About Powerlan

Powerlan Limited (ASX: PWR) provides specialist information technology products and services through four operating divisions:

- Clarity (www.clarity.com) offers carrier-grade Operational Support Systems (OSS) and Network Management Systems (NMS) software solutions for telcos and enterprises.
- ConverterTechnology (www.convertertechnology.com) provides software and services to help enterprises capitalize on the benefits of Microsoft Office 2007.

- IMX Software (www.imxsoftware.com) provides a full portfolio of solutions to manage the international trading of banknotes, precious metals, foreign exchange and any other financial or stored value instrument including travellers cheques, pre-paid cards, international banker's drafts and money transfers.
- Omnix Software (www.omnixsoftware.com) provides specialised software solutions for mobile telecommunications operators that address the specific project delivery, property management and asset management requirements of complex 2G, 2.5G, 3G and 4G/LTE wireless networks.

All divisions are incorporated and operate as self-contained companies.

About Clarity

Clarity is the market leader in Unified NGOSS Telecommunications Operational Management solutions. Its unified telecommunications operational management solution enables Telco's to achieve operational excellence and to focus on the customer experience. Clarity's solutions currently help operators around the world manage over 250 million subscribers.

Clarity automates an operator's core processes with a unified, yet openly modular system based on the TM Forum's NGOSS industry standard. It's embedded best practices reduce the complexity, risk and cost of telecoms engineering and operations, empowering operators to generate and protect their revenue while enhancing the customer experience.

Established in 1994, Clarity has offices in Africa, Asia, Australia, Europe and the Middle East. For more information, please visit www.clarity.com.
