Overview

Exploration

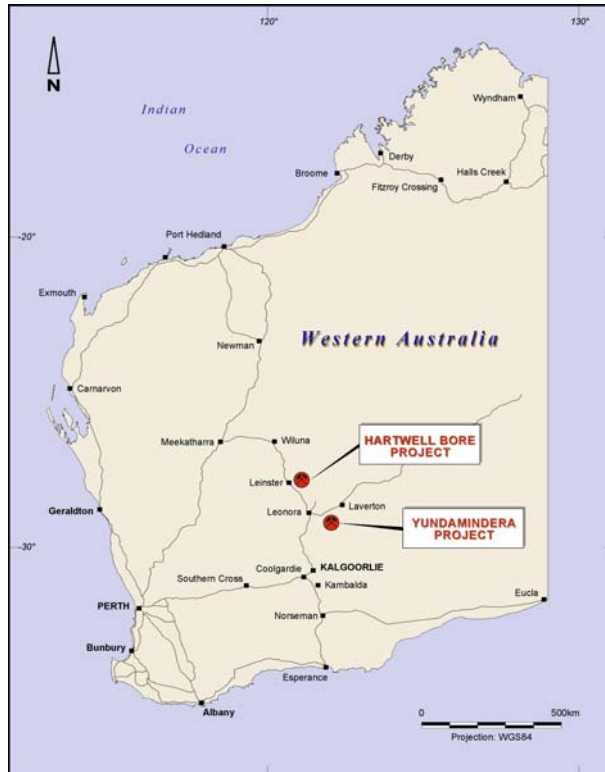

Figure 1. Project Locations

Yundamindera Project

(Atticus earning 80%)

The Yundamindera gold project is located in the Eastern Goldfields Province of the Yilgarn Craton, 685 kilometres northeast of Perth and 205 kilometres north-northeast of Kalgoorlie. The Project comprises one granted exploration licence and two granted prospecting licences, which are located adjacent to the historic mining centre of Yundamindera.

A short reconnaissance field programme was completed during quarter to determine which of the existing gold-in-auger soil anomalies within E39/1110 should be tested with aircore drilling. Planning of this drilling programme is in progress.

Hartwell Bore Project

(Atticus 100%)

The Hartwell Bore gold project is located in the northern parts of the Eastern Goldfields Province of the Yilgarn Craton, 575 kilometres northeast of Perth and 32 kilometres east-northeast of Leinster. The single tenement, E36/653, covers an Archaean

greenstone sequence at the western margin of the southern Yandal greenstone belt.

A reconnaissance field trip to the Hartwell Bore Project was also completed during quarter to inspect the existing gold-in-auger soil anomalies and to determine whether further exploration was warranted. The field visit identified that the central part of the project area has attracted the least previous exploration, but has similar litho-structural settings to other gold-anomalous areas within the tenement. A programme of auger soil geochemistry has been planned for the central part of the project area and is awaiting statutory approvals and contractor availability before proceeding. Auger soil anomalies, previously generated by Atticus in the southern part of the tenement area, will be infilled as part of the proposed programme.

Corporate

During the quarter, the Company continued to seek opportunities for further acquisitions that meet its objectives. Atticus remains committed to completing an acquisition that could become the major undertaking of the Company.

Competent Person Statement

The information in this report that relates to Exploration Results is based on information compiled by Greg Jorgensen, a self-employed, Kalgoorlie-based Consulting Exploration Geologist, who is a Member of The Australian Institute of Geoscientists. Mr Jorgensen has sufficient experience, which is relevant to the style of mineralisation and type of deposits under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2004 Edition of The JORC Code. Mr Jorgensen consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

Further Disclosure

Mr Jorgensen is a Director of BrilliantGold Pty Ltd, an unlisted, Kalgoorlie-based mineral exploration company, which currently holds 100% of the Yundamindera Project. Atticus Resources Ltd is currently earning an 80% interest in this project.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 Accounting Standards ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
