

ASX Release

1 April 2010

MAp Retail Investor Briefings

Dear security holder,

It is my pleasure to invite you to one of MAp's forthcoming investor briefings, which are being hosted by RBS Equity Capital Markets Australia in conjunction with RBS Morgans.

The briefing will include an update on MAp's recent activities and provide you with an opportunity to meet with MAp Management. Refreshments will be provided at the conclusion of each briefing.

2009 was a momentous year for MAp. We achieved a solid financial performance in the most challenging environment for the industry since we listed in 2002. MAp delivered proportionate earnings per stapled security for 2009 of 21.6 cents – an increase of almost 3% over 2008, despite the 5% decline in traffic and the impact of the strong Australian dollar on the earnings of our European airports.

This reflects the successful implementation of key initiatives at our major airports, small acquisitions of Sydney, Brussels and Copenhagen airports at attractive prices, and the successful divestment of Bristol. We also exited our strategic investment in Japan Airport Terminal. MAp also became a stand alone entity, significantly lowering our operating expenses.

At the briefing MAp executives will discuss:

- Our recent financial results and portfolio operational performance; and
- The outlook for growth from MAp initiatives and industry developments and MAp initiatives for 2010 and beyond.
