

ASX/Media Release

Southern Uranium

Date: 23 November 2010

Southern Uranium Limited change of name to Investigator Resources Limited

Southern Uranium Limited (ASX: "SNU") advises that ASIC has issued the Certificate of Change of Name to Investigator Resources Limited. Investigator Resources Limited will trade on the ASX under the code "IVR". It is anticipated that the new ASX code will come into effect on Friday 26 November 2010.

Southern Uranium Limited is a minerals explorer with a focus on the diverse resource opportunities for copper, gold, silver, uranium and iron ore in the southern Gawler Craton of South Australia.

The Company's highest priority exploration projects are Ridgeback with Hillside-style and IOCGU targets on northern Yorke Peninsula; the Jungle Dam iron ore prospect and numerous targets including the emerging Peterlumbo epithermal field with silver and gold potential on Eyre Peninsula.
