

CERAMIC FUEL CELLS LIMITED

Clean power for your home

EUROPEAN APPROVAL FOR mCHP PRODUCT

5 December 2011

Ceramic Fuel Cells Limited [AIM/ASX: CFU], a leading developer of high efficiency and low emission electricity generators for homes and other buildings, is pleased to announce that its manufacturing partner in France, De Dietrich Thermique, has received CE certification for its micro CHP system called CERAMIS POWER powered by the Ceramic Fuel Cells' Gennex[®] fuel cell module.

The first CERAMIS POWER unit will be operated with GDF-Suez, the largest gas retailer in France, with more than 10 million customers.

De Dietrich plans to deploy the first 20 CERAMIS POWER units in France, Germany and Netherlands from 2012.

Ceramic Fuel Cells will supply the core Gennex fuel cell module and related components to De Dietrich Thermique, which integrates the fuel cell module with a boiler into an integrated product to provide power, hot water and space heating for homes and other buildings.

About Ceramic Fuel Cells Limited:

Ceramic Fuel Cells Limited is a world leader in developing fuel cell technology to generate highly efficient and low-emission electricity from widely available natural gas. Ceramic Fuel Cells is developing fully integrated power and heating products with leading energy companies E.ON UK in the United Kingdom, GdF Suez in France and EWE in Germany.

Ceramic Fuel Cells has also sold more than 300 BlueGen gas-to-electricity generators to major utilities and other foundation customers in Germany, the United Kingdom, Switzerland, The Netherlands, Italy, Japan, Australia and the USA.

Ceramic Fuel Cells recently won the 2010-11 DuPont Design for a Sustainable Future innovation award and the Microgeneration UK 2011 Technical Innovation Award. The company is listed on the London Stock Exchange AIM market and the Australian Securities Exchange (code CFU).
