AUSTRALIAN SECURITIES EXCHANGE ANNOUNCEMENT

28th April 2010

VULCAN DRILLING

Tasman Resources Ltd (ASX: "TAS") is pleased to announce that drilling has commenced at its 100%-owned Vulcan iron-oxide copper-gold-uranium (IOCGU) Olympic Dam-style prospect in South Australia.

After some delay due to heavy rain drill hole VUD002 was at a depth of 150m yesterday and should be completed within the next two weeks. Each hole in the current drilling program should take two to three weeks to complete and information will be released to the market as and when it becomes available.

A handwritten signature in black ink, appearing to read 'Gregory H. Solomon', is displayed on a light yellow rectangular background.
