About Rheumatoid Arthritis

Rheumatoid Arthritis is a chronic autoimmune disease, mainly characterised by inflammation of the lining of the joints. It can lead to long-term joint damage, resulting in chronic pain, loss of function and disability. The effects of RA are systemic, which means it can affect other organs in the body, and cardiovascular dysfunction in addition to RA is common. RA symptoms can make even the simplest activities – such as opening a jar or taking a walk – difficult to manage. RA has a worldwide distribution with a prevalence of 1 to 2% – which currently equates to approximately 100 million people. Prevalence increases with age, approaching 5% in women over age 55. RA is two to three times more common in women than in men and generally occurs between the ages of 40 and 60, but it can also affect young children and older adults. Currently, there is no cure.

Resolution 2- Approval for the issue of shares to a related party

Background

Dr Michael Monsour, a non-executive Director of CBio, provided a firm commitment to subscribe for \$400,000 in shortfall new shares under the Rights Issue conducted by the Company in 2010. The commitment was to be via the entities MPAMM Pty Ltd and MP Monsour Medical Practice Pty Ltd, companies associated with Dr Monsour.

As part of the Rights Issue, parties who provided firm commitments to subscribe for Shortfall New Shares were entitled to a fee comprising 6% (plus GST) of the total commitment payable in cash and 4% (plus GST) of the total commitment payable in Shares in the Company at the Offer Price of \$0.16 per share. In the case of the commitment by Dr Monsour to subscribe for \$400,000 in shortfall new shares, Dr Monsour became entitled to a commission of \$16,000 worth of shares, being 100,000 ordinary shares at a value of \$0.16 per share.

The entitlement to commission was based on the firm commitment of funds provided and not the number of shares subsequently subscribed for. As the parties who provided firm commitments had to make arrangements to have their firm commitment amount available if required, and may have incurred costs in doing so, it is appropriate that this firm commitment forms the basis for any commission which may have been payable.

Following the close of the Rights Issue, the shortfall was 26.5 million shares, or \$4.25 million. As a result, those parties who provided firm commitments to subscribe for shortfall shares were only required to subscribe for a portion of their total commitment. MP Monsour Medical Practice Pty Ltd subscribed for 978,219 shares (\$156,515) and MPAMM Pty Ltd subscribed for 156,250 shares (\$25,000).

The Company was advised subsequent to the issue of these shortfall shares to MPAMM Pty Ltd and MP Monsour Medical Practice Pty Ltd that the issue was in breach of ASX Listing Rule 10.11 as prior shareholder approval had not been sought. Consequently, the ASX required MPAMM Pty Ltd and MP Monsour Medical Practice Pty Ltd to dispose of the shares acquired under the shortfall.

Dr Monsour has been a major financial supporter of the Company over several years and as at the date of this notice currently holds a relevant interest in 9.4 million CBio shares. Dr Monsour and associated entities subscribed for 3,854,277 shares (\$616,684) under the entitlement portion of the Rights Issue which did not require shareholder approval.

As Dr Monsour, MPAMM Pty Ltd and MP Monsour Medical Practice Pty Ltd are related parties, shareholder approval is required under ASX Listing Rule 10.11 prior to the issue of the shares to which Dr Monsour (and related entities) are otherwise entitled.

Explanatory memorandum

CBio Limited ACN 094 730 417

Resolution 3 - Approval for the issue of performance rights to employees.

CBio proposes to issue 1,900,000 Performance Rights to employees of the Company in recognition of their past performances and in order to offer sufficient incentive for them to remain employees of the company. CBio has assembled a team of highly skilled and specialised staff who have worked diligently over a number of years in advancing CBio's scientific portfolio, and in turn adding significantly to the potential value of the company's intellectual property assets.

The granting of Performance Rights to employees will align the interests of employees to the interests of Shareholders and seeks to create a commonality of purpose between employees and CBio Limited. No shares will be issued in connection with these Performance Rights until Performance Conditions are met and a 'Vesting Event' has occurred. The Company views the issue of these Performance Rights as a key component of the remuneration package it offers employees, and plays an important role in ensuring the continuing engagement of key employees at CBio.

The Performance Rights will be issued to employees based on their roles within the Company and the responsibilities and requirements of their individual positions. No Performance Rights will be issued to Directors or the Company Secretary under this resolution.

The key terms of the Performance Rights issued are described at (e) below.

Resolution 4 - Approval for the issue of performance rights to the Company Secretary

CBio proposes to issue 500,000 Performance Rights to CBio's Company Secretary, Mr Ben Graham. Mr Graham has served as CBio's Company Secretary since 2007 and has been a full-time employee of the Company since 2005. The performance rights are issued in recognition of past performances and in order to offer sufficient incentive for the recipient to remain engaged with the company.

No shares will be issued in connection with these Performance Rights until Performance Conditions are met and a 'Vesting Event' has occurred. A Vesting Event is either a major collaboration or license transaction, or sale of the Company's operations, or a Shareholder acquiring 19.9% of the issued shares of the Company, or the achievement of a \$1.00 share price for CBio Limited shares.

The Company views the issue of these Performance Rights as a key component of the remuneration package it offers employees, and plays an important role in ensuring the engagement of key employees at CBio.

Under ASX Listing Rule 7.1, the Company may not issue or agree to issue equity securities in any 12-month period representing more than 15% of its ordinary share capital on issue at the commencement of that period without shareholder approval. Resolutions 5 -13 - Approval for the issue of performance rights to directors

Under Resolutions 5 -13, shareholders are asked to approve the issue of 6,700,000 performance rights to the Directors of CBio Limited. The performance rights have been designed to align the remuneration received by Directors with the creation of shareholder wealth. No shares will be issued in connection with these Performance Rights until Performance Conditions are met and a "Vesting Event" has occurred. The Directors believe that the quantum of performance rights to be issued subject to shareholder approval of Resolutions 5 - 13 is reasonable given the complexity of the Company's activities and the demands placed on individual Directors over and above that which is considered usual.

