Competent Person Statement: *The information in this report that relates to Exploration Results and Mineral Resources is based on information compiled by John Anderson (BSc(Hons)Geol) who is a member of the Australasian Institute of Mining and Metallurgy and is bound by and follows the Institute's codes and recommended practices. Mr Anderson is a full-time employee of Southern Uranium Limited. He has sufficient experience which is relevant to the styles of mineralisation and types of deposits under consideration and to the activities being undertaken to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr. Anderson consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.*

Southern Uranium Limited is a minerals explorer with a focus on the diverse resource opportunities for copper, gold, silver, uranium and iron ore in the southern Gawler Craton of South Australia.

The company's highest priority exploration projects are Ridgeback with Hillside-style and IOCGU targets on northern Yorke Peninsula; the Jungle Dam iron ore prospect and numerous targets including the emerging Peterlumbo epithermal field with silver and gold potential on Eyre Peninsula.
