Drilling Underway East OK Central

Oklahoma based (ASX listed) oil and gas exploration and production company Red Fork Energy Limited ("Red Fork" or the "Company") is pleased to announce that drilling has commenced at the Company's East Oklahoma Central project ("East OK Central") with a drilling rig moving onto location in Mayes County, Oklahoma yesterday.

This next phase of drilling at East OK Central will include up to 14 new production wells.

The first three wells in this phase of development at East OK South (the *Stines #1-16*, *West #1-28* and the *Holland #1-17* wells) will be drilled to target depths ranging from 400 to 700 feet and completed for production.

All three wells are expected to be drilled and logged by the end of this week.

The Company is also currently settling right of ways and laying gas gathering and water disposal lines to tie these and the other wells already drilled at East OK Central into sales.

With this phase of development complete, Red Fork will have a total of 20 production wells drilled, completed and tied-in to sales at East OK Central.

Yours faithfully

David Prentice
Managing Director

About Red Fork Energy Limited

Red Fork Energy Limited is an Australian publicly listed company developing oil and gas assets in Oklahoma, United States. The Company currently owns and operates three projects, East Oklahoma (~110,000 acres in total made up of three projects: East Oklahoma Central; East Oklahoma South and East Oklahoma North), West Tulsa (~15,000 acres) and Osage (~5,000 acres). These assets provide proven producing oil and gas fields as well as highly prospective exploration acreage for future growth. Red Fork is well advanced in achieving its goal of becoming an independent exploration and production company through the commercialization of the coal bed methane, shale gas and conventional oil and gas resources located within its landholdings.

Forward Looking Statements

This announcement contains “forward-looking statements”. Such forward-looking statements include, without limitation: estimates of future earnings, the sensitivity of earnings to oil & gas prices and foreign exchange rate movements; estimates of future oil & gas production and sales; estimates of future cash flows, the sensitivity of cash flows to oil & gas prices and foreign exchange rate movements; statements regarding future debt repayments; estimates of future capital expenditures; estimates of reserves and statements regarding future exploration results and the replacement of reserves; and where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, forward looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Such risks include, but are not limited to oil and gas price volatility, currency fluctuations, increased production costs and variances in reserves or recovery rates from those assumed in the company’s plans, as well as political and operational risks in the countries and states in which we operate or sell product to, and governmental regulation and judicial outcomes. For a more detailed discussion of such risks and other factors, see the Company’s Annual Reports, as well as the Company’s other filings. The Company does not undertake any obligation to release publicly any revisions to any “forward looking statement” to reflect events or circumstances after the date of this release, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.
