

## **COMPANY ANNOUNCEMENT**

15 December, 2010

### **Nufarm completes refinancing**

Nufarm Limited confirmed today that it has completed the \$900 million refinancing package announced on November 30. The new syndicated bank facility replaces interim financing arrangements that terminate today.

The new facility is for a period of 12 months and involves lending commitments from Rabobank, ANZ, NAB and HSBC. Rabobank has been mandated to finalise longer term debt facilities, including a \$300 million asset backed securitisation facility.

Nufarm's Managing Director, Doug Rathbone, said the new syndicated facility – together with the company's regional banking facilities (totalling approximately \$200 million) – will support the funding requirements of the business as Nufarm pursues earnings recovery and growth.
