

ASX RELEASE

11 June 2010

Market Update

Further to the Market Update of 4 June 2010, Minara Resources Limited advises that a safe sequential restart of the autoclave circuit will commence today. The plant will return to full production over the next week.

Minara confirms the previously announced full year production guidance for Murrin Murrin of 30,000 – 34,000 tonnes of nickel, with year to date production tracking at the lower end of this range.
