

14 February 2011

Market Announcement Half Year Profit Guidance

CPT Global Limited (CPT) is pleased to advise shareholders that its **unaudited pre tax half year profit** for the 6 months ending 31 December 2010 is approximately \$1,000,000 compared to a loss of \$868,000 for the same period in 2009. This is significant as it represents the impact of CPT's restructuring activities in response to the recent difficult financial conditions and a commencement of the returns from the business development investments made in Europe and the USA.

CPT's Managing Director, Mr Gerry Tuddenham said today "these unaudited results represent a consolidation of our financial position, both nationally and internationally. In Australia, the reduction in consultant numbers engaged at our largest client, have been offset by the establishment of new large strategic clients with significant growth potential. In Europe and North America, we have leveraged our business development investments by signing three large risk / reward engagements with blue chip clients that we expect to develop in to long term relationships. There is still significant opportunity to grow the number of large long term clients in our international markets over the next 12 months".

In accordance with ASX Listing Rule 3.1, this announcement confirms CPT's expectation of a material upward variation in its half year profit when compared to the corresponding period in the prior year.

The table below provides an unaudited summary of CPT's key financial performance for the 2009 (actual) and 2010 (estimated and based on its internal management accounts) half year periods.

Key Financial Results	December 2010 Half Year Estimate \$000	December 2009 Half Year Actual \$000
Revenue	19,700	18,715
Profit (Loss) Before Tax	1,000	(868)
Profit (Loss) After Tax	600	(856)

CPT's financial statements for the half year ending December 31st, 2010 will be released to the ASX before the end of February 2011 and are subject to the completion of the half year audit and tax review.
