The company advises that it anticipates the EBIT (in excess of 50% of gross revenue) for the financial year ending 30 June 2011 to be in excess of \$2,590,000. This is an increase of approximately 21% when compared with the same period last year.

Subject to this profit being confirmed by year end financial statements, it is the intention of the directors to recommend a fully franked final dividend of 2.0 cents per ordinary share, making a total dividend payable of 3.85 cents for the financial year ended 30 June 2011.

This profit has been achieved on an increased revenue for the year of \$5,650,000. This increased revenue is attributed to a gain of new clients and together with an increase in corporate activity amongst listed clients.

The company continues to focus on a value proposition for its client base by improving its service and service offerings to a wide range of clients and potential clients.

The company has maintained profitability for every month of operations for the 2011 year.

As part of its future expansion plans, the Directors are constantly looking for opportunities which may have synergies with the Company's profit activities and remains cash positive even allowing for the increased dividend payments.

The Directors are confident for the future growth and profitability of the Company.
