RELEASE

Viridis announces completion of UK wind sale

22 April 2010

Viridis Clean Energy Group (ASX: VIR) (“VCEG” or the “Fund”) today announced that it had completed the sale of its 49% interest in the Ardrossan wind farm in the UK to SSE Renewables. After closing adjustments the final purchase price was £13.0 million (AUD 21.3 million¹) before transaction costs. The sale price represents a substantial premium of AUD 18.6 million to book value (AUD 2.7 million as at 31 December 2009).

Discussions with the Corporate lenders, Investec Bank and Royal Bank of Scotland, are continuing regarding the application of the sale proceeds to either pay down the corporate debt facility or retain some of the proceeds in the business to assist in meeting funding requirements during the previously announced asset sale process.

END
