below also does not take account of the individual circumstances of any particular Eligible Shareholder. Eligible Shareholders should seek specific advice applicable to their own particular circumstances from their own financial or tax advisers. Eligible Shareholders who are residents of New Zealand for New Zealand tax purposes should seek their own advice.

The summary below is based on the law in effect as at the date of this Offer Document.

Issue of Entitlements

Subject to the qualifications noted above, the issue of the Entitlements will not itself result in any amount being included in the assessable income of an Eligible Shareholder.

Acceptance of Entitlements

Eligible Shareholders who accept their Entitlements and subscribe for New Shares will acquire those shares with a cost base for capital gains tax (“**CGT**”) purposes equal to the Issue Price payable by them for those shares plus any non-deductible incidental costs they incur in acquiring those shares. Eligible Shareholders will not make any capital gain or loss, or assessable income, from exercising the Entitlements or subscribing for the New Shares.

New Shares

Eligible Shareholders who accept their Entitlements will acquire New Shares. Any future dividends or other distributions made in respect of those New Shares will be subject to the same taxation treatment as dividends or other distributions made on Shares held in the same circumstances.

On any future disposal of New Shares, Eligible Shareholders may make a capital gain or capital loss, depending on whether the capital proceeds of that disposal are more than the cost base or less than the reduced cost base of the New Shares. The cost base of those shares is described above.

New Shares will be treated for the purposes of the CGT discount as having been acquired when the Eligible Shareholder exercised the Entitlement to subscribe for them. Accordingly, in order to benefit from the CGT discount in respect of a disposal of those New Shares, an Eligible Shareholder that is an individual, trust or complying superannuation fund must have held the New Shares for at least 12 months after that date before the disposal occurs (in addition to satisfying any other conditions affecting the ability of the Shareholder to benefit from the CGT discount).

Other Australian taxes

No Australian Goods and Services Tax (“**GST**”) or stamp duty is payable in respect of the grant or exercise of the Entitlements or the acquisition of New Shares.