ASX Listing Rule 10.11

ASX Listing Rule 10.11 provides that a company must not issue securities to a director or their associates without the prior approval of shareholders. The purpose of each of the Resolutions 5 – 13 are to obtain shareholder approval to enable the Performance Rights to be issued to Directors.

Financial Benefit – Details and reasons

Approval has been sought for the giving of a financial benefit to related parties under section 208 of the Corporations Act (Cth) 2001 (Act). Section 229(3)(f) of the Act provides that the 'issuing of securities or granting of an option to a related party' (which includes a director of an entity) is an example of the giving of a financial benefit.

Under resolutions 5-13, inclusive as noted above, a total of 6,700,000 performance rights options will be issued to the Directors of CBio named in (a) above. The amount, terms and value (subject to the stated assumptions) of those performance rights are set out above also.

The reasons for giving this financial benefit are:

- (a) the Company wishes to maximise the use of its cash resources towards clinical development and equity based incentives such as performance rights are used to supplement cash based remuneration;
- (b) the exercise (strike) price and the other performance right terms are designed to incentivise the directors to maximise the Company's development and growth, as represented by an increased share price;
- (c) equity based incentives, such as performance rights, assist in the alignment of shareholders and directors' interests;
- (d) the remuneration package is designed to attract and retain suitably qualified and experienced directors, with expertise in growing biotechnology companies;
- (e) the Company believes the associated expense is limited and the nature of the performance rights package proposed is commensurate with market practice.

On this basis the Company believes the giving of the benefits, as constituted by the issue of the performance rights to the specified directors under resolution 5 - 13, is fair and reasonable and in the best interests of the Company and its shareholders.

Valuation

Due to the inherent uncertainty surrounding the achievement of vesting conditions associated with the performance rights, the true 'value' of the rights is not known. The value will be between zero (assuming vesting conditions are not met) and the future market price (should vesting conditions be met).

The Company is required by ASIC to adequately value the financial benefit being provided to related parties. Consistent with the accounting standards, the Company discloses the following information concerning the value of the performance rights to be issued to each of the Directors. A fair value for the performance rights to be issued has been calculated using the Monte Carlo simulation and based on a number of assumptions, set out below.

The Board draws shareholders' attention to the fact the stated valuation does not constitute and should not be taken as audited financial information. The reportable value of the employee benefit expense in subsequent financial periods may vary due to a range of timing and other factors. In particular, the ultimate valuation will be dependant on the outcome of the phase IIa clinical trial and the occurrence of a 'vesting event'. The figures below were calculated effective as at 1 June 2011:

Underlying price	\$0.52
Volatility	50%
Drift	5.09%
Time to maturity	7 years
Market condition	\$1.00
Risk free rate	5.09%
Performance Right Value	\$0.1048
Number of Performance Rights options issued	6,700,000
Financial impact of the issue of Performance Rights on CBio should vesting conditions be met	\$702,160
Financial impact of the issue of Performance Rights on CBio should vesting conditions not be met	\$0

Directors' Recommendation

All Directors believe the issue of performance rights to related parties in accordance with resolutions 5-13 is reasonable and recommend shareholders vote in favour of the resolution.

Resolution 14 Increase in Director Remuneration Pool

Under the Company's Constitution non-executive Directors are entitled to be remunerated for their services as Directors and the total amount of Directors fees for all non-executive Directors must not exceed the amount determined by the Company in general meeting. The remuneration is to be divided among the non-executive Directors in the proportion and manner agreed by the Directors.

Fees paid to executive Directors, (other than the executive chairman), are excluded from this aggregate pool of fees. Consulting fees paid to Directors for the provision of additional services to the Company are also excluded from this pool.

The Directors remuneration for the year ended 30 June 2010 is disclosed in the audited Remuneration Report set out on pages 20 to 24 of the 2010 Annual Report. The aggregate Directors fees payable to the non-executive Directors (and the executive chairman) for that year amounted to \$380,760.

The Directors consider that the aggregate pool of non-executive Directors fees should be set at \$750,000 with effect from the date of this meeting. Should the maximum proposed pool be paid, it would result in an increase of \$369,240 over the amount

Explanatory memorandum

CBio Limited ACN 094 730 417

paid for the year ended 30 June 2010. The increase to the aggregate fee pool will allow for the growth in Director's remuneration in future years to reflect market competitiveness, board structure, and to retain and attract Directors with the skills and experience which are relevant to the ongoing successful stewardship of CBio.

Since 2006, CBio has assembled a board of internationally recognised Directors with skills in the areas of scientific research, drug development, regulatory requirements and commercialisation. The application by the Company's Directors of their particular skills for the benefit of CBio have proved invaluable and will continue to do so as the company progresses not only with the commercialisation of XToll®, but with future development plans. It is appropriate, given the stature of the CBio Board in the international drug development community, that the Directors are remunerated appropriately.

The Directors believe the increase in the aggregate remuneration pool is appropriate for the following reasons:

- a) non-executive Directors fees paid to individual non-executive Directors' have not increased since 2005;
- b) The Company's Directors should be properly remunerated for their skills, experience, time and energy that they contribute to the Company and the duties and liabilities that they accept in their role;
- c) CBio listed on the Australian Securities Exchange in February 2010. The demands on and responsibilities of Directors and their potential exposure, particularly as Directors of a listed entity, is significant and are continually increasing;
- d) To allow the Company to continue to be able to attract and retain Directors with appropriate experience, calibre and integrity, especially in recognition of the requirements imposed on Directors in a Company at CBio's stage of development.
